About University

Sushant University was established in 2012 under the Haryana Private Universities Act 2006. Located in the heart of Gurugram, India's largest hub of National and Fortune 500 companies. We have eight schools offering programmes in Architecture, Design, Law, Management, Hospitality, Engineering, Health Sciences and Planning & Development.

Sushant University has been awarded the National Education Excellence award "Best Private University in Northern India 2017" along with "CSR Excellence in Education" award for two consecutive years i.e. 2017 and 2018. Sushant School of Art and Architecture at Sushant University is the flagship school which started in 1989 and has been consistently ranked No. 1 Private Architecture School in India by Outlook Magazine.

About Conference

We live in an era defined by extraordinary contradiction. Technology accelerates. Cities grow. Economies expand. And yet, for millions of people around the world, the promises of progress remain largely out of reach. The noise of development drowns out the voices of those left at its margins communities whose needs are too often treated as afterthoughts in the design of the systems, spaces, and services that shape everyday life.

This conference is a deliberate act of listening. Organized by the School of Design at Sushant University, Social Design: Bridging Gaps, Building Futures brings together designers, researchers, policymakers, and social innovators under a shared conviction: that design, at its most powerful, is not decoration it is intervention. It is the thoughtful, strategic, and empathetic act of reshaping the world so that it works better for everyone, not merely for those already advantaged.

At the heart of our gathering lies a fundamental question: what does it mean to design with purpose? As practitioners and thinkers, we are trained to solve problems but who defines the problem? Whose experience is centered in the brief? Traditional design discourse has too frequently privileged aesthetics and commercial value over social impact. This conference challenges that hierarchy. It asks us to turn our methods, our creativity, and our collective intelligence toward the most pressing and enduring challenges of our time.
