## REPORT:

### THOUGHTFUL TUESDAY

Department of Cardiovascular technology from School of Health Sciences of Sushant University successfully organised an event as a part of Cardiovascular Disease Awareness Week. We conducted a working model demonstration and competition of the same by all students of CVT. It was a vibrant event that was extremely knowledgeable and also a great opportunity for students to display their understanding of complex subjects and explain the same.

The event was conducted from 11:00 am to 1:00 pm. It was attended by students and faculty of various departments. Students also were seen displaying their models to Dean of SHS Dr Sanjeev Kumar Sharma, Associate Dean Professor Jyoti Sinha and HOD Dr Elina Dewanji Sen. It was a successful event with models ranging from topics of Angioplasty to Atrial and

Ventricular Septal Defects. It was an extremely wonderful event conducted by CVT with lots of memorable moments.
