Description (min 250 to max 800 words)*

On 5th June 2021, to mark the occasion of World Environment Day, the School of Engineering and Technology (SET) at Sushant University took the initiative to create environmental awareness among young students by organizing an engaging Environment Quiz at the premises of the Government School, Sector 4, Gurugram. This event aimed to educate and inspire the students to play a proactive role in preserving the environment, reinforcing their understanding of ecological issues and sustainable practices.

Led by SET, the quiz competition was designed to captivate the students' interest, encouraging them to delve deeper into various aspects of environmental conservation. Participants from different grades took part in the event, demonstrating their enthusiasm and curiosity about critical environmental topics. The quiz covered a wide range of subjects, including

	<p>biodiversity, climate change, pollution control, renewable energy sources, and the importance of reducing our carbon footprint.</p> <p>The event began with a brief introduction to World Environment Day and its significance, setting the stage for a thought-provoking and informative competition. Faculty members from SET facilitated the quiz, guiding the students through each round while ensuring that the learning process was both educational and enjoyable. The interactive nature of the quiz allowed students to engage with the content actively, fostering a spirit of curiosity and awareness about the state of our planet.</p> <p>Held at the government school premises, the initiative by SET was more than just a quiz—it was a call to action for the students to embrace eco-friendly habits and become ambassadors for change in their communities. The students learned about simple yet effective ways to contribute to environmental preservation, such as reducing plastic usage, promoting recycling, and conserving natural resources. The winners were awarded certificates and eco-friendly prizes, symbolizing the importance of sustainable living.</p> <p>The Environment Quiz at the Government School in Sector 4, Gurugram, was a testament to SET's commitment to empowering the younger generation with the knowledge and motivation to take care of their environment. By taking the initiative to host this event, SET at Sushant University reinforced the message that every small effort counts in making a significant impact on the planet's well-being. This event was not just an educational endeavor but also a step towards instilling a sense of responsibility and environmental stewardship among the students, paving the way for a sustainable future.</p>

<p>Description (min 250 to max 800 words)*</p> 	<p>The UBA Cell of Sushant University, as part of the government initiative Unnat Bharat Abhiyan, organized an engaging and informative webinar on Organic Farming on 5th June 2021, coinciding with World Environment Day. The webinar aimed to promote the importance of sustainability and encourage participants to explore organic farming as a means to achieve a greener, healthier future. With the global push toward sustainable agricultural practices, this webinar provided a timely and crucial platform for learning and sharing knowledge about organic methods and their benefits. The theme of the session, “Sustainability: Going Back to Basics,” underscored the importance of revisiting traditional, organic methods of farming that have stood the test of time. These methods, which avoid the use of synthetic pesticides and fertilizers, help maintain soil health, conserve biodiversity, and reduce harmful environmental impacts. The webinar emphasized how organic farming could play a pivotal role in addressing many of the environmental challenges we face today, such as soil degradation, water pollution, and the overuse of chemical inputs. Dr. Dinesh Kumar, the Principal Scientist from the Indian Agricultural Institute of Science (IAIS), Delhi, was the keynote speaker for the event. He shared fascinating insights into the science and practice of organic farming, covering topics such as crop rotation, composting, natural pest control, and the economic benefits of organic produce. Dr. Kumar also highlighted the role of organic farming in promoting long-term food security and how it supports the livelihood of small-scale farmers by reducing their dependence on costly synthetic inputs.</p> <p>The session concluded with an interactive Q&A, allowing participants to discuss challenges and opportunities related to organic farming. A vote of thanks was delivered to Dr. Kumar and all attendees for their enthusiastic participation.</p>

Description (min 250 to max 800 words)*

Report on International Yoga Day Celebration Organized by Sushant University for Basava International School

Date: June 21, 2021

Introduction

On June 21, 2021, Sushant University, in collaboration with Basava International School, organized a grand celebration to mark the 7th International Yoga Day. The event, held on the spacious grounds of Basava International School, aimed to promote the ancient practice of yoga and its numerous benefits for physical and mental well-being.

Participants

The celebration saw enthusiastic participation from:

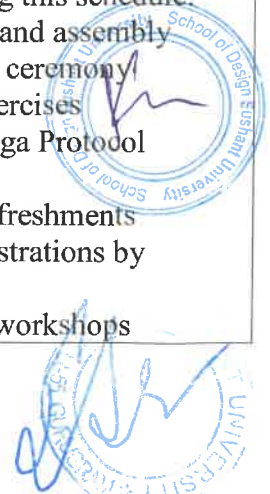

- Students of Basava International School (ages 5-18)
- Faculty members from both institutions
- Parents and community members
- Special guests from local health and wellness organizations

In total, over 500 participants gathered to celebrate this important day.

Event Schedule

The Yoga Day celebration was meticulously planned and executed, following this schedule:

1. 6:00 AM - Registration and assembly
2. 6:30 AM - Inauguration ceremony
3. 7:00 AM - Warm-up exercises
4. 7:15 AM - Common Yoga Protocol session
5. 8:30 AM - Break and refreshments
6. 9:00 AM - Yoga demonstrations by experts
7. 10:00 AM - Interactive workshops

8. 11:30 AM - Concluding ceremony

Inauguration

The event was inaugurated by Dr. Amita Sharma, Vice-Chancellor of Sushant University, and Mrs. Ritu Mehta, Principal of Basava International School. In their speeches, both leaders emphasized the importance of yoga in today's fast-paced world and its role in promoting holistic health.

Common Yoga Protocol

The highlight of the celebration was the Common Yoga Protocol session, led by certified yoga instructors from Sushant University's Department of Physical Education and Yoga Studies.

Participants of all ages joined in, performing a series of asanas, pranayama, and meditation exercises. The session included:

- Warm-up practices
- Standing asanas (Tadasana, Vrikshasana, Trikonasana)
- Sitting asanas (Bhadrasana, Vajrasana, Ardha Ustrasana)
- Prone postures (Makarasana, Bhujangasana)
- Supine postures (Setubandhasana, Pavanamuktasana)
- Kapalabhati and Pranayama
- Dhyana (Meditation)

Expert Demonstrations

Following the main session, yoga experts from both institutions showcased advanced yoga techniques, including:

- Complex asanas
- Partner yoga
- Aerial yoga
- Acro-yoga

These demonstrations not only entertained but also inspired many participants to deepen their yoga practice.

Interactive Workshops

The event featured several interactive workshops focusing on different aspects of yoga:

1. "Yoga for Stress Management" - Led by Dr. Rajesh Kumar, Psychology Department, Sushant University
2. "Nutrition and Yoga" - Conducted by Ms. Priya Goyal, Nutritionist, Basava International School
3. "Yoga for Children" - Facilitated by Mr. Amit Verma, Physical Education Teacher, Basava International School

4. "Meditation Techniques for Beginners" -
Presented by Mrs. Sunita Rao, Yoga
Instructor, Sushant University

Impact and Feedback

The event received overwhelmingly positive feedback from participants:

- 95% of attendees reported feeling more relaxed and energized after the yoga session
- 87% expressed interest in incorporating yoga into their daily routines
- 92% rated the overall organization of the event as "Excellent" or "Very Good"

Many parents appreciated the inclusion of children in the celebration, noting that it helped instill the value of yoga from an early age.

Conclusion

The International Yoga Day celebration organized by Sushant University for Basava International School was a resounding success. It not only promoted the practice of yoga but also strengthened the bond between the two educational institutions and the wider community. The event successfully raised awareness about the numerous benefits of yoga and inspired participants to adopt it as a part of their lifestyle.

Future Plans

Given the success of this year's event, both Sushant University and Basava International School have committed to making the International Yoga Day celebration an annual tradition. Plans for next year include:

- Expanding the event to accommodate more participants
- Introducing more diverse yoga styles and techniques
- Organizing a yoga-themed art and essay competition for students
- Inviting national-level yoga practitioners for demonstrations and workshops

This collaborative effort between Sushant University and Basava International School has set a benchmark for future Yoga Day celebrations, promoting health, wellness, and community engagement.

<p>Description (min 250 to max 800 words)*</p>	<p>Sushant Legal Aid Clinic organized a legal awareness camp at Hewo apartments, Gurugram on 7th July 2021. In association with DSLA. The camp aimed to spread awareness about various rights for the citizens. Pamphlets were also distributed. The basic laws related to dowry harassment and rights of senior citizens were discussed. The legal awareness program focusing on the Rights of Senior Citizens and Dowry Harassment was organized to educate participants about the legal protections available for these vulnerable groups. The program featured legal experts who outlined the various rights granted to senior citizens under the Maintenance and Welfare of Parents and Senior Citizens Act, 2007, which ensures their right to maintenance and protection against neglect and abuse. Participants learned about their entitlement to financial support from their children, the legal processes to claim this support, and avenues for seeking redress in cases of mistreatment. The session also emphasized the importance of awareness and advocacy in protecting the dignity and rights of senior citizens, urging community members to foster a culture of respect and care for the elderly. Additionally, the program addressed the issue of dowry harassment, a prevalent social problem that disproportionately affects women. Legal professionals provided insights into relevant laws such as the Dowry Prohibition Act, 1961, and Section 498A of the</p>

Sushant

	<p>Indian Penal Code, which criminalizes cruelty and harassment related to dowry demands. Participants were informed about their rights and the legal recourse available to them in cases of dowry harassment, including filing complaints with the police and seeking protection under the law. The interactive nature of the program encouraged participants to share their experiences and concerns, fostering a supportive environment for discussing sensitive issues. The camp was supported by the panel Advocates of District Legal Services Authority Adv Munmun & Adv Arun Shaukeen along with the SLAC team consisting of faculty members and student coordinators.</p>

(Geotag) Photograph-1*	

<p>(Geotag) Photograph-2</p>	
<p>Description (min 250 to max 800 words)*</p>	<p>The <i>School of Art and Architecture</i> at <i>Sushant University</i> hosted an online webinar titled '<i>Save the Oceans: Awareness Drive to Prevent Water Pollution</i>' as part of its ongoing efforts to promote environmental sustainability and educate the wider public on critical issues affecting our planet. Held in a virtual format, the event focused on the alarming rise of water pollution in the world's oceans and highlighted actionable solutions that individuals and communities can adopt to combat this pressing global challenge.</p> <p>With the theme '<i>Protect Our Oceans, Secure Our Future</i>,' the webinar brought together students, faculty members, and environmental enthusiasts from across the country. The event sought to raise awareness about the dangers of water pollution, especially the impact of plastic waste, chemical runoff, and industrial pollutants on marine ecosystems. The program emphasized the critical role oceans play in regulating the Earth's climate and supporting biodiversity, urging participants to take meaningful steps toward reducing their environmental footprint.</p> <p>Webinar Structure and Key Highlights</p> <p>The <i>Save the Oceans</i> webinar began with an introductory session led by the event coordinator, a faculty member from the <i>School of Art and Architecture</i>, who provided an overview of the significance of oceans in sustaining life on Earth. The coordinator emphasized the increasing threat of ocean pollution and underscored the need for collective action to prevent further damage to marine ecosystems.</p> <p>The core of the event featured an interactive presentation by a guest speaker—an environmental expert with extensive experience in marine conservation. The presentation covered the sources and types of ocean pollution, including plastic debris, oil spills, heavy metals, and untreated wastewater. The speaker also discussed the long-term environmental and economic consequences of polluted oceans, such as the depletion of marine life, loss of biodiversity, and disruptions to the livelihoods of coastal communities that depend on the oceans for fishing and tourism.</p> <p>Educational Demonstrations and Engagement</p>

	<p>To make the webinar more interactive, the students prepared informative visual content, such as infographics and short video clips, illustrating the devastating effects of plastic pollution on marine animals like turtles, fish, and seabirds. These visuals provided a clear, eye-opening depiction of how everyday waste products, such as plastic bottles and packaging, find their way into the oceans and wreak havoc on marine life.</p> <p>Following the expert's presentation, an engaging Q&A session was held, where participants had the opportunity to ask questions and share their thoughts on how to contribute to reducing ocean pollution in their daily lives. The discussion covered a wide range of topics, from reducing single-use plastics to advocating for stronger policies on waste management at local and national levels.</p> <p>Community Involvement and Pledges</p> <p>As part of the event, the students encouraged all participants to take the '<i>Ocean Saver Pledge</i>.' This initiative called on attendees to commit to small but impactful actions, such as avoiding plastic straws, supporting sustainable seafood choices, and participating in local beach clean-up drives. The pledge aimed to motivate individuals to incorporate eco-friendly practices into their lifestyles and become advocates for ocean conservation in their communities.</p> <p>Conclusion</p> <p>The <i>Save the Oceans: Awareness Drive to Prevent Water Pollution</i> webinar successfully brought attention to the urgent issue of marine pollution and provided a platform for knowledge-sharing and community-building. Through this virtual event, the <i>School of Art and Architecture</i> once again demonstrated its dedication to nurturing environmentally conscious students while empowering them to make a positive impact on society.</p>

<p>Photograph-1*</p>	
<p>Photograph-2*</p>	
<p>Description (min 250 to max 800 words)*</p> 	<p>On 14th July 2021, the School of Engineering and Technology (SET) at Sushant University launched an Essay Writing Competition with the theme "Awareness on Single Use Plastic" held at Government Sr Sec School, Sec-43, Gurgaon. This event was part of a significant initiative aimed at raising awareness about the detrimental impact of single-use plastics on the environment. The competition targeted students from classes 10th to 12th across the nation, encouraging young minds to think</p>

critically about environmental conservation and become active participants in the fight against plastic pollution.

The primary objective of this competition was to educate students on the far-reaching consequences of plastic use, particularly single-use plastics, and to engage them in exploring innovative solutions to this global issue. Single-use plastics, commonly used in items like straws, bags, and packaging, have become a major concern due to their non-biodegradable nature and their contribution to environmental degradation.

Students from various schools enthusiastically participated, bringing their unique perspectives and ideas to the forefront. Through their essays, they delved into the adverse effects of plastic waste on ecosystems, marine life, and even human health. They highlighted how plastic pollution is choking oceans, contaminating soil, and posing a severe threat to wildlife and aquatic species. The participants also touched upon the concept of microplastics and their infiltration into the food chain, leading to long-term health risks for humans and animals alike.

Beyond merely pointing out the problems, the students also proposed practical and sustainable alternatives to single-use plastics. Their essays advocated for the adoption of biodegradable materials, the increased use of reusable items, and the reinforcement of robust recycling programs. Many suggested ways to promote awareness among communities about reducing plastic consumption and emphasized the need for stricter regulations to limit plastic production and waste.

This competition served as a platform for young students to express their creativity and critical thinking while contributing to a cause that is crucial for the future of our planet. It not only helped in raising awareness among

	<p>the participants but also acted as a ripple effect, inspiring their peers and communities to take conscious steps towards reducing plastic usage.</p> <p>The enthusiasm and engagement displayed by the students were a testament to their understanding of the severity of plastic pollution and their commitment to finding tangible solutions. The School of Engineering and Technology at Sushant University played a vital role in fostering this awareness, aligning with its mission to drive sustainability and environmental responsibility among the youth.</p> <p>By organizing such events, SET at Sushant University continues to empower students to become change-makers who can lead efforts towards a greener and more sustainable future. The essay competition on "Awareness on Single Use Plastic" is a shining example of how educational institutions can act as catalysts for change, guiding the next generation to be conscious of their environmental impact and to take collective action for a better tomorrow.</p>

<p>Description (min 250 to max 800 words)*</p>	<p>Distributing masks has become an essential public health initiative, particularly in times of health crises like the COVID-19 pandemic. Mask distribution campaigns aim to provide people, especially in vulnerable and underserved communities, with access to protective face coverings. Governments, non-governmental organizations, and local community groups have been at the forefront of these efforts, ensuring that masks reach frontline workers, low-income families, students, and the elderly. These distributions are often paired with educational outreach to inform the public on proper mask usage, hygiene practices, and the importance of wearing masks to prevent the spread of infectious diseases. Distribution methods vary, including door-to-door deliveries, distribution points in community centers or healthcare facilities, and online initiatives to reach remote areas. These efforts have proven critical in minimizing</p>

	<p>transmission rates, protecting public health, and fostering a sense of shared responsibility in tackling global health challenges. District Legal Services Authority organized a legal awareness camp on 10th August 2021, where students of Sushant university went to Rajiv nagar and Labor Chowk near Bhooteshwar Mandir to distribute masks free of cost .The visitors were appraised of several schemes flatted by the government during the pandemic to ease difficulties of the general public. Law as a viable career option was also discussed.</p>

gender discrimination. Participants were informed about key legislations such as the Protection of Women from Domestic Violence Act, 2005 and the Sexual Harassment of Women (Prevention, Prohibition and Redressal) Act, 2013. The session aimed to create a safe space for women to discuss their concerns and gain a deeper understanding of the legal rights available to them in cases of abuse or discrimination.

The program also included interactive discussions, where attendees could voice their concerns and share their personal experiences. Legal experts emphasized the importance of reporting violence and assured participants of the university's commitment to protecting women's safety. Legal aid services were provided, along with information on access to support services for women. The event was instrumental in fostering empowerment among the attendees, encouraging them to assert their rights and seek justice. Overall, the program was a significant step in enhancing legal literacy and promoting awareness of the rights available to them in society.

All the student coordinators of Sushant University Legal Clinic visited the women police station where they distributed pamphlets to the women about their legal issues (like women's divorce cases and little disputes within every family) and informed them that they can avail free legal advice in Sushant University Legal Clinic. Meeting with the Station Head was also scheduled. The Women's Officer, and their staff they all appreciate the students work.

Description (min 250 to max 800 words)*

Today, on 13/08/2021, a free eye test camp was organized under the aegis of Sushant University with the joint effort of the School of Health Sciences and Maruti Kunj at the Club in which more than 80 beneficiaries reached. After getting the proper solution to your eye related problems, consultation and glasses number.

Dr. Himanshu Tripathi (Dean, School of Health Sciences) informed that at present there is a shortage of paramedics as per the demand. To fill this gap, Sushant University has conducted courses like Pharmacy, Ophthalmology, Cardiology, Lab Technician, Medical Radiology and Psychology etc. Students can make a golden future by studying from diploma to PhD in these courses.

A free eye test camp was organized under the aegis of Sushant University with the joint effort of the School of Health Sciences and Maruti Kunj at the Club in which more than 80 beneficiaries reached. After getting the proper solution to your eye related problems, consultation and glasses number.

Dr. Alka Gupta (Principal, Pharmacy Department), who played a key role in organizing the camp, offered a special thank RWA Maruti Kunj for the successful organization of the camp and assured similar social and health related events in future.

Legal Awareness Camp

Description (min 250 to max 800 words)*

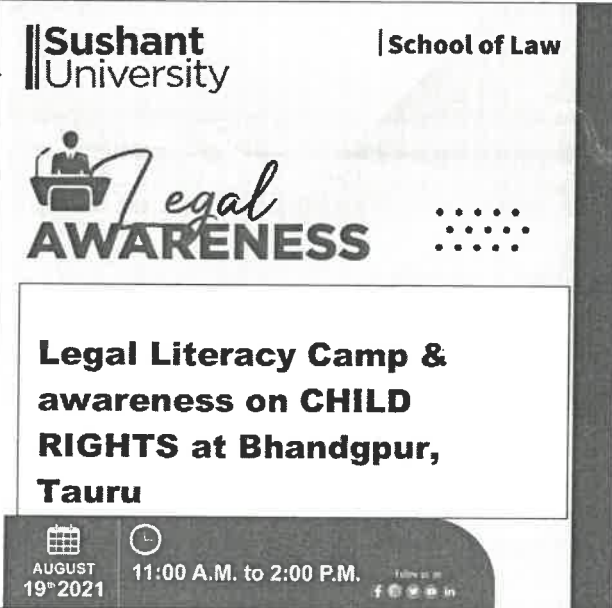

Sushant Legal Aid Clinic organized a legal awareness camp at Hewo Appartments, Gurugram on 14th August 2021. Our paralegal student volunteers namely Aryan, Devansh and Nitin distributed pamphlets and educated

	<p>the visitors about their basic rights and duties. Legal Awareness Camp focused on the Rights of Laborers in Society and to educate workers about their legal entitlements and protections under various labour laws. The event brought together labour law experts, union representatives, and community members to discuss the fundamental rights of labourers, including fair wages, safe working conditions, and the right to unionize. Participants learned about key legislations such as the Minimum Wages Act, the Factories Act, and the Industrial Disputes Act, which safeguard the interests of workers and provide a framework for resolving disputes between employees and employers. The camp emphasized the importance of understanding these rights to empower labourers in asserting their claims and seeking justice against exploitation and unfair treatment in the workplace. The camp also included interactive sessions where participants could ask questions and share their experiences related to labour rights violations. Legal experts provided practical advice on how to address issues such as wage theft, unsafe working environments, and unlawful dismissals. Additionally, resources were made available for attendees to connect with legal aid services and labour unions for further support. The event highlighted the critical role of legal literacy in promoting social justice and enhancing the bargaining power of labourers in society. Overall, the camp was successful in raising awareness and equipping workers with the knowledge they need to advocate for their rights effectively.</p> <p>The laborers spoke about some of the difficulties faced by them. Our panel advocate Mr. Munish Malik also spoke to the visitors regarding several issues faced by them.</p>

<p>(Geotag) Photograph-2</p>	
<p>Description (min 250 to max 800 words)*</p>	<p>Sushant University Legal Aid Clinic organised a Legal Literacy CAMP in collaboration with the Sehgal Foundation in Bhandgpur village ,Tauru block on 19th August, 2021. Committee members of AULAC presented a Street Play regarding legal awareness on CHILD RIGHTS.</p> <p>This Legal literacy camp was about the citizen's information & support center (CISC), Integrated Child Development Services, Mid- day Meal, Public Distribution System, Labour Development, Agricultural Programme& Right to Information, educating local citizens about their legal rights and duties. The camp focused on issues such as consumer rights, women's rights, labor laws, and legal provisions related to property and inheritance. Experts, including lawyers and social activists, provided detailed presentations and distributed informative pamphlets to attendees. The participants, including students, community members, and local leaders, actively engaged in discussions and raised pertinent legal queries.</p> <p>The camp also featured a question-and-answer session, where participants sought legal advice on various personal and societal matters. The experts offered valuable guidance, emphasizing the importance of knowing one's legal rights to protect oneself from exploitation. The event successfully fostered legal literacy among the community and encouraged individuals to seek legal recourse</p>

whenever necessary. The camp served as an important step toward empowering citizens with the knowledge required to navigate legal challenges in their daily lives. Informational brochures and pamphlets were distributed to enhance understanding of key legal procedures. The camp aimed at empowering individuals, especially marginalized groups, by equipping them with the knowledge to address legal obstacles independently. Overall, the event was successful in raising awareness and fostering a sense of legal empowerment among the attendees, contributing to a more informed and just society.

Description (min 250 to max 800 words)*

On 22nd September 2021, under the Unnat Bharat Abhiyan initiative, Sushant University conducted the "Safety First: COVID-19 Mask Distribution Drive" in the village of Turkapur. This initiative aimed to protect the rural community during the pandemic by distributing essential protective gear and raising awareness about safety protocols. The drive was organized by the School of Engineering and Technology (SET), Sushant University, in collaboration with local authorities.

The village of Turkapur, like many rural areas, faced challenges in accessing proper healthcare resources and protective supplies during the pandemic. To address this, a dedicated team of SET students and faculty members visited the village, distributing high-quality, reusable masks to over 500 families. These masks were part of the broader effort to curb the spread of COVID-19, particularly in regions with limited access to medical support. During the drive, volunteers followed strict safety protocols while distributing masks and informational pamphlets that explained the importance of wearing masks, proper handwashing techniques, and maintaining social distancing. In addition to mask distribution, the team actively engaged with the villagers to educate them on the best practices for safeguarding themselves and their families from the virus. The volunteers held small group discussions to ensure that each community member understood the preventive measures, emphasizing the collective responsibility in fighting the pandemic. Local leaders in Turkapur supported the initiative by helping to gather residents and ensuring the message reached everyone in the village. The response from the community was positive, with many expressing their gratitude for the protective masks and the vital information provided.

This drive not only provided immediate relief but also empowered the villagers with knowledge on how to protect themselves in the long term. The successful collaboration between Sushant University and the local community underscored the importance of continuous efforts in

Cardiovascular Disease Awareness Campaign

Description (min 250 to max 800 words)*

Department of Cardiovascular technology from School of Health Sciences of Sushant University successfully organised an event on “World Heart Day” by Miss.Kanika Bhardwaj. She is currently an assistant professor in Sushant University.

The event was celebrated in two days, which were 29th September 2021.

On the 29th of September there was a poster making competition between all the departments of Health sciences and was successful as a total of 10 groups participated and enjoyed the event. The judges for that competition were Mr.Usman Khan, and Ms.Kanika Bhardwaj.

The event started at 9 O'clock and continued till 5pm.

This day the event was divided into two parts – ‘The Zumba’ whose participants were all the faculties of Health sciences and ‘The main event’ which was celebrated in the Auditorium.

The guests of the event were Vice Chancellor, Registrar, Dean SHS and Principal of Pharmacy.

The main event started with ‘Lamp Lightening’ followed by Saraswati Vandana, informative skits, dances, singing and many more.

<p>Description (min 250 to max 800 words)*</p>	<p>On 30th September 2021, the students of the School of Engineering & Technology (SET) at Sushant University visited Turkapur, one of the adopted villages under the Unnat Bharat Abhiyan (UBA) Cell, an initiative of the Dean</p>

Ministry of Human Resource Development (MHRD), Government of India. This visit was a significant step in bridging the gap between students of higher education institutions and rural India, offering the students a firsthand experience of rural life and its challenges. The initiative aimed to inspire students to contribute towards the development of rural communities, fostering a sense of social responsibility and innovation.

The primary goal of the visit was to help students understand the realities of rural India by connecting them with the local population and exposing them to the unique challenges faced by villagers. Through interactive sessions and field visits, the students learned about the various developmental activities undertaken by the **Unnat Bharat Abhiyan Cell** in Turkapur and other adopted villages. This exposure provided them with valuable insights into the **socio-economic** and **environmental** issues that rural communities deal with daily.

One of the key aspects of the visit was the emphasis on transforming challenges into opportunities. The students engaged in discussions with the villagers to identify the most pressing problems, such as limited access to resources, agricultural inefficiencies, and lack of infrastructure. By applying the knowledge and skills gained through their academic training, the students brainstormed potential solutions to address these issues, thus turning **problems into opportunities** for development.

This visit also served as a platform for students to witness the impact of UBA's initiatives, such as promoting sustainable agriculture, enhancing local livelihoods, and improving access to education and healthcare. The hands-on experience provided by the visit allowed the students to connect theory with practice, helping them understand how grassroots initiatives can be leveraged to drive sustainable rural development.

The event not only helped the students appreciate the work done by the UBA Cell of Sushant University in its adopted villages but also empowered them to think **critically** about how

	<p>they could contribute to similar initiatives in the future. By fostering this connection between academia and rural development, the School of Engineering & Technology continues to play a pivotal role in promoting social innovation and community engagement through experiential learning opportunities.</p>

Legal Awareness Camp

Description (min 250 to max 800 words)*

Sushant Legal Aid Clinic organized a legal awareness camp at Patli Hazipur Village on 5th October 2021 in association with District Legal Services Authority (DLSA), Haryana.

With the motto of awareness-raising and to inform and educate people about their rights the camp was set up. The basic laws related to everyday issues and awareness about legal rights and free legal aid were also discussed. The camp was supported by the panel Advocates of District Legal Services Authority, along with the SLAC team of Faculty Members Ms. Anushka Chaudhary and Ms. Ayesha Mukherjee with student members Dhaarna Sehgal, Taniya, Lavanya, Ritik, Vaibhav, Vrinda, Devansh Rinki and Anurag. The Camp was held to educate residents about their legal rights and the various laws that protect them. Organized by a team of legal professionals and social activists, the camp aimed to bridge the gap between the legal system and rural communities, who often lack access to legal resources and information. Participants were informed about key issues such as land rights, labour laws, and provisions for women and children under various legislations. The camp included informative sessions that explained the significance of legal documentation, such as property deeds and marriage certificates, and provided guidance on how to obtain these documents to ensure legal security. The camp also facilitated interactive discussions where villagers could share their legal concerns and ask questions directly to legal experts. Common issues addressed included disputes over land ownership, domestic violence, and access to government schemes. Participants were encouraged to utilize local legal aid services for further assistance. The initiative received positive feedback from attendees, who expressed gratitude for the opportunity to learn about their rights and the legal remedies available to them. Overall, the camp was successful in raising awareness and empowering the village community to navigate the legal landscape more effectively, fostering a greater understanding of their entitlements and responsibilities under the law.

<p>Description (min 250 to max 800 words)*</p>	<p>On 8th October 2021, the School of Engineering and Technology (SET) and the School of Health Sciences at Sushant University, in collaboration with Unnat Bharat Abhiyan</p>

(UBA), organized a **Comprehensive Health Checkup Camp at Baspadamka Village in Gurgaon**. This camp aimed to provide essential healthcare services to the village's entire population, including children, women, and men, as part of UBA's mission to improve rural health outcomes. The involvement of SET in this initiative underscored the school's commitment to holistic community development by combining its technical and logistical support with health services to benefit rural communities. The **School of Engineering and Technology (SET)** played a crucial role in the successful execution of the camp by providing essential support in organizing the event. The engineering students and faculty members were actively involved in setting up the logistics, ensuring that the camp operated smoothly and efficiently. They assisted in managing the flow of villagers, ensuring proper sanitation measures, and facilitating communication between the medical team and the participants. This collaboration between SET and the School of Health Sciences highlighted the importance of interdisciplinary teamwork in addressing rural healthcare challenges. During the camp, the villagers received free medical checkups, with doctors focusing on various health issues such as general wellness, blood pressure, glucose levels, and other common concerns. Women and children, in particular, were given special attention, with healthcare professionals advising them on maternal and child health, proper nutrition, and hygiene practices. SET's involvement extended to ensuring that educational materials on health and hygiene were effectively distributed among the villagers, reinforcing the importance of preventive care.

Doctors prescribed necessary treatments and precautions for the villagers based on their medical assessments, and some were referred for follow-up consultations if required. The camp also served as an important platform for educating the community about healthy lifestyle choices, emphasizing preventive measures such as maintaining hygiene, proper nutrition, and regular checkups. This initiative reinforced SET's dedication to serving the community, not just through engineering and technological advancements, but by playing an active role in

	improving the overall well-being of rural populations.

Description (min 250 to max 800 words)*

Fight against COVID-19

During the challenging times of the **COVID-19 pandemic**, the **Unnat Bharat Abhiyan (UBA) Cell of Sushant University, Gurgaon**, has been actively engaged in spreading awareness in its adopted villages regarding the **prevention of Coronavirus**. The UBA Cell recognized the urgency of educating rural communities about the virus, its transmission, and the precautionary measures that could be taken to minimize its spread. With physical proximity being limited during this time, the team sought innovative ways to reach the maximum number of residents while maintaining safety protocols. On **14th October 2021**, the UBA team, supported by enthusiastic student volunteers, created a variety of powerful and informative digital content. This content included **video tutorials in regional languages**, ensuring that the villagers could easily understand the information being shared. Alongside the videos, they designed **posters, charts, and infographics** that visually conveyed essential details about COVID-19, its symptoms, how it spreads, and preventive measures such as wearing masks, maintaining social distancing, and hand hygiene. The goal was to make the information accessible and clear to everyone, regardless of their literacy level.

The UBA team utilized multiple **online platforms** to ensure the widest possible reach without the need for physical gatherings, which were restricted due to the pandemic. The use of digital mediums was a crucial strategy, as it allowed the team to disseminate vital health information quickly and efficiently across the villages. These efforts contributed significantly to raising awareness about the importance of vaccination, self-isolation in case of symptoms, and seeking medical help when necessary. In addition to the digital outreach, the **UBA Cell of Sushant University** also created WhatsApp group of 90 members including Sushant University and members from village community, to stay in constant touch with key personnel from the adopted villages. These groups have become an important communication channel for discussing the **specific needs and issues** faced by

	<p>the villages during the pandemic. Through these groups, the UBA team continues to share important updates regarding COVID-19 guidelines, vaccination drives, and any other assistance required by the villagers.</p>

Poster Making Competition

Description (min 250 to max 800 words)*

On October 20, 2021 A **poster-making campaign** was organized as part of an initiative to raise awareness about the dangers of drug abuse and promote a healthy lifestyle among youth in the community. Participants, including students, teachers, and local volunteers, gathered to create impactful posters that highlighted the negative effects of drug abuse on individuals, families, and society. The campaign aimed to engage the community creatively while educating them about the risks associated with substance abuse, including addiction, health issues, and the impact on mental well-being. Various art supplies

were provided, allowing participants to express their ideas and emotions through vibrant colors and thought-provoking messages. This initiative is a part of a campaign against drug abuse especially amongst the youth and its adverse effects. Drug Addiction is a serious issue affecting all sections of the society and has taken many innocent lives. More than thirty-five students from all schools actively participated and enjoyed the opportunity to artistically express themselves. NGO Vriksha also join hands with us in this noble cause and give us saplings which were planted in the campus with specific duty being allotted to the respective students to take care and nurture them into plants.

Throughout the event, facilitators encouraged collaboration and discussion among participants, emphasizing the importance of teamwork in advocating against drug abuse. The completed posters showcased a range of themes, from personal testimonials to statistics about drug abuse, and were later displayed in schools, community centers, and public spaces to reach a wider audience. The campaign not only fostered artistic expression but also served as a platform for dialogue about the challenges of substance abuse. By engaging the community in this creative initiative, the poster-making campaign effectively raised awareness about drug abuse and motivated individuals to support efforts for prevention and rehabilitation. The event concluded with a commitment to continue spreading awareness and promoting a drug-free lifestyle within the community.

Description (min 250 to max 800 words)*

The School of Engineering & Technology (SET) at Sushant University successfully organized an impactful event titled “**Clean and Green Haryana: Promoting Eco-Friendly Practices in Villages**” as part of the United Nations' Sustainable Development Goals (SDGs). This initiative, which took place in Sirsa, Haryana, saw a dedicated team of **two faculty members and 15 students** engaging with the local community to promote sustainable and eco-friendly practices in rural areas. The event aimed to create awareness and encourage villagers to adopt environmentally conscious habits, contributing to a cleaner and healthier environment. The students and faculty actively interacted with the villagers through a series of awareness campaigns focused on key issues such as **waste management, water conservation, and tree plantation**. These campaigns were designed to educate the community on the importance of sustainable living and how small, everyday actions can significantly reduce their environmental impact. The initiative was aligned with the broader goals of the **Clean and Green Haryana** drive, which focuses on enhancing the green cover, improving air quality, and ensuring the well-being of rural communities. A significant highlight of the event was the **hands-on workshops** conducted by the students on **waste segregation**. These workshops emphasized the need for recycling, composting organic waste, and reducing landfill use. Villagers were educated on how to separate biodegradable and non-biodegradable waste and were encouraged to adopt these practices in their daily lives. By

School Of Engg. & Tech. 17
Sushant University
Sector-55, Gurugram

	<p>promoting these simple yet effective waste management techniques, the initiative aimed to empower the rural population to take control of their local environment and reduce pollution.</p> <p>In addition to waste management, the event featured a tree plantation activity, where students and villagers worked together to plant saplings around the village. This activity not only contributed to improving the village's air quality but also promoted biodiversity by increasing the green cover. Tree plantation serves as a long-term investment in the village's environment, enhancing both the aesthetic and ecological value of the area.</p> <p>Awareness sessions on reducing plastic use were also a key component of the initiative. Students engaged villagers in discussions on the environmental harm caused by plastics and provided practical solutions, such as switching to cloth bags and biodegradable products. The event successfully encouraged the community to move away from single-use plastics and adopt more sustainable alternatives. Through these activities, the School of Engineering & Technology played a pivotal role in promoting eco-friendly practices in Sirsa, Haryana, contributing to the overall goal of building sustainable rural communities.</p>

Description (min 250 to max 800 words)*

This workshop, organized by students of Sushant School of Art and Architecture at Sushant University, Gurgaon, was a dynamic platform aimed at addressing pressing social issues through innovative design solutions. With a focus on social awareness and community engagement, students collaborated across disciplines to explore how design interventions could positively impact societal development. Through hands-on activities, design charrettes, and interactive projects, participants delved into issues such as poverty alleviation, environmental sustainability, and access to education and healthcare. By leveraging their creative skills and empathetic understanding of community needs, the workshop fostered a spirit of social responsibility and empowerment among students, paving the way for impactful change in local and global communities.

The workshop was structured to maximize student engagement and learning. It began with a series of lectures and presentations from experts in the fields of social development and design. These sessions provided participants with a theoretical foundation and a broad understanding of the challenges and opportunities in using design for social good. Following these introductory sessions, students were divided into smaller groups to work on specific projects. Each group was tasked with

identifying a particular social issue and developing a design intervention to address it.

Throughout the workshop, students had access to a variety of resources, including design studios, prototyping tools, and mentorship from faculty members and industry professionals. This support system enabled them to experiment with different ideas and approaches, ultimately leading to more innovative and effective solutions. The hands-on nature of the workshop allowed students to apply their theoretical knowledge in practical settings, enhancing their problem-solving skills and creativity.

One of the key highlights of the workshop was the design charrette, an intensive session where students brainstormed and developed their ideas in a collaborative environment. This process encouraged open dialogue and the exchange of diverse perspectives, fostering a sense of community and shared purpose among participants. The charrette culminated in a presentation where each group showcased their proposed solutions, receiving feedback from peers and mentors.

In addition to the design charrette, the workshop included several field visits to local communities and organizations. These visits provided students with firsthand insights into the real-world challenges faced by different populations. By interacting with community members and observing their daily lives, students gained a deeper understanding of the social issues they were addressing. This experiential learning component was crucial in helping students develop more empathetic and contextually relevant design interventions.

The workshop also emphasized the importance of sustainability in design. Students were encouraged to consider the long-term impact of their solutions and to incorporate sustainable practices into their projects. This focus on sustainability not only addressed environmental concerns but also ensured that the proposed interventions would be viable and beneficial in the long run.

By the end of the workshop, students had developed a range of innovative design solutions aimed at addressing various social issues. These

	<p>projects were presented in a final exhibition, which was attended by faculty members, industry professionals, and community representatives. The exhibition provided a platform for students to share their work with a broader audience and to receive valuable feedback and recognition.</p> <p>Overall, this workshop was a transformative experience for the participants. It not only enhanced their design skills but also instilled a sense of social responsibility and a commitment to using their talents for the greater good. The workshop demonstrated the power of design as a tool for social change and inspired students to continue exploring ways to make a positive impact on society.</p>

Description (min 250 to max 800 words)*

Guru Nanak Jayanti, also known as GURPURAB, is here and this significant day commemorates the birth anniversary of Guru Nanak Dev Ji, the revered founder of Sikhism. The festival, celebrated on the Purnima Tithi of Kartik Month, is a time for Sikhs and devotees worldwide to come together for an enthusiastic celebration. Students of VHTBS, Sushant University, visited Bangla Sahib Gurudwara and participated in the Langar Seva. Selfless Service with Compassion: Students' Langar Seva at Bangla Sahib!

Hotel Hospitality & Tourism Business School
Sector-55, Gurugram

	<p>A group of enthusiastic students from VHTBS, Sushant University, worked on a noble endeavor, organizing a Langar Seva at the revered Gurdwara Bangla Sahib. This selfless initiative aimed to serve the community, fostering compassion and unity.</p> <p>Students worked tirelessly: Collecting donations and groceries Preparing wholesome meals (dal, rice, roti, vegetables) Coordinating logistics and volunteer schedules</p> <p>At the Gurdwara, students:- Served hot meals to over 500 devotees and underprivileged individuals - Distributed water, fruits, and snacks to those in need - Engaged in heartfelt interactions, spreading joy and warmth</p> <p>The Langar Seva: Nourished bodies and souls, bridged social gaps, promoting harmony, and instilled values of empathy, humility, and service among students and Strengthened community bonds</p> <p>Students shared "This experience taught me the value of selflessness and compassion." "Seeing smiles on people's faces was incredibly fulfilling." "I realized the importance of community service and unity."</p> <p>This Langar Seva embodies the spirit of selfless service, nurturing a sense of social responsibility among youth. By engaging in such initiatives, students become compassionate leaders, shaping a brighter, more harmonious future. The students were delighted and very happy to provide their service at the Gurdwara, and it has incorporated the students with a sense of service learning.</p>

check-ups. These camps were instrumental in addressing some of the common health issues prevalent in rural areas, where access to healthcare services is often limited. The doctors and students involved in the health camp conducted **general health screenings**, checked vital signs such as blood pressure and glucose levels, and provided medical advice to those in need. This initiative ensured that even the most vulnerable members of the community had access to healthcare, thereby enhancing their overall well-being.

In addition to the health camps, the team organized a series of **awareness sessions** that focused on important topics such as **nutrition, hygiene, and preventive healthcare**. The sessions were designed to educate the villagers about the significance of maintaining a balanced diet, practicing good hygiene, and adopting preventive measures to avoid common illnesses. The importance of **regular health monitoring** was emphasized, with the goal of encouraging villagers to proactively take charge of their health rather than waiting for issues to become severe.

As part of the outreach, the students distributed **informational pamphlets** that contained vital health tips and guidance on topics such as proper sanitation, disease prevention, and healthy eating habits. These pamphlets served as a resource for the villagers, providing them with the knowledge needed to make healthier choices in their daily lives.

The students also engaged directly with the villagers, holding one-on-one conversations to better understand their health challenges and offer personalized advice. By promoting better health practices and educating the community on the importance of preventive healthcare, the initiative aimed to **empower the rural population** to lead healthier, more informed lives.

Overall, the **"Health for All"** event was a resounding success, helping to raise health awareness in Aklimpur and providing

Event Report: "Green India Clean India: A Tree Plantation Drive"

Date: August 24, 2021

Organized by: School of Business, Sushant University

Venue: Sushant University Campus

Dean
School of Business
Sushant University
Sec-55, Gurugram Haryana

Introduction: The School of Business at Sushant University organized a commendable event, "Green India Clean India: A Tree Plantation Drive," on August 24, 2021. The initiative aimed to contribute towards environmental sustainability and create awareness about the importance of afforestation.

Objective: The primary objective of the event was to encourage the university community, including students, faculty, and staff, to actively participate in the tree plantation drive. The initiative aligned with the national mission of making India greener and cleaner.

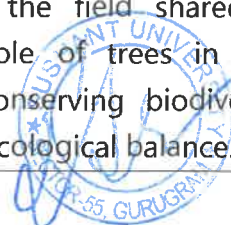

Event Highlights:

Inauguration Ceremony: The event commenced with an inaugural ceremony where distinguished guests, faculty members, and students gathered to emphasize the significance of tree plantation in combating climate change and preserving the environment. Dean of the School of Business, delivered an inspiring speech, setting the tone for the day.

Tree Plantation Activity: Following the inauguration, participants were divided into groups and allocated specific areas within the university campus for tree plantation. The participants, equipped with saplings and gardening tools, actively engaged in the planting process, fostering a sense of community and shared responsibility.

Awareness Session: Concurrently, an awareness session was conducted, addressing the environmental challenges facing the world today. Experts in the field shared valuable insights on the role of trees in mitigating climate change, conserving biodiversity, and enhancing overall ecological balance.

Description (min 250 to max 800 words)*

In India, festivals are all about togetherness and harmony. With the onset of the spring season, it's time to celebrate the festival of Basant Panchami. It is said that Goddess

Sushant
Sushant University
Sector-55, Gurugram

Saraswati can bestow on her devotees lots of wisdom, learning, and knowledge, as the goddess is considered to be the epitome of wisdom. Basant Panchami is the day to dedicate your time to a noble cause. Join Students and Faculty members of VHTBS for food distribution for needy and poor people near Sanatam Dharam Mandir, sector 56 gurugram. Students participated in the event and learned a lot about selfless service. The food distribution event at the local community center was a heartwarming display of compassion and generosity. VHTBS meticulously organized and packaged essential groceries, including fresh produce, whole grains, and protein-rich food, in Sanatan mandir sector 56 As recipients began to arrive, the atmosphere filled with gratitude and relief. Through meticulous planning and research, the students of VHTBS identified low-income households, homeless shelters, and orphanages as primary beneficiaries near Sanatan Dharam Mandir, Sector 56. Volunteers worked tirelessly to collect, sort, and package non-perishable items, fresh produce, and protein-rich foods.

Elderly individuals, single parents, and families in need received nourishing food packages, ensuring sustenance for the days ahead. The event not only alleviated hunger but also fostered a sense of community, as strangers became acquaintances and support networks formed. With each distributed package, a tangible difference was made, reaffirming the power of collective action in combating food insecurity and nurturing a healthier, more compassionate society."

Sushant University
Sector-55, Gurugram

	<p>The food distribution drive served as a powerful reminder of our shared humanity. As we strive to build a more equitable society, such initiatives demonstrate the potential for positive change. By continuing to support and amplify these efforts, we can create a world where food insecurity is a distant memory, and hope and nourishment are within everyone's reach.</p>

Legal Awareness Camp in Village Silani

(Geotag) Photograph-2

Description (min 250 to max 800 words)*

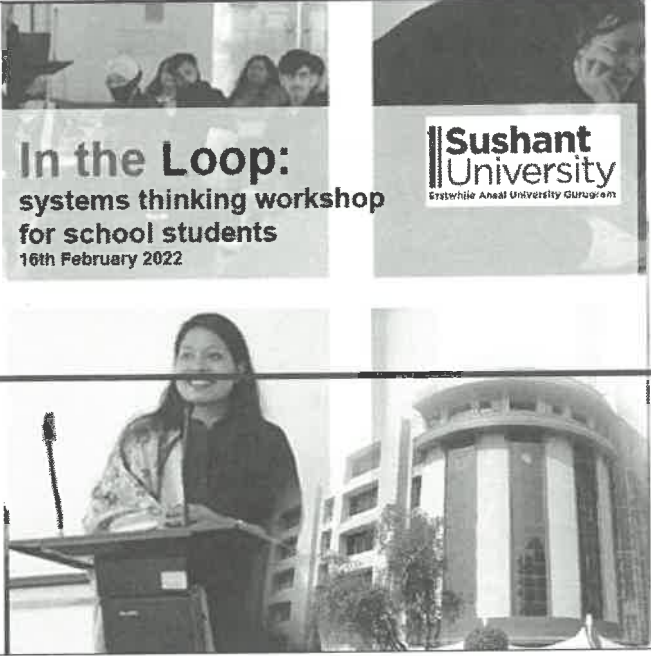

Sushant Univeristy Legal Aid Clinic successfully conducted Legal Awareness camp in Silani Village, Sohna on 15.02.2022 on **Health and Property Rights** to educate community members about their legal entitlements in these critical areas. The camp featured legal experts, healthcare professionals, and social workers who provided valuable information on the rights individuals have concerning healthcare access and property ownership. Participants learned about important health-related laws, including the **Right to Health** and various government schemes aimed at providing affordable healthcare services. Legal representatives discussed the importance of maintaining proper documentation for property ownership, including title deeds and inheritance rights, emphasizing how these documents can protect individuals from disputes and ensure secure ownership. The camp also facilitated interactive discussions where attendees could share their experiences and ask questions regarding health and property-related issues. Common concerns addressed included access to medical services, patient rights, and the legal procedures for transferring property. The event aimed to empower individuals with knowledge about their rights and the legal frameworks that support them, fostering a sense of confidence in navigating these areas. DLSA advocate Mr Jainul Basser and faculty coordinators Dr Deepak and Prof Ayesha addressed the gathering. Villagers highlighted their local problems related to health, hygiene and property related disputes. They were appraised about availability of free legal aid services in Sushant Legal Aid Services. Our

	student volunteers for the event were Ridhi, Himanshi, Chetan Singh, Soumen Roy, Rohit Bhati.

Description (min 250 to max 800 words)*

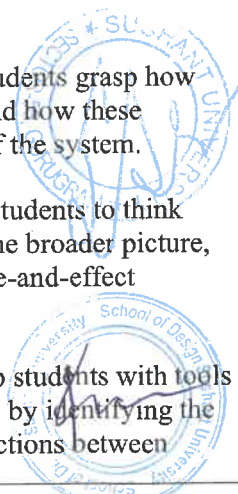

Workshop Report: "In the Loop: Systems Thinking Workshop for School Students"

On 16th February 2022, the School of Design at Sushant University hosted an insightful and interactive workshop titled "In the Loop: Systems Thinking Workshop for School Students." This workshop aimed to introduce young minds to the concept of systems thinking, an approach to problem-solving that focuses on understanding the interconnections and relationships between various components within a system. The workshop provided students with practical tools and strategies to think critically and holistically about complex problems, while encouraging creativity and collaboration.

Workshop Objectives:

The primary aim of this workshop was to equip school students with a systems thinking mindset, enabling them to:

1. Understand complex systems: Help students grasp how different elements of a system interact and how these interactions shape the overall behavior of the system.
2. Promote critical thinking: Encourage students to think beyond individual components and see the broader picture, fostering a deeper understanding of cause-and-effect relationships within systems.
3. Enhance problem-solving skills: Equip students with tools to approach and solve complex problems by identifying the root causes and understanding the connections between

various factors.

4. Cultivate collaboration and teamwork: Highlight the importance of collaborative thinking in solving systemic challenges, emphasizing that multiple perspectives often yield better outcomes.

Workshop Format and Structure:

The workshop was structured in a way that facilitated active participation and engagement from students, blending theoretical discussions with hands-on activities. Divided into multiple sessions, the workshop allowed for a comprehensive exploration of systems thinking concepts and their practical applications.

1. Introduction to Systems Thinking:

The workshop began with an introductory session, where students were introduced to the basic principles of systems thinking. Facilitators from the School of Design, who are experts in design and innovation, explained the concept of a system as a collection of interrelated parts that form a whole. They emphasized how the behavior of each part impacts the system's overall function.

Students were shown real-world examples of systems they interact with daily, such as ecosystems, school environments, transportation networks, and even social systems. The facilitators also introduced key terms like **feedback loops**, **leverage points**, and **emergent behavior**, providing students with the vocabulary necessary to navigate complex systems.

2. Exploring Feedback Loops:

A key focus of the workshop was on **feedback loops**, an essential concept in systems thinking. Students were taught how feedback loops can either stabilize or amplify the behavior of a system. Using interactive simulations, the facilitators illustrated the difference between **positive** and **negative feedback loops** and their implications on system behavior. For instance, they explained how a positive feedback loop, such as increased greenhouse gas emissions, could lead to an accelerated climate change crisis.

Students participated in group activities where they were tasked with identifying feedback loops in everyday systems. By doing so, they were able to understand how small changes in one part of a system could have significant, often unexpected, consequences elsewhere.

3. Hands-on Group Activity: Building a System Model:

One of the highlights of the workshop was a hands-on group activity where students were challenged to create their own system models. Divided into smaller groups, students were provided with different case studies related to systems, such as water conservation in urban areas, waste management, or improving traffic flow in cities. Their task was to map out the components of these systems, identify the relationships between them, and propose solutions based on the insights they gained through systems thinking.

This activity was not only educational but also fostered teamwork and collaboration. Each group presented their system model to the rest of the participants, explaining their reasoning and how they applied systems thinking to solve the problems posed in their case study. The interactive nature of the activity allowed students to learn from each other and encouraged peer-to-peer feedback.

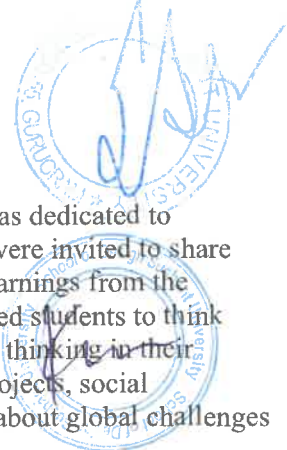

4. Problem-Solving with Systems Thinking Tools:

After the group activity, the workshop shifted focus to introducing students to practical tools used in systems thinking. Facilitators walked students through the use of ****causal loop diagrams**** and ****system archetypes.**** These tools were used to help students identify recurring patterns in systems and understand how to intervene effectively.

Students were given real-world scenarios, such as the spread of misinformation on social media, and asked to apply systems thinking tools to explore potential solutions. The facilitators guided students through the process of constructing causal loop diagrams, helping them visualize how different elements within a system influence one another.

5. Reflection and Discussion:

The final session of the workshop was dedicated to reflection and discussion. Students were invited to share their experiences, challenges, and learnings from the workshop. The facilitators encouraged students to think about how they could apply systems thinking in their everyday lives, whether in school projects, social interactions, or even when thinking about global challenges like climate change or inequality.

During this session, students also reflected on the importance of collaboration and how diverse perspectives can lead to more comprehensive solutions in systems thinking. The facilitators emphasized that systems thinking is not only about analyzing problems but also about building a mindset of continuous learning, adaptation, and openness to different viewpoints.

Key Outcomes:

- 1. Understanding of Complex Systems:** By the end of the workshop, students had developed a strong foundation in systems thinking, gaining a deeper understanding of how systems operate and how different elements within them interact.
- 2. Practical Problem-Solving Skills:** The hands-on activities allowed students to apply systems thinking tools to real-world problems, enhancing their problem-solving skills and equipping them with techniques to tackle complex challenges.
- 3. Collaboration and Teamwork:** The group activities promoted teamwork and collaboration, encouraging students to work together and share ideas, demonstrating how collective effort is key in solving systemic problems.
- 4. Application of Tools:** Students learned how to use tools such as causal loop diagrams and system archetypes, which provided them with practical methods to visualize and analyze systems in various contexts.
- 5. Awareness of Global Issues:** Through discussions and case studies, students became more aware of the interconnectedness of global issues such as climate change, social inequality, and resource management, and how systems thinking can help in addressing these challenges.

Conclusion:

The **"In the Loop: Systems Thinking Workshop for School Students"** held on 16th February 2022 at Sushant University was a highly successful initiative. It provided students with a valuable introduction to systems thinking, fostering critical thinking, problem-solving, and collaboration skills. The workshop not only introduced them

to new concepts and tools but also encouraged them to think about how they can apply these ideas in their daily lives and future endeavors. Through this workshop, the School of Design effectively nurtured a generation of students who are better equipped to tackle the complexities of the modern world with a holistic and systems-oriented mindset.

Photograph-1*

Fig 1 Students community heritage interaction Farrukhnagar

(Geotag) Photograph-2

Fig 2 Mapping heritage culture Farrukhnagar

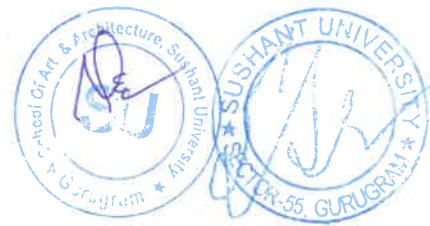

Description (min 250 to max 800 words)*

Nestled in the heart of Gurgaon, Farrukhnagar stands as a testament to the rich tapestry of history and culture that defines the region. With its centuries-old forts, majestic havelis, and intricate architectural marvels, Farrukhnagar embodies the essence of a bygone era, offering a glimpse into the vibrant heritage of the Mughal and British colonial periods. Against this backdrop of cultural richness and historical significance, the initiative titled "Heritage Exchange" emerges as a pioneering effort to foster meaningful connections between students and the local community, facilitating a deeper understanding and appreciation of Farrukhnagar's cultural legacy.

The primary objective of the Heritage Exchange program is to bridge the gap between academic learning and real-world experiences by engaging students in immersive heritage visits that not only enrich their knowledge but also promote community involvement and collaboration. Through guided tours, interactive workshops, and

	<p>hands-on activities, students are encouraged to explore Farrukhnagar's historical sites, engage with local residents, and gain insights into the cultural traditions and practices that have shaped the community over generations.</p> <p>Central to the Heritage Exchange program is the notion of reciprocity and mutual exchange between students and the community. Rather than viewing heritage as static monuments of the past, the program emphasizes the living heritage of Farrukhnagar, highlighting the ongoing efforts of local residents to preserve and celebrate their cultural identity. By actively involving community members as guides, storytellers, and cultural ambassadors, the program fosters a sense of ownership and pride among the residents, empowering them to share their stories and traditions with a broader audience.</p> <p>In conclusion, the Heritage Exchange program serves as a model for fostering meaningful connections between students and the community through the exploration and celebration of Farrukhnagar Gurgaon's cultural legacy. By embracing the principles of collaboration, inclusivity, and sustainability, the program not only enriches educational experiences but also contributes to the preservation and promotion of Farrukhnagar's rich heritage for generations to come.</p>

Fig 1: Online introduction

(Geotag) Photograph-2

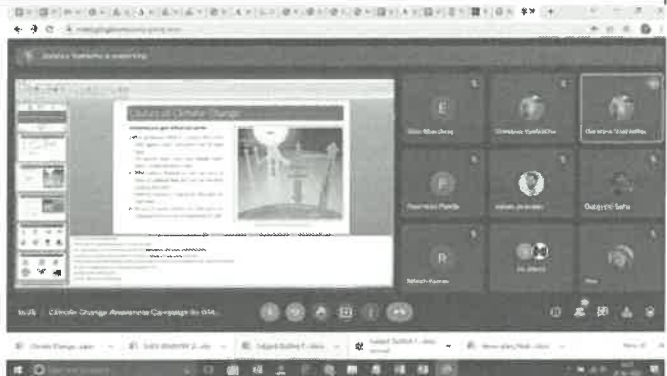

Fig 2: Presentation on climate change

Description (min 250 to max 800 words)*

In response to the pressing global issue of climate change, an online awareness campaign was conducted to educate and engage individuals worldwide. Leveraging the power of digital platforms, the campaign aimed to raise awareness, foster dialogue, and inspire collective action towards mitigating climate change.

Campaign Objectives:

- Raise awareness about the causes and consequences of climate change.
- Educate individuals about sustainable practices and their role in combating climate change.
- Mobilize support for policy changes and initiatives aimed at addressing climate-related challenges.
- Empower individuals to adopt environmentally conscious behaviors in their daily lives.

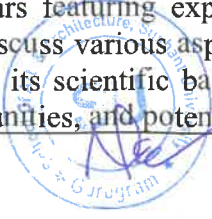

Campaign Activities:

Social Media Outreach:

Utilized popular social media platforms such as Facebook, Twitter, Instagram, and LinkedIn to disseminate information and engage with a diverse audience. Shared informative posts, infographics, and videos highlighting key aspects of climate change, including its environmental, social, and economic impacts.

Webinars and Online Workshops:

Organized webinars featuring experts, scientists, and activists to discuss various aspects of climate change, including its scientific basis, impacts on vulnerable communities, and potential solutions.

Conducted interactive workshops focused on practical tips and strategies for reducing carbon footprint, promoting renewable energy, and advocating for sustainable policies.

Virtual Events and Challenges:

Hosted virtual events such as online rallies, panel discussions, and film screenings to engage participants and encourage dialogue on climate-related issues.

Launched online challenges and campaigns encouraging individuals to take specific actions, such as reducing plastic usage, participating in tree-planting initiatives, or advocating for climate-friendly policies in their communities

Online Resource Hub:

Developed a comprehensive online resource hub featuring articles, research papers, toolkits, and educational materials related to climate change and sustainability.

Provided accessible information on topics such as climate science, carbon footprint calculators, renewable energy sources, and sustainable lifestyle tips.

Impact and Evaluation:

Monitoring Online Engagement:

Tracked key metrics such as website traffic, social media impressions, and engagement rates to measure the reach and effectiveness of the campaign.

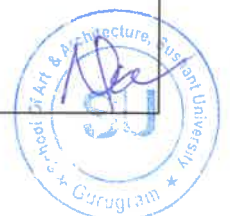

Analyzed audience demographics and feedback to tailor content and outreach strategies to diverse audience segments.

Assessing Behavioral Change:

Conducted surveys and polls to gauge changes in attitudes, knowledge, and behaviors related to climate change among campaign participants.

Evaluated the adoption of sustainable practices and the willingness of individuals to advocate for climate-friendly policies within their communities.

Long-term Sustainability:

Implemented strategies to ensure the long-term sustainability and impact of the campaign, including the establishment of online communities, partnerships with like-minded organizations, and ongoing educational initiatives.

The online climate change awareness campaign represents a dynamic and inclusive approach to engaging individuals in the fight against climate change. By leveraging digital platforms and fostering collaboration, the campaign has empowered communities worldwide to take meaningful action towards building a more sustainable and resilient future for generations to come.

Blood Donation Camp

Description (min 250 to max 800 words)*

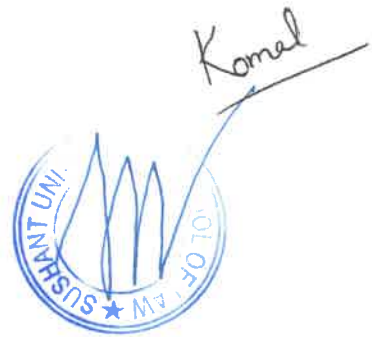

The Rotaract Club of Sushant University organized a blood donation camp under the Rotaract District Initiative Mahadan 7.0 on the occasion of World Rotaract Week Celebration.

The event was conducted in the Sushant University Campus in partnership with the Lions Blood Bank.

The blood donation camp was organised on 11 March 2022, in partnership with Lions blood bank. A total of 100 units of blood was collected. All the donors were provided with refreshments to keep up their energy levels and gift hampers to thank them for their contribution. Students, Faculty Members, Deans, and administrative staff, all donated blood at the event.

(Geotag) Photograph-1*

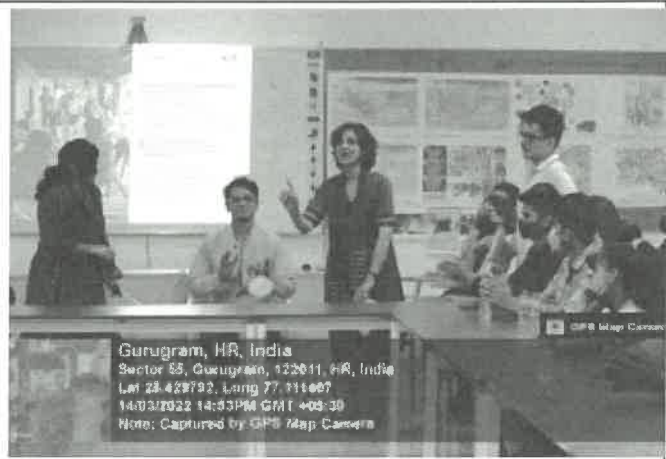

Fig 1: Briefing of the session

(Geotag) Photograph-2

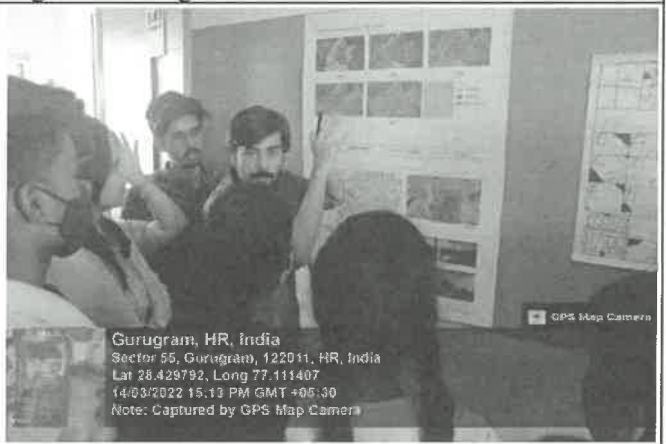

Fig 2: Student explaining their work

Description (min 250 to max 800 words)*

Opening a dialogue between the community and students serves as a crucial step towards creating a more sustainable future. By inviting community members to share their perspectives, concerns, and aspirations, students can gain valuable insights into the needs and challenges facing their local area. This dialogue fosters mutual understanding, collaboration, and the co-creation of solutions that prioritize sustainability and the well-being of future generations.

Key objectives of such dialogues include:

Understanding Community Needs: Students engage with community members to understand their priorities, challenges, and aspirations related to sustainability and community development.

Identifying Opportunities: Through open dialogue, both students and community members can identify opportunities for collaboration and innovation to address pressing environmental, social, and economic issues.

Co-creating Solutions: By working together, students and community members can co-create sustainable solutions that are contextually relevant and responsive to local needs and realities.

Empowering Communities: Opening a dialogue empowers community members to actively participate in decision-making processes and initiatives that shape the future of their neighborhoods and environments.

Building Partnerships: Establishing partnerships between students and the community fosters long-term relationships and collective action towards common sustainability goals.

Practical steps to facilitate dialogue between the community and students may include:

Hosting Community Forums: Organize community forums, town hall meetings, or focus group discussions where community members can voice their concerns and ideas related to sustainability and community development.

Engaging in Participatory Processes: Implement participatory approaches such as community mapping, visioning exercises, and asset-based assessments to involve community members in identifying priorities and assets.

Facilitating Student-Community Projects: Encourage students to collaborate with community members on projects that address local sustainability challenges, such as community gardens, waste management initiatives, or renewable energy projects.

Promoting Active Listening and Respectful Dialogue: Create a supportive and inclusive environment where all voices are heard, and diverse perspectives are respected and valued.

Sharing Knowledge and Resources: Facilitate knowledge exchange and capacity-building activities between students and community members to share expertise, resources, and best practices for sustainability.

	In summary, opening a dialogue between the community and students is essential for fostering collaboration, understanding, and collective action towards building more sustainable and resilient communities for future generations. By harnessing the collective wisdom and creativity of both stakeholders, meaningful progress can be made towards achieving shared sustainability goals.

Event Report: "Empower & Share: A Beneficence Bazaar"

Date: April 6, 2022

Organized by: School of Business, Sushant University

Venue: Sushant University Campus

Introduction: On the 6th of April, 2022, the School of Business at Sushant University orchestrated a remarkable event, "Empower & Share: A Beneficence Bazaar." This unique initiative blended entrepreneurship with philanthropy, encouraging participants to sell self-made products and contribute the day's earnings to nearby underprivileged communities.

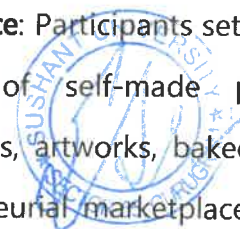

Objective: The primary objective of the event was to empower students with an entrepreneurial spirit while fostering a sense of social responsibility. Participants were encouraged to showcase their creativity by selling self-made products and, in turn, use the proceeds to make a positive impact on the lives of those less fortunate.

Event Highlights:

Inauguration and Opening Ceremony: The event kicked off with an inaugural ceremony, graced by the presence of faculty members, students, and esteemed, the Dean of the School of Business, delivered a motivating speech, emphasizing the dual purpose of the event – entrepreneurial growth and social contribution.

Entrepreneurial Marketplace: Participants set up stalls showcasing an array of self-made products, including handmade crafts, artworks, baked goods, and more. The entrepreneurial marketplace buzzed with energy as students enthusiastically engaged

Dean
School of Business
Sushant University
Sec-15, Gurugram

with visitors, sharing the stories behind their creations.

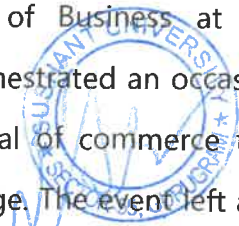

Earnings Collection: A dedicated booth was established to collect the earnings from the participants. The meticulous record-keeping ensured transparency in the collection process. The enthusiasm and commitment displayed by the participants reflected their dedication to making a meaningful difference in the community.

Community Engagement: Concurrently, an awareness campaign about the event and its charitable cause was conducted, drawing the attention of the larger university community. The event aimed to foster a sense of empathy and social awareness, encouraging participants and attendees to reflect on the power of small contributions to effect positive change.

Donation Ceremony: The day culminated with a donation ceremony where the total earnings from the event were handed over to representatives from nearby underprivileged communities. The heartfelt gratitude expressed by the recipients and the visible impact of the contributions further reinforced the significance of the event's dual mission.

Conclusion: "Empower & Share: A Beneficence Bazaar" was not just an entrepreneurial event; it was a celebration of compassion, creativity, and community. The School of Business at Sushant University successfully orchestrated an occasion that demonstrated the potential of commerce to bring about positive social change. The event left a lasting impression on participants, showcasing the profound

Description (min 250 to max 800 words)*

The Chief Judicial Magistrate cum Secretary, District Legal Services Authority Gurugram with the approval of the District & Sessions Judge cum Chairman, District Legal Service Authority announced the practical training roster to be observed by BALLB /BALL.B 4TH and 5th year students from 11/04/22 to 12/04/2022 and 18/04/22 to 20/04/22. All the students were mandatorily required to report in the office of Chief Judicial Magistrate cum Secretary, District Legal Service Authority Gurugram daily at 9.30 a.m for attendance and getting the instructions from Ms Meenu o/o C.J.M as the court proceedings would start daily from 10.00 a.m to 5 p.m and they were not allowed to attend the court in case they reached late. All the students were required to undergo the training as per the training schedule and as per instructions given by the C.J.M. Students had the opportunity to observe both civil and criminal cases, witnessing cross-examinations, arguments, and the delivery of verdicts. The experience highlighted the importance of legal procedures, courtroom decorum, and effective advocacy. Interactions with legal practitioners further enhanced our understanding of the legal process, offering insights into case preparation, client management, and judicial decision-making. In conjunction with the court visit, a legal awareness program was conducted in [Location] to educate the local community about their legal rights and responsibilities. Legal experts, along with student volunteers, provided information on key topics such as consumer rights, women's rights, and the role of legal aid. Informative brochures were distributed, and interactive sessions were held to answer questions from participants. The program aimed at empowering individuals, especially those from marginalized groups, by enhancing their

	<p>knowledge of available legal remedies and how to access them. The combined experience of the court visit and the awareness program provided a holistic understanding of both the theoretical and practical sides of law, while contributing to community empowerment.</p>

Description (min 250 to max 800 words)*

The Aravali Biodiversity Park is 380 acres of wilderness carved out of a 40-year-old mining site in the millennium city of Gurugram. A joint venture between the Municipal Corporation of

Gurugram (MCG) and Iamgurgaon, the Park is a perfect example of the citizens' initiative to make a difference to their city.

This Nature Walk is an opportunity for learning and experiencing the great rich flora and fauna our cities have to offer whether through a designed landscape or forest greens. Such experiences can be exhilarating, fun, and inspirational.

Key Points

- Relaxation and stress reduction: Spending time in nature has been shown to have a calming effect on the mind and body. A nature walk provided an opportunity to unwind, escape the pressures of daily life, and experience a sense of tranquility.
- Appreciation of nature's beauty: Nature walks provided an opportunity to connect with the natural world and appreciate its beauty. It allows individuals to observe the intricate details of plants, trees, wildlife, and landscapes, fostering a deeper understanding and admiration for the environment.
- Wildlife sightings and biodiversity exploration: Nature walks can have offered an opportunity to observe and learn about various forms of wildlife, such as birds, insects, and reptiles. Exploring different habitats have also provided insights into biodiversity and the interconnectedness of species.
- Environmental education: Nature walks served as educational experiences, particularly when guided by knowledgeable experts or naturalists. Participants learnt about local flora and fauna, ecological processes, conservation efforts, and the importance of preserving natural habitats.
- Mindfulness and mental well-being: Being present in nature and engaging the senses can enhance mindfulness. The sights, sounds, and smells of the natural environment can help individuals feel more grounded, focused, and in tune with their surroundings, contributing to improved mental well-being.

	<ul style="list-style-type: none"> ● <u>Inspiration and creativity</u>: Nature walks can stimulate creativity and inspire new ideas. The sights, sounds, and experiences encountered during the walk may spark imagination and lead to a fresh perspective on various aspects of life. ● <u>Social bonding and connection</u>: Participating in a nature walk with others can foster social connections, deepen relationships, and provide an opportunity for shared experiences. It allows individuals to engage in conversation, connect with others who share similar interests, and enjoy quality time together in a natural setting.

Students of Psychology at Deepashram

Brief Description (min 250 to max 800 words)*

The experiential learning trip proved to be an invaluable educational experience for our psychology students, offering them a unique opportunity to observe and interact with children facing various developmental challenges, including Autism Spectrum Disorder, Down's syndrome, and Intellectual Disabilities. Through carefully coordinated activities and engaging

<p>Photograph-1*</p>	<p>(Geotag) Fig 1: On Site briefing</p>
<p>(Geotag) Photograph-2</p>	<p>Fig 2: Exploring lane interaction</p>
<p>Description (min 250 to max 800 words)*</p>	<p>Ghata Gaon, nestled amidst lush greenery, faces environmental challenges like many other communities. To address issues such as deforestation, improper waste management, and the need for recycling, a community engagement initiative has been launched targeting the children of Ghata Gaon. This initiative aims to instill a sense of responsibility towards the environment and foster sustainable practices among the younger generation.</p> <p>Objectives:</p> <p>Promote plantation activities to combat deforestation and enhance green cover. Educate children about the importance of waste segregation and recycling to reduce environmental pollution. Empower children to become advocates for environmental conservation within their community.</p> <p>Approach:</p> <p>Plantation Drives:</p> <p>Organize tree plantation events where children actively participate in planting saplings. Educate them about the significance of trees in maintaining ecological balance and mitigating climate change. Encourage children to take ownership of the planted trees by nurturing and monitoring their growth.</p> <p>Waste Segregation Workshops:</p> <p>Conduct interactive workshops to educate children about the importance of waste segregation at the source. Demonstrate practical methods of segregating biodegradable and non-biodegradable waste. Emphasize the role of proper waste management in reducing environmental pollution and promoting public health.</p> <p>Recycling Awareness Programs:</p>

Arrange awareness sessions highlighting the concept of recycling and its benefits.

Showcase creative examples of upcycling and recycling waste materials into useful products.

Encourage children to initiate recycling initiatives within their households and schools.

Community Engagement:

Involvement of Parents and Guardians:

Encourage parents and guardians to actively participate in environmental activities with their children.

Organize family-oriented events such as eco-friendly picnics and nature walks to foster a deeper connection with the environment.

Collaboration with Local Authorities and NGOs:

Forge partnerships with local government bodies and non-profit organizations specializing in environmental conservation.

Seek support for organizing community-wide initiatives and accessing resources for sustainability projects.

Impact Assessment:

Conduct regular assessments to measure the impact of the initiative on children's knowledge and attitudes towards environmental conservation.

Monitor the progress of plantation efforts and track the survival rate of planted trees.

Evaluate the effectiveness of waste segregation practices and recycling initiatives within the community.

The community engagement initiative in Ghata Gaon represents a collaborative effort to raise awareness about environmental conservation among children. By empowering the younger generation with knowledge and skills, the initiative aspires to create a sustainable future where harmony between humanity and nature thrives. Through continued dedication and collective action, Ghata Gaon can emerge as a beacon of environmental stewardship for generations to come.

Description (min 250 to max 800 words)*

An industrial visit to a Modern Diagnostic & Research Centre was organized for B.SC.MLT VIth semester students on 30th May. It was a great informative session. Main objective of this visit was to learn about latest techniques used in molecular diagnostic lab and advances amid Covid-19 era.

The technologists demonstrated different techniques like PCR, real time PCR, Reverse transcriptase PCR, electrophoresis along with their result analysis which is totally computer based interpretation. Students also learned about working serological based advanced techniques like ELISA. Though not planned, students also got a chance to observe work in the Histopathology department. Students were able to clear a lot of their doubts which they had from their theory classes with live demonstration.

This visit was a very interesting and valuable session for them and positive feedback was received from each student.
