Actions speak louder than words. That's why Nike is taking concrete steps to combat racism within our organization and beyond. We are investing in programs that promote diversity and inclusion, partnering with grassroots organizations to drive change at the community level, and using our influence to advocate for policy reform.

SCOOBY EDITION

GOBLIN was introduced as a merch brand in the clothing industry that introduced the Indian online markets to affordable quality purchases and has been going strong since its introduction back in 2013. As much as it has grown in the online markets, its brand is making its presence felt in the offline market behind its own wheels.
