Master of Laws: LL.M.

LLM Program (1 Year) will enable student to acquire skillsets in a specialized field pertaining to law sharpening their competence and knowledge which will help them bridge the gap between their education and practical world.

The 1-year program is divided into 2 semesters. The **1st semester** is going to focus on imparting **analytical and critical skill set** whereas the **2nd semester** is going to focus on imparting **competence as well as research skill set**.

School of Law has imbibed a unique curriculum mapped with the National Education Policy 2020, UGC's Choice Based Credit System (CBCS) and NAAC's recommendations.

The foundation of this post graduate curriculum has some concentration towards the realization of the core subject's learning in the form of **Core Courses (CC)** which set up a base for the specialized studies later on.

This aspect once having been firmly secured; the prominence is then on the specialized field of law which the student chooses for himself/herself. These specialized subjects widen his/her horizons towards their application in a broader context. For this purpose, the curriculum has **Discipline Specific Elective (DSE)** Courses, which are envisaged to be school-specific courses includes specializations like Corporate Law, Human Rights Law, Real Estate Law, Criminal Law, etc.

In order to re-enforce the element of trans-disciplinarily (the USP of Sushant University), the **Generic Elective-I (GE I)** courses related to social sciences, liberal arts and humanities are proposed to be instilled. In the program curriculum it is referred to as **Trans Disciplinary Certification Courses (TDCC)** which are open to students of other schools of the university. 4 such courses form a part of the program structure of 1 Year of LLM Program.

To give value addition in the program, the program structure will feature 2 courses namely offered by Harvard Business School/Edx in the form of **Generic Electives II (GE II)**.

Dissertation/ projects/ Internships is a major part of the program structure and in fact is also an important criteria on which their degree is dependent.
