During the last quarter, we have concluded with the semester end reports, student achievements through exam performance, grabbing scholarships, undertaking internships and placements for the final year students. We are furthermore focused on bringing our curriculum at par with the requirements of the industry, thus, we have executed the changes from the new academic year and prepared accordingly to bring in more inclusivity and skill enhancement for the new generation of lawyers. With globalization, we are adapting to the international standards by signing collaborations and involving industry experts in impartation of knowledge and skills to the students and faculty.

I am happy to share that after a long time, the students are able to enjoy their campus life freely by organizing various cultural activities, especially the fresher's welcoming the new batch. The students are now filled with contentment as to academics as well as extracurricular activities as they have no boundaries or limitations now.

I am glad that team “LEGLYTICAL: The Treasure of School of Law” is consistently recording the achievements of the entire school in this beautiful compendium!

BEGINNERS OUTLOOK

Nikunja Rout
LL.B 1st year

Though I work in an unrelated industry, but there was a need for me to understand legal aspects while discussing the design of applications. Then I felt the need that rather than depending on legal team for small queries, I should enhance my legal awareness and decided to do a law course. There were many Law colleges in my option to get admitted to, but after researching and interacting with the faculty of School Of law, I was impressed and without any second thought took admission in School of Law, Sushant University. Based on the initial few weeks, the faculty is highly professional and knowledgeable. They go out of way to make the students comfortable in the class. Awesome case study based learning is implemented. After learning here at School of Law, I am very much satisfied with the teaching methodology of our great professors.
