WELLNESS WEDNESDAY

Department of Cardiovascular technology from School of Health Sciences of Sushant University successfully organised an event as a part of Cardiovascular Disease Awareness Week. Shedding light on cardiovascular diseases is essential in today's generation of heart diseases being one of the global causes of death and awareness is the way forward to change. We conducted a workshop on the topic of 'Introduction to invasive and non invasive cardiology'. The workshop was conducted by alumni of department of cardiovascular technology, Hiba Naqvi. Session was also attended by Associate Dean Dr Jyoti Sinha. It was conducted from 2:30 to 4:30 pm. Miss Naqvi was felicitated warmly by Dr Jyoti Sinha, following which she began today's session.

All students from MRIT, Psychology, Optometry, Pharmacy and MLT were in attendance at the event and made it an interactive and evocative session. The session was extremely enlightening and enriching. It threw light on how to treat Cardiovascular diseases using

invasive and non invasive techniques. She also shed a clear light on basics of minimally invasive surgeries and also cleared all the student's doubts in an interactive manner after the session. The event was successfully conducted and all students learnt a lot from the workshop.
