2021-22	Students	<ul style="list-style-type: none"> • TDCC very hectic • Internship can be one month 	<ul style="list-style-type: none"> • New syllabus prepared for 2022 batch
	Teachers	<ul style="list-style-type: none"> • The contact hours per semester is on the higher side for a masters programme 	<ul style="list-style-type: none"> • Online learning platform introduced /MOOC to be introduced and will be marked at the end of first year
	Alumni	<ul style="list-style-type: none"> • More digital tools can be added to be industry ready • 	<ul style="list-style-type: none"> • Research methodology added as a part of theory of urban design to instil research tools in semester 2
	Employers	<ul style="list-style-type: none"> • Better design and report based software's to be introduced 	<ul style="list-style-type: none"> • Academic writing as a part of research methods/paper is introduced • TDCC in semester 3 • Publication ethics as a part of thesis report writing introduced • Entrepreneurship and Leadership is removed

FEEDBACK RECEIVED FOR DESIGN AND REVIEW OF SYLLABUS		
Stakeholders	Structured Feedback Received	Actions Taken
Employers	<ul style="list-style-type: none"> • More Hands-on Learning needs to be Incorporated • More Project based approach to be followed • Assessment of Student work needs to be linked to their ability to demonstrate real outcome 	<ul style="list-style-type: none"> • Studio III Adaptive Reuse will be a live project. The students will go to the site, do documentation of the existing built structure and get the client brief directly. • Students will be involved with extracurricular activity with IIA Northern Regional Conference, and will be part of the conference publication editorial team.
Teachers	<ul style="list-style-type: none"> • Infrastructure Quality needs to Improve • Course structure is well defined • More Practical skills to be incorporated in the course • Industry related subjects/courses can be incorporated 	<ul style="list-style-type: none"> • Skill subjects for Digital softwares such as BIM and Rhino to be introduced. • Infrastructure Issues have been shared with University facility department and the head of our school.
Alumni	<ul style="list-style-type: none"> • Internship period should be increased • More site visits to be incorporated in the course • Great experiential learning • Project based approach need to be added 	<ul style="list-style-type: none"> • Shortened Internship tenure that was shortened due to delayed start of Even Semester 2022 will run for longer period for the forthcoming batches. • Site visits to be re-initiated after lock down for 2022-2024 academic year syllabus
Students	<ul style="list-style-type: none"> • Less work load • Live site visits will be good • Thesis semester should have less subjects • More digital labs to explore virtual designs 	<ul style="list-style-type: none"> • TDCC will be removed from the thesis semester for batch 2022-2024. • General Elective that has to be assessed will be introduced in the 3rd semester itself for the 2021-2023 batch.

SUMMARY-

Curriculum Based- The programmed could have a more 'Hands-on Learning' and 'Project based' approach. For that, assessment of student work could be linked to their ability to demonstrate real outcome with an emphasis on practicality backed by critical analysis and research. Strengthening of the studios. Site visits to in progress sites and vendors need to be enhanced.

Infrastructure- The University is requested to upgrade facilities. More digital labs to explore virtual designs is proposed.

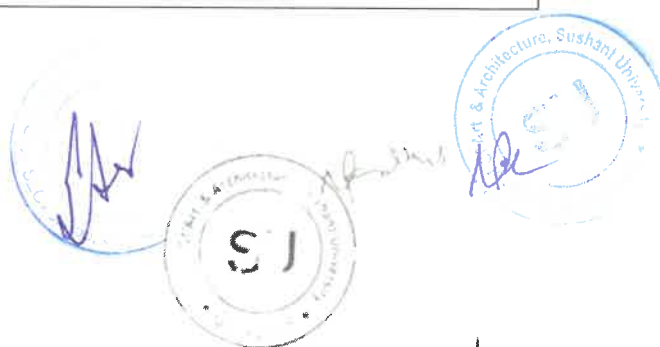

M Arch LA Summary Feedback/ Suggestions

In the year 2021-22, the syllabus and curriculum of M Arch in Landscape Architecture was reviewed and appreciated by most of the industry experts, teachers and alumni. Most of them strongly agreed that the course outcomes are mapped with the programme outcomes. As the syllabus does give options to include various software learnings except GIS, a considerable portion of the stakeholders agreed when asked if more software related skills should to be added. Apart from the curriculum discussion, experts also pointed out to encourage even more field work, study trips, market surveys. The alumni felt that the programme gives a good base for conducting research and critical thinking.

All the students strongly agreed that there are sufficient guest lectures, site visits, workshops and events to strengthen one's learning capabilities both academically as well as practically. They felt hand-on activities are very productive in the process of learning. They asked that the work load should be reduced only in terms of various electives offered at the university level, for which we are working on.

Stakeholder	Structured Feedback Received	Actions Taken
Students	<ul style="list-style-type: none"> • There are sufficient guest lectures, site visits, study trips, workshops and events. • MOOC course to be reduced. • Less University level elective courses. 	<ul style="list-style-type: none"> • Suggestion to reduce university Electives TDL/TDCC proposed & in progress.
Teachers	<ul style="list-style-type: none"> • Project management and entrepreneurship can be incorporated as a part of the curriculum 	<ul style="list-style-type: none"> • Suggested & Proposed Project management course in 4th semester
Industry experts	<ul style="list-style-type: none"> • The curriculum is well aligned with the industry. • introducing entrepreneurship and leadership to encourage them to set up their own practices appreciated 	<ul style="list-style-type: none"> • Change of Skills II (Teaching and Research Assistantship) to Skills II (Entrepreneurship and Leadership) was appreciated.

Master of Architecture (M Arch Built Heritage) Action Taken Report 2021-22

M Arch Built Heritage

School of Art and Architecture, Sushant University

Feedback Received for Design and Review of Syllabus

In the year 2020-21, the syllabus of M Arch in Built Heritage was appreciated by most of the industry experts, teachers and alumni. Most of them strongly agreed that the course outcomes are mapped with the programme outcomes. The students agreed that there are sufficient guest lectures, site visits, study tours, workshops and events conducted virtually though physical events could not be conducted due to COVID 19 restrictions. Teachers expressed that project management and entrepreneurship can be incorporated as a part of the curriculum. According to industry experts, the curriculum is well aligned with the industry. One may think of introducing entrepreneurship and leadership to encourage them to set up their own practices. As per the alumni, the cultural theory class can be reduced to 2 hours. A student expressed the need for continuity of materials and physical conservation in other semesters. Students also expressed that skills can be focused on entrepreneurship in fourth semester.

Year	Stakeholder	Structured Feedback Received	Actions Taken
2021-22	Students	Workload can be reduced	Teaching and interaction hours were balanced accordingly.
	Teachers	Students need to upgrade their software skills	Introduction to the use of softwares and their application were introduced in documentation and representation/ studio.
	Industry experts	Students need to upgrade their software skills	Introduction to the use of softwares and their application were introduced in documentation and

			representation.
	Alumni	Research based approach can be increased	Analysis and research deliverable in the courses were increased.

M Arch LA Summary Feedback/ Suggestions

The majority of industry professionals, academic peers, faculties and alumni assessed and gave their approval to the M. Arch. in Landscape Architecture syllabus and curriculum in the years 2022–2023. The majority of them firmly believed that the programme outcomes and the course outcomes are correlated. When asked if more software-related skills should be introduced, a sizeable portion of the stakeholders agreed because the curriculum provides opportunities to include diverse software learnings other than GIS. In addition to the curriculum debate, experts emphasized the need to promote more field work, study abroad visits, and market research. Alumni believed that the programme provided a solid foundation for undertaking research and exercising critical thought.

The fact that there are enough guest lectures, site visits, seminars, and activities to improve one's learning capacity both academically and practically was unanimously agreed upon by all of the students. They believed that hands-on activities are particularly effective in the learning process. They requested that the workload be lowered only in terms of the different university-level electives available, which we are now working on.

Stakeholder	Structured Feedback Received	Actions Taken
Students	<ul style="list-style-type: none"> There are sufficient guest lectures, site visits, study trips, workshops and events. MOOC course to be reduced. University level elective courses are not that relevant & should be reduced. 	<ul style="list-style-type: none"> University level Electives TDL/TDCC now only in semester 2 & 3.
Teachers	<ul style="list-style-type: none"> Field trips to be encouraged. Govt. proposed projects can be taken as design studio exercises. 	<ul style="list-style-type: none"> Suggestions will be incorporated in the coming academic session.
Industry experts	<ul style="list-style-type: none"> The curriculum is well aligned with the industry. Internship period to be increased to at least 10-12 weeks if possible. 	<ul style="list-style-type: none"> Suggestion open to discussion with the Dean, Assoc. Dean, Master's programme head & coordinators. Appropriate actions will be taken in the coming session.
Academic Peer	<ul style="list-style-type: none"> The eligibility criteria to pursue masters in Landscape Architecture to be opened to all the allied & or associated programmes like horticulture, agriculture, civil, etc. 	<ul style="list-style-type: none"> Suggestions will be incorporated in the upcoming BoS meeting.

M Arch Built Heritage

School of Art and Architecture, Sushant University

Feedback Received for Design and Review of Syllabus

In the year 2020-21, the syllabus of M Arch in Built Heritage was appreciated by most of the industry experts, teachers and alumni. Most of them strongly agreed that the course outcomes are mapped with the programme outcomes. The students agreed that there are sufficient guest lectures, site visits, study tours, workshops and events conducted virtually though physical events could not be conducted due to COVID 19 restrictions. Teachers expressed that project management and entrepreneurship can be incorporated as a part of the curriculum. According to industry experts, the curriculum is well aligned with the industry. One may think of introducing entrepreneurship and leadership to encourage them to set up their own practices. As per the alumni, the cultural theory class can be reduced to 2 hours. A student expressed the need for continuity of materials and physical conservation in other semesters. Students also expressed that skills can be focused on entrepreneurship in fourth semester.

Action to be proposed in the upcoming BOS

Year	Stakeholder	Structured Feedback Received	Actions Taken
2022- 23	Students	Workload can be reduced	Teaching and interaction hours can be balanced accordingly.
	Teachers	Hand on and on- site work can be incorporated more.	Including assignments in documentation and representation as well as traditional materials that require the student to go to the site and understand the case on a more practical basis.
	Industry experts	Students need to upgrade their software skills	Introduction to the use of softwares and their application can be introduced in documentation and representation.
	Alumni	More guest lectures can be added	Interdisciplinary guest lectures can be included.

Bachelor of Fine Arts

School of Art and Architecture, Sushant University

Feedback Received for Design and Review of Syllabus

In the year 2022-23, the syllabus of BFA was appreciated by most of the industry experts, teachers and alumni. Some of them strongly agreed that the course outcomes are mapped with the Programme outcomes. The students agreed that there are sufficient guest lectures, site visits, study tours, workshops. Teachers expressed that project management and entrepreneurship can be incorporated as a part of the curriculum. According to industry experts, the curriculum is well aligned with the industry.

Action to be proposed in the upcoming BOS

Year	Stakeholder	Structured Feedback Received	Actions Taken
2022- 23	Students	Study tours and workshops	Planning to have a tour to Ajanta Ellora caves and museum visits.
	Teachers	Upgradation of skills	Introduction to the use of software's and their application can be introduced in documentation and representation.
	Academic Peer	Incorporate theory subject in all 4 years	Theory subject will be introduced
	Industry experts	Students need to upgrade their software skills	Introduction to the use of software's and their application can be introduced in documentation and representation.

M Arch UD Summary Feedback / Suggestions

The majority of industry professionals, academic peers, faculties and alumni assessed and gave their approval to the M. Arch. in Urban Design syllabus and curriculum in the years 2023–2024. The majority of them firmly believed that the programme outcomes and the course outcomes are correlated. When asked if more software-related skills should be introduced, a sizeable portion of the stakeholders agreed because the curriculum provides opportunities to include diverse software learnings other than just GIS. Alumni believed that the programme provided a solid foundation for undertaking research and exercising and understanding critical thought / thinking processes. Students & parents emphasized that some placement opportunities to be provided to the students and appreciated that the practice of hands-on activities scheduled in the session are particularly effective in the learning process. They requested that the workload be lowered only in terms of the different university-level electives available.

Stakeholder	Structured Feedback Received	Actions Taken
Students	<ul style="list-style-type: none"> There are sufficient guest lectures, site visits, study trips, workshops and events. MOOC course to optional instead of compulsory University level elective courses are not that relevant & should be reduced. 	<ul style="list-style-type: none"> University level Electives TDL/TDCC now only in semester 2 & 3. MOOC courses to be optional or mandatory will be discussed in upcoming BoS.
Teachers	<ul style="list-style-type: none"> Field trips to be encouraged. 	<ul style="list-style-type: none"> Suggestions incorporated.
Industry experts	<ul style="list-style-type: none"> The curriculum is well aligned with the industry. Internship period to be increased to at least 10-12 weeks if possible. 	<ul style="list-style-type: none"> Suggestion open to discussion with the Dean, HoD, Master's programme coordinator. Appropriate actions will be taken in the coming session.
Academic Peer	<ul style="list-style-type: none"> Evaluation scheme in the curriculum to be elaborated for better understanding. Internship period to be increased to at least 10-12 weeks if possible 	<ul style="list-style-type: none"> Suggestions will be discussed in the upcoming BoS meeting.
Alumni	<ul style="list-style-type: none"> MOOC courses to be added 	<ul style="list-style-type: none"> MOOC courses incorporated in 2023-25 curriculum.
Parents	<ul style="list-style-type: none"> Placement cell for students 	<ul style="list-style-type: none"> Suggestions will be discussed in the upcoming BoS & Advisory meet.

M Plan (Urban Planning) Summary Feedback / Suggestions

The majority of industry professionals, academic peers, faculties and alumni assessed and gave their approval to the M Plan in Urban Planning syllabus and curriculum in the years 2023–2024. The majority of them firmly believed that the programme outcomes and the course outcomes are correlated. The industry experts were looking at 6 or more time for the internship with the students so that they can work more time and even can continue with the students after the course completion. More guest lectures to be organised for hands on learning and insight on the students work. Although students are involved in lot of industry oriented activities, lectures and seminars and conferences but many more to be planned.

Parking facilities for the hostellers to be provided in the campus.

Stakeholder	Structured Feedback Received	Actions Taken
Students	<ul style="list-style-type: none"> Car parking facilities should be provided in the campus 	Discussed with the management, it is under consideration.

Teachers	<ul style="list-style-type: none"> Research cell to be introduced and live projects to be taken. More time for research to be given to the faculty 	Suggestions will be incorporated in the coming academic session.
Industry experts	<ul style="list-style-type: none"> Internship period to be increased to at least 6 months if possible. 	Suggestion open to discussion with the Dean, Assoc. Dean, Master's programme head & coordinators. Appropriate actions will be taken in the coming session.
Academic Peer	<ul style="list-style-type: none"> The course should be open for the design professionals and the other branches of engineering Car parking facilities should be provided in the campus 	Suggestions will be taken into consideration for the upcoming BoS & Advisory meeting.
Alumni	<input type="checkbox"/> No suggestions	NA
Parents	<input type="checkbox"/> No suggestions	NA
