We need in every community, a group of angelic troublemakers. Our power is in our ability to make things unworkable. The only weapon we have is our bodies. And we need to tuck them in places so wheels don't turn.

*"There is something so elusive about old trees, trees that have survived and thrived against all odds and seem more time than any of us. There is something so silent, yet so beckoning about those trees. With this work, Akash and I have simply responded to that beckoning. Him through his movement and I through my visuals, we let the forests permeate within us, become us, talk to us and be us. This work is a story of noticing ourselves becoming more sentient, every blink, breath, and step, we spend among the trees." — Nirvair Singh Rai*

#### **Nirvair Singh Rai**

Nirvair Singh Rai is a visual artist based in Mumbai. For his personal projects, he pursues humane stories that highlight the lives of people who live in harmonious co-existence with nature, and stories of resilience and conservation. Nirvair believes that art should exist outside elite spaces and be made accessible to the masses, and is working towards bridging this gap.
