# FROM THE DEAN'S DESK

**Navin Piplani**  
**Director, Creative Cluster**  
**Sushant University**

**"The School of Art and Architecture works on the principle of creative engagement for enhanced human experience."**

## Director's Message

We are pleased to announce the setting up of a Creative Cluster at the Sushant University, which is envisioned to be an integration of the three creative schools: School of Art and Architecture, School of Design and Department of Planning and Development. The three creative schools are intrinsically linked multiple levels such as philosophical, practice and administrative, facilitating transdisciplinary, constructive and barrier-free exchange of knowledge, experience and skills.

Some of the key benefits of this creative agglomeration are:

- Linkage of schools within the cluster,
- Connection with external partners and collaborators
- Alliance with other sectors that may provide a source of new ideas.

A critical basis to harness these benefits is underpinned by a system of interactions and networking that are embedded in teaching across the cluster. Thus, the creative cluster aims to be an educational and cultural melting pot, with a huge potential for the industry and profession. The fundamentals that drive the cluster schools are Creativity, Innovation and Engagement.

## Dean's Message

Architects learn and get stimulated by new ideas to think architecturally to create new projects. Architects create spaces that have design elements that are efficient, strong, stable, durable and economical. These elements merge with mechanical properties to create a fundamental understanding of our built environment.

The need of the hour is to direct the education by encouraging analytical thinking, understanding of structural principles and have unconventional studio interactions. PPBL i.e problem and project based learning are highly encouraged in our studios.

SAA is an internationally reputed academic knowledge hub, exploring frontiers of research, focused on innovation and social development for our future ready architects, planners and designers. Our greatest strength is SAA's global connect, a networked system for the co-creation of substantial knowledge systems. Positioning ourselves as a resource centre in the region, our expansive library and online database management establishes us as one of the best curators of modern Indian Architecture.

**Col. Virendra Malik**  
**Professor and Dean**

**"Teach to learn, learn to teach!"**

## ABOUT US

Established in 1989 by the Chiranjiv Charitable Trust, an organisation devoted to the cause of education. Over the last 33 years, SAA has established itself as one of the top architectural institutes in the Indian subcontinent with renowned architects and engineers from National and International practices.

SAA known for international collaborations with institutions and professionals; highly successful global Alumni who have worked on prestigious global projects; and an emphasis on professional skills, liberal thinking and ethical values; has a long standing tradition of using new design pedagogy and emerging technologies.

Every year we celebrate the centenary birth anniversary of our beloved founder Professor M.M. Rana on 1<sup>st</sup> September.

### Congratulations!

A link between the alumni, staff and students of the University enabling participation in activities which would contribute to the development of scientific and technological developments of national importance taken up by their alma mater.

Our global network extends opportunities related to jobs, internships and campus placements through the establishment of a common platform where students can seek mentorship from the graduates of their respective departments.

# DEPARTMENT OF PLANNING AND DEVELOPMENT

## ABOUT US

Department of Planning & Development (DoPD) started its B Plan programme in 2013 followed by M Plan programme in 2017. In 2019 the department celebrated its founders day in line with the Government of India's initiative to make planning integral to higher education. The department lays emphasis on building a professional and collaborative experience through community based problem solving approach. The programme is delivered by experienced faculty, international collaborations and industry networks. DoPD has been instrumental in the greater Gurugram areas planning initiatives for nearly a decade now.
