Description (min 250 to max 800 words)*

An initiative that has been taken up by School of Art & Architecture, Sushant University, India and Department of Civil and Environmental Engineering, North South University, Bangladesh to collaborate together and work on different perspectives in which knowledge can be exchange and the SAARC initiative in which we are trying to bring SAARC nations onboard a common platform for collaborations leading to knowledge exchange and sustenance for future growth.

From 02nd – 03rd June 2023, Associate Professor Sehba Saleem (School of Art and Architecture, SU) in coordination with Dr. Nadim Reza Khandaker (Department of Civil and Environmental Engineering NSU) went to Dhaka for conducting a two-day workshop with the Civil and

Environmental Engineering Students on adaptation to the urban heat effect and how to mitigate in NSU University. Also the field trip to the Narayanganj, a rural environment setting where in person interaction was made with local community under education outreach program for women regarding sustainable development and addressing them, spending time in the village to understand their daily life routing so that a fruitful suggestion can be given by making them aware of water borne diseases which is a common concern among the community as there is no water supply line to their houses and all use the river water to meet their daily need and requirement.

<p>Description (min 250 to max 800 words)*</p>	<p>In order to offer high-quality education for all, the National Education Policy 2020 anticipates a major reform and re-energizing of the higher education system. It is idealized that education must foster not just cognitive abilities—such as critical thinking and problem-solving—but also social, ethical, and emotional aptitudes. In January 2023, the Council of Architecture (CoA) circulated the draft education reforms prepared in light of NEP 2020. This conference aims at providing a shared platform to the leadership from Architecture Industry and Academia, to deliberate on the proposed education reforms and its impact. There is a strong need to</p>

	<p>initiate a dialogue on the pros and cons, and strategize the implementation of the CoA's interim report on Architectural Education in the light of NEP 2020.</p> <p>In addition to the guideline that CoA has circulated, each institution has its own ideology that needs to align with these guidelines. Hence, through this conclave, Deans from various institutions will come on a common platform to deliberate on industry prospects, employability, architectural pedagogy, education facilitators and takers of architectural education. The conclave aims to conclude with a white paper that identifies implementable actions referred from NEP, COA and UGC guidelines to pave the way forward from 2024 onwards in architecture education.</p> <p>Key Points: Theme 1- The Architecture Discipline- Job Prospects & Opportunities Theme 2- Operational framework of Architectural Education in the new regime of NEP 2020 Theme 3- The Admission Dilemma; Qualitative & Quantitative approach</p>
<p>Attendance Sheet*</p>	<p>Attached</p>
<p>Report Submitted by (write faculty coordinator name)</p>	<p>Asso. Prof. Sehba Saleem</p>

Description (min 250 to max 800 words)*	<p>World Environment Day 2023 at ITM Raipur and Sushant University's School of Art and Architecture</p> <p>World Environment Day, celebrated annually on June 3rd, serves as a global platform to encourage awareness and action for the protection of the environment. The 2023 celebration was particularly significant, marked by a series of</p>

events organized by ITM Raipur in collaboration with the School of Art and Architecture at Sushant University. This year's theme, "Beat Plastic Pollution," underscored the urgent need to tackle the escalating problem of plastic waste, a critical environmental issue that threatens ecosystems and human health worldwide.

Event Highlights

1. Inauguration and Keynote Address:

The event commenced with an inaugural ceremony, featuring a keynote address by a prominent environmental scientist, Dr. Anjali Kumar. Dr. Kumar highlighted the pervasive impact of plastic pollution, providing alarming statistics and case studies from various parts of the world. Her speech emphasized the necessity of integrating sustainable practices into daily life and the role of education in fostering environmental stewardship.

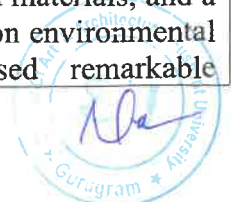

2. Panel Discussions and Workshops:

Following the keynote, a series of panel discussions were held, featuring experts from diverse fields including environmental science, urban planning, architecture, and waste management. The panels explored innovative solutions to plastic pollution, such as biodegradable materials, advanced recycling techniques, and policy measures. One notable discussion focused on the role of architectural design in reducing plastic waste, with panelists advocating for sustainable materials and construction methods.

Workshops were also conducted, offering hands-on experience in sustainable practices. These included sessions on upcycling plastic waste into useful products, creating eco-friendly art, and designing green spaces that minimize plastic use. Participants, ranging from students to local community members, engaged enthusiastically, reflecting a strong collective commitment to environmental preservation.

3. Student Competitions and Exhibitions:

To foster creativity and innovation, several competitions were organized for students. These included a poster-making contest, a model-building challenge using recycled materials, and a short film competition focusing on environmental themes. The entries showcased remarkable

ingenuity and a deep understanding of environmental issues. An exhibition displayed the best works, attracting considerable attention and appreciation from attendees.

4. Clean-Up Drives and Tree Plantation:

The event also featured practical, action-oriented activities such as clean-up drives and tree planting campaigns. Volunteers gathered at designated areas within Raipur to collect plastic waste, demonstrating the power of community action in addressing environmental challenges. Concurrently, tree plantation drives were held, aimed at enhancing urban green spaces and promoting biodiversity.

5. Sustainable Art Installations:

The School of Art and Architecture at Sushant University contributed significantly by creating sustainable art installations. These installations, crafted from recycled materials, served as powerful visual statements against plastic pollution. They not only beautified the event space but also sparked conversations about the role of art in environmental advocacy.

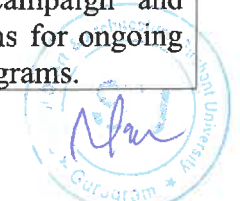

6. Environmental Education Sessions:

Educational sessions targeting younger audiences were also part of the agenda. These sessions aimed to instill environmental values in children through storytelling, interactive games, and nature walks. By engaging young minds, the organizers hoped to nurture a generation that values and actively contributes to environmental sustainability.

Impact and Future Directions

The World Environment Day 2023 celebrations at ITM Raipur and Sushant University achieved significant impact by raising awareness, inspiring action, and fostering a sense of community responsibility towards the environment. The event successfully highlighted the critical issue of plastic pollution and demonstrated practical solutions through collaborative efforts.

Moving forward, the institutions plan to continue their environmental initiatives, integrating sustainability into their curricula and campus practices. They aim to establish long-term projects, such as a plastic-free campus campaign and partnerships with local organizations for ongoing clean-up drives and educational programs.

	<p>In conclusion, the World Environment Day 2023 event organized by ITM Raipur and the School of Art and Architecture at Sushant University was a resounding success. It brought together diverse stakeholders, from students and educators to community members and experts, united by a common goal: to beat plastic pollution and pave the way for a sustainable future.</p>

Greetings from Sushant University

Dear Dr Sandeep Kashyap

I, Associate Professor, Ms. Sehba Saleem on behalf of the School of Art and Architecture, working in Sushant University would like to extend a warm welcome to you. I have come across the MoU which was signed between your organisation in 2022.

Regarding the same I wish to know if any activity/event/webinar/guest lecture has been planned or not. If not, then is it possible to organise any one such event under our collaboration.

It will be highly appreciated if you can let us know the possibilities which can be worked out to take this collaboration forward. Request you to revert back on sehbasaleem@sushantuniversity.edu.in

Regards

SU/SAA/2023/05/30

To,

The Director,

INSTITUTE OF INDIAN INTERIOR DESIGNERS INDIA

Subject: Invitation for Career Growth on The Future of Art and Architecture Education in India.

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation for **Career Growth on The Future of Art and Architecture Education in India** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 2-3 June 2023**
- **Time: 9:30 A.M - 02:30 P.M.**
- **Venue: Auditorium, D Block**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Sehba Saleem

SU/SAA/2023/06/03

To,

The Director,

INSTITUTE OF INDIAN INTERIOR DESIGNERS INDIA

Subject: Thank You for Career Growth on The Future of Art and Architecture Education in India.

I wanted to take a moment to sincerely thank you for your insightful and engaging **Career Growth on The Future of Art and Architecture Education in India** as part of our ongoing collaboration with **IID** on **2-3 June 2023**. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Sehba Saleem

NOTICE

Dear Students,

We are pleased to inform you that the Department of Planning & Development, School of Art and Architecture, Sushant University, is organizing a **Career Growth on The Future of Art and Architecture Education in India**. This event will provide an excellent opportunity to gain insights from distinguished professionals on public safety and enhance your knowledge. The details of the event are as follows:

- **Date: 2-3 June 2023**
- **Time: 9:30 A.M - 02:30 P.M.**
- **Venue: Auditorium, D Block**

We strongly encourage all students to attend this session, as it will be highly beneficial for your academic and professional growth. Attendance is mandatory for all the students of School of Art and Architecture.

For any queries or further information, please contact the undersigned.

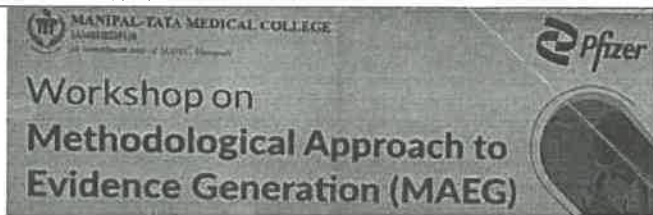

Looking forward to your participation.

Description (min 250 to max 800 words)*

Sikkim Manipal Institute of Medical Sciences organized a two days workshop entitled "Workshop on Methodological Approach to Evidence Generation" at SMIMS on 2nd & 3rd June 2023 in collaboration with Kasturba Medical College, Mangalore, MAHE, Manipal and Pfizer Medical, Pfizer Ltd. India.

The programme was conducted under the patronage of Dr K Ramnarayan, Pro Chancellor SMU, Lt General Dr Rajan S Grewal, Vice Chancellor SMU, Dr Muralidhar V Pai, Dean SMIMS, Dr Karma Sonam Sherpa, Registrar SMU, and Dr Bidita Khandelwal, Director DOR SMU.

The Chief Guest of the programme was Dr Dilip Chandra Agarwal, Vice Chancellor Designate, SMU. The Guests of Honour of the programme were Dr B Unnikrishnan, Dean, KMC, Mangalore, and Dr Komal Gaur, Medical Lead, Real -World Evidence, Pfizer Limited India. The Organizing Chairman of the programme was Dr Luna Adhikari, Associate Dean, Research & Development, SMIMS. The Organizing Secretary of the programme was Dr Dhruva Kumar Sharma, Member, Research Unit, SMIMS. The Master of Ceremony for the programme was Dr Anusha Subba, Department of Microbiology, SMIMS.

The resource persons were Dr B Unnikrishnan, Dean and Professor of Community Medicine, Kasturba Medical College, Mangalore, MAHE, Manipal; Dr Prasanna Mithra P, Additional Professor, Department of Community Medicine, Kasturba Medical College, Mangalore, MAHE, Manipal; Dr Ramesh Holla, Associate Professor, Department of Community Medicine, Kasturba Medical College, Mangalore, MAHE, Manipal, Dr Vasudeva Guddattu, Associate Professor, Department of Data Science, Prasanna School of Public Health, Manipal; Dr Komal Gaur, Medical Lead, Real-World Evidence, Pfizer LTD, India.

The workshop was attended by more than 245 participants belonging to post-graduate students, PhD scholars, other researchers and faculty members. These participants were from Sikkim Manipal Institute of Medical Sciences, Sikkim Manipal College of Nursing, Sikkim

	<p>Manipal College of Physiotherapy, Department of Medical Biotechnology, Department of Master of Hospital Administration, Department of Humanities and Social Sciences, STNM hospital and Sikkim Professional University.</p> <p>The workshop was aimed to help clinicians and researchers enhance their knowledge on research methodology and improve understanding of real world evidence which is gaining significance in healthcare and clinical decision making. It focused on various topics such as essentials of research methodology, real world evidence, basics of biostatistics, protocol writing, ethics in research.</p>

Dear Associate Prof. Saleem,

Like to personally thank you for coming to Bangladesh in a short notice to conduct a two day workshop with the Civil and Environmental Engineering Students on adaptation to the urban heat effect and how to mitigate. Also the field trip to the rural environment where in person interaction with adults' education outreach program for women for sustainable development and addressing them and spending time with them. Much appreciated. The outing was especially appreciated by NSU students of my department. The students were highly appreciative of you and your kind friendly personality. True inspiration to the young female engineering students, They where highly appreciative of the depth of your knowledge. Attached is the picture of the event and also short montage clip made by the students of our field trip. Thanks for everything. <https://www.facebook.com/100004458331917/videos/980328886713355/>

Dear All,

Great online meeting yesterday. As promised I have the framework for the conference call for an abstract done for us to work on. Please attached. Please note this is just a straw man to be worked on and changed as you will. You younger gunns are far more apt than this old man. please make it campy with respect to the artistic background. It would be nice to have a Subcontinent abstract flair. You Archies would be better than a grumpy old engineer like me. Have a look pls work on it, we can do a few iterations if needed. Let's discuss next wednesday in our scheduled meeting. Let's target to get it loaded on the web by MID September . Then we can push people to attend. Fun interacting with you all. Very productive session. I am also working on back channels to facilitate the link between you all and the Archi Department in NSU. Made some calls. Let you know how it Develops..

Kind Regards,

Nadim

Dear Sebha,

This is a community initiative of a low cost filter I built with my Student in a Mandir in his village to provide arsenic and iron safe water. The work was covered by TV in Bangladesh and broadcasted. This is the vision I have of sustainable work with community participation. I call it Action Research for community empowerment. Even though it is in Bangla, have a look. Be patient. I come in at the end of the clip. Love your opinions. Regards, Nadim

Dear All:

We are excited about our new collaboration and want to begin introducing faculty members from Architecture from both sides to each other.

Could we set up a Zoom call soon?

Please suggest some days/times that might work for you.

Thank you very much!

Katherine

Dear Dr. Katherine and all,

Good afternoon.

This is Nandini from the Department of Architecture, North South University. I want to add four more names from our side. I have already included them in the email.

The members are

1. Architect Mujtaba Ahsan (Associate Professor)
2. Architect Shahriar Iqbal Raj (Assistant Professor)
3. Architect Shanjida Fatema Shamma (Senior Lecturer)
4. Architect Mehnaj Tabassum (Lecturer)

I want to request the members from Sushant University especially to provide us with the detailed agenda of tomorrow's introduction session especially for our new members.

Thanks in advance

Best regards

Nandini

Greetings from SAA

Dear Nandini

As per the initiative taken by Dr. Katherine, we will be introducing the faculties from both ends to each other and further can discuss the ideas of taking our collaboration ahead. Following points are listed in the MoU on bases of which it has been signed on 23rd March 2023.

1. Short Term Exchange: Series of Seminar/Conferences/Webinars / Faculty visits for lecture
2. Medium Term Partnerships: Faculty Exchange / Resource Sharing / Research Projects/ Workshops (Students and Faculty) / Short-Term courses / Certificate Courses
3. Long Term Collaborations: Student Exchange / Research Projects / Masters Collaborations the idea of research and academic collaboration.

2/23/24, 10:50 AM

Sushant University Mail - Introduction

Also I will be adding the members mentioned in the mail by tomorrow morning as our meeting is scheduled in afternoon 2.30p.m (Indian Time).

Hoping for the fruitful discussion and outcome.

Dear Nandini

Greetings from SAA

Hope this mail finds you well. As per our last discussion on **12th June 2023**, regarding identification of the resource person to take up the **role and responsibilities** under different events which NSU and SU will be doing in future. In the same regard, I am sharing the name of the faculties who will be involved in the work to take forward and that is as follows

1. **Admission for masters** :- Prof. Pooja Lalit Kumar, Asso. Prof. Shruti S Hippalgaonkar
2. **Hybrid Studio for 4th Year**:- Prof. Pooja Lalit Kumar, Asso. Yash Pratap Singh and Asso. Prof. Sehba Saleem
3. **Research**:- Prof. Aruna Bhardwaj
4. **Conference** :- Prof. Pooja Lalit Kumar, Asso. Prof. Sehba Saleem and Asso. Prof. Shruti S Hippalgaonkar
5. **Workshop** :- Asso. Prof. Yash Pratap Singh, Asso. Prof. Robbin Dwivedi, Asstt. Prof. Shahroz Alam and Asstt. Prof. Kiran Singh.

Prof. Pooja Lalit Kumar, Asso. Prof. Shruti S Hippalgaonkar and Asso. Prof. Sehba Saleem will be overall incharge apart from the responsibilities they get involved in.

Since we are starting our Odd Semester from 1st Aug 2023, I would like to request you if you can share the names and email i.d of the resource person from your university so that we can get them connected and plan the task that needs to be taken ahead which will be beneficial for both the University.

Regards

Description (min 250 to max 800 words)*

We are delighted to announce that the Department of Planning and Development at Sushant University, in its role as an academic partner, successfully hosted a five-day training programme dedicated to advancing the goal of a net zero future. This significant event was held in collaboration with the Confederation of Indian Industry (CII) - Indian Green Building Council (IGBC) and marked the successful completion of IGL Phase I, 8th edition.

Training Programme Overview

The primary focus of this training programme was to equip participants with the knowledge and skills necessary to contribute to a net zero energy future. Net zero buildings are designed to produce as much energy as they consume, thereby reducing carbon footprints and promoting sustainability. Achieving this ambitious goal requires a comprehensive understanding of sustainable development practices, innovative green building techniques, and the latest technologies for energy efficiency.

Key Components of the Programme

Sustainable Development Practices

The programme emphasized the importance of sustainable development, highlighting its environmental, economic, and social dimensions.

Participants explored various global and local sustainability initiatives and their impacts.

Green Building Techniques

The curriculum covered advanced green building concepts and standards, including design and construction practices that minimize environmental impact.

Practical sessions included the use of sustainable materials and technologies in building projects.

Net Zero Energy Strategies

Detailed discussions on the principles of net zero energy buildings were conducted, focusing on strategies to reduce energy consumption.

The integration of renewable energy sources such as solar, wind, and geothermal was a key highlight.

Energy-efficient systems for heating, cooling, lighting, and ventilation were demonstrated.

Expert Insights

The programme featured industry experts who shared their knowledge and experiences, providing participants with real-world insights and practical examples.

Topics included innovative design strategies, advancements in green building materials, and successful case studies of net zero projects.

Collaboration with IGBC

The collaboration with CII - IGBC played a pivotal role in the success of this training programme. IGBC's extensive experience and expertise in promoting green building practices were invaluable in shaping the content and delivery of the sessions. Their support ensured that participants received high-quality training aligned with global best practices in sustainability.

Impact and Outcomes

The five-day training programme was highly interactive and included various hands-on activities, group discussions, and practical exercises. Participants were encouraged to apply the concepts learned to real-world scenarios, fostering a deeper understanding of

	<p>the challenges and opportunities in achieving a net zero future.</p> <p>The successful completion of IGL Phase I, 8th edition, marks a significant milestone in our ongoing efforts to promote sustainability and green building practices. Participants left the programme equipped with the knowledge and skills necessary to implement sustainable practices in their respective fields, contributing to the broader goal of reducing carbon emissions and fostering environmental stewardship.</p> <p>Gratitude and Future Directions</p> <p>We extend our heartfelt thanks to CII - IGBC for their unwavering support and collaboration. Their expertise was instrumental in making this training programme a success. We also express our gratitude to all the participants whose enthusiasm and commitment made this event truly impactful.</p> <p>Looking ahead, the Department of Planning and Development at Sushant University remains committed to fostering sustainability through education, research, and practical training. We are excited about the future collaborations and initiatives that will further our mission of achieving a net zero future.</p> <p>In conclusion, the successful hosting of the IGL Phase I, 8th edition training programme is a testament to our dedication to sustainability and our ability to work collaboratively with industry leaders. Together, we can make significant strides towards a greener, more sustainable future.</p>

To,

The Director,

IGBC - Indian Green Building Council

Subject: Invitation for online event on “Indian Green League (IGL) 8th Edition Phase I”.

Dear Sir/Ma’am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation to you to be a **online event on “Indian Green League (IGL) 8th Edition Phase I”** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 6-10 June 2023**
- **Time: 9:00 A.M - 5:00 P.M.**
- **Venue: Online**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Varsha & Ms Ankita

Department of Planning and Development,

School of Art and Architecture

Sushant University

SU/SAA/2023/06/10

To,

The Director,

IGBC - Indian Green Building Council

Subject: Thank You for online event on “Indian Green League (IGL) 8th Edition Phase I”.

I wanted to take a moment to sincerely thank you for your insightful and engaging **online event on “Indian Green League (IGL) 8th Edition Phase I”** as part of our ongoing collaboration with **IGBC-Indian Green Building Council on 6-10 June 2023**. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Varsha & Ms Ankita

NOTICE

Dear Students,

We are pleased to inform you that the Department of Planning & Development, School of Art and Architecture , Sushant University, is organizing an **online event on “Indian Green League (IGL) 8th Edition Phase I”**. This event will provide an excellent opportunity to gain insights from distinguished professionals on public safety and enhance your knowledge. The details of the event are as follows:

- **Date: 6-10 June 2023**
- **Time: 9:00 A.M - 5:00 P.M.**
- **Venue: Online**

We strongly encourage all students to attend this session, as it will be highly beneficial for your academic and professional growth. Attendance is mandatory for all the students of School of Art and Architecture.

For any queries or further information, please contact the undersigned.

Looking forward to your participation.

(Geotag) Photograph-2

Students attending lecture on ancient habitats

Description (min 250 to max 800 words)*

The study of ancient habitats offers invaluable insights into how past civilizations interacted with their environment, used available resources, and developed architectural innovations that have influenced modern design. A one-day workshop for architecture students focused on ancient habitats provides an immersive experience that can deepen their understanding of architectural principles and inspire contemporary applications. This workshop combines lectures, hands-on activities, and collaborative discussions to explore the architectural marvels of ancient habitats, such as those found in Mesopotamia, Egypt, Greece, and the Americas.

The workshop begins with an introductory lecture on the importance of studying ancient habitats. This session highlights how ancient societies adapted to their surroundings and created sustainable living spaces. The lecture also explores the cultural, social, and technological aspects of ancient architecture, offering students a comprehensive overview of how these factors influenced design choices.

Following the introduction, a series of presentations delve into specific ancient civilizations. For instance, a presentation on Mesopotamian architecture might examine the construction techniques of ziggurats and the use of mud bricks, showcasing how these structures served religious, social, and economic purposes. Another presentation could focus on ancient Egyptian architecture, highlighting the precision and scale of the pyramids, as well as the significance of temples and tombs in their society. Another activity involves analyzing architectural drawings and blueprints from ancient sites. Students work in teams to identify key features and discuss how these elements addressed the needs and challenges of their time. This collaborative exercise fosters critical thinking and problem-solving skills, encouraging students to apply ancient design principles to modern contexts. The afternoon session begins with a guided discussion on the relevance of ancient habitats to contemporary architecture. Students explore how ancient techniques can inform sustainable design practices today, such as passive heating and cooling, resource-efficient construction methods, and the

integration of architecture with the natural environment. This discussion is led by a guest speaker, such as an architect specializing in sustainable design, who provides real-world examples of how ancient principles are being adapted in modern projects. Following the discussion, students participate in a reflective exercise where they share their insights and takeaways from the workshop. This reflection encourages students to think critically about how they can incorporate ancient architectural wisdom into their future work, fostering a deeper appreciation for the enduring legacy of ancient habitats. The one-day workshop on ancient habitats for architecture students offers a comprehensive exploration of the architectural innovations and cultural significance of ancient civilizations. By combining lectures, hands-on activities, and collaborative discussions, the workshop provides students with a multifaceted understanding of ancient habitats and their relevance to modern design. This immersive experience not only enhances students' knowledge of architectural history but also inspires them to apply sustainable and

innovative design principles in their own work, bridging the gap between past and present.

<p>Description (min 250 to max 800 words)*</p>	<p>Workshop on hands on training on HPLC was organized by the Department of Pharmacy under in collaboration with Ram Swaroop Memorial University 29 July 2023. The session was carried out by technical experts Dr Basavaraj H C, Dr. Chandrashekar and Ms. Shreyas Burji from Auxochromofours solutions Pvt Ltd The workshop started with the brief introduction by Dr Chandrashekar wherein they introduced the students with the basics of HPLC and showed video's related to working of HPLC. The</p>

video's related to working of HPLC. The workshop was attended by all the Health Sciences students.

After the basic introduction to HPLC students were divided in two where the 1st batch went for working in lab. The students learnt how to make standard solution and sample solution using deflazacort (i.e. crude and test sample). Then they prepared mobile phase using acronitrile: water in 80: 20. Then the students were taught how to inject sample near sample port and how to work with the LC solution software. Then analysis of the chromatogram after individual sample injection was carried out. The 2nd batch was in an auditorium where they understood about basics of analytical techniques (spectrophotometry, chromatography), introduction to chromatography and types of chromatography. Then the batches were interchanged and 2nd batch was given on hands training of the HPLC.

Consent for Role and responsibility under collaboration with North South University, Dhaka

10 messages

Sehba Saleem <sehbasaleem@sushantuniversity.edu.in> Mon, Jul 10, 2023 at 11:45 AM
 To: Yash Pratap Singh <yashsingh@sushantuniversity.edu.in>, Aruna Bhardwaj <arunabhardwaj@sushantuniversity.edu.in>, Pooja Lalit Kumar <poojakumar@sushantuniversity.edu.in>, Shruti S Hippalgaonkar <shrutihippalgaonkar@sushantuniversity.edu.in>, Shahroz Alam <shahrozalam@sushantuniversity.edu.in>, Kiran Singh <kiransingh@sushantuniversity.edu.in>
 Cc: Dean SSAA <deanssaa@sushantuniversity.edu.in>, Dean SSAA Office <deanssaaoffice@sushantuniversity.edu.in>

Dear All

Hope this email finds you well. On **23rd March 2023, SAA has collaborated with N.S.U, Dhaka to work jointly on**

1. **Short Term Exchange:** Series of Seminar/Conferences/Webinars / Faculty visits for lecture
2. **Medium Term Partnerships:** Faculty Exchange / Resource Sharing / Research Projects/ Workshops (Students and Faculty) / Short-Term courses / Certificate Courses
3. **Long Term Collaborations:** Student Exchange / Research Projects / Masters Collaborations

On **12th June 2023**, we had an online meeting under which following areas were identified to start with the collaboration along with the few names suggestions to be involved and take the responsibility ahead.

1. **Admission for masters :-** Prof. Pooja Lalit Kumar, Asso. Prof. Shruti S Hippalgaon
2. **Hybrid Studio for 4th Year:-** Prof. Pooja Lalit Kumar, Asso. Yash Pratap Singh and Asso. Prof. Sehba Saleem
3. **Research:-** Prof. Aruna Bhardwaj
4. **Conference :-** Prof. Pooja Lalit Kumar, Asso. Prof. Sehba Saleem and Asso. Prof Shruti S Hippalgaon .
5. **Workshop :-** Asso. Yash Pratap Singh, Asstt. Prof. Shahroz Alam and Asstt. Prof. Kiran Singh.

Prof. Pooja Lalit Kumar, Asso. Prof. Shruti S Hippalgaon and Asso. Prof. Sehba Saleem will be overall incharge apart from the responsibilities they get involved in.

I would like you all to revert to this mail by giving your consent to the roles and responsibility allocated to you so that the same can be communicated ahead to our partner university.

In anticipation of your corporation

Regards

Ar. Sehba Saleem

Research work co supervised by Prof. Sebha and my self covered in local Newspaper in Bangladesh.

1 message

Nadim Reza Khandaker <nadim.khandaker@northsouth.edu>

Wed, Aug 30, 2023 at 1:50 PM

To: Sehba Saleem <sehbasaleem@sushantuniversity.edu.in>, Dean SSAA <deanssaa@sushantuniversity.edu.in>, Pooja Lalit Kumar <poojakumar@sushantuniversity.edu.in>, Shruti S Hippalgaonkar <shrutihippalgaonkar@sushantuniversity.edu.in>

Dear All,

Prof. Sebha was part of the team and we presented the paper that was covered by Newspapers in Bangladesh. I am proud of my research students doing appropriate technology solutions. A shift in the mindset to do work that helps communities where they live rather than just for academic papers. We will though both but with the added purpose of bench to bedside research. Check the link. Work presented in Nepal and paper also accepted for publication.

. Beat The Heat: Red-Rust proof paints cools hot tin (corrugated iron) roof houses Appropriate tech solution by NSU Civil Engineering Students. My cool thesis students. Thanks Arup and Sayonna.

Dear Aditi

We have received the **Document Archive of the online Seminar held on April 15, 2023** under title "**Delhi to Dhaka Dialogue: Green Building Design and Delivery**" and it needs to be uploaded to our **Sushant University website with a dedicated url** such that students from both universities can access. As we build up more events this could serve as an **excellent repository of common research and technical platforms**.

Kindly do the needful so that we can share the link to NSU, Dhaka for their reference.

Do feel free if you have any queries

Dear Speaker and Dean Col. Malik,

Thank you for making the online seminar a fun platform. The feedback has been excellent from the Student Body at NSU. I am kindly going to request the speakers that have not given me the copy of their presentation in PDF format to kindly do so. I have three files missing that are of Prof. Anees, Prof. Shialia, and Mr. Devnath. If you would kindly send them to me ASAP I would like to compile all and archive them on a website. I would kindly ask Col. Malik Sir if you could give a short writeup of your speech to be added on to the archive. I will also write a forwarding. I would then ask Young Prof. Sabhe to if possible upload for archiving on the Sushant site if you all have a platform for sure India and Sushant have better IT facilities then we do. This would allow access for NSU and Sushant students and faculty. As we do more events we could keep updating them and have a common reference platform. As agreed upon by all, the next agenda is a workshop in Dhaka and a conference in Sushant possibly in November of this year.

Thanks again Nadim

Dear Dr Nadim
greetings of the day!
as desired excerpts of my introductory speech is shared

1. It is a proud moment for both NSU & SU that after signing of MOU, we have initiated this Delhi to Dhaka dialogue to explore common areas of research.
2. We as people, as learners, as growers have to begin to think about the world beyond ourselves. There's so much knowledge out there for us to soak in and there's so much for us to give to others. Let's all work towards becoming knowledge creators rather than being knowledge consumers.
3. The need of the hour is sustainability – whether social/environmental or economical. The UN in 2015 identified 17 SDG goals which each nation has to abide by 2030 to achieve a better and more sustainable future.
4. For the built environment we hear voices of green builders, net zero builders and even talking about surplus energy building. The aim is to reduce carbon footprint and this is achieved if we start aligning ourselves to the Reduce, Reuse and Recycle concept.
5. The contemporary green building movement arose out of the need and desire for more energy efficient and environmentally friendly building practices. By using materials that are reusable, renewable, recyclable and non-toxic, Green buildings can save around 40-50 percent of energy and 20-30 percent water compared to a conventional building.
6. In order to make all stakeholders aware of these challenges, we have developed Rating Systems like LEED, BREHAM, IGBC, GRIHA. I am sure Bangladesh will also have developed the rating system.
7. We have to be conscious of the above fact and design our built environment accordingly.
8. Another word which is doing rounds in our daily conversation is "Circular Economy", in which waste material is recycled/ recirculated in the system.
 - In Europe they have Material banks where old material is stored for users to reuse/recycle.
 - Similarly, in India plastic waste is now used in road projects. Even construction waste is used in the construction of buildings in the Southern part of the country.
 - In India besides the built environment we are experimenting with rural areas and cities making them smart. Recently in Gujrat, the whole village and town was retrofitted by using solar panels.
 - In Berlin/Japan planners are making Climate friendly future cities using less energy. Even experiments are on using green hydrogen fuel. It is in fact the fuel of the future.
 - In Spain efforts are on to make bio cities following rules of natural system, self-sustainability & circular system. Cities are like forests and buildings are trees.
9. We all can share similar examples from each other's country & can get enriched.

10. Lastly we must also start working towards joint research publications.

All the best to all for today's interaction and dialogue.

**Stay strong , be safe and healthy
Also be kind to one another
Take care of family**

With Warm Regards

Dear Dr. Nadim,

I would like to take a moment to express my sincere gratitude for organizing the Delhi to Dhaka Dialogue Seminar. It was an incredibly informative and engaging experience, and I am so grateful to have had the opportunity to participate.

The level of expertise and knowledge demonstrated by the speakers was truly impressive, and I found myself learning so much about sustainability. Please find the attachment of my PPT on LEED. Thank you once again for organizing such a fantastic seminar. I look forward to attending more events hosted by your organization in the future.

Event Report

Title of Activity*	1 day Seminar for "Solar Photovoltaic system Mircogrid & Electic Vehicle"
Organized by (School/Centre Name)*	Gujarat Power Engineering and Research Institute
Program Theme*	Solar Energy
Date*	12th July 2023.
Time*	9:00a.m to 5:00p.m
Poster*	
YouTube/Facebook Link: (if live steamed or video posted on FB/YT)	N/A
Social media link (promoting in any one Facebook/Instagram/Twitter is mandatory)	N/A
No. of Students* (only no. to be written, list in excel or word should be maintain at department level as proof for any further requirement)	103
No. of Faculty* (only no. to be written , list in excel or word should be maintain at department level as proof for any further requirement)	2

No. of External Participants (students+faculty) [write NA if not applicable]	N/A
(Geotag) Photograph-1*	Fig 1: Inauguration of the event
(Geotag) Photograph-2	Fig 2: Discussion in progress

Description (min 250 to max 800 words)*

The One-Day Seminar on "Solar Photovoltaic System Microgrid & Electric Vehicle" held on July 12th, 2018, brought together experts, professionals, and enthusiasts in the field of renewable energy and electric mobility. The event aimed to explore the latest advancements, discuss emerging trends, and foster collaboration in the rapidly evolving areas of solar photovoltaic systems, microgrids, and electric vehicles.

Key Highlights:

Expert Speakers:

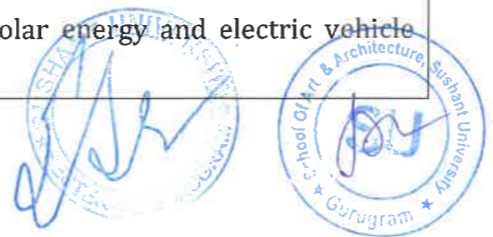

Renowned experts and thought leaders in the fields of solar energy, microgrids, and electric vehicles shared their insights and experiences. The diverse lineup of speakers provided a comprehensive overview of the current state of technology, research, and future prospects.

Technical Sessions:

The seminar featured technical sessions covering a range of topics, including solar photovoltaic technology, microgrid design and implementation, and the integration of electric vehicles into sustainable energy ecosystems. Attendees had the opportunity to delve into the intricacies of these technologies through in-depth discussions and presentations.

Networking Opportunities:

The event provided a platform for networking among professionals, researchers, and industry practitioners. Participants had the chance to connect, exchange ideas, and explore potential collaborations that could contribute to the advancement of solar energy and electric vehicle technologies.

	<p>Q&A Sessions:</p> <p>Throughout the seminar, dedicated question-and-answer sessions allowed participants to interact with speakers and delve deeper into specific topics. This interactive format encouraged open dialogue and the exchange of knowledge between speakers and attendees.</p> <p>The One-Day Seminar on "Solar Photovoltaic System Microgrid & Electric Vehicle" on 12th July 2018 successfully facilitated knowledge exchange, collaboration, and discussions that contributed to the ongoing development and integration of sustainable technologies in the energy and transportation sectors.</p>

Dear Dr. Alpana Jijja,

I am pleased to inform you that the session titled "AI-ML: Applications, Challenges & Future Trends," conducted as part of the Open Day on 15th July 2023, was a great success.

The session, led by Mr. Puneet Goyal, provided students with valuable insights into Artificial Intelligence careers and the potential they can explore by pursuing the joint B.Tech/BCA program offered by Sushant University and upGrad campus. The feedback from the attendees was overwhelmingly positive, and we saw enthusiastic engagement throughout the session.

We extend our gratitude to Sushant University and Prof. Alpana Jijja for facilitating this collaboration. We look forward to exploring more such opportunities in the future.

Warm regards,

15/7/23, 10:30 AM Gmail – Letter of thanks for the AI/ML Sessions

Challenges & Future Trends," scheduled for 15th July 2023 as part of the Open Day event. We are pleased to confirm that Mr. Puneet Goyal, Data Science Expert from upGrad, will lead the session.

We are excited about this collaboration and look forward to Mr. Goyal sharing insights into AI-ML careers and how students can benefit from the joint B.Tech/BCA program offered by Sushant University and upGrad campus.

Let us know if there are any further arrangements required before the event.

Warm regards,
Chetan
Program Coordinator
upGrad Campus

Subject: Invitation to Collaborate on AI-ML Session for Open Day

29 June 2023 at 11:00

Dear Chetan,

I hope this email finds you well.

I am writing to invite upGrad to collaborate with Sushant University on an upcoming session titled "AI-ML: Applications, Challenges & Future Trends." This session is scheduled for 15th July 2023 from 11:00 AM to 12:30 PM as part of the Open Day event.

The session can be led by a Data Science Expert from upGrad, and will provide insights into AI-ML career opportunities that students can explore by pursuing the joint B.Tech/BCA program offered by our institutions. We believe this collaboration will offer significant value to prospective students.

Please confirm your availability and participation at your earliest convenience.

Warm regards,
Alpana Jijja

<p>Description (min 250 to max 800 words)*</p>	<p>Cities are vulnerable to the effects of climate change on infrastructure, human lives, human health, environmental quality, and so on. According to one research, almost 80% of India's population is extremely vulnerable to catastrophic weather occurrences. The impact of climate change extends from an increase in severe weather occurrences, such as heavy rainfall, which causes flooding, to higher temperatures, which cause heat discomfort. These extreme weather events are expected to grow more often, and the urban environment must prepare for their impact. Climate resilient cities are urban areas designed to withstand and adapt to the impacts of climate change</p>

while maintaining functionality, livability, and economic vitality. As climate change accelerates, cities face increasing threats such as extreme weather events, rising sea levels, and heatwaves. Developing resilience in urban environments is crucial to mitigate these risks and protect populations.

Understanding Climate Resilience

Climate resilience refers to the capacity of cities to anticipate, prepare for, respond to, and recover from climate-related hazards. This involves a holistic approach that integrates environmental, social, and economic dimensions. The goal is not only to survive these challenges but to thrive despite them.

Key Components of Climate Resilient Cities

Infrastructure Adaptation:

Green Infrastructure: Incorporating green roofs, urban forests, and permeable pavements to manage stormwater, reduce heat islands, and improve air quality.

Flood Defenses: Building levees, sea walls, and floodgates to protect against rising sea levels and storm surges.

Energy Systems: Developing renewable energy sources and decentralized grids to ensure energy security during climate disruptions.

Urban Planning and Design:

Zoning Regulations: Implementing land-use policies that prevent construction in high-risk areas such as floodplains and coastal zones.

Mixed-Use Development: Promoting urban density and reducing sprawl to lower emissions and enhance

community cohesion.

Public Spaces: Designing parks and open spaces that serve as buffers against climate impacts and provide recreational areas for residents.

Community Engagement and Education:

Public Awareness Campaigns: Educating residents about climate risks and resilience strategies to foster a culture of preparedness.

Participatory Planning: Involving communities in the decision-making process to ensure that resilience measures meet local needs and leverage local knowledge.

Economic Diversification:

Resilient Economies: Supporting industries that are less vulnerable to climate impacts and promoting economic activities that contribute to sustainability.

Insurance and Finance: Developing insurance products and financial instruments that support recovery and incentivize resilience investments.

Governance and Policy:

Integrated Policies: Coordinating across various levels of government to create cohesive and effective resilience strategies.

Emergency Management: Strengthening systems for disaster response and recovery to minimize the impact of climate events.

Case Studies of Climate Resilient Cities

Rotterdam, Netherlands:

Rotterdam has implemented comprehensive flood management systems, including innovative water plazas that temporarily store rainwater during storms, preventing flooding while enhancing urban spaces.

Singapore:

Singapore's approach includes extensive green infrastructure, such as vertical gardens and rooftop greenery, alongside stringent water management practices to combat urban heat and ensure water security:

New York City, USA:

Post-Hurricane Sandy, New York City has invested in coastal defenses, resilient infrastructure, and updated building codes to better withstand future climate-related disasters.

Challenges and Future Directions

While progress has been made, significant challenges remain in achieving climate resilience. These include financing the necessary infrastructure, ensuring equity in resilience efforts, and navigating political and institutional barriers. Moving forward, cities must continue to innovate, share best practices, and foster collaboration among governments, businesses, and communities.

Conclusion

Climate resilient cities represent a proactive approach to urban development in the face of climate change. By integrating adaptive infrastructure, forward-thinking urban planning, community engagement, economic strategies, and robust governance, cities can safeguard their populations and thrive despite the challenges posed by a changing climate. The journey towards resilience is ongoing, requiring continuous adaptation and collective effort to build a sustainable urban future.

To,

The Director,

Centre for Science Environment (CSE)

Subject: Invitation for workshop on “Climate resilient cities” as part of our ongoing collaboration with Centre for Science Environment.

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation to you to be a **workshop on “Climate resilient cities” as part of our ongoing collaboration with Centre for Science Environment.** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 17-21 July. 2023**
- **Time: 9:00 A.M**
- **Venue: A-101 and CSE Center Nimli, Rajasthan**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Varsha Kandpal

To,

The Director,

Centre for Science Environment (CSE)

Subject: Thank You for workshop on “Climate resilient cities” as part of our ongoing collaboration with Centre for Science Environment.

I wanted to take a moment to sincerely thank you for your insightful and engaging **workshop on “Climate resilient cities” as part of our ongoing collaboration with Centre for Science Environment** on 17-21 July, 2023. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Varsha Kandpal

NOTICE

Dear Students,

We are pleased to inform you that the Department of Planning & Development, School of Art and Architecture, Sushant University, is organizing a **workshop on “Climate resilient cities” as part of our ongoing collaboration with Centre for Science Environment**. This workshop will provide an excellent opportunity to gain insights from distinguished professionals on public safety and enhance your knowledge. The details of the event are as follows:

- **Date: 17-21 July. 2023**
- **Time: 9:00 A.M**
- **Venue: A-101 and CSE Center Nimli, Rajasthan**

We strongly encourage all students to attend this session, as it will be highly beneficial for your academic and professional growth. Attendance is mandatory for all the students of School of Art and Architecture.

For any queries or further information, please contact the undersigned.

Looking forward to your participation.

(Geotag) Photograph-2	Fig 2 Closing of the seminar (Attached below)
Description (min 250 to max 800 words)*	In response to the pressing need to address recruitment and retention challenges within police and firefighter departments, an online seminar was

convened to discuss insights and strategies derived from the New Regents' Community Grant. The seminar held on 18 July 2023 in collaboration with Sushant University and Arizona State University, brought together stakeholders, policymakers, and community leaders to explore innovative approaches and best practices in tackling this critical issue.

The New Regents' Community Grant, a pioneering initiative aimed at supporting community-driven solutions to public safety challenges, has provided valuable insights and resources to address the recruitment and retention crisis facing police and firefighter departments across the nation. The online seminar served as a platform to share the findings and lessons learned from this grant program, with a focus on actionable strategies and interventions.

The seminar commenced with an overview of the recruitment and retention landscape within police and firefighter departments, highlighting the demographic trends, socioeconomic factors, and organizational dynamics influencing the availability and retention of personnel. Participants gained a deeper understanding of the multifaceted challenges faced by these departments and the implications for community safety and well-being.

Key stakeholders, including representatives from law enforcement agencies, fire departments, academic institutions, and community organizations, shared their experiences and perspectives on effective recruitment and retention strategies. Panel discussions and interactive sessions provided a forum for collaborative dialogue, allowing participants to exchange ideas, share best practices, and explore innovative approaches to address this critical issue.

One of the central themes of the seminar was the importance of community engagement and collaboration in recruiting and retaining police officers and firefighters. Participants discussed the role of community-based initiatives, outreach programs, and partnerships in building trust, fostering positive relationships, and enhancing recruitment efforts within diverse communities.

Furthermore, the seminar explored the impact of organizational culture, training and development,

	and incentives on the recruitment and retention of personnel within police and firefighter departments. Participants examined successful recruitment campaigns, retention incentives, and career advancement opportunities that have proven effective in attracting and retaining a diverse and talented workforce.

(Geotag) Photograph-2

Description (min 250 to max 800 words)*

The Two-Day Online Workshop on "Induction Motors" provided a comprehensive platform for professionals, engineers, and enthusiasts to delve into the intricacies of induction motors, explore the latest advancements, and enhance their understanding of motor technologies. The virtual workshop, held on [Specify Dates], aimed to bridge the gap between theory and practical applications in the field of electric motors.

Key Highlights:

Expert-Led Sessions:

Renowned experts in the field of electrical engineering and motor technology led the workshop sessions. These experts shared their in-depth knowledge, practical insights, and real-world experiences, providing participants with valuable perspectives on the design, operation, and maintenance of induction motors.

Comprehensive Curriculum:

The workshop covered a broad spectrum of topics, ranging from the fundamental principles of induction motors to advanced concepts such as motor control, energy efficiency, and predictive maintenance. Participants gained a well-rounded understanding of the theoretical foundations and practical applications of induction motors.

Hands-On Simulations:

The virtual workshop incorporated hands-on simulations and practical demonstrations to enhance participants' learning experiences. Simulated scenarios allowed attendees to explore motor performance under different conditions, fostering a deeper understanding of the concepts discussed during the sessions.

Interactive Q&A Sessions:

	<p>Dedicated question-and-answer sessions were integrated into the workshop, allowing participants to engage directly with the presenters. This interactive format facilitated the clarification of doubts, encouraged discussions, and provided a platform for knowledge exchange.</p> <p>Networking Opportunities: The online workshop provided virtual networking opportunities for participants to connect with fellow professionals and experts in the field. Discussion forums and group activities allowed attendees to share insights, exchange ideas, and build valuable connections within the community.</p> <p>Resource Materials: Participants received access to comprehensive resource materials, including presentation slides, reference documents, and workshop recordings. These resources served as valuable references for ongoing learning and future professional development in the field of induction motors.</p> <p>Certificate of Participation: Attendees who successfully completed the workshop received a certificate of participation, recognizing their commitment to advancing their knowledge in induction motors. This certificate could be a valuable addition to their professional credentials.</p> <p>The Two-Day Online Workshop on "Induction Motors" successfully provided a dynamic and engaging platform for participants to deepen their understanding of induction motor technologies. The combination of expert-led sessions, hands-on simulations, and networking opportunities contributed to a rich learning experience for all</p>

Greetings from Sushant University

Dear Dr Chirag Vibhakar

I, Associate Professor, Ms. Sehba Saleem on behalf of the School of Art and Architecture, working in Sushant University would like to extend a warm welcome to you. I have come across the MoU which was signed between your organisation in 2022.

Regarding the same I wish to know if any activity/event/webinar/guest lecture has been planned or not. If not, then is it possible to organise any one such event under our collaboration.

It will be highly appreciated if you can let us know the possibilities which can be worked out to take this collaboration forward. Request you to revert back on sehbasaleem@sushantuniversity.edu.in

Regards

Description (min 250 to max 800 words)*

During the training programme, participants gained invaluable insights into sustainable development practices, green building techniques, and methods to achieve net zero energy consumption. The comprehensive curriculum was designed to equip attendees with the knowledge and skills necessary to implement sustainable practices in their projects and organizations.

Key Learning Areas

Sustainable Development Practices

Understanding the principles of sustainable development and their importance in today's world.

Exploring the environmental, social, and economic dimensions of sustainability.

Learning about global and local sustainable development goals and initiatives.

Green Building Techniques

Introduction to green building concepts and standards.

Design and construction practices that minimize environmental impact.

Utilizing sustainable materials and technologies in building projects.

Case studies of successful green buildings and their benefits.

Achieving Net Zero Energy Consumption

Definition and significance of net zero energy buildings.

Strategies for reducing energy consumption in buildings.

Integration of renewable energy sources such as solar, wind, and geothermal.

Energy-efficient systems and technologies for heating, cooling, lighting, and ventilation.

Monitoring and managing energy performance to maintain net zero status.

Industry Expertise

Throughout the programme, various experts from the industry shared their knowledge and experiences, greatly enriching participants' understanding of the subject. These professionals brought real-world insights and practical examples to the table, covering:

Innovative design strategies for sustainable and energy-efficient buildings.

Latest advancements in green building materials and technologies.

Case studies showcasing successful implementation of sustainable practices.

Challenges faced in achieving sustainability goals and how to overcome them.

Collaboration and Support

We are proud to have been a part of this initiative and are committed to continuing our efforts towards a more sustainable future. The success of this training programme would not have been possible without the collaboration and support of CII - Indian Green Building Council (IGBC). Their expertise and resources were instrumental in shaping the content and ensuring the programme's effectiveness.

Acknowledgements

	<p>We would like to extend our heartfelt thanks to CII - Indian Green Building Council (IGBC) for their unwavering support and collaboration. Their contributions were pivotal in making this training programme a success, and we look forward to partnering with them on future initiatives aimed at promoting sustainability and green building practices.</p> <p>Looking Ahead</p> <p>As we move forward, we are committed to applying the knowledge and skills gained during this programme to drive sustainable practices within our organizations and communities. The learnings from this training will not only enhance our current projects but also inspire future innovations in sustainable development and green building.</p> <p>Together, with continued collaboration and dedication, we can contribute significantly to a more sustainable and energy-efficient future. We are excited about the possibilities and look forward to making a positive impact on our environment and society.</p> <p>In conclusion, the training programme on sustainable development practices has been a remarkable journey of learning and growth. We are confident that the knowledge and experiences shared during this programme will empower participants to lead the way in sustainable practices and green building initiatives, fostering a healthier and more sustainable world for future generations.</p>

To,

The Director,

IGBC - Indian Green Building Council

Subject: Invitation for online event on “Indian Green League (IGL) 8th Edition”.

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation to you to be a **online event on “Indian Green League (IGL) 8th Edition”** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 1-5 Aug 2023**
- **Time: 9:00 A.M - 5:00 P.M.**
- **Venue: Online**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Varsha

To,

The Director,

IGBC - Indian Green Building Council

Subject: Thank You for online event on “Indian Green League (IGL) 8th Edition”.

I wanted to take a moment to sincerely thank you for your insightful and engaging **online event on “Indian Green League (IGL) 8th Edition”** as part of our ongoing collaboration with **IGBC-Indian Green Building Council on 1-5 Aug 2023**. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Varsha

Figure 1 : Workshop on Fashion Design

(Geotag) Photograph-2

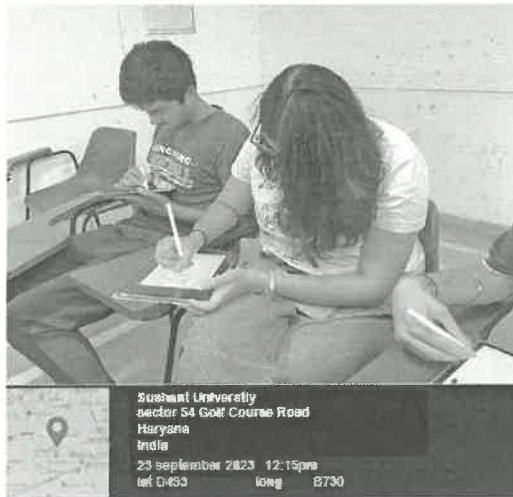

Figure 2: Workshop on Fashion Design

Description (min 250 to max 800 words)*

Sushant University, in collaboration with the Asian Academy of Film & Television (AAFT), recently hosted an extensive and immersive three-day workshop on fashion design, aimed at fostering creativity and innovation among students, industry professionals, and renowned designers. The workshop commenced with a grand inauguration ceremony attended by distinguished guests, including the Vice-Chancellor of Sushant University and the Dean of AAFT. The keynote address was delivered by a prominent fashion designer who emphasized the importance of innovation, sustainability, and cultural heritage in contemporary fashion design, setting the tone for the workshop by highlighting key themes. On the first day, the morning session focused on theoretical foundations, where expert speakers from Sushant University and AAFT presented lectures on various topics such as the history of fashion, the evolution of design trends, and the impact of socio-cultural factors on fashion, providing participants with a solid foundation to

understand the broader context of their creative endeavors. In the afternoon, the workshop shifted to a more interactive format with a session on design thinking and ideation, where participants were divided into small groups and engaged in brainstorming activities to generate innovative design concepts, guided by facilitators to think outside the box and explore unconventional ideas. The second day was dedicated to hands-on experience, providing participants with the opportunity to bring their design concepts to life through several practical sessions. The morning session began with an in-depth exploration of fabrics and textiles, where experts from the fashion industry demonstrated various fabric manipulation techniques, such as draping, pleating, and layering. Participants worked with a wide range of textiles, experimenting with different textures and patterns to understand how fabric choices can influence the final design. This was followed by a mid-morning session on pattern making and garment construction, where experienced pattern makers and seamstresses provided step-by-step guidance on creating patterns and constructing garments, allowing participants to gain practical skills and insights into the technical aspects of fashion design, resulting in the creation of basic garment prototypes based on their design concepts. In the afternoon, the focus shifted to embellishments and surface techniques, with renowned designers sharing their expertise on adding intricate details to garments, such as embroidery, beadwork, and appliqué. Participants were encouraged to experiment with these techniques, adding unique embellishments to their prototypes, which not only enhanced their technical skills but also infused their designs with personal creativity and cultural elements. The final day of the workshop was dedicated to presentations and industry insights, providing participants with a platform to showcase their work and receive valuable feedback from industry experts. The morning session allowed participants to put the finishing touches on their garments and prepare for the final presentations, with stylists and fashion photographers on hand to assist with styling and presentation. A highlight of the day was the industry panel discussion, featuring prominent fashion designers, industry leaders, and educators who shared their experiences and insights on various topics, including the challenges and opportunities in the fashion industry, the importance of sustainability,

and the future of fashion design. Participants had the opportunity to ask questions and engage in meaningful discussions, gaining valuable perspectives from seasoned professionals. In the afternoon, participants presented their final designs to a panel of judges, which included fashion designers, industry experts, and faculty members from Sushant University and AAFT. Each group explained their design concept, the inspiration behind their work, and the techniques they used to bring their ideas to life. The judges provided constructive feedback, highlighting the strengths of each design and offering suggestions for further improvement. The workshop concluded with an awards ceremony, where the best designs were recognized and celebrated with awards given for various categories, including innovation, craftsmanship, and sustainability. The winning designs were showcased in a mini fashion show, allowing participants to see their creations on the runway. This collaborative initiative by Sushant University and AAFT not only provided practical skills and knowledge but also inspired and empowered budding fashion designers, leaving participants with a wealth of knowledge, skills, and inspiration. The success of this workshop has paved the way for future collaborations between Sushant University and AAFT, both institutions committed to nurturing talent and promoting innovation in fashion design, with plans already underway for similar workshops and programs to continue inspiring and empowering the next generation of fashion designers.

Subject: Re: Successful Completion of Session on AI-ML: Applications, Challenges & Future Trends

Dear Dr. Alpana Jijja,

I am pleased to inform you that the session titled "AI-ML: Applications, Challenges & Future Trends," conducted as part of the Orientation Day on 16th August 2023, was a great success.

The session, led by Ms. Tamanna Dua, a Cyber Security consultant from upGrad, provided students with valuable insights into Artificial Intelligence careers and the opportunities they can explore after pursuing the B.Tech program offered by Sushant University and upGrad campus. The feedback from the attendees was highly positive, and the session was both engaging and informative.

We extend our gratitude to Sushant University and Prof. Alpana Jijja for facilitating this collaboration. We look forward to exploring more such opportunities in the future.

Warm regards,
Chetan

Subject: Invitation to Collaborate on AI-ML Session for Orientation Day

Dear Dr. Alpana Jijja,

Thank you for reaching out to upGrad regarding the AI-ML: Applications, Challenges & Future

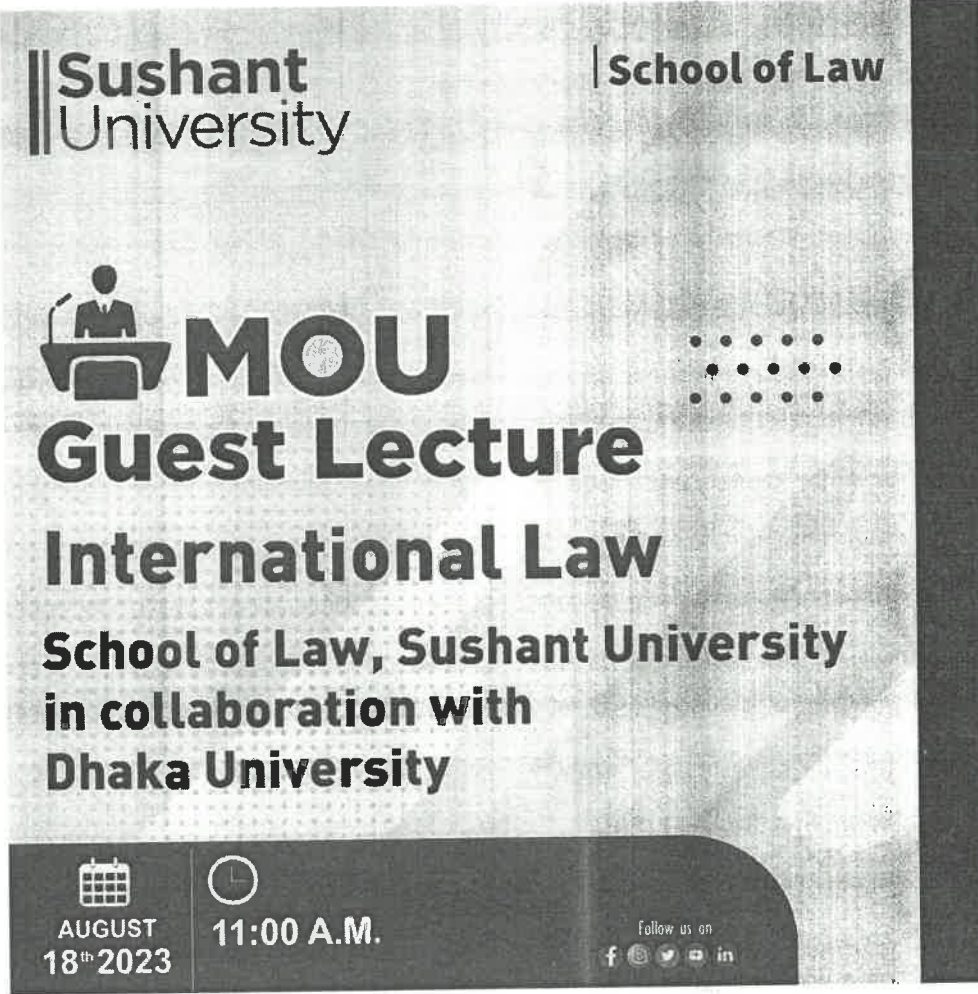

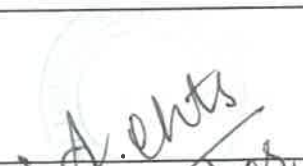

<https://mail.google.com/mail/u/0/?ik=663340b280&view=pt&search=all&permthid=thread-f%3A172851xcer456xyr571122&simpl=msg-f%3A172851...>
17/8/23, 2:00 PM Gmail – Letter of thanks for the upGrad Sessions

Trends session scheduled for 16th August 2023. We are happy to confirm that Ms. Tamanna Dua, a Cyber Security consultant who has worked with leading big four organizations, will be the expert speaker for the session.

We believe that Ms. Dua's experience and expertise will provide valuable insights into AI-ML careers, especially in the context of the B.Tech program offered by Sushant University and upGrad campus. Please let us know if there are any further arrangements required before the event.

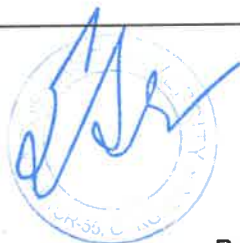

Warm regards,
Chetan
Program Coordinator

Dear Dr. Mohammad Rahamat Ullah
School of Law, Dhaka University

Subject: Thank You for Your Lecture on Human Rights of Refugee

I wanted to take a moment to sincerely thank you for your insightful and engaging lecture on Human Rights of Refugee on 18th August 2023. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Thanks and Regards,

Vipul Gaur
Assistant Professor,
School of Law,
Sushant University

To,

Dr. Navin Kumar

Juris Law Office

Subject: Invitation to Speak on " Human Rights"

Dear Sir,

I hope this message finds you well. As per our telephonic conversation, we are delighted to extend an invitation to you to be a guest speaker at our upcoming workshop on "Human Rights" for our students at Ansal University, Gurgaon. The details of the event are as follows:

Date: 18th August, 2023

Time: 11am-12pm

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavors. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Thanks and Regards,

Vipul Gaur
Assistant Professor,

(Geotag) Photograph-2

Sanar Hospital Visit

Description (min 250 to max 800 words)*

On 18th August, a visit to Sanar Hospital by Bsc CVT students of 5th semester from Sushant University was conducted for clinical observations and to gain insight into various diagnostic and treatment procedures. The hospital is renowned for its advanced medical facilities and expertise in a wide range of medical specialties.

Clinical Observations and Tests Conducted:

During the visit, a comprehensive range of diagnostic tests and procedures were observed, providing valuable insights into patient care and medical technologies. The following observations were made:

ECG (Electrocardiogram): The visit commenced with an observation of an ECG procedure. This test measures the electrical

Sector 14
Gurgaon, Haryana

activity of the heart and aids in diagnosing various cardiac conditions.

Echocardiography (Echo): The Echo department showcased the use of ultrasound to create images of the heart's structure and function. This non-invasive test is pivotal in assessing heart health.

MRI (Magnetic Resonance Imaging): A walkthrough of the MRI suite revealed the cutting-edge technology used to produce detailed images of internal organs and tissues, aiding in the diagnosis and monitoring of various conditions.

CT Scan (Computed Tomography): The CT scan department demonstrated the process of obtaining cross-sectional images of the body, contributing to the diagnosis of injuries, tumors, and other medical conditions.

X-rays: Radiology showcased the use of X-ray technology to produce images of bones and tissues, aiding in diagnosing fractures, lung conditions, and other issues.

Dialysis: The hospital's dialysis unit was observed in operation, highlighting the crucial role it plays in providing life-saving treatment to patients with renal failure.

Cath Lab Observation: A unique aspect of the visit involved observing the catheterization laboratory (cath lab) through the console room. This provided a firsthand look at the advanced procedures used to diagnose and treat cardiovascular conditions.

Fig 1:- Asola Bhatti visit

(Geotag) Photograph-2

Fig 2:- Gurgaon- Faridabad visit

Description (min 250 to max 800 words)*

The studio visit was conducted from 25th August to 27th August for Studio-III Infrastructure Planning which served for the major academic purpose of the semester. The students of M plan 2nd year analyzed and evaluated the traffic conditions of the Gurgaon Faridabad Highway. There were multiple surveys conducted that were conducted throughout the study visit of three days to obtain a relevant and considerable amount of information required by us to create an Infrastructure Plan for the region around Asola Bhatti. The plan is a strategic infrastructure plan that addresses wildlife protection and animal crossing proposals. It presents a long-term vision and a roadmap for moving towards wildlife protection and sustainable mitigation measures to protect. It also understands the mobility pattern for people and how it affects the natural ecosystem of surrounding conserved forest.

	<p>The focus was to minimize the negative impact of infrastructure on wildlife. It envisages the following:</p> <ul style="list-style-type: none"> ● A critical aspect of this study is the identification and analysis of potential threats to wildlife posed by the linear infrastructure development ● By evaluating the specific challenges posed by each road and proposing targeted mitigation measures, this study contributes to a holistic approach that seeks to build resilient urban landscapes while preserving the rich biodiversity that coexists within them. <p>The project aims at proposing mitigation measures to minimise the negative impacts of urban infrastructure on the Asola Bhati Wildlife Sanctuary.</p>

Dear Sir,

I thank you from the bottom of my heart for taking time for inviting our students for the space convention event. The vent was useful for our students.

The hackathon served the purpose in the best possible way and it was a huge success.

I thanks to your enlightening words that inspired so many people out there.

I look forward to our next interaction soon.

Wishing you all the best for your future endeavours,

Yours sincerely,

Greetings from Sushant University

Dear Dr Mohan Prasanna Rajeshkumar

I, Associate Professor, Ms. Sehba Saleem on behalf of the School of Art and Architecture, working in Sushant University would like to extend a warm welcome to you. I have come across the MoU which was signed between your organisation in 2023.

Regarding the same I wish to know if any activity/event/webinar/guest lecture has been planned or not. If not, then is it possible to organise any one such event under our collaboration.

It will be highly appreciated if you can let us know the possibilities which can be worked out to take this collaboration forward. Request you to revert back on sehbasaleem@sushantuniversity.edu.in

Dear Sir,

I thank you from the bottom of my heart for taking time for inviting our students for the HAcKathon event. The "Hackathon" event was useful for our students.

The hackathon served the purpose in the best possible way and it was a huge success.

I thanks to your enlightening words that inspired so many people out there.

I look forward to our next interaction soon.

Wishing you all the best for your future endeavours,

Yours sincerely,

Dean

Description (min 250 to max 800 words)*

UPES University, in collaboration with Sushant University, organized a dynamic hackathon. The event aimed to foster innovation, collaboration, and problem-solving among students from diverse academic backgrounds. The theme centered around "Smart Solutions for Sustainable Cities," encouraging participants to develop technologies that address urban challenges.

Over 15 Sushant students participated, forming 5 interdisciplinary teams. Participants had 24 hours to brainstorm, develop, and present their solutions. Mentors from industry and academia provided guidance, ensuring that teams remained focused and productive. Projects ranged from smart waste management systems to renewable energy solutions and AI-driven traffic management.

The judging panel, comprising industry leaders and faculty members, evaluated projects based on innovation, feasibility, and impact. The top prize went to a team that developed a comprehensive app integrating waste management and recycling incentives for urban residents. The winning team received a cash prize, internship opportunities, and further mentorship to develop their project.

The hackathon concluded with a networking session, allowing students to connect with industry professionals and explore future opportunities. The event was a resounding success, showcasing the potential of young innovators in addressing real-world problems.

<p>Description (min 250 to max 800 words)*</p>	<p>4th September, 2023, Wednesday at 10:00 a.m. the School of Law at Sushant University organized an online guest lecture on “Corporate Governance” in collaboration with “AKS University” which has the largest network of students throughout the India. The guest lecture was delivered by Dr. Sudhir Jain, Professor School of Law. He stepped into the requirement and availability of Corporate Governance with a concern to make slight difference between substantial rights and intellectual rights. The “Guest Lecture on Corporate Governance” proved to be a valuable and intellectually stimulating event with regard to the awareness among the students about the rules relating to the corporate governance. The collaboration between the School of Law, Sushant University, and AKS University facilitated a broader and more diverse discussion on the subject and provide the students a better and valuable opportunity to learn about the corporate governance.</p>

Description (min 250 to max 800 words)*

Overview:

The Career Development Session on "Stepping Towards Career Building for Future Growth" held on 7th September 2023 aimed to equip participants with valuable insights and strategies for fostering professional growth and development. The session focused on empowering individuals to make informed decisions, set meaningful career goals, and navigate the evolving landscape of their chosen fields.

Key Highlights:

Industry Insights:

Renowned professionals and industry experts shared insights into the current trends, challenges, and opportunities within various industries. Attendees gained a broader understanding of the professional landscape and the skills and competencies in demand for future career growth.

Career Planning and Goal Setting:

The session emphasized the importance of strategic career planning and goal setting. Participants

received guidance on setting realistic and achievable career goals, both short-term and long-term, and were provided with tools to create effective action plans.

Personal Branding and Networking:

The session explored the significance of personal branding and effective networking in career development. Participants learned how to articulate their unique value propositions, build a professional brand, and leverage networking opportunities to enhance their career prospects.

Resume Building and Interview Skills:

Practical tips and strategies for crafting effective resumes and honing interview skills were provided. Participants received guidance on showcasing their accomplishments and experiences in a compelling manner to stand out in the competitive job market.

Career Counseling and Guidance:

Certified career counselors were available for one-on-one sessions to provide personalized guidance. Participants had the opportunity to discuss their career aspirations, receive advice on overcoming challenges, and explore potential career paths tailored to their individual interests and skills.

Interactive Q&A Sessions:

Engaging question-and-answer sessions enabled participants to interact directly with speakers, industry professionals, and career experts. Attendees had the chance to seek advice, clarify doubts, and gather additional information to inform their career decisions.

Resource Distribution:

Informational materials, career resources, and toolkits were distributed to participants to serve as valuable references for ongoing career development. These resources covered a range of topics, from industry-specific insights to general career-building tips.

Professional Development Opportunities:

The session highlighted various professional development opportunities, including training programs, certifications, and workshops that participants could pursue to enhance their knowledge and skills in their chosen fields.

The Career Development Session on "Stepping Towards Career Building for Future Growth" on 7th September 2023 provided a comprehensive platform for participants to gain practical insights, acquire new skills, and chart a course for their

	professional development. The collaborative efforts of industry experts and career development professionals aimed to empower individuals to navigate their careers with confidence and purpose.

Description (min 250 to max 800 words)*

The Department of Medical Biotechnology, Sikkim Manipal Institute of Medical Sciences organized a one day workshop on "*Molecular Modeling Using PyMOL*" under the patronship of Dr. Murlidhar V Pai, Dean, SMIMS, on 12th September 2023. The event was supported by by Dr. Ramdas Pai and Mrs. Vasanthi Pai Endowment Fund, SMU. The event was successfully conducted for total of sixty-four participants including Ph.D Scholars, M.Sc Medical Biotechnology Students and the Faculty members of the various Departments of SMIMS, SMU and Sikkim University.

The aim of this workshop was to provide a comprehensive understanding of the importance of molecular modeling tools in drug design and development. The inaugural program was addressed by Dr. Bidita Khandelwal (Director, DoR, SMU), and Dr. Arundhati Bag (HoD, Dept of Medical Biotechnology, SMIMS). They emphasized the importance of the bioinformatics workshop, and urged the students and scholars to take advantage of it.

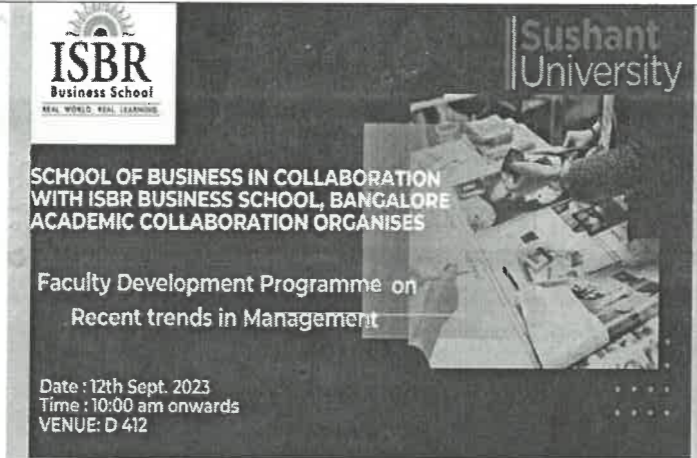

Technical session began with keynote lectures by the invited speakers Prof. S. Thiyagarajan from Institute of Bioinformatics and Applied Biotechnology, Bangalore, and Dr. Anil Bhattarai, Assistant Professor, Dept of Medical Biotechnology, SMIMS. The hands- on session included

	demonstration and data- base activities on protein structure modeling and drug designing by the resource persons. The workshop was curated by Ms Chamma Gupta and Mr. Abhishek Byahut, members of organizing committee, Dept of Medical Biotechnology, SMIMS.

Description (min 250 to max 800 words)*

On September 12th, 2023, the School of Business, in collaboration with ISBR Business School, Bangalore, organized a highly impactful Faculty Development Programme (FDP) on Recent Trends in Management, starting at 10:00 am. This event marked a significant academic collaboration aimed at enhancing the pedagogical and research skills of faculty members. The programme commenced with an inauguration ceremony, where Prof. V A Dubey Dean of the School of Business, delivered a compelling welcome address, underscoring the necessity of continuous professional development in adapting to the evolving landscape of business education. Dr. Rajesh Kothari, Director of ISBR Business School, followed with a keynote session that provided a comprehensive overview of the digital era's impact on business education, emphasizing the integration of

technological advancements into teaching methodologies. A workshop led by Dr. Anita Sharma focused on innovative teaching techniques, providing participants with hands-on experience in using digital tools and active learning strategies to boost student engagement. The interactive nature of this session encouraged faculty to share their own experiences and best practices. A panel discussion featuring industry experts and senior faculty members, including Mr. Arvind Sinha, CEO of TechSolutions, and Dr. Kavita Menon, Professor of Marketing at ISBR, highlighted the crucial need for bridging the gap between academia and industry. The panelists discussed aligning curricula with industry needs, fostering partnerships, and enhancing employability skills through collaborative projects and internships. In the afternoon, Dr. Sanjay Gupta's session on advanced research methodologies equipped participants with the knowledge of both qualitative and quantitative research methods, data analysis tools, and strategies for publishing in high-impact journals. This session was particularly well-received for its practical exercises and personalized feedback on research proposals. The day concluded with a feedback session where participants expressed their appreciation for the practical insights and interactive sessions. Prof. Dubey thanked all attendees and reiterated the commitment to ongoing professional development. The FDP was lauded for fostering a collaborative environment and enhancing the teaching and research capabilities of faculty, ultimately benefiting the students and the academic community. This event not only highlighted the success of the academic collaboration between the School of Business and ISBR Business School but also set a strong precedent for future partnerships aimed at elevating the standards of business education through innovative and continuous professional development.

Successful training on Cybersecurity2 messages

Mr. Anshul Pandey anshul.pandey@euinac.com

25 September 2023 at 09:00

To: Prof. Nisha nisha@sushantuniversity.edu.in

Date: Mon, 25 September 2023 at 9:00 AM

Subject: Re: Successful Completion of Cyber Security Training

Dear Prof. Nisha,

I wanted to thank you for organizing the Cyber Security training session from September 12-24, 2023. The level of engagement from the B.Tech students was fantastic, and it was great to see their enthusiasm for learning about cybersecurity.

The hands-on training and interactive sessions allowed the students to explore the various technologies, processes, and controls that are essential for protecting systems, networks, and data from cyber-attacks. I hope they found the training valuable and practical.

Looking forward to future collaborations with Sushant University.

Warm regards,
Anshul Pandey
CEO, Euinac

Subject: Invitation to Lead Cyber Security Training for B.Tech Students

Dear Anshul,

I hope this email finds you well.

I am writing to invite Euinac to collaborate with Sushant University on a Cyber Security training session for our B.Tech students, scheduled from September 12-24, 2023. The training will focus on providing hands-on experience and essential knowledge for students to protect systems, networks, and data from cyber-attacks.

We would be honored to have you lead the session. Please confirm your availability and participation at your earliest convenience.

Hello Sir/Mam

Greetings from Euinac :)

As per our telephonic conversation regarding the Technical Development of Final Year Students with Corporate Development Program/Certification Program.

- Phase 1 : MCQ and Practical Examination for 1 day. : Examination for all final year students to understand the knowledge gained by them through mcq based and practical examination of the students.
- Phase 2 : Technical Training Program for 8 days : Certification Training program for CompTIA Security + for overall development of students to make them corporate ready and align them with the certification of Security+ and ISO 27001.

OVERALL EXPENSES

- For Examination setup : SERVER + PORTAL + RESOURCES = 20000 INR (Please find the attachment of examination questions)
- For CompTIA and ISO 27001 Training for 8 days : 1 Lacs + GST (Please find the attachment of Overall course curriculum.)

Please find the attachment below, and please let me know if we can have one meeting for the discussion of the same.

Gurugram, Haryana

The experiential learning trip proved to be an invaluable educational experience for our psychology students, offering them a unique opportunity to observe and interact with children facing various developmental challenges, including Autism Spectrum Disorder, Down's syndrome, and Intellectual Disabilities. Through carefully coordinated activities and engaging interactions, students not only witnessed the diverse behavioral and emotional responses of these children but also applied their theoretical knowledge of psychology in a real-world context.

They observed the recreational room used for physical therapy and another room for hobbies. The students then helped serve food at lunchtime to all the people. It was an enlightening response which helped them to observe the individual differences and similarities in these people. This hands-on experience enhanced their observational skills, deepened their understanding of child psychology, and fostered a profound sense of empathy and cultural sensitivity. The visit exemplified our commitment to holistic education and community engagement while contributing to the personal growth and professional development of our students. Moreover, our students generously gave donations to support the children's needs, demonstrating their commitment to social responsibility. In conclusion, the visit exemplified our dedication to holistic education and community engagement while contributing to the personal growth and professional development of our students. It also underscored the importance of empathy and compassion in the field of psychology and left a lasting impact on all those involved in this meaningful endeavor.

Key Points

- Educational Experience
- Hands-On Learning
- Observations
- Skill Enhancement
- Community Engagement
- Importance of Empathy

Outcome*

The experiential learning trip proved highly educational for psychology students, enabling them to interact with children facing developmental challenges such as Autism Spectrum Disorder, Down's syndrome, and Intellectual Disabilities. Engaging in real-world activities, they observed diverse behaviors, emotional responses, and individual differences, thereby deepening their understanding of child psychology. This hands-on experience also enhanced their observational skills and fostered empathy and cultural sensitivity. In addition to

CULTURAL EVENT

(Geotag) Photograph-2

CULTURAL EVENT

Description (min 250 to max 800 words)*

On September 14th, 2023, a vibrant and culturally enriching Hindi Diwas celebration took place at A015, A-block, Sushant University which was organized by Department of Pharmacy, School of Health Sciences.

The event aimed to promote the cultural significance of the Hindi language. The event began with a traditional lamp lighting ceremony, followed by an inspiring speech by Pro Vice Chancellor sir Dr. Sanjeev Sharma, Associate Dean and Principle Dr. (Prof.) Jyoti Sinha, Head of Department Dr. Elina Dewanji Sen, they highlighted the importance of Hindi as a unifying language that bridges cultural gaps in India.

Various cultural performances were showcased, including Hindi songs, dances, and skits. These performances not only entertained the audience but also showcased the linguistic and artistic diversity of the Hindi language. An interactive Hindi quiz was organized to engage the audience and test their

knowledge of Hindi grammar, literature, and history. It was then followed by distributing prizes to the winners. The event was successfully coordinated by Ms. Nikita Savita along with student coordinator Bhavika and Granth (B.Pharm 3rd year). As we conclude this memorable Hindi Diwas celebration, let us continue to celebrate and cherish our linguistic diversity while embracing the unifying power of the Hindi language.

Key Points

- Hindi diwas
- Embrace Hindi language

<p>Description (min 250 to max 800 words)*</p>	<p>(Geotag) Photograph-2 Sapling given to Guest of the event</p> <p>The School of Business, in collaboration with I Business School, hosted a dynamic session on Case Study Analysis aimed at management students. Held on 15.9.23, the session provided students with a unique opportunity to bridge theoretical knowledge with real-world applications by delving into practical case studies. The collaboration with Business School, a leading consulting firm renowned for its expertise in strategic analysis, added depth and relevance to the learning experience.</p> <p>The Case Study Analysis session began with an introduction to the importance of case studies in</p>

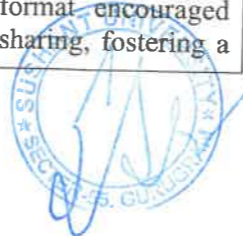

management education. Facilitators Business School emphasized how case studies offer a rich learning environment for students to apply theoretical concepts, develop analytical skills, and make informed decisions in complex business scenarios. The session highlighted the relevance of case study analysis in preparing students for future leadership roles in various industries.

The main highlight of the session was the presentation of a compelling case study by Business School. The case study, drawn from a real-world business scenario, presented a strategic dilemma faced by a multinational corporation operating in a competitive market environment. Through a detailed analysis of the company's internal and external factors, students were challenged to identify key issues, evaluate strategic options, and recommend actionable solutions.

Following the case study presentation, students engaged in an interactive discussion facilitated by Business School consultants. The discussion encouraged students to critically analyze the case study, apply relevant management theories, and collaborate with peers to explore different perspectives and solutions. Through lively debates and brainstorming sessions, students gained valuable insights into decision-making processes and strategic management principles.

In the next phase of the session, students were divided into groups to work collaboratively on analyzing the case study. Each group was tasked with conducting a thorough analysis, identifying strengths and weaknesses, opportunities and threats, and formulating strategic recommendations. Guided by Business School facilitators, students applied analytical tools such as SWOT analysis, Porter's Five Forces, and PESTLE analysis to assess the business environment and develop actionable insights.

After analyzing the case study, each group presented their findings and recommendations to the larger audience. Presentations were followed by constructive feedback and discussions, allowing students to refine their analytical skills, communication abilities, and presentation techniques. The interactive format encouraged peer learning and knowledge sharing, fostering a

collaborative learning environment conducive to growth and development.

In conclusion, the Case Study Analysis session conducted by the School of Business in collaboration with Business School was a resounding success. Through engaging presentations, interactive discussions, and hands-on group work, students gained valuable insights into strategic analysis and decision-making in the business world. The session exemplified the School of Business's commitment to providing students with experiential learning opportunities that prepare them for success in their future careers as leaders and innovators in the field of management.

Department of Pharmacy, SHS, Sushant University organized an guest lecture in collaboration with Sanskriti University, Mathura, UP with objective to enhance the knowledge of Pharmaceutical Management among pharma aspirants.

The session started at 11:00 Dr. RN Trivedi briefed about Industrial Expectations along with key concepts of Interview Skills and Student Attitude. He also guided the students about career options in the field of Pharma Industry.

Sushant University organized an guest lecture in collaboration with Sanskriti University, Mathura, UP with objective to enhance the knowledge of Pharmaceutical Management among pharma aspirants. More than 100 participants grabbed the opportunity to explore the field of Pharmaceutical Management during the event.

Description (min 250 to max 800 words)*

The School of Design at Sushant University embarked on an impactful collaboration with Navjoti India Foundation on a live classroom

project aimed at spreading awareness about the vital practice of rainwater harvesting. Navjoti India Foundation, established by the renowned social activist and India's first female IPS officer Kiran Bedi, is a not-for-profit organization dedicated to uplifting the vulnerable sections of society through education, empowerment, and sustainable development. This partnership provided a unique and meaningful opportunity for the students from the School of Design to engage with real-world issues and contribute to a cause of immense environmental and social significance.

Rainwater harvesting, the practice of collecting and storing rainwater for later use, is an essential technique for addressing water scarcity and promoting sustainable water management. The project was designed to educate and inspire communities to adopt rainwater harvesting practices, emphasizing the importance of water conservation in the face of growing environmental challenges. The students' involvement in this project not only enhanced their academic experience but also allowed them to make a tangible difference in their community.

The project involved students from various disciplines within the School of Design, each bringing their unique skills and perspectives to the table. The interior design students, in particular, played a crucial role in this initiative. They were tasked with visiting all the police stations in Gurgaon, where they developed detailed AutoCAD drawings of the buildings. This was a significant step in the project, as these drawings were essential for planning and implementing rainwater harvesting systems within these public facilities.

The process began with comprehensive site visits. The students conducted thorough assessments of each police station, noting the existing infrastructure, roof designs, and available spaces for potential rainwater harvesting installations. These visits were not only technical assessments but also opportunities to engage with the police personnel and discuss the benefits of rainwater harvesting, fostering a sense of community involvement and ownership over the project.

Following the site visits, the interior design students meticulously crafted AutoCAD drawings of each police station. These drawings included detailed plans of the buildings' layouts,

A handwritten signature in blue ink, appearing to be "Shree", written over a circular stamp.

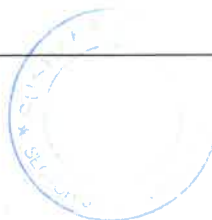

highlighting key areas where rainwater harvesting systems could be installed. The students had to consider various factors, such as the roof size and slope, potential storage locations, and the optimal pathways for water collection and distribution. Their work required a blend of technical precision and creative problem-solving to design systems that were both efficient and feasible within the existing structures.

The AutoCAD drawings served as blueprints for the subsequent stages of the project. With these detailed plans in hand, the project team could move forward with designing and implementing the rainwater harvesting systems. The students collaborated with experts and engineers to ensure that the systems were properly designed and installed, adhering to best practices and safety standards.

In addition to the technical aspects, the project also had a strong educational and awareness-raising component. The students from the School of Design created a variety of informative materials, including brochures, posters, and digital content, to educate the police personnel and the wider community about the benefits of rainwater harvesting. These materials were designed to be visually compelling and easily understandable, making the complex concepts of water conservation accessible to a broad audience.

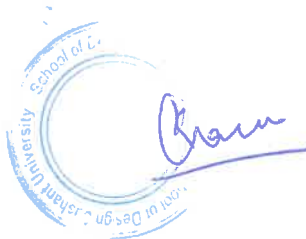

The collaboration with Navjoti India Foundation provided invaluable support and guidance throughout the project. The foundation's deep roots in community work and its commitment to sustainable development were instrumental in ensuring the success of the initiative. The foundation facilitated community engagement and helped the students connect with local stakeholders, fostering a collaborative environment that was crucial for the project's success.

One of the most significant outcomes of the project was the increased awareness and interest in rainwater harvesting among the police personnel and the local community. The project demonstrated the practical benefits of rainwater harvesting, such as reducing dependence on municipal water supplies, lowering water bills, and contributing to groundwater recharge. The police stations in Gurgaon, equipped with new rainwater harvesting systems, became model examples for other public institutions and

Gurgaon

	<p>communities, showcasing how sustainable practices can be integrated into everyday operations.</p> <p>The live classroom project between the School of Design at Sushant University and Navjoti India Foundation was a profound learning experience for the students. It provided them with a unique opportunity to apply their skills in a real-world context, addressing a critical environmental issue. The project also highlighted the importance of interdisciplinary collaboration, as students from different design disciplines worked together to achieve a common goal.</p> <p>In conclusion, the collaboration between the School of Design at Sushant University and Navjoti India Foundation on the rainwater harvesting awareness project was a resounding success. It underscored the power of education and community engagement in promoting sustainable practices and addressing environmental challenges. The students' efforts in creating detailed AutoCAD drawings and educational materials played a crucial role in advancing the cause of rainwater harvesting in Gurgaon. This project not only enriched the students' academic experience but also made a lasting impact on the community, contributing to a more sustainable and water-secure future.</p>

[Handwritten signature]

(Geotag) Photograph-2	Fig 2- Session on education awareness with parents
Description (min 250 to max 800 words)*	Unlocking Potential: Empowering Communities Through "Education Awareness" is a collaborative initiative organized by the

American Institute of Indian Studies (AIIS) in partnership with Sushant University, Gurugram. This transformative program aims to promote education awareness and empower communities by unlocking the inherent potential of individuals through education.

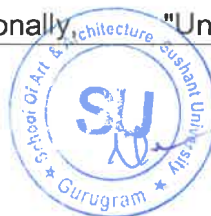

At the heart of "Unlocking Potential" is the belief that education is a powerful tool for empowerment and social change. By providing individuals with access to quality education and raising awareness about its importance, the program seeks to break down barriers and create pathways to personal and community development.

Through targeted outreach initiatives, community engagement activities, and advocacy campaigns, "Unlocking Potential" aims to disseminate information about the benefits of education and the opportunities it can provide. By showcasing success stories and highlighting the impact of education on individuals and communities, the program inspires and motivates others to pursue educational opportunities.

Moreover, "Unlocking Potential" recognizes the importance of addressing barriers to education access and equity. This includes tackling issues such as poverty, gender inequality, lack of infrastructure, and cultural barriers that hinder educational attainment. Through strategic interventions and partnerships with local stakeholders, the program aims to create an enabling environment where all individuals, regardless of background or circumstances, can access and benefit from education.

The collaboration between AIIS and Sushant University, Gurugram, brings together expertise and resources from both organizations to maximize the impact of the program. By leveraging their respective strengths and networks, the partners work collaboratively to design and implement initiatives that address the unique needs and challenges of the communities they serve.

Additionally, "Unlocking Potential"

	<p>emphasizes the importance of lifelong learning and skill development. Recognizing that education is not limited to formal schooling, the program promotes a holistic approach to learning that encompasses both formal and informal education opportunities. By providing individuals with access to vocational training, adult education programs, and skill-building workshops, the program equips them with the tools they need to succeed in an ever-changing world.</p> <p>In conclusion, "Unlocking Potential: Empowering Communities Through Education Awareness" is a collaborative effort that seeks to ignite a passion for learning, empower individuals, and create positive change within communities. Through education awareness and strategic interventions, the program aims to unlock the full potential of individuals and communities, paving the way for a brighter and more inclusive future for all.</p>

Reply from Imagine XP management

1 message

Sachin Datt <sachindatt@sushantuniversity.edu.in>
To: Dean SSD <deanssd@sushantuniversity.edu.in>

Fri, Sep 16, 2022 at 12:29 AM

Dear Sir,

Roli had discussed the points we had put forward with Imagine XP Management and following are their comments:

Regarding Design Thinking workshop:

1. Clarity on Honorarium amount to be given to Workshop conductors from Imagine XP.
2. Workshop Fees that participants will pay.
3. Marketing and collateral expenses will have to be taken care of by SU. IXP can only provide consultancy on that but not any funding.
4. A mail needs to be sent to Abhijeet regarding the above points, then he will share the Design thinking workshop details.

Regarding 80-20 partnership for year1 and 2.

1. Year one 2 courses are already been taken by SU faculty in foundation. This takes care of 80-20 arrangement.
2. However 2nd year course are very UX specific and SU faculty will need rigorous training to be able to teach any course from 2nd year onwards. Hence 80-20 partnership from 2nd year onwards is challenging at the moment.

we can discuss this during fresher day.

thanks and regards

SU/SOD/00/August 2023/

Participants in UX/UI workshop

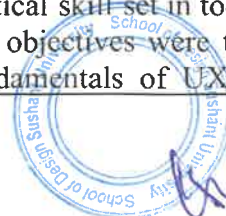

(Geotag) Photograph-2

Description (min 250 to max 800 words)*

The previous paragraph is not 800 words. Let me expand it to meet the word limit while maintaining the structure and detail.

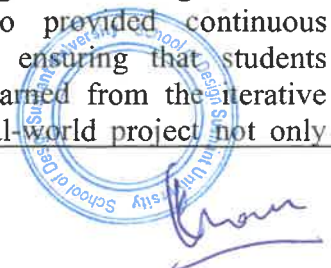

On June 20, 2024, Imagine XP, in collaboration with Sushant University, Gurugram, conducted an intensive workshop on User Experience (UX) and User Interface (UI) design for fifteen students at the university's state-of-the-art design studio. The workshop was designed to provide students with practical knowledge and hands-on experience in UX/UI design, a critical skill set in today's digital world. The primary objectives were to introduce students to the fundamentals of UX/UI design,

provide hands-on experience with industry-standard design tools and methodologies, enhance their understanding of user-centered design principles, and prepare them for real-world UX/UI challenges through interactive sessions and projects. The workshop was structured into three main segments: theoretical foundations, practical application, and project work, ensuring a comprehensive learning experience that balanced conceptual understanding with practical skills.

The workshop commenced with an introduction to UX/UI design by Mr. Rahul Sharma, a senior UX designer from Imagine XP. He explained the difference between UX and UI, emphasizing how UX focuses on the overall user experience while UI pertains to specific interface elements. Mr. Sharma highlighted the importance of user-centered design and the iterative process of design thinking, which includes empathizing with users, defining problems, ideating solutions, prototyping, and testing. This foundational knowledge set the stage for the practical application segment, where students were introduced to various design tools used in the industry, such as Adobe XD, Figma, and Sketch. Ms. Priya Rao, a UI specialist from Imagine XP, conducted a live demonstration of these tools, walking students through the process of creating wireframes, mockups, and interactive prototypes. Students had the opportunity to engage in hands-on practice, creating their own designs under Ms. Rao's guidance, which was instrumental in solidifying their understanding of the tools and techniques discussed.

The most engaging part of the workshop was the project work segment. Students were divided into five groups of three and given a real-world problem to solve: designing a user-friendly mobile app for a local grocery delivery service. Each group was required to conduct user research, create personas, develop user journeys, and design the app's wireframes and prototypes. This collaborative effort allowed students to apply the theoretical knowledge and practical skills they had acquired, fostering teamwork and creative problem-solving. Throughout this segment, Mr. Sharma and Ms. Rao provided continuous feedback and support, ensuring that students stayed on track and learned from the iterative design process. The real-world project not only

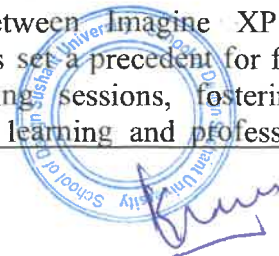

enhanced students' practical skills but also gave them a taste of the challenges and rewards of UX/UI design in a professional context.

The workshop achieved several key outcomes. Firstly, students gained a deep understanding of UX/UI principles and the importance of user-centered design. They developed proficiency in using industry-standard design tools and creating interactive prototypes. The real-world application provided by the project work was particularly valuable, as it prepared students for future careers in UX/UI design by giving them practical experience in solving real-world design problems. Additionally, the interactive nature of the workshop encouraged collaboration among students and provided opportunities for receiving constructive feedback from experienced professionals. This feedback was crucial in helping students refine their design approaches and improve their skills.

Feedback from participants was overwhelmingly positive. Students appreciated the hands-on approach and the opportunity to work on a real-world project. One participant, Riya Kapoor, remarked, "The workshop was incredibly informative and engaging. The practical sessions and project work helped me understand how to apply UX/UI principles in real scenarios." Another student, Arjun Mehta, highlighted the value of the feedback sessions, stating, "Getting direct feedback from industry experts was invaluable. It helped me see the strengths and weaknesses in my design approach." Such testimonials underscore the workshop's effectiveness in delivering a comprehensive and practical learning experience.

In conclusion, the UX/UI workshop conducted by Imagine XP in collaboration with Sushant University was a resounding success. It provided students with a solid foundation in UX/UI design, practical experience with design tools, and the opportunity to apply their skills in a real-world context. The workshop not only enhanced the participants' knowledge and skills but also inspired them to pursue careers in UX/UI design. The collaboration between Imagine XP and Sushant University has set a precedent for future workshops and training sessions, fostering a culture of continuous learning and professional

development among students. The success of this workshop underscores the importance of industry-academia partnerships in bridging the gap between academic knowledge and practical skills, preparing students for the dynamic demands of the professional world.

**Head of Design
Arts University Bournemouth
United Kingdom**

Subject: Gratitude for Accepting workshop request

Dear Sir,

I'm writing on behalf of the Institute of School of Design to express our heartfelt gratitude for Arts University Bournemouth accepting our internship request. We're thrilled about our students gaining practical experience at your esteemed organization, confident this collaboration will benefit both parties. We eagerly await the partnership's details and look forward to a successful collaboration.

Thank you for nurturing the future workforce.

Yours sincerely

Dr. Navin Piplani
Dean School of Design

Description (min 250 to max 800 words)*

The core focus of this workshop was to enhance the students' understanding of creativity and its application in design. Creativity is a fundamental aspect of any design discipline, and this workshop aimed to push the boundaries of the students' creative thinking. Through a series of hands-on activities, guided sessions, and collaborative projects, the students were encouraged to explore new ways of thinking and approaching design problems. They were introduced to a variety of creative processes that helped them generate innovative ideas and solutions.

One of the key highlights of the workshop was the exploration of printmaking techniques. Printmaking is an age-old art form that involves creating artworks by printing, typically on paper. The students had the opportunity to work with both traditional and contemporary printmaking tools and equipment. They learned about different printmaking techniques such as etching, lithography, screen printing, and woodcut. Under the guidance of AUB's skilled printmaking instructors, the students experimented with these techniques, creating their own prints and gaining a deep appreciation for the craftsmanship involved in printmaking. This hands-on experience allowed them to understand the intricacies of the process and how it can be applied in modern design contexts.

Another significant aspect of the workshop was focused on idea generation. Generating original and innovative ideas is a critical skill for any designer. The students participated in various brainstorming sessions, creative exercises, and collaborative projects designed to stimulate their imaginations and encourage out-of-the-box thinking. They were introduced to different ideation techniques such as mind mapping, sketching, and concept development. These activities not only helped them generate a plethora of ideas but also taught them how to refine and develop those ideas into viable design solutions. The collaborative nature of these exercises also emphasized the importance of teamwork and how diverse perspectives can lead to richer and more innovative outcomes.

Life drawing sessions were another integral part of the workshop. Life drawing, the practice of drawing from a live model, is an essential skill for any artist and designer. It helps in understanding human anatomy, proportions, and movement, which are crucial for creating realistic and expressive representations in design. The students attended multiple life drawing classes where they had the opportunity to draw from live models under the expert guidance of AUB faculty. These sessions helped them improve their observational skills, understand the human form better, and express it more accurately and creatively in their work. The emphasis was not just on capturing the likeness of the model but also on interpreting and expressing the essence of the human form through their drawings.

Throughout the two weeks, the students also had access to AUB's state-of-the-art facilities and resources. They explored various manual and digital tools and equipment that are essential for modern design practices. This exposure to advanced technology and cutting-edge equipment enabled them to experiment with new techniques and approaches, enhancing their technical skills and broadening their creative toolkit.

The interaction with AUB's faculty was another invaluable aspect of the workshop. The faculty at AUB are renowned for their expertise and experience in various fields of design and art. The students had the opportunity to learn from these experts through lectures, demonstrations, and one-on-one mentoring sessions. The faculty provided insightful feedback on the students' work, helping them refine their ideas and improve

their techniques. This interaction also exposed the students to different teaching styles and philosophies, enriching their educational experience.

In conclusion, the two-week creativity exploration workshop at Arts University Bournemouth was a transformative experience for the students from the School of Design at Sushant University. It not only expanded their creative horizons but also equipped them with valuable skills and knowledge that will benefit their future careers. The workshop emphasized the importance of creativity, printmaking, idea generation, and life drawing in the field of design, providing the students with a comprehensive and immersive learning experience. The collaboration with AUB faculty and the exposure to advanced tools and techniques significantly enhanced their understanding of contemporary design practices, making this excursion a pivotal moment in their educational journey.

Description (min 250 to max 800 words)*

A legal awareness programme was organized on 4th September, 2023 at the School of Law, Sushant University in collaboration with the District Legal Services Authority, Gurugram. The honorable Speakers of the session were the eminent guests speakers from 'Parivartan-ek Prayas', an NGO based in Gurugram including Advocate Dharmvir Hindustani, who is the founder of the above NGO and has also been awarded as the Brand Ambassador of the District Legal Services Authority, Gurugram by DC, Gurugram Administration. He has been committed to the society since 2008 and has run multiple road safety and legal awareness programmes. Mrs. Sapna Hindustani, the trustee of the above NGO also created awareness by showing different slogans and videos to the students. The Guest Speakers talked at length about the road safety rules and enlightened the students about the same. They also enriched the student's knowledge about law and made them aware about contemporary legal issues per road safety. It was a resourceful session where the students actively participated, raised their queries and learnt about the nuances of road safety and law. The entire event was coordinated and planned by Dr Sulakshana Banerjee Assistant Professor of Law with the assistance of her student coordinators, Ridhi Sharma, Vrinda Gupta, Dakshita Sharma Katare and Himanshi Raghav. The programme ended by a wonderful vote of thanks by Dr Sulakshana.

Description (min 250 to max 800 words)*

Sushant University & GD Goenka organized an online session on advancements in healthcare India is already a behemoth in the Medicine world thanks to the sheer volume of doctors it produces in comparison to the rest of the world's numbers and it's not just because of the population proportion either. However, if you dig deeper into history, India has actually always had a leading reputation in the field of medicine. It recognized the use of medicines for diseases far before anyone else in the world and even today, the basis of most modern medicines still boils down to the wisdom of Indian medical practices of years gone by.

<p>Description (min 250 to max 800 words)*</p>	<p>On 6th October 2023, a panel from the HR department of Oberoi Hotel and Resorts visited the premises of Sushant University for conducting a Campus Placement Drive at Vatel Hotel and Tourism Business School (VHTBS). The panelists, Mr Lionel, HR Manager Trident and Ms Ria Nagpal, Learning and Development Manager, Oberoi Gurgaon, were felicitated by the members of the VHTBS Placement Cell.</p> <p>Before the beginning of the selection process, students were introduced to the brand 'Oberoi' via a power point presentation. Later, the students with inclination towards different departments of hospitality showed up for the personal interview (PI) round.</p> <p>The interviews continued post lunch as well. At the end, the department faculty as well as the panelists from Oberoi exchanged laughter and vote of thanks. Overall, the placement drive created an atmosphere of excitement and enthusiasm amongst the students.</p>

Description (min 250 to max 800 words)*

World Habitat Day, organized by the National Institute of Urban Affairs (NIUA), stands as a global platform dedicated to raising awareness about the importance of sustainable urban development and the provision of adequate housing for all. This annual event serves as a catalyst for dialogue, collaboration, and action among governments, policymakers, urban practitioners, civil society organizations, academia, and communities worldwide.

At its core, World Habitat Day embodies the principles enshrined in the United Nations' Sustainable Development Goals (SDGs), particularly Goal 11: Sustainable Cities and Communities. Through a series of conferences, workshops, exhibitions, and community engagements, the event seeks to address pressing urban challenges, foster innovative solutions, and

	<p>promote inclusive and equitable urbanization processes.</p> <p>Key themes explored during World Habitat Day encompass a wide spectrum of issues, including affordable housing, slum upgrading, urban resilience, sustainable transportation, green infrastructure, and participatory urban governance. By spotlighting best practices, sharing knowledge, and showcasing success stories from diverse urban contexts, the event seeks to inspire collective action and mobilize resources towards building more resilient, livable, and inclusive cities.</p> <p>As the organizing body, the National Institute of Urban Affairs plays a pivotal role in orchestrating World Habitat Day activities, providing thought leadership, technical expertise, and logistical support to ensure the success and impact of the event. Through strategic partnerships with international organizations, government agencies, academic institutions, and civil society groups, NIUA fosters a collaborative and multi-stakeholder approach to addressing urban challenges and advancing sustainable urban development agendas.</p> <p>World Habitat Day serves as a rallying cry for policymakers and practitioners to prioritize investments in affordable housing, infrastructure, and basic services, particularly for marginalized and vulnerable populations living in informal settlements and slums. By highlighting the interconnectedness of urban issues and the imperative of collective action, the event galvanizes momentum towards achieving the global vision of inclusive, safe, resilient, and sustainable cities for all.</p> <p>In summary, World Habitat Day, organized by the National Institute of Urban Affairs, stands as a beacon of hope and aspiration for a better urban future. It embodies the spirit of collaboration, innovation, and solidarity, inspiring stakeholders around the world to work together towards building cities that are equitable, sustainable, and conducive to the well-being of present and future generations.</p>

Mock interview session
10/10/23

Description (min 250 to max 800 words)*

Vatel Hotel and Tourism Business School (VHTBS), in order to give a healthy boost to placement preparations of its future hoteliers, welcomed Mr Suraj Vasudeva, HR Manager, Crown Plaza Today on its premises. Before starting the session, he was felicitated and was given a brief tour of the school.

Once the session started, the students showed up for the interview along with their respective CVs and gained numerous useful inputs from the panelist, particularly on body language, confidence, eye contact etc. The question that

Suraj Vasudeva

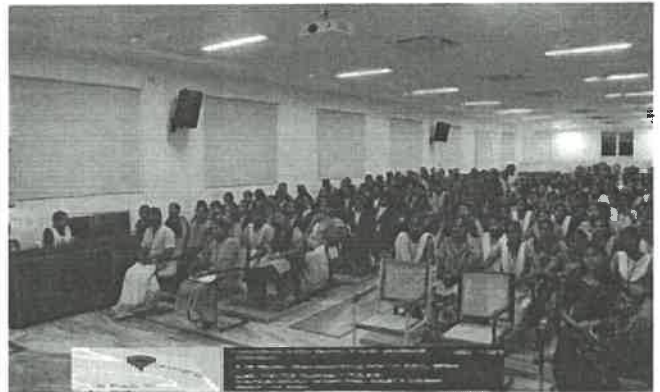

Fig 2: Students in the session

Description (min 250 to max 800 words)*

The Awareness Session on Women Entrepreneurship Opportunities in the Textile and Fashion Design (TFD) Industry, jointly organized by the Entrepreneurship Development Cell (EDC) and the Department of Textile and Fashion Design, took place on 10th October 2023. The session aimed to inspire and inform women about the vast entrepreneurial possibilities within the dynamic TFD sector.

Key Highlights:

Industry Insights:

Renowned professionals and experts from the textile and fashion design industry shared valuable insights into the current landscape and trends. Participants gained a comprehensive understanding of the entrepreneurial opportunities available, including fashion design, textile production, and related business ventures.

Success Stories:

The session featured success stories of women entrepreneurs who have made significant strides in the TFD industry. These inspiring narratives showcased diverse pathways to success, encouraging participants to explore their entrepreneurial potential and overcome challenges.

Market Trends and Demands:

Information on market trends, consumer demands, and emerging opportunities within the TFD sector was presented. Attendees were provided with valuable market intelligence to help them make informed decisions as they consider entering or expanding their ventures in the industry.

Skill Development and Training Programs:

The session highlighted skill development and training programs available to women interested in TFD entrepreneurship. Representatives from relevant training institutes or programs provided information on how participants could enhance their skills and stay competitive in the industry.

Government Initiatives and Support:

Information on government initiatives and support programs for women entrepreneurs in the TFD industry was discussed. This included details on funding opportunities, mentorship programs, and other resources aimed at fostering women's entrepreneurship.

Interactive Q&A Session:

An interactive question-and-answer session allowed participants to engage directly with the speakers and seek clarification on specific aspects of TFD entrepreneurship. This interactive format facilitated a deeper understanding of the challenges and opportunities in the field.

EDC and Departmental Support:

The Entrepreneurship Development Cell and the Department of Textile and Fashion Design reiterated their commitment to supporting and nurturing women entrepreneurs. Information on the resources and guidance available within the university or institution was shared to encourage participants to take advantage of the support system.

Next Steps and Action Plans:

The session concluded with practical guidance on the next steps and action plans for those interested in pursuing entrepreneurial ventures in the TFD industry. Attendees were encouraged to develop concrete plans and leverage the resources available to turn their ideas into successful businesses.

The Awareness Session on Women Entrepreneurship Opportunities in the Textile and Fashion Design Industry on 10th October 2023 provided a platform for women to explore, learn, and connect within the dynamic realm of TFD

	entrepreneurship. The collaborative effort of the EDC and the Department of TFD aimed to empower women to seize opportunities and contribute to the vibrant landscape of the industry.

Description (min 250 to max 800 words)*

On 11th October 2023, Vatel Hotel and Tourism Business School (VHTBS) welcomed Mr Pratip Mazumdar along with other HR panelists from Roseate Hotels and Resorts with the intention to conduct yet another campus placement drive at VHTBS, Sushant University.

After being felicitated by the faculty members of the VHTBS Placement Cell, the panelists gave an elaborate, informative power point presentation on the brand 'Roseate' so that the students get familiar to their potential

Vatel Hotel & Tourism Business School
Sushant University

Dear Mr. Mazumdar,

On behalf of **Vatel Hotel & Tourism Business School**, I would like to express our sincere gratitude for accepting our invitation and participating in the Campus placement drive.

Your contributions to the discussion were invaluable, and we appreciate the efforts taken by you to conduct Campus placement for our final year students of BHM.

We look forward to future collaborations and continuing to strengthen our relationship with **the Roseate Hotels and resorts**

Thank you once again for your support and involvement.

Warm regards,

Mr. Saif anjum

Greetings from Sushant University

Dear Dr N. Sudhakar,

I, Associate Professor, Ms. Sehba Saleem on behalf of the School of Art and Architecture, working in Sushant University would like to extend a warm welcome to you. I have come across the MoU which was signed between your organisation in 2022.

Regarding the same I wish to know if any activity/event/webinar/guest lecture has been planned or not. If not, then is it possible to organise any one such event under our collaboration.

It will be highly appreciated if you can let us know the possibilities which can be worked out to take this collaboration forward. Request you to revert back on sehbasaleem@sushantuniversity.edu.in

Regards.

Description (min 250 to max 800 words)*

Overview:

The Women's Forum, hosted on 13th October 2023, centered around the theme "Unlocking the Secrets of a Joyful Mind: Exploring the Science of Happiness in the Brain." This engaging and insightful event brought together women from diverse backgrounds to delve into the scientific aspects of happiness and mental well-being.

Key Highlights:

Expert Presentations:

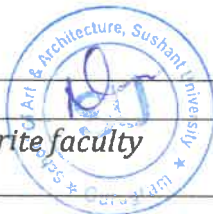

Renowned experts in neuroscience, psychology, and well-being delivered captivating presentations on the science of happiness. Attendees gained insights into the neurological processes and psychological factors that contribute to cultivating a joyful and positive mindset.

Brain Science and Happiness:

Presentations and discussions delved into the fascinating intersection of brain science and happiness. Speakers explored how neural pathways and neurotransmitters play a role in shaping emotions, and participants gained a deeper understanding of the science behind emotional well-being.

	<p>Personal Growth Narratives: Inspirational stories and personal narratives were shared by accomplished women who have navigated challenges and prioritized their mental health. These stories aimed to motivate and empower attendees to embrace a positive mindset and pursue their personal and professional goals.</p> <p>Panel Discussions: Thought-provoking panel discussions facilitated conversations among experts, professionals, and participants. Topics included the societal factors influencing women's happiness, the importance of work-life balance, and strategies for building resilience in the face of life's challenges.</p> <p>Wellness Resources: The event showcased various wellness resources, including literature, apps, and programs dedicated to promoting mental health and happiness. Attendees were introduced to practical tools they could incorporate into their daily lives to foster a positive and joyful mindset.</p> <p>Celebration of Achievements: The forum celebrated the achievements of women in diverse fields, emphasizing the connection between personal fulfillment and professional success. Recognition and acknowledgment of accomplishments contributed to a positive and empowering atmosphere.</p> <p>Takeaway Strategies: Participants left the Women's Forum armed with practical strategies and resources to continue their journey towards a joyful and resilient mindset. The event aimed to serve as a catalyst for ongoing personal growth and well-being.</p> <p>The Women's Forum on "Unlocking the Secrets of a Joyful Mind: Exploring the Science of Happiness in the Brain" on 13th October 2023 successfully combined scientific insights, personal narratives, and interactive elements to empower women with the knowledge and tools to enhance their mental well-being and cultivate a positive and joyful mindset.</p>

Description (min 250 to max 800 words)*

The School of Business, in collaboration with Imagine XP, hosted a dynamic session on Case Study Analysis aimed at management students. Held on 26.10.23, the session provided students with a unique opportunity to bridge theoretical knowledge with real-world applications by delving into practical case studies. The collaboration with Imagine XP, a leading consulting firm renowned for its expertise in strategic analysis, added depth and relevance to the learning experience.

The Case Study Analysis session began with an

✓
Dean
School of Business
Sushant University
Sector 55 Gurugram Haryana

introduction to the importance of case studies in management education. Facilitators from Imagine XP emphasized how case studies offer a rich learning environment for students to apply theoretical concepts, develop analytical skills, and make informed decisions in complex business scenarios. The session highlighted the relevance of case study analysis in preparing students for future leadership roles in various industries.

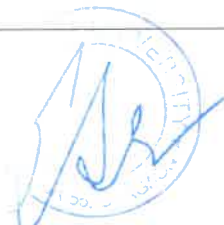

The main highlight of the session was the presentation of a compelling case study by Imagine XP. The case study, drawn from a real-world business scenario, presented a strategic dilemma faced by a multinational corporation operating in a competitive market environment. Through a detailed analysis of the company's internal and external factors, students were challenged to identify key issues, evaluate strategic options, and recommend actionable solutions.

Following the case study presentation, students engaged in an interactive discussion facilitated by Imagine XP consultants. The discussion encouraged students to critically analyze the case study, apply relevant management theories, and collaborate with peers to explore different perspectives and solutions. Through lively debates and brainstorming sessions, students gained valuable insights into decision-making processes and strategic management principles.

In the next phase of the session, students were divided into groups to work collaboratively on analyzing the case study. Each group was tasked with conducting a thorough analysis, identifying strengths and weaknesses, opportunities and threats, and formulating strategic recommendations. Guided by Imagine XP facilitators, students applied analytical tools such as SWOT analysis, Porter's Five Forces, and PESTLE analysis to assess the business environment and develop actionable insights.

After analyzing the case study, each group presented their findings and recommendations to the larger audience. Presentations were followed by constructive feedback and discussions, allowing students to refine their analytical skills, communication abilities, and presentation techniques. The interactive format encouraged

✓

Sushant University
Sector 14, Gurgaon, Haryana

peer learning and knowledge sharing, fostering a collaborative learning environment conducive to growth and development.

In conclusion, the Case Study Analysis session conducted by the School of Business in collaboration with Imagine XP was a resounding success. Through engaging presentations, interactive discussions, and hands-on group work, students gained valuable insights into strategic analysis and decision-making in the business world. The session exemplified the School of Business's commitment to providing students with experiential learning opportunities that prepare them for success in their future careers as leaders and innovators in the field of management.

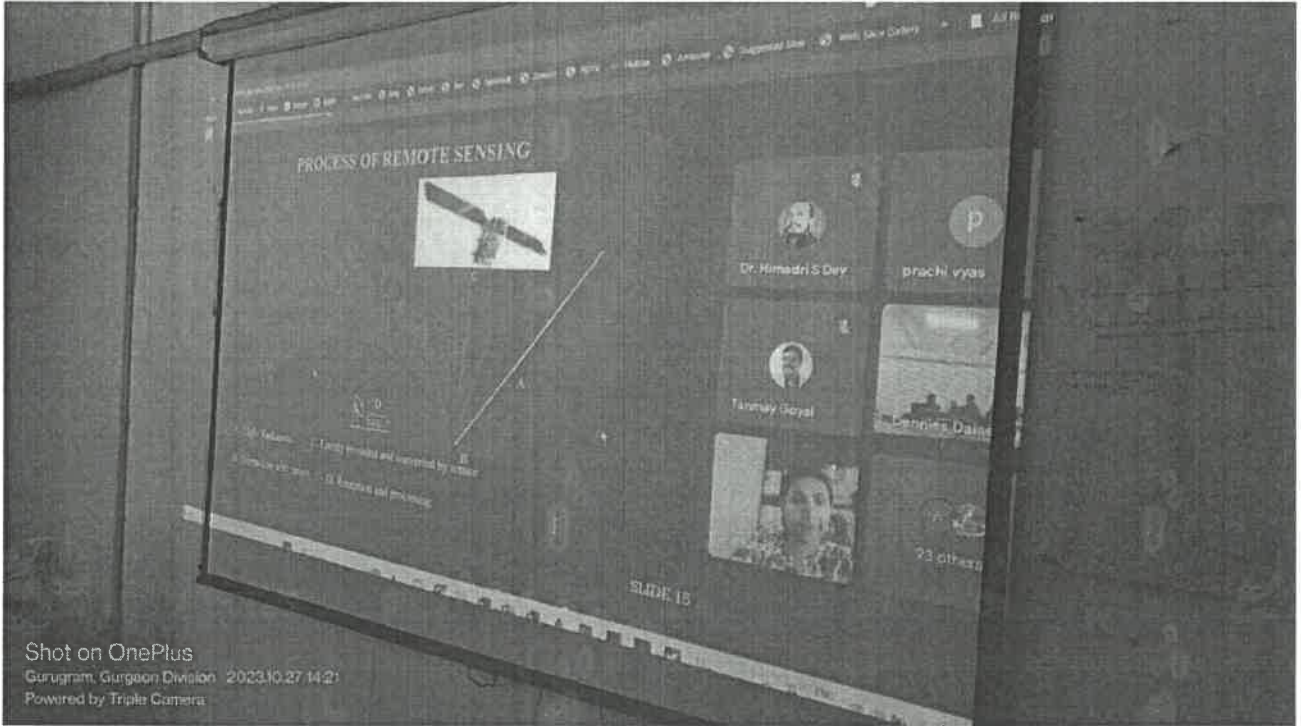

Figure 1: DoPD-SAA Students attending the online lecture on Importance of Remote Sensing in Spatial Planning.

(Geotag) Photograph-2

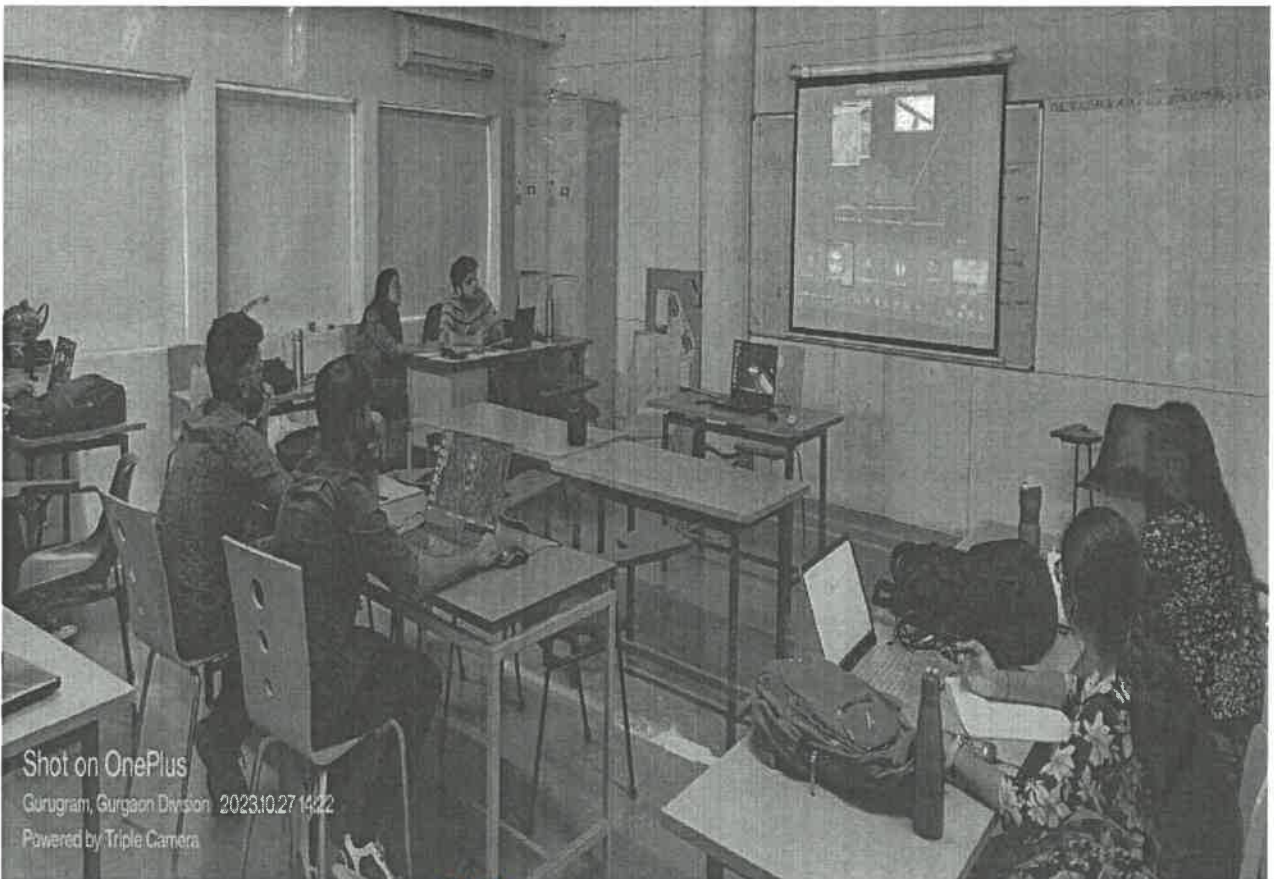

Figure 2: M. Plan Students of DoPD-SAA attending the online lecture physically at their classroom.

Description (min 250 to max 800 words) *

Urban planning covers both the development of open land sites and the renovation of developed parts of the city, which in particular considers from data collection and analysis, to prediction, design, strategic planning, economic models and social research. The constantly increasing availability and accessibility of modern remote sensing technologies provides new opportunities for a wide range of urban applications such as mapping and monitoring of the urban environment which includes land cover, land use, morphology, urban structural types etc. Remote Sensing with GIS provides advantages of bringing parties together, to spread and improve ideas, to support the decision-making process, and to evaluate projects. Also helps to identify areas of potential urban sprawl and inform land use planning decisions.

When India is mapping the Moon, **Department of Planning & Development -SAA** organised a Special lecture on '**Importance of Remote Sensing in Spatial Planning**' in collaboration with **Yuvakshetra Institute of Management Studies, Ezhakkad, Palakkad** on **27th October, 2023, 2-4 pm (online)**.

Dr. Sajeesh Viswambharan, Geospatial Expert & Assistant Professor, Department of Geography, Yuvakshetra Institute of Management Studies, Kerala delivered the lecture with beautiful presentation and showcasing examples.

This event is organized with an aim to familiarize the students about the basics of Remote Sensing applications & its interrelation with urban planning/design. However, anyone who is interested to know about the functions of geospatial satellites could also join the lecture for gaining knowledge.

(Geotag) Photograph-2	Fig 2 Presentation
Description (min 250 to max 800 words)*	<p>In the wake of the recent implementation of the New Education Policy (NEP), educators, policymakers, and stakeholders gathered for a transformative workshop aimed at dissecting and understanding the implications of this groundbreaking policy. Held on 12 November at ITM Naya Raipur, the workshop served as a platform for insightful discussions, collaborative exchanges, and strategic planning to usher in a new era of education in our nation.</p> <p>The NEP, hailed as one of the most comprehensive reforms in the education sector in decades, encompasses a wide array of initiatives designed to revamp the entire educational landscape. From early childhood education to higher education, the policy emphasizes inclusivity, flexibility, and innovation, with a vision to nurture holistic development and instill 21st-century skills among learners.</p> <p>The workshop commenced with an illuminating keynote address by esteemed experts in the field of education, who provided an overview of the key highlights and objectives of the NEP. Participants were then engaged in interactive sessions and panel discussions, delving into various aspects of the policy, including curriculum restructuring, teacher training, assessment reforms, and the integration of technology in education.</p>

Sub: MOU- School Architecture, Sushant University and ITM University

A Memorandum of Understanding is planned to be signed between Sushant University's, School Architecture (SAA) and ITM University (SOAPD) at Sushant University's campus, Gurgaon, Haryana. This MoU will foster our relationship as a Mentor for the budding architectural institute at Naya Raipur. SAA is taking this responsibility to mentor architectural institutes, which are in their nascent stage to help them establish their institute with our position and expertise in the architectural field both for pedagogy development & for student / faculty development.

AREAS OF COLLABORATION

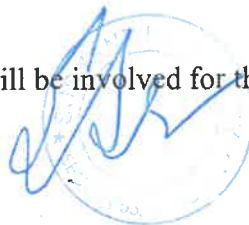

- Academic Exchange
- Resource Sharing / Exchange
- Faculty Exchange
- Consultancy and research projects
- Promotion and Communication

The MoU will be signed by Sushant University, School of Art & Architecture represented by Registrar Dr. Sanjeev Sharma and ITM University, SOAPD represented by its Registrar, Dr R Nesamoorthy at Sushant University campus on 9th June 2022.

The following schedule is planned for the day if their visit:

TIME	EVENT		IN CHARGE
10:00 am	Arrival at campus and escort to Dean's office Presentation? Who?	Conference room with Tea	
11:00 am	Campus Tour		Anees
1:00 pm	LUNCH	?? Where?	
2:00 pm	MoU signing		
	Anything else?		

Following from Sushant University will be involved for the MoU related activity:

- Dr. Sanjeev Sharma, Registrar
- Dr Navin Piplani, Director
- Virender Malik, Dean
- Amrita Madan
- Bhawna Dandona
- Mohammad Anees

Kindly approve.

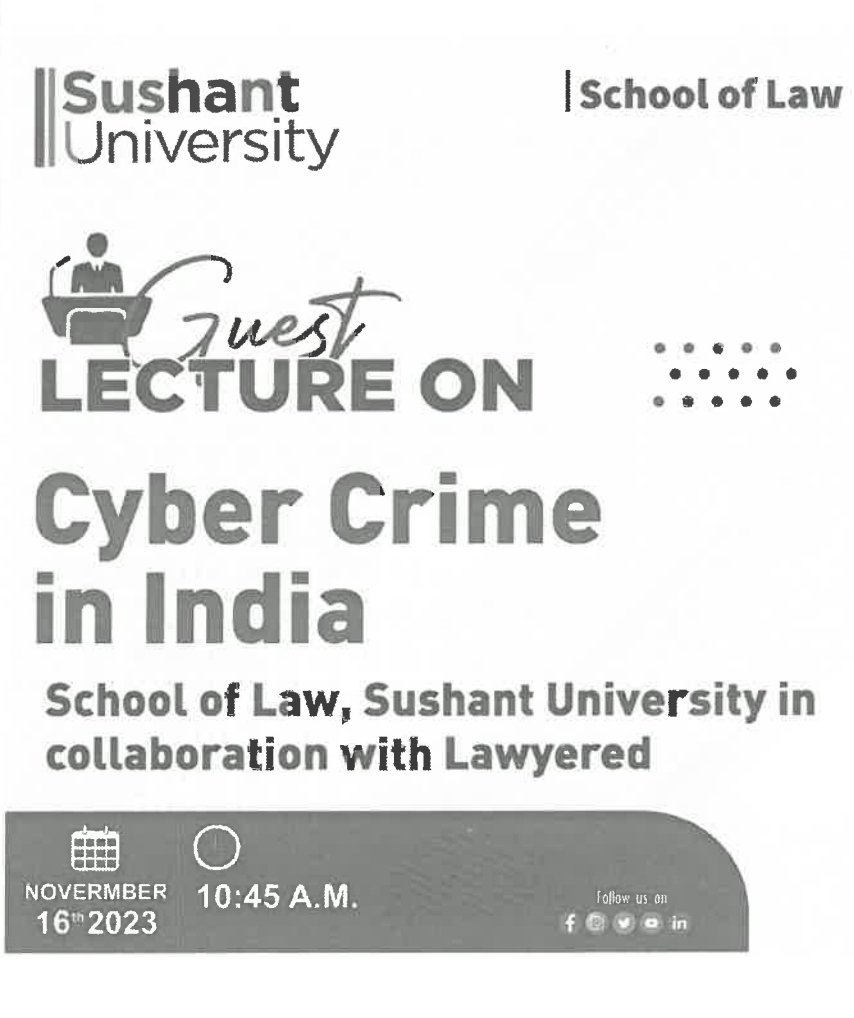

Virendra Malik
Dean, SAA

Amrita Madan
Associate Dean

Dr Sanjeev Sharmna
Registrar

Description (min 250 to max 800 words)*

Sushant university in collaboration with Lexicon group of institutes organised a session on Tourism and Hospitality industry. Travel and tourism play a significant role in enriching lives and boosting economies globally. Travel allows individuals to experience new cultures, landscapes, and cuisines, fostering a greater understanding and appreciation of the world. Tourism, as an industry, generates employment and drives economic growth by attracting visitors to various destinations, creating demand for services such as hospitality, transportation, and entertainment. Beyond its economic impact, tourism promotes cultural exchange and preservation, encouraging the protection of heritage sites

	and traditions. Sustainable travel practices are becoming increasingly important to ensure that tourism benefits local communities and minimizes environmental impact, helping to maintain the beauty and integrity of destinations for future generations.

Dear Prof. Antim Dev Mishra,

I am pleased to inform you that the **5G-6G Talks in Collaboration with UCT, Sushant University, and Arya College of Engineering**, held from **26th November to 27th December 2023**, have been successfully completed.

The event was a tremendous success, with **Mr. Rahul Mehra** and **Ms. Anjali Gupta** receiving excellent feedback from the students and faculty for their insightful presentations on **5G and 6G technologies**. The participants actively engaged in the discussions, and it was a pleasure to see their enthusiasm for learning.

We would like to extend our heartfelt thanks to you and your team for organizing this event so effectively. We look forward to future collaborations that will further enhance the educational experience for your students.

Warm regards,

Subject: Invitation to Collaborate on 5G-6G Talks Dear Sir,

26 October 2023 at 09:45

Dear Sir/Madam,

We are delighted to invite **Uni Converge Technologies Pvt Ltd (UCT)** to collaborate with **Sushant University** and **Arya College of Engineering** on a series of talks titled "**5G-6G Talks.**" This event is scheduled from **26th November to 27th December 2023**, and aims to offer our students and faculty insights into the future of **5G** and **6G technologies**.

The event details are as follows:

Dates: 26th November - 27th December 2023

Time: 10:30 AM onwards

Venue: Sushant University, Gurgaon

We believe that your expertise in IoT and telecommunications will be invaluable in providing our attendees with up-to-date knowledge in this area. We look forward to your participation and collaboration.

Please confirm your availability and the name of the expert speakers from your team who will join us for this event. We are excited to work together on this enriching endeavor.

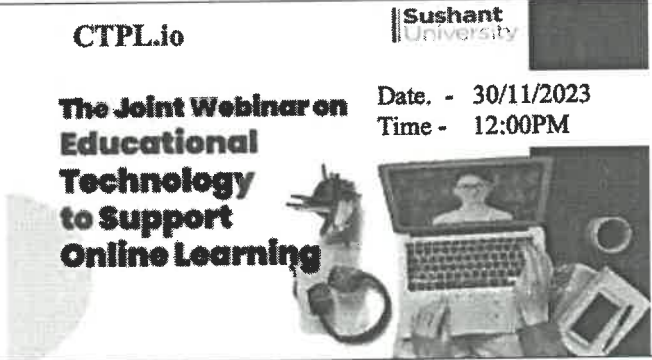

Thank you for considering our invitation.

Warm regards,
Prof. Antim Dev Mishra
Assistant Professor

<p>Description (min 250 to max 800 words)*</p>	<p>Sushant University & CTPL Technology is opening new horizons for education which is changing the world of learning around us. Educational expert Nadim Nsouli says, "I believe that learning through technology will continue to transform teaching practice. It can really help to tackle some of the challenges that are faced in the education sector such as efficiency, workload, accessibility, and inclusion."</p> <p>Technology has been an integral part of sustaining and transforming society for many years, and so its infusion with education was inevitable. Both accessibility and teaching methods are being transformed by technology in different ways.</p>

Description (min 250 to max 800 words)*

On 30th November, 2023, Thursday at 11:00 a.m. the School of Law at Sushant University organized an online guest lecture on "Evolving Constitutional Jurisprudence in India" in collaboration with Maharaja Agrasen Himalayan Garhwal University.

The event aimed to provide students and faculty members with insights into the dynamic nature of constitutional law in India. The lecture was attended by 47 students from the Department of Law, Sushant University along with the presence

of esteemed faculties. This event was an enriching experience for all the attendees.

The distinguished guest speaker for the event was Prof Pradeep K. Dey, Registrar, Maharaja Agrasen Himalayan Garhwal University. He contributed significantly to the understanding of constitutional jurisprudence in India.

Following the lecture, there was a stimulating Q&A session where participants had the opportunity to engage with the speaker, seeking clarifications and discussing pertinent issues related to constitutional jurisprudence.

The online guest lecture on "Evolving Constitutional Jurisprudence in India" proved to be a valuable and intellectually stimulating event. The collaboration between the School of Law, Sushant University, and Maharaja Agrasen Himalayan Garhwal University facilitated a broader and more diverse discussion on the subject.

Subject: Invitation to Speak on "Evolving Constitutional Jurisprudence In India"

Dear Sir,

I hope this message finds you well. As per our telephonic conversation, we are delighted to extend an invitation to you to be a guest speaker at our upcoming workshop on "Latest trends in Criminal Laws" for our students at Ansal University, Gurgaon. The details of the event are as follows:

Date: 30th November, 2023

Time: 11am-12pm

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavors. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Thanks and Regards,

Ms. Ruchi Lakra

Assistant Professor,
School of Law,
Sushant University

Dear Professor
Pradeep K. Dey, Registrar
Maharaja Agrasen Himalayan Garhwal University

Subject: Thank You for Your Lecture on Evolving Constitutional Jurisprudence In India

I wanted to take a moment to sincerely thank you for your insightful and engaging Lecture on Evolving Constitutional Jurisprudence In India on 30th November 2023. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Thanks and Regards,

Ms. Ruchi Lakra

Assistant Professor,
School of Law,
Sushant University

Description (min 250 to max 800 words)*

30th November, 2023, Thursday at 11:00 a.m. the School of Law at Sushant University organized an online “Guest Lecture on Women Empowerment” in collaboration with “Women Entrepreneurs Foundation” which has the largest network of female business owners, professionals in India. The guest lecture was delivered by Ankita Chaudhary, COO of Power Gummies unit of Aesthetic Nutrition Pvt. Ltd. She stepped into the health care industry with a concern to make slight difference. The online “Guest Lecture on Women Empowerment” proved to be a valuable and intellectually stimulating event. The collaboration between the School of Law, Sushant University, and Women Entrepreneurs Foundation facilitated a broader and more diverse discussion on the subject.

A handwritten signature in blue ink is written over a circular stamp. The stamp contains the text 'SUSHANT UNIVERSITY' and 'SCHOOL OF LAW' around the perimeter, with some illegible text in the center.

A handwritten signature in black ink, consisting of several stylized, overlapping strokes.

<p>Description (min 250 to max 800 words)*</p>	<p>Overview: The One-Day Seminar for World Soil Day, held on 5th December 2023, aimed to raise awareness and promote understanding of the critical role that soil plays in sustaining life on Earth. Aligned with the global celebration of World Soil Day, the seminar brought together experts, researchers, environmentalists, and stakeholders to discuss key issues related to soil health, conservation, and sustainable land management.</p> <p>Key Highlights:</p> <p>Expert Speakers: Distinguished speakers from the fields of agriculture, environmental science, and soil research shared their expertise on various aspects of soil health, including soil fertility, conservation practices, and the impact of human activities on soil quality. Their presentations provided valuable insights into the challenges and opportunities associated with soil management.</p> <p>Thematic Sessions: The seminar featured thematic sessions addressing diverse topics such as soil erosion, biodiversity in soil, organic farming, and the role of technology in soil monitoring. Each session aimed to deepen participants' understanding of specific aspects of soil health and sustainability.</p> <p>Panel Discussions: Thought-provoking panel discussions brought together experts and practitioners to deliberate on current challenges and future strategies for soil conservation. Participants had the opportunity to engage in discussions, ask questions, and contribute to the collective knowledge on sustainable soil management.</p> <p>Networking Opportunities:</p>

	<p>Participants had the chance to network with professionals, researchers, and organizations working in the field of soil science and environmental conservation. Networking sessions provided a platform for collaboration and the exchange of ideas to promote sustainable soil management practices.</p> <p>Youth Engagement: Recognizing the importance of involving the younger generation, the seminar included activities and discussions specifically designed for students and youth interested in environmental sciences and agriculture. This fostered a sense of responsibility and awareness among future leaders about the significance of preserving soil health.</p> <p>The One-Day Seminar for World Soil Day on 5th December 2023 provided a platform for informed discussions, knowledge sharing, and collaborative initiatives aimed at promoting sustainable soil management practices. The event contributed to the global efforts to safeguard one of our planet's most vital resources—healthy and fertile soil.</p>

Description (min 250 to max 800 words)*

The IFC Education webinar series is a comprehensive initiative designed to explore pertinent issues within the realm of private education, with a significant emphasis on the process of digitalization. These webinars serve as a platform for global leaders in private education to engage with emerging trends, particularly within the context of the post-COVID-19 landscape. By convening key decision-makers from various corners of the globe, the series endeavors to foster discussions and insights that are pivotal for shaping the future trajectory of private education, particularly in emerging markets.

At its core, the webinar series seeks to elucidate the transformative potential of digitalization within the private education sector. In light of the pandemic's profound impact on traditional educational models, there is a growing recognition of the need to adapt and innovate, leveraging digital tools and platforms to enhance accessibility, efficacy, and inclusivity in education delivery. Through a nuanced exploration of digitalization trends, the series aims to equip education leaders with the knowledge and strategies necessary to navigate the evolving landscape and seize emerging opportunities.

With a global audience in mind, the webinar series serves as a conduit for the exchange of ideas, experiences, and best practices across diverse educational contexts. By bringing together thought leaders, practitioners, and policymakers, the series facilitates cross-pollination of insights and perspectives, fostering a dynamic discourse that transcends geographical boundaries. Moreover, by

	<p>focusing on emerging markets, the series underscores the critical role that private education plays in driving socioeconomic development and fostering human capital in regions poised for growth and transformation.</p> <p>In essence, the IFC Education webinar series stands as a beacon of collaboration and innovation, offering a dynamic platform for private education leaders to engage with the challenges and opportunities of the digital age. By harnessing collective expertise and vision, the series endeavors to catalyze positive change and chart new directions for private education in a rapidly evolving world.</p>

To,

The Director,

INTERNATIONAL FINANCE CORPORATION (IFC)

Subject: Invitation for Online Webinar on Education in Covid -19, Learning in the Age of Disruption.

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation for **Career Growth on The Future of Art and Architecture Education in India** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 7 Dec 2023**
- **Time: 9:00 A.M - 10:00 A.M.**
- **Venue: Online**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Sehba Saleem

Department of Planning and Development,

School of Art and Architecture

Sushant University

SU/SAA/2023/12/07

To,

The Director,

INTERNATIONAL FINANCE CORPORATION (IFC)

Subject: Thank You for Online Webinar on Education in Covid -19, Learning in the Age of Disruption.

I wanted to take a moment to sincerely thank you for your insightful and engaging **Online Webinar on Education in Covid -19, Learning in the Age of Disruption** as part of our ongoing collaboration with **International Finance Corporation (IFC)** on **7 Dec 2023**. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Sehba Saleem

NOTICE

Dear Students,

We are pleased to inform you that the Department of Planning & Development, School of Art and Architecture , Sushant University, is organizing a **Online Webinar on Education in Covid -19, Learning in the Age of Disruption**. This event will provide an excellent opportunity to gain insights from distinguished professionals on public safety and enhance your knowledge. The details of the event are as follows:

- **Date: 7 Dec 2023**
- **Time: 9:00 A.M - 10:00 A.M.**
- **Venue: Online**

We strongly encourage all students to attend this session, as it will be highly beneficial for your academic and professional growth. Attendance is mandatory for all the students of School of Art and Architecture.

For any queries or further information, please contact the undersigned.

Looking forward to your participation.

Description (min 250 to max 800 words)*

The National Institute of Urban Affairs (NIUA) and the National Mission for Clean Ganga (NMCG) in partnership with CEPT University, Ahmedabad are inviting you to the Grand Finale of the third season of the Student Thesis Competition (STC). We are proud to announce that 20 exceptional students from 14 institutes across 10 different states in India have been selected for the final round of the competition. These budding changemakers have not only demonstrated their passion for environmental sustainability but have also showcased innovative and pragmatic solutions for urban river management. The Grand Finale promises to be an event of knowledge sharing, inspiration, and camaraderie, as these bright minds present their research and proposals to esteemed judges and an enthusiastic audience.

The River Cities Alliance is a collaborative effort aimed at revitalizing urban areas by leveraging the potential of rivers as catalysts for sustainable development and community renewal. Within this alliance, students have undertaken ambitious thesis projects centered around the revitalization of riverfronts and the integration of river-based elements into urban landscapes.

These student-led initiatives represent a multifaceted approach to urban planning and development, drawing upon interdisciplinary expertise in fields such as architecture, environmental science, landscape design, and urban studies. Through their thesis work, students explore innovative strategies for reimagining riverfront spaces, enhancing ecological integrity, promoting recreational opportunities, and fostering economic revitalization.

Central to the thesis projects is the notion of incorporating rivers as integral components of urban infrastructure and identity. By reclaiming and repurposing underutilized riverfronts, students seek to create vibrant public spaces that serve as focal points for community engagement, cultural expression, and environmental stewardship. Moreover, by integrating green infrastructure and sustainable design principles, these projects aspire to mitigate environmental degradation, enhance biodiversity, and promote resilience to climate change impacts.

	<p>In preparing their proposals, students engage in extensive research, stakeholder consultation, and site analysis to develop comprehensive and contextually sensitive solutions. Through the synthesis of theoretical frameworks, case studies, and best practices, they articulate compelling visions for river revitalization that resonate with the unique socio-cultural, economic, and environmental dynamics of each city.</p> <p>The River Cities Alliance provides a collaborative platform for students to showcase their ideas, share insights, and receive feedback from peers, faculty mentors, and industry professionals. By fostering a culture of innovation, creativity, and collaboration, the alliance empowers students to become agents of positive change in their respective communities, driving forward the agenda of river-based revitalization and sustainable urban development.</p> <p>In summary, the River Cities Alliance represents a dynamic nexus of academic inquiry, civic engagement, and real-world application, where students harness their talents and passion to envision and enact transformative interventions that breathe new life into urban riverfronts and inspire more resilient, inclusive, and vibrant cities of the future.</p>

Dear Prof. Manimala,

I am pleased to inform you that the "Blockchain and IoT" Webinar, held in collaboration with KSR College of Engineering on 10th December 2023, was successfully conducted.

The event featured Dr. P. Premkumar as the resource person, who shared valuable insights into the applications, challenges, and prospects of Blockchain and IoT technologies. The webinar saw active participation from students, faculty members, and professionals, all of whom appreciated the interactive and engaging nature of the session. Dr. Premkumar's detailed analysis of how Blockchain and IoT can converge to revolutionize industries was particularly well-received.

We extend our heartfelt thanks to KSR College of Engineering for their partnership in making this event a success, and we look forward to future collaborations to explore and advance these technologies.

6 November 2023 at 10:30

Dear Sir/Madam,

We are delighted to invite KSR College of Engineering to collaborate with Sushant University on an upcoming webinar titled "Blockchain and IoT." This event is scheduled for December 10, 2023, and aims to provide our students, faculty, and professionals with insights into the integration of Blockchain and IoT technologies.

The event details are as follows:

Date: 10th December 2023
Time: 2:00 PM onwards
Platform: Google Meet

We believe that this webinar will be an excellent platform to explore the synergies between Blockchain and IoT, and we would be honored if you could provide an expert speaker to lead the discussion.

Please confirm your availability and the name of the expert speaker. We are excited to collaborate with KSR College of Engineering for this enriching knowledge exchange.

Thank you for considering our invitation.

Description (min 250 to max 800 words)*

Overview:

In celebration of International Mountain Day, a River Walk Survey was organized, providing students with a unique opportunity to explore the origin of the Himalayas, understand the fascinating journey of Himalayan rivers, and delve into various aspects of river geomorphology, morphometry, and aquatic life.

Key Highlights:

Educational Experience:

The River Walk Survey aimed to transform learning into a hands-on and experiential activity. Students were guided through a scenic route, where they learned about the geological processes that led to the formation of the majestic Himalayan mountain range.

Origin of Himalayan Rivers:

Participants gained insights into the origin of Himalayan rivers, understanding how the intricate network of rivers originated from the melting snow and glaciers in the high-altitude regions. Discussions highlighted the significance of these rivers in shaping the landscape and supporting ecosystems downstream.

River Geomorphology and Morphometry:

The survey delved into the study of river geomorphology and morphometry, emphasizing the dynamic nature of rivers and their impact on the surrounding environment. Students were introduced to the processes of erosion, sedimentation, and the formation of river features.

Interactive Sessions:

Throughout the walk, interactive sessions were conducted to engage students in discussions about the challenges faced by Himalayan rivers, including issues related to pollution, habitat degradation, and the impact of climate change. Experts provided valuable insights into potential solutions and conservation measures.

Problem-Solving Activities:

Interactive problem-solving activities were incorporated into the survey to encourage students to think critically about the issues facing Himalayan rivers. Participants brainstormed solutions and discussed the role of community involvement and responsible environmental practices in mitigating these challenges.

Multidisciplinary Approach:

The River Walk Survey adopted a multidisciplinary approach, integrating elements of geography, geology, environmental science, and biology. This approach provided students with a holistic understanding of the interconnected processes that shape the Himalayan landscape and its rivers.

Promoting Environmental Awareness:

The event served as a platform to instill a sense of environmental responsibility among students. By connecting theoretical knowledge

	with real-world observations, the River Walk Survey aimed to inspire a commitment to the conservation of mountainous ecosystems and their rivers. The River Walk Survey on International Mountain Day offered students a unique and enriching educational experience, fostering a deeper appreciation for the Himalayas, its rivers, and the importance of sustainable practices to preserve these vital ecosystems.

Greetings from Sushant University

I, Associate Professor, Ms. Sehba Saleem on behalf of the School of Art and Architecture, working in Sushant University would like to extend a warm welcome to you. I have come across the MoU which was signed between your organisation in 2022.

Regarding the same I wish to know if any activity/event/webinar/guest lecture has been planned or not. If not, then is it possible to organise any one such event under our collaboration.

It will be highly appreciated if you can let us know the possibilities which can be worked out to take this collaboration forward. Request you to revert back on sehbasaleem@sushantuniversity.edu.in

Regards

Subject: Re: Successful Completion of Career in AI, ML, and Data Science Workshop

Dear Dr. Alpana Jijja,

We are thrilled to inform you that the "Career in AI, ML, and Data Science" workshop, held in collaboration between Great Lakes Learning and Sushant University on 18th and 19th December 2023, was an outstanding success.

The workshop, featuring interactive sessions led by Mr. Sushanshu Jena, provided a rich learning experience that sparked significant engagement from the attendees. The practical insights shared on AI, ML, and Data Science were invaluable, and students appreciated the real-world case studies and hands-on exercises.

We would like to extend our sincere thanks to Sushant University and you personally for your exceptional efforts in organizing and executing this event. We hope to collaborate on similar impactful initiatives in the future.

Warm regards,

Subject: Invitation to Collaborate on Workshop – Exploring Careers in AI, ML, and Data Science

Dear Anuja,

I hope this message finds you well.

I am excited to invite Great Lakes Learning to collaborate with Sushant University on a Career in AI, ML, and Data Science workshop, scheduled for 18th and 19th December 2023 in Room No. D301, Sushant University. This workshop will focus on providing students and professionals with practical knowledge and career advice in these growing fields.

We would be delighted if Great Lakes Learning could provide a speaker to share expertise on industry trends and career development in AI, ML, and Data Science. We believe this collaboration will significantly enhance the value of the workshop for participants.

Please confirm your availability and provide the details of the speaker at your earliest convenience.

Warm regards,

Alpana Jijja

Subject: Gratitude for Accepting workshop request

Dear Sir,

I'm writing on behalf of the Institute of School of Design to express our heartfelt gratitude for RVM CAD institute, FARidabad for accepting our software training workshop 'Design Fusion' request. We're thrilled about our students visiting your university for a lecture and workshop. We are confident this collaboration will benefit both parties. We eagerly await the partnership's details and look forward to a successful collaboration.

Thank you for nurturing the future workforce.

Yours sincerely

Dear Sir,

I thank you from the bottom of my heart for taking time from your busy schedule to be the guest speaker at our institute. Your delivered lecture and workshop on "Design Fusion" CAD training" was useful for our students and faculty.

Your lecture served the purpose in the best possible way, and it was a huge success.

I thanks to your enlightening words that inspired so many people out there.

I look forward to our next interaction soon.

Wishing you all the best for your future endeavours,

Yours sincerely,

Participants at RVM lecture

Description (min 250 to max 800 words)*

On July 10, 2024, RVM CAD Institute, in collaboration with Sushant University, Gurugram, conducted an intensive workshop on Computer-Aided Design (CAD) training specifically tailored for interior design students. The workshop, held at Sushant University's modern design lab, aimed to equip 21 participating students with advanced CAD skills essential for contemporary interior design practices. The workshop's objectives included introducing students to the fundamental and advanced features of CAD software, enhancing their ability to create precise and detailed interior design plans, and preparing them for real-world applications of CAD in their future careers. The structure of the workshop comprised three main segments: theoretical instruction, practical training, and project-based application, ensuring a well-rounded learning experience. The theoretical segment, led by Mr. Amit Roy, a senior CAD specialist from RVM CAD Institute, provided an in-depth overview of CAD principles, focusing on its relevance and application in interior design. Mr. Roy emphasized the importance of precision and accuracy in CAD drawings and demonstrated how CAD can streamline the design process. The practical training segment was conducted by Ms. Kavita Mehta, a CAD expert, who guided students through hands-on exercises using industry-standard CAD software such as AutoCAD and SketchUp. Students learned to create detailed floor plans, elevations, and 3D models, gaining proficiency in using the software's various tools and features. The most engaging part of the workshop was the project-based application, where students were divided into seven groups of three and tasked with redesigning a residential space. Each group conducted a site analysis, created initial

sketches, and developed comprehensive CAD models of their proposed designs. This segment allowed students to apply their newly acquired skills in a realistic context, fostering teamwork and creative problem-solving. Throughout the workshop, Mr. Roy and Ms. Mehta provided continuous feedback, ensuring students understood the intricacies of CAD and could effectively implement their designs. The workshop achieved several significant outcomes, including enhanced knowledge of CAD software, improved design accuracy, and practical experience in project-based design. Student feedback was overwhelmingly positive, with participants appreciating the hands-on approach and expert guidance. One participant, Sneha Gupta, noted, "The workshop was incredibly detailed and practical. The project work helped me understand how to apply CAD in real-world scenarios." Another student, Rajat Verma, remarked, "The direct feedback from professionals was invaluable. It greatly improved my understanding of CAD." The workshop not only enhanced the participants' technical skills but also inspired confidence in their ability to tackle complex design projects using CAD. In conclusion, the CAD training workshop conducted by RVM CAD Institute in collaboration with Sushant University was a resounding success. It provided students with a robust foundation in CAD, practical experience with industry-standard software, and the opportunity to apply their skills in real-world projects. The collaboration between RVM CAD Institute and Sushant University has set a precedent for future training sessions, promoting continuous learning and professional development among students. This successful workshop highlights the importance of industry-academia partnerships in bridging the gap between theoretical knowledge and practical skills, preparing students for the dynamic demands of the interior design industry.

Dear Chair DrNazmul

Please attached is the MOU sent by Sushant University with regards to the formulation of a MOU between our Department and their Architecture Department with respect to multifacet collaboration. We had rolled the process together with also the involvement of Dr Lie at our end and had started the ball rolling on getting a draft MOU done based on Catherines example MOU. Prof. Sabba has gotten the document ready for us to view and if acceptable to get the ball rolling for signing of the MOU. Catherine wanted the process to be formalized through proper channels being passed on to our Dean and further as procedure requires. Hence asking you to review and start the required process. As usual always grateful for what you do to facilitate my research and our D]epartment growth goals. Let me know if I can Help. I an copying the email to Prof. Saeba Saleem and the Dean from Sushant University. Looking forward to a great collaborative venture.

Kind Regards,

Nadim Khandaker, Ph.D., P.Eng.

Dear Prof. Nadim

Greetings of the day

Hope this mail finds you well. We would like to share the draft of the MoU regarding our collaboration which we have initiated in July 2022. We have made a few changes in the draft which was previously shared by you after consulting our team. We have tried our best to cover all the possible parameters to make this collaboration a successful one and it has been incorporated in the document.

We would like you and your team to go through the draft prepared by us and let us know if it's suitable for your university and fulfil the requirements and the outcomes which we are projecting at so that things can be taken ahead from hereon. Also feel free if you wish to have any sort of discussion linked to the draft MoU which is attached herewith.

Looking forward to a mutually fruitful relationship

Warm Regards

 SAA History.pdf

Dear Prof. Nadim

Firstly, I would apologies for the delay in reverting due to the ongoing academic engagements and also would like to thank you and your team for being so kind and drafting the MOU for collaboration.

In the wake of recent architectural developments in the country, Architectural education has taken a huge turn towards innovation and collaboration. Students are learning from more than just by being in the institution and a wide variety, diversity of exposure and thus opportunities are becoming mandates in education. The cross-cultural learning that is wide spread in the West is now taking shape into a huge wave across our nation and such an era calls for collective and dynamic growth in a symbiotic manner.

In consideration of the above, an initiative that has been taken up by **School of Art & Architecture** (hereinafter referred to as "SAA") **Sushant University** and **North South University, NSU** (hereinafter referred to as "NSU") to collaborate together and work on different perspectives in which knowledge can be exchange and the SAARC initiative in which we are trying to bring SAARC nations onboard a common platform for collaborations leading to knowledge exchange and sustenance for future growth. In this aspect, we are planning and formalizing the MOU in such a manner that all the roles and responsibilities to make this collaboration a success can be worked out. The points under which we are working are as follows:

1. Short Term Exchange: Series of Seminar/Conferences/Webinars / Faculty visits for lecture
2. Medium Term Partnerships: Faculty Exchange / Resource Sharing / Research Projects/ Workshops (Students and Faculty) / Short-Term courses / Certificate Courses
3. Long Term Collaborations: Student Exchange / Research Projects / Masters Collaborations

We propose that the above points be divided and spread over the period of a **FIVE-YEAR** long collaboration, such that outcomes can be achieved and next milestones can be set.

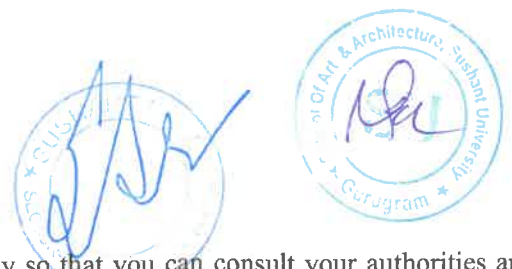

Presently, we are trying to refine and re-draft the MOU (keeping in mind the MOU shared by you in the previous mail) which will help us in setting our objectives and outcomes more clearly. In the meantime, I take this opportunity to introduce our University and School – attached are a few documents giving a glimpse of the work we have been engaged in.

Regarding the same please find attached the files containing

1. Sushant University, School of Art and Architecture history
2. Kind of projects and event organized and engagements
3. Mud Futures (A yearlong GLOBAL multi-location multi-host conclave conceptualized and run by SAA)

You can also visit following website for further reference.

1. <https://sushantuniversity.edu.in/>
2. <https://www.acedg.in/bundles/mud-futures>

We will be reaching out to you as soon as our draft gets ready so that you can consult your authorities and things can be taken further from there onwards. For the signing process, can we suggest an online meet-up

2/23/24, 10:35 AM

Sushant University Mail - Fwd: Follow up: Prospective Research and Accademic Collaboration Sushant University, India

between the higher authorities from both sides where in signing takes place simultaneously followed by exchanges of documents to close the deal from both ends? We can decide upon an agreeable date as we proceed.

Dear Prof. Dean Madan (Amrita),

Thanks for the quick response. Thanks for the well wishes on my COV recovery. Dr. Li was kind enough to draft a MOU document for us that is required from NSU end. Thank Dr. Li for taking her time from her busy schedual to draft the document. I have made some small correction such as my new designation as Full professor and including student supervision to includ MS students and Undergrad Honours Thesis supervision. This is germain to our Department. I am attaching the ammended document for your review and signnature. I have put my electronic signature already in the document. I kindly request if you do the due necessary from your Universities part in terms of signaturers. To be included who our counter signatory will be to that of our VC from your institution. I will kindly request if you would get it also signed as you are the most significan coutry in SARC hence the more gallant partner. If you would then send it back to me signed by you and your instution appropriate person to that of our VC at NSU. I will then print it out and through our Chair and Dean send it for VC signature through Dr. Li office. Once all done I will send you an official copy so that we can start ASAP on the more fun collaboration. Thanks again.

Dear Dr Nadim Reza Khandaker,

Thank you so much for your kind words and for your wishes for the award. It is always the outcome of a collective effort, and I have so many people to thank for it!

I am hopeful that Covid has not left too much of a negative mark on you. I myself have gotten infected twice till date. The first time, in April-May last year, was quite difficult all the way round.

Please let's start to formalise the MOU and also put in an effective plan of action for us to achieve our goals. Collaborations that build and sustain knowledge are extremely important in this day and age. Please correct me if I have misunderstood anything, but I feel the following should be a part of our joint path ahead:

1. Short Term Exchange: Series of Seminar/Conferences/Webinars / Faculty visits for lecture
2. Medium Term Partnerships: Faculty Exchange / Resource Sharing / Research Projects/ Workshops (Students and Faculty) / Short-Term courses / Certificate Courses
3. Long Term Collaborations: Student Exchange / Research Projects / Masters Collaborations

Do let me know your thoughts on these. Sehba will share some information about our institution with you soon. Our Mud Futures Project will definitely benefit from such active collaboration, as will our academic ecosystem.

Looking forward to a mutually fruitful relationship. I am equally grateful to Sehba for making this connection.

Warm regards,
Amrita

 SAA History.pdf

Dear Prof. Nadim

Firstly, I would apologies for the delay in reverting due to the ongoing academic engagements and also would like to thank you and your team for being so kind and drafting the MOU for collaboration.

In the wake of recent architectural developments in the country, Architectural education has taken a huge turn towards innovation and collaboration. Students are learning from more than just by being in the institution and a wide variety, diversity of exposure and thus opportunities are becoming mandates in education. The cross-cultural learning that is wide spread in the West is now taking shape into a huge wave across our nation and such an era calls for collective and dynamic growth in a symbiotic manner.

In consideration of the above, an initiative that has been taken up by **School of Art & Architecture** (hereinafter referred to as "SAA") **Sushant University** and **North South University, NSU** (hereinafter referred to as "NSU") to collaborate together and work on different perspectives in which knowledge can be exchange and the SAARC initiative in which we are trying to bring SAARC nations onboard a common platform for collaborations leading to knowledge exchange and sustenance for future growth. In this aspect, we are planning and formalizing the MOU in such a manner that all the roles and responsibilities to make this collaboration a success can be worked out. The points under which we are working are as follows:

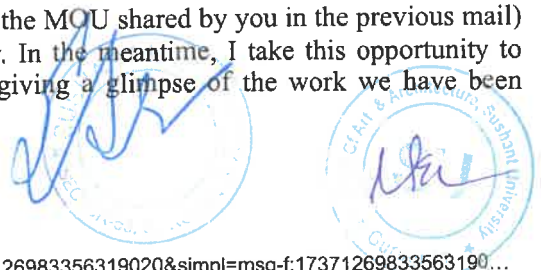

1. Short Term Exchange: Series of Seminar/Conferences/Webinars / Faculty visits for lecture
2. Medium Term Partnerships: Faculty Exchange / Resource Sharing / Research Projects/ Workshops (Students and Faculty) / Short-Term courses / Certificate Courses
3. Long Term Collaborations: Student Exchange / Research Projects / Masters Collaborations

We propose that the above points be divided and spread over the period of a **FIVE-YEAR** long collaboration, such that outcomes can be achieved and next milestones can be set.

Presently, we are trying to refine and re-draft the MOU (keeping in mind the MOU shared by you in the previous mail) which will help us in setting our objectives and outcomes more clearly. In the meantime, I take this opportunity to introduce our University and School – attached are a few documents giving a glimpse of the work we have been engaged in.

Regarding the same please find attached the files containing

Dear Prof. Nadim

Greetings of the day

Hope this mail finds you well. We would like to share the draft of the MoU regarding our collaboration which we have initiated in July 2022. We have made a few changes in the draft which was previously shared by you after consulting our team. We have tried our best to cover all the possible parameters to make this collaboration a successful one and it has been incorporated in the document.

We would like you and your team to go through the draft prepared by us and let us know if it's suitable for your university and fulfil the requirements and the outcomes which we are projecting at so that things can be taken ahead from hereon. Also feel free if you wish to have any sort of discussion linked to the draft MoU which is attached herewith.

Looking forward to a mutually fruitful relationship

Warm Regards

Dear Chair DrNazmul

Please attached is the MOU sent by Sushant University with regards to the formulation of a MOU between our Department and their Architecture Department with respect to multifacet collaboration. We had rolled the process together with also the involvement of Dr Lie at our end and had started the ball rolling on getting a draft MOU done based on Catherines example MOU. Prof. Sabba has gotten the document ready for us to view and if acceptable to get the ball rolling for signing of the MOU. Catherine wanted the process to be formalized through proper channels being passed on to our Dean and further as procedure requires. Hence asking you to review and start the required process. As usual always grateful for what you do to facilitate my research and our D|epartment growth goals. Let me know if I can Help. I an copying the email to Prof. Saeba Saleem and the Dean from Sushant University. Looking forward to a great collaborative venture.

Kind Regards,

Nadim Khandaker, Ph.D., P.Eng.

Description (min 250 to max 800 words)*

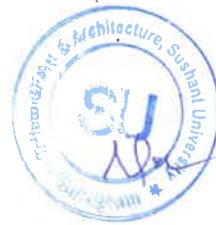

The online seminar on Sustainability Discourse 2024 at NSU on January 4, 2024, featured a notable presentation by a student focusing on wastewater treatment applications within the textile industry. The student's work highlighted an innovative approach to treat wastewater at the tertiary step, rendering it free from chemicals and color. This breakthrough has significant implications for the textile industry, as it offers a sustainable solution to reduce the reliance on fresh water. By presenting a viable method to repurpose treated wastewater, the student demonstrated a practical and eco-friendly approach that could potentially alleviate the environmental impact of textile production while promoting sustainability in the industry.

Key Points

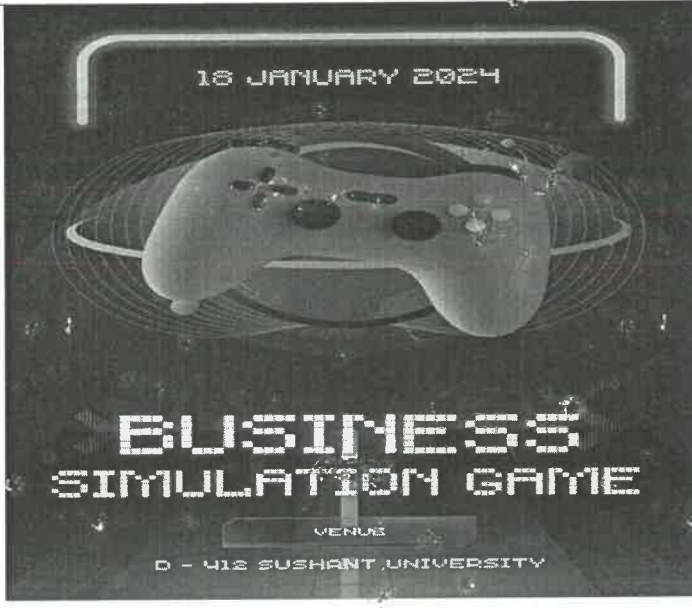

- **Innovative Wastewater Treatment:** The seminar showcased a student's groundbreaking work in wastewater treatment specifically tailored for the textile industry. The focus was on a novel application at the tertiary step, aiming to eliminate all chemicals and color from wastewater.
- **Textile Industry Impact:** The presented solution holds the potential to significantly benefit the textile industry by offering a sustainable alternative for water usage. By reusing treated water, the industry can reduce its dependency on fresh water resources, contributing to environmental conservation.
- **Environmental Sustainability:** The seminar emphasized the broader theme of environmental sustainability. The student's work aligns with the global effort to address water scarcity and pollution concerns, showcasing the role academia plays in finding practical solutions for real-world issues.
- **Practical Implementation:** The student's presentation likely delved into the practical aspects of implementing the wastewater treatment process within textile facilities. Insights into feasibility, cost-effectiveness, and scalability of the proposed solution would have been crucial aspects discussed.

	<ul style="list-style-type: none"> • Reducing Industry Footprint: Overall, the seminar underscored the potential of the presented wastewater treatment method to reduce the ecological footprint of the textile industry. By promoting responsible water management, the industry can simultaneously enhance its sustainability credentials and contribute to the larger goal of environmental stewardship

SESSION ON BUSINESS SIMULATION

Description (min 250 to max 800 words)*

Business Simulation Game Report

Date: January 18, 2024

Event: Business Simulation Game

Organizer: School of Business, Sushant University

Introduction:

The Business Simulation Game hosted by the School of Business at Sushant University on January 18, 2024, was an engaging and educational experience for participants, offering a real-world glimpse into the complexities of business decision-making. The event aimed to enhance students' practical understanding of business concepts, strategic thinking, and teamwork.

Participants:

The event attracted a diverse group of participants, including undergraduate and postgraduate students

✓

Dean
School of Business
Sushant University
Sector 65 Gurugram

majoring in various business disciplines. Teams were formed, each comprising students with different academic backgrounds to encourage cross-functional collaboration.

Simulation Platform:

The simulation utilized a state-of-the-art platform that provided a virtual business environment. Participants were tasked with managing a simulated company, making strategic decisions in areas such as production, marketing, finance, and human resources. The platform allowed teams to compete against each other in a dynamic market, reacting to changing economic conditions and industry trends.

Key Highlights:

Realistic Decision-Making: Participants faced realistic business scenarios, forcing them to make critical decisions under time constraints. This challenged their ability to analyze information, assess risks, and implement effective strategies.

Team Collaboration: The simulation emphasized the importance of teamwork. Participants had to collaborate within their teams to discuss and agree on decisions, fostering communication and teamwork skills.

Adaptability: The dynamic nature of the simulation required teams to adapt quickly to unexpected market changes. This tested participants' ability to think on their feet and adjust their strategies in response to emerging challenges.

Feedback and Reflection: Post-simulation debrief sessions were conducted to provide feedback on team performance. This allowed participants to reflect on their decisions, identify areas for improvement, and gain valuable insights for future strategic planning.

Conclusion:

The Business Simulation Game organized by the School of Business at Sushant University was a resounding success. Participants gained practical insights into the intricacies of business management, honed their decision-making skills, and developed a deeper understanding of the complexities inherent in today's business environment. The event not only complemented academic learning but also provided a platform for networking and collaboration among students. The positive feedback from participants highlights the value of such experiential learning

Description (min 250 to max 800 words)
*

Sushant University, in collaboration with Medhavi Skill University Gurugram, recently hosted an extensive three-day workshop on leadership skill development, aimed at empowering students and professionals with essential leadership capabilities for excelling in their respective fields. The workshop commenced with a grand inauguration ceremony attended by the Vice-Chancellor of Sushant University, the Chancellor of Medhavi Skill University, and several renowned leadership experts. An inspiring keynote address set the tone for the event, emphasizing the importance of effective leadership in today's dynamic world and highlighting key themes such as emotional

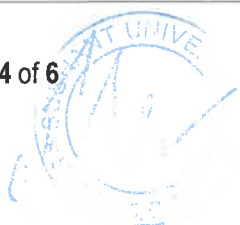

intelligence, strategic thinking, and adaptive leadership. The first day focused on establishing a strong theoretical foundation, with experts delivering lectures on the history of leadership theories, the evolution of leadership styles, and the impact of cultural and organizational contexts on leadership effectiveness, providing participants with a comprehensive understanding of fundamental leadership principles. The afternoon session involved self-assessment exercises, where participants evaluated their current leadership skills using tools like personality assessments, emotional intelligence tests, and leadership style inventories. This session emphasized the importance of self-awareness and guided participants through reflective exercises to set personal development goals and create action plans for their leadership growth. The second day transitioned to practical applications, with interactive sessions and group activities designed to enhance core leadership skills such as communication, team-building, conflict resolution, and decision-making. Participants engaged in role-playing scenarios, case studies, and problem-solving exercises, fostering a hands-on learning experience. Facilitators provided real-time feedback and constructive critiques, enabling participants to refine their skills and apply theoretical concepts in practical settings. One of the highlights was a team-building exercise, where participants collaborated on a challenging project, simulating real-world leadership situations and emphasizing the importance of collaboration, trust, and effective communication. The afternoon session focused on strategic thinking and visioning, where participants learned to develop and articulate a clear vision, set strategic goals, and create actionable plans. Expert facilitators shared insights on leading organizational change, fostering innovation, and navigating complex business environments. The final day was dedicated to advanced leadership topics and personal development. The morning session featured a panel discussion with industry leaders and successful entrepreneurs, who shared their experiences and insights on overcoming leadership challenges, making strategic decisions, and driving organizational success. Participants had the opportunity to engage with the panelists, ask questions, and gain valuable perspectives from seasoned professionals. This was followed by a session on emotional intelligence and its critical

role in leadership. Facilitators emphasized the importance of empathy, self-regulation, and interpersonal skills in building effective teams and fostering a positive organizational culture. Participants engaged in activities designed to enhance their emotional intelligence and improve their ability to connect with and inspire others. The workshop concluded with a session on personal branding and career development, where participants learned strategies for building their personal brand, enhancing their professional presence, and advancing their careers. Expert coaches provided individual feedback and guidance, helping participants to craft compelling personal narratives and develop actionable career plans. The final segment of the workshop involved participants presenting their leadership development plans to their peers and facilitators, receiving feedback, and committing to ongoing personal and professional growth. The workshop concluded with a closing ceremony, where participants were awarded certificates of completion, and outstanding contributions were recognized. This workshop on leadership skill development, organized by Sushant University in collaboration with Medhavi Skill University Gurugram, was a resounding success. It provided participants with a rich blend of theoretical knowledge, practical skills, and personal insights, equipping them to become effective and inspiring leaders. The collaborative and immersive nature of the workshop fostered a supportive learning environment, encouraging participants to push the boundaries of their capabilities and develop a deep understanding of what it takes to lead in today's complex and rapidly changing world. The success of this workshop has laid the foundation for future collaborations between Sushant University and Medhavi Skill University, with plans already underway for similar initiatives aimed at nurturing leadership talent and promoting excellence in various fields.

Description (min 250 to max 800 words)*

On December 20, 2019, a landmark event unfolded as the School of Business, in collaboration with the International Skill Development Corporation (ISDC), organized a Management Quiz. This initiative marked a significant stride towards bridging the gap between academia and industry, while nurturing a culture of learning and excellence among students.

The Management Quiz, held on the premises of the School of Business, brought together students, faculty, and industry experts in a dynamic and intellectually stimulating environment. Participants were tasked with navigating a series of challenging questions and scenarios, designed to test their knowledge of management theory and their

[Handwritten signature in blue ink]

Dean
School Of Business
Sushant University
Sec-1 Gurugram Haryana

ability to apply it in real-world contexts.

The collaboration between the School of Business and ISDC infused the quiz with a unique blend of academic rigor and practical relevance. Drawing upon ISDC's expertise in skill development and industry insights, the quiz provided participants with valuable exposure to current trends, best practices, and emerging challenges in the field of management.

One of the key objectives of the Management Quiz was to foster interdisciplinary learning and collaboration. By integrating concepts from various disciplines such as economics, marketing, and organizational behavior, the quiz encouraged participants to approach problems from multiple perspectives and develop holistic solutions. This interdisciplinary approach not only enriched the learning experience but also equipped participants with the versatility and adaptability needed to thrive in today's complex business environment.

Furthermore, the Management Quiz served as a platform for networking and knowledge exchange. Participants had the opportunity to interact with industry professionals and thought leaders, gaining valuable insights and building meaningful connections that could potentially shape their future career paths. Through engaging discussions and collaborative problem-solving activities, the quiz facilitated the exchange of ideas and experiences, enriching the collective learning experience for all involved.

Beyond its educational value, the Management Quiz also fostered a spirit of competition and camaraderie among participants. As teams vied for the top spot, they demonstrated resilience, teamwork, and quick thinking, showcasing their ability to perform under pressure. The competitive aspect of the quiz not only added excitement and energy to the event but also motivated participants to push their limits and strive for excellence.

In conclusion, the Management Quiz organized by the School of Business in collaboration with ISDC on December 20, 2019, was a resounding success, exemplifying the power of partnership in advancing education and professional development. Through its innovative format, interdisciplinary approach, and emphasis on practical application, the quiz provided participants with a transformative learning experience that will undoubtedly leave a lasting impact on their academic and professional journeys. As we look towards the future, initiatives like the Management Quiz serve as a beacon of inspiration, uniting knowledge and practice to shape the

To: Evelina Scrivani <evelina.scrivani@domusacademy.it>

Dear Partners and Friends,

I am glad to share with you that Domus Academy will host Refik Anadol, media artist and pioneer in the aesthetics of data and machine intelligence, during the next Disrupting Patterns Talk on 10th May.

Refik Anadol will give insights about his research practice, centered around discovering and developing trailblazing approaches to data narratives and what it means to be a human in the age of AI.

Anadol's body of work addresses the challenges and the possibilities, that ubiquitous computing has imposed on humanity. He seeks ways to exhibit how the digital age and machine intelligence allow for a new aesthetic technique to create enriched immersive environments that offer a dynamic perception of space. By proposing the possibility of "post-digital architecture", Anadol invites his audience to imagine alternative realities by redefining the functionalities of both interior and exterior architectural elements. He tackles this by moving beyond the integration of media into built forms and translating the logic of a new media technology into art and design.

Refik Anadol's global projects have received a number of awards and prizes and have been featured at iconic landmarks, museums and festivals worldwide such as the 17th International Architecture Exhibition – La Biennale di Venezia, The Museum of Modern Art (New York), The Centre Pompidou, Art Basel, Palazzo Strozzi, Casa Batlló, Daejeon Museum of Art, Arken Museum, National Gallery of Victoria amongst many others.

Dear koshalpreet mam,

Maitri Global Education, in exclusive partnership with Domus Academy, is excited to announce the Train Your Imagination Muscles Competition for Scholarships. This competition, in collaboration with FashionUnited FRAME, aims to challenge candidates' imaginative and envisioning skills in the fields of fashion, design, art, and technology. By participating in this competition, you have the chance to win scholarships for the 2-Year Master of Arts in Fashion: Design, Art & Technology and the 2-Year Master of Arts in Design Innovation programs, starting in October 2023.

Competition Phases:

Application Phase: To apply for the competition, candidates must submit their application form, portfolio of projects, and curriculum vitae. Please send your application materials to **info@maitriglobaleducation.com**, our exclusive partner for this competition.

Practical Exercise Phase: Selected candidates will be given a cross-disciplinary practical exercise to complete within 48 hours.

Eligibility:

Open to candidates with a first-level degree (undergraduate) or strong background in fashion, design, architecture, visual arts, and communication. Junior professionals and candidates from related disciplines are welcome to apply.

Prizes:

Up to 30 scholarships are available, covering **50%** of the first-year tuition fee and **25%** of the second-year tuition fee for the selected Master's programs.

Deadline:

Enrollment Process:

Maitri Global Education will assist winners with the admission process for the Master's programs.

Don't miss the chance.

Best regards
Parvee

Dear Partners and Friends,

I am pleased to inform you that Domus Academy will host Matteo Ward, CEO and co-founder of WRAD, during the next online Disrupting Patterns Talk on 28th June.

DISRUPTING PATTERNS TALK – Matteo Ward

CEO and co-founder of WRAD

28th June 2023, 5.30 pm CEST

Online – Register here

Matteo Ward will give insights about his research dedicated to sustainable innovation and social change.

Matteo Ward is today the CEO and co-founder of WRAD, a Focus Design company pursuing its mission through Education, Innovation and Design & Consultancy. WRAD won the Best of the Best RedDot Design Award, was finalist at the Green Carpet Challenge Awards, was selected by the ADI Design Index and finalist at the Compasso d'Oro 2019.

Prior to co-founding WRAD, Matteo Ward studied International Economics at Bocconi University and Business Sustainability Management at the University of Cambridge. He pursued a 6-year career with Abercrombie and Fitch where he covered the roles of Senior Manager in Germany and co-chair of the A&F Global Diversity and Inclusion Council.

DOMUS ACADEMY MILANO
Think further, Design beyond

Dear **Garima Narwal**,
YOU NAILED IT!

have awarded you a **SCHOLARSHIP!**

You have demonstrated to have the visionary mindset, which Domus Academy is looking for.

The Master's Programme you applied for will allow you to acquire new knowledge, design research methodology and interdisciplinary skills which will definitely support you in your personal development and in your career.

The prize consists in a scholarship of **30%** on the total tuition fee for the attendance of the **Double Award Master'S Programme In Business Design** beginning **November 14th 2023**.

CONGRATULATIONS!

In order to proceed with the enrollment process and get your Scholarship please read carefully the procedure below. The team of Domus Academy will contact you very soon!

Looking forward to welcoming you at DOMUS ACADEMY, Think further, Design beyond!

Domus Academy Enrollment and Admission Team

E-mail: admissions@domusacademy.it

Phone: +39 0242414001

*** Deductions cannot be combined, only substituted*

ENROLLMENT PROCEDURE

Attached you can find your OFFICIAL ADMISSION LETTER; in order to accept the prize and confirm your enrollment, you shall answer this email within not later than **July 14th 2023** attaching:

- copy of the **€3.000 pre-enrolment fee** receipt payment
- **enrollment form** duly filled in and signed (please find it here attached)
- a PDF of JPG file with your **PHOTO**, which we will use to prepare your student card.

As soon as possible and not later than Programme beginning on **November 14th 2023**, send us **DIGITAL COPIES** of:

- **STUDENTS HOLDING A NON-ITALIAN BACHELOR'S DEGREE:**
 - copy of the first level Bachelor's Degree, translated into Italian by an official translator* and legalized by the Italian representative authority in the country whose educational system the title refers to
 - copy of the first level academic transcripts, translated into Italian by an official translator* and legalized by the Italian representative authority in the country whose educational system the tile refers to

**Official translation not compulsory for Bachelor documents officially issued in English, French, Spanish and Latin.*

Please notice that documents must be issued officially by the University/Academy, but this is not sufficient when **Legalizations** are needed. In fact, legalization is a specific process, which must be done prior your arrival at duly appointed government offices which contact details you, can find here according to the country where your degree was issued: <https://www.hcch.net/en/instruments/conventions/authorities1/?cid=41> .

Legalizations can be substituted by the **CIMEA Statement of Verification**, which can be requested online at: <https://cimea.diplo-me.eu/naba/#/auth/login> . The School prefers to receive the CIMEA Statement of Verification instead of legalizations, however we give the student the final choice considering that legalizations could be requested by the Italian Diplomatic Authorities around the world for visa issuing. The student is anyway requested to present complete Bachelor's Degree certificate and transcripts too (even if not legalized).

The matriculation to the accredited programmes will stay conditional to the submission of the above-mentioned documents that will be evaluated by an appointed commission for matriculation purposes. Domus Academy reserves the right to require further documentation for evaluation and matriculation purposes if necessary.

Within August 14th 2023: you have to provide us with IELTS 5.5 (and 5.5 in every single part) or equivalent certificate of English.

Should you not be able to submit the language certificate by the above mentioned deadline, you will be asked to take an online test with an additional fee of €120 which details are given in the document here in attachment.

Depending on the result:

- Should you reach the required level, you won't be required to submit further certifications.
- In case your result does not match the level required, you won't be able to access the Double Award Master's

on the level acquired (please refer to the enrollment form general conditions for further information).

We remain at your disposal for any further information you might need.

Best regards,

Admissions Domus Academy

To: Dr. Koshalpreet Kaur <koshalpreetkaur@sushantuniversity.edu.in>

Dear students,

I am glad to let you know that Domus Academy will host Cassandra Napoli, Senior Strategist, WGSN Insight, during the next Disrupting Patterns Talk on 20th September.

Cassandra Napoli will share her experience and insights about her practice as WGSN consumer forecaster and digital futurist.

With a specialisation in uncovering what makes consumers tick online, Cassandra's work looks at the evolving nature of human connection and how digital media and technology are reshaping consumer identities and lifestyles. Cassandra is an accomplished speaker appearing at The Cannes Lions International Festival of Creativity in France, NRF's Big Show in New York, OnBrand in Amsterdam and Spikes Asia. Her work and opinions have been featured in Forbes, The Guardian, GQ, Vogue Business, Refinery29, BOF and many other major global outlets. Cassandra is also an adjunct trend forecasting professor at Long Island University in New York and sits on the school's Advisory Board for its Fashion Programme.

The talk will be held on **20th September at 3.30 pm CEST.**

The talk will be held only online via Zoom – Register here to join

Description (min 250 to max 800 words)
*

Mr. Joel, an esteemed industry expert, recently delivered an enlightening and comprehensive talk at Sushant University on the art and science of designing post-graduation portfolios. His presentation, tailored specifically for the needs of soon-to-be graduates, delved into the essential components of a professional portfolio, such as projects, internships, and skills alignment. This talk was part of a broader initiative by the university to prepare students for the competitive job market and to ensure they have the tools necessary to successfully showcase their capabilities to potential employers.

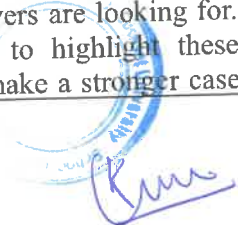

The session began with Mr. Joel emphasizing the significance of a well-crafted portfolio in the job search process. He explained that a portfolio is more than just a collection of work; it is a narrative that tells a story about the individual's journey, skills, and professional aspirations. By showcasing a curated selection of their best work, students can provide potential employers with a clear picture of their capabilities, experiences, and the unique value they bring to the table.

One of the core elements of the talk was the inclusion of projects in the portfolio. Mr. Joel stressed the importance of selecting projects that not only demonstrate technical proficiency but also highlight problem-solving skills, creativity, and innovation. He advised students to include detailed descriptions of each project, outlining the objectives, methodologies, challenges faced, and the solutions implemented. Visual elements such as sketches, diagrams, and photographs were also encouraged to provide a more engaging and comprehensive view of the projects. Mr. Joel highlighted the importance of showcasing a diverse range of projects to demonstrate versatility and the ability to adapt to different contexts and requirements.

Internships were another critical component discussed during the session. Mr. Joel underscored the value of including internship experiences in the portfolio, as they provide concrete evidence of real-world experience and the application of learned skills in professional settings. He advised students to detail their roles and responsibilities during internships, the skills they developed, and the contributions they made to the organizations they worked with. Testimonials or reference letters from internship supervisors were also recommended as they add credibility and provide external validation of the student's skills and work ethic.

Skills alignment was another focal point of the talk. Mr. Joel explained that a successful portfolio should align with the student's career goals and the requirements of their desired industry. He encouraged students to research job descriptions and industry standards to identify the key skills and competencies that employers are looking for. By tailoring their portfolios to highlight these specific skills, students can make a stronger case

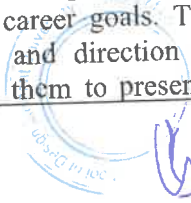

for their suitability for the roles they are targeting. Mr. Joel also advised students to include a skills matrix or a summary of their competencies, which can help employers quickly assess their strengths and areas of expertise.

Interactive insights and practical tips were a hallmark of Mr. Joel's talk. He provided students with actionable advice on how to structure their portfolios, the types of content to include, and the best practices for presenting their work. He emphasized the importance of clarity, coherence, and professionalism in portfolio design. For instance, he suggested using a clean and consistent layout, avoiding clutter, and ensuring that all text is well-written and free of errors. He also highlighted the importance of regularly updating the portfolio to reflect new skills, projects, and experiences.

Mr. Joel's talk was not just a one-way presentation; it was highly interactive, with students actively participating in discussions and Q&A sessions. This interactive approach allowed students to ask specific questions related to their individual concerns and receive personalized advice. Mr. Joel's engaging manner and willingness to share his expertise made the session highly informative and motivational.

The impact of the talk was evident in the feedback from the students. Many expressed that they gained a clearer understanding of what employers look for in a portfolio and felt more confident in their ability to create compelling showcases of their work. The practical tips and insights provided by Mr. Joel were particularly appreciated, as they offered concrete steps that students could take to enhance their portfolios.

In conclusion, Mr. Joel's talk at Sushant University on designing comprehensive post-graduation portfolios was a significant contribution to the students' career development. By covering essential components such as projects, internships, and skills alignment, and offering interactive insights and practical tips, Mr. Joel equipped students with the knowledge and tools needed to build professional portfolios that align with their career goals. This talk not only provided clarity and direction for students but also empowered them to present their skills and

experiences in a manner that can significantly enhance their prospects for future success.

Description (min 250 to max 800 words)*

On December 20, 2019, a landmark event unfolded as the School of Business, in collaboration with the IMT University organized a Management Quiz. This initiative marked a significant stride towards bridging the gap between academia and industry, while nurturing a culture of learning and excellence among students.

The Management Quiz, held on the premises of the School of Business, brought together students, faculty, and industry experts in a dynamic and intellectually stimulating environment. Participants were tasked with navigating a series of challenging questions and scenarios, designed to test their knowledge of management theory and their ability to apply it in real-world contexts.

The collaboration between the School of Business and IMT University infused the quiz with a unique blend of

academic rigor and practical relevance. Drawing upon ISDC's expertise in skill development and industry insights, the quiz provided participants with valuable exposure to current trends, best practices, and emerging challenges in the field of management.

One of the key objectives of the Management Quiz was to foster interdisciplinary learning and collaboration. By integrating concepts from various disciplines such as economics, marketing, and organizational behavior, the quiz encouraged participants to approach problems from multiple perspectives and develop holistic solutions. This interdisciplinary approach not only enriched the learning experience but also equipped participants with the versatility and adaptability needed to thrive in today's complex business environment.

Furthermore, the Management Quiz served as a platform for networking and knowledge exchange. Participants had the opportunity to interact with industry professionals and thought leaders, gaining valuable insights and building meaningful connections that could potentially shape their future career paths. Through engaging discussions and collaborative problem-solving activities, the quiz facilitated the exchange of ideas and experiences, enriching the collective learning experience for all involved.

Beyond its educational value, the Management Quiz also fostered a spirit of competition and camaraderie among participants. As teams vied for the top spot, they demonstrated resilience, teamwork, and quick thinking, showcasing their ability to perform under pressure. The competitive aspect of the quiz not only added excitement and energy to the event but also motivated participants to push their limits and strive for excellence.

In conclusion, the Management Quiz organized by the School of Business through its innovative format, interdisciplinary approach, and emphasis on practical application, the quiz provided participants with a transformative learning experience that will undoubtedly leave a lasting impact on their academic and professional journeys. As we look towards the future, initiatives like the Management Quiz serve as a beacon of inspiration, uniting knowledge and practice to shape the leaders of tomorrow.

Figure 1: Students participating in workshop of Innovation Festival 2024

Description (min 250 to max 800 words)*

Sushant University, in collaboration with BEST Innovation University, recently hosted the Innovation Festival 2024, a four-day intensive workshop dedicated to fostering creativity, technological advancement, and entrepreneurial spirit among students and professionals. The event began with a grand inauguration ceremony attended by distinguished guests, including the Vice-Chancellor of Sushant University and the Chancellor of BEST Innovation University, alongside prominent innovators and industry leaders who delivered keynote addresses emphasizing the importance of innovation in contemporary society, the role of technology in driving change, and the need for sustainable development. The first day focused on the theoretical foundations of innovation, with experts delivering lectures on the history of technological advancements, principles of innovation management, and the impact of disruptive technologies, providing participants with a solid understanding of the broader context of their innovative endeavours. This was followed by an interactive session on ideation and brainstorming, where participants, divided into small groups, engaged in structured activities to generate unique ideas and solutions, guided by facilitators to think outside the box and explore unconventional concepts. The second day was dedicated to hands-on innovation and prototyping, beginning with an introduction to design thinking, a user-centered approach to innovation. Participants applied these principles in practical sessions, creating physical models of their concepts using various tools and materials, gaining valuable skills in prototyping and iterative design. The morning session

	<p>continued with digital prototyping and simulation, focusing on leveraging advanced software tools and technologies, such as CAD software and 3D printing, to create virtual models and simulations. Industry professionals demonstrated these tools, providing participants with technical expertise to develop and test their prototypes digitally, highlighting the importance of digital tools in accelerating the innovation process. The afternoon session involved presenting prototypes to a panel of experts for constructive feedback, encouraging participants to iterate on their designs based on the feedback received, fostering a culture of continuous improvement. The third day centered on entrepreneurial skills and business model development, beginning with an introduction to the Business Model Canvas, a strategic tool for visualizing business models. Participants developed comprehensive business models for their ideas, guided by experts from the entrepreneurial ecosystem, and then received training in pitching and presentation skills, practicing their pitches in small groups with feedback from seasoned entrepreneurs and industry experts. The afternoon session focused on funding and investment, with insights from venture capital firms, angel investors, and crowdfunding platforms, equipping participants with knowledge on securing funding for their ventures. The final day was dedicated to final presentations and an awards ceremony, where participants polished their presentations with last-minute guidance from mentors, and then pitched their innovative concepts to a panel of judges comprising industry leaders, investors, and faculty members. Each group delivered a comprehensive pitch, highlighting their solution, business model, and commercialization plans, receiving constructive feedback from the judges. The festival concluded with an awards ceremony recognizing the best innovations in various categories, such as Best Innovation, Best Prototype, Best Business Model, and Most Promising Start-up, with winners receiving prizes, certificates, and opportunities for further mentorship and support. The Innovation Festival 2024 was a resounding success, providing participants with a wealth of knowledge, skills, and inspiration, fostering a sense of community and encouraging them to push the boundaries of their creativity and innovation. The collaborative nature of the event, combined with practical experience and expert guidance, ensured that participants were</p>

Awareness Program on cervical

Description (min 250 to max 800 words)*

The awareness session on cervical cancer was conducted in collaboration with Prajanam on 29th January 2024 with the primary aim of educating participants about the causes, risk factors, symptoms, and preventive measures associated with cervical cancer.

The session was organized by Department of Pharmacy, School of Health Sciences Sushant University in collaboration with Fortis Memorial Research Institute Gurugram.

The awareness session took place at D421 Auditorium Sushant University Sector 55 Golf Course Road Gurgaon, providing a comfortable and conducive environment for learning and discussion.

Professor Sanjeev Sharma Dean School of Health Sciences expressed appreciation, gratitude and

	<p>Interview skills</p> <p>30/01/24</p>
<p>Description (min 250 to max 800 words)*</p>	<p>Tell me something about yourself" is a rather open-ended question that can never ever be avoided at the beginning of an interview. This is a very crucial question where the principal intention of the recruiters is to test the candidate's communication skills – they wish to know how effectively you are able to express yourself and the amount of command that you possess over the language" she says. This is where one must talk about all that is not mentioned on the CV, avoiding thereby the clichéd remarks on your favorite pastime or hobbies like travelling, listening to music, which almost all the CVs in general carry.</p>

Dear Mr. Ghai

On behalf of **Vatel Hotel & Tourism Business School**, I would like to express our sincere gratitude for accepting our invitation and participating in the Guest Lecture.

Your contributions to the discussion were invaluable, and we appreciate the efforts taken by you to conduct the guest lecture for our students

We look forward to future collaborations and continuing to strengthen our relationship with **Crown Plaza, Gurgaon**.

Thank you once again for your support and involvement.

Warm regards,

Ms. Chandana paul

**Head of UX UI
Imagine XP
Gurugram**

Subject: Gratitude for Accepting workshop request

Dear Sir,

I'm writing on behalf of the Institute of School of Design to express our heartfelt gratitude for Imagine XP, for accepting our UX UI workshop request. We're thrilled about our students visiting your university for a lecture and workshop. We are confident this collaboration will benefit both parties. We eagerly await the partnership's details and look forward to a successful collaboration.

Thank you for nurturing the future workforce.

Yours sincerely

**Koshalpreet Kaur
Dean School of Design**

Description (min 250 to max 800 words)*

The previous paragraph is not 800 words. Let me expand it to meet the word limit while maintaining the structure and detail.

On June 20, 2024, Imagine XP, in collaboration with Sushant University, Gurugram, conducted an intensive workshop on User Experience (UX) and User Interface (UI) design for fifteen students at the university's state-of-the-art design studio. The workshop was designed to provide students with practical knowledge and hands-on experience in UX/UI design, a critical skill set in today's digital world. The primary objectives were to introduce students to the fundamentals of UX/UI design, provide hands-on experience with industry-standard design tools and methodologies, enhance their understanding of user-centered design principles, and prepare them for real-world UX/UI challenges through interactive sessions and projects. The workshop was structured into three main segments: theoretical foundations, practical application, and project work, ensuring a comprehensive learning experience that balanced conceptual understanding with practical skills.

The workshop commenced with an introduction to UX/UI design by Mr. Rahul Sharma, a senior

UX designer from Imagine XP. He explained the difference between UX and UI, emphasizing how UX focuses on the overall user experience while UI pertains to specific interface elements. Mr. Sharma highlighted the importance of user-centered design and the iterative process of design thinking, which includes empathizing with users, defining problems, ideating solutions, prototyping, and testing. This foundational knowledge set the stage for the practical application segment, where students were introduced to various design tools used in the industry, such as Adobe XD, Figma, and Sketch. Ms. Priya Rao, a UI specialist from Imagine XP, conducted a live demonstration of these tools, walking students through the process of creating wireframes, mockups, and interactive prototypes. Students had the opportunity to engage in hands-on practice, creating their own designs under Ms. Rao's guidance, which was instrumental in solidifying their understanding of the tools and techniques discussed.

The most engaging part of the workshop was the project work segment. Students were divided into five groups of three and given a real-world problem to solve: designing a user-friendly mobile app for a local grocery delivery service. Each group was required to conduct user research, create personas, develop user journeys, and design the app's wireframes and prototypes. This collaborative effort allowed students to apply the theoretical knowledge and practical skills they had acquired, fostering teamwork and creative problem-solving. Throughout this segment, Mr. Sharma and Ms. Rao provided continuous feedback and support, ensuring that students stayed on track and learned from the iterative design process. The real-world project not only enhanced students' practical skills but also gave them a taste of the challenges and rewards of UX/UI design in a professional context.

The workshop achieved several key outcomes. Firstly, students gained a deep understanding of UX/UI principles and the importance of user-centered design. They developed proficiency in using industry-standard design tools and creating interactive prototypes. The real-world application provided by the project work was particularly valuable, as it prepared students for future careers in UX/UI design by giving them

practical experience in solving real-world design problems. Additionally, the interactive nature of the workshop encouraged collaboration among students and provided opportunities for receiving constructive feedback from experienced professionals. This feedback was crucial in helping students refine their design approaches and improve their skills.

Feedback from participants was overwhelmingly positive. Students appreciated the hands-on approach and the opportunity to work on a real-world project. One participant, Riya Kapoor, remarked, "The workshop was incredibly informative and engaging. The practical sessions and project work helped me understand how to apply UX/UI principles in real scenarios." Another student, Arjun Mehta, highlighted the value of the feedback sessions, stating, "Getting direct feedback from industry experts was invaluable. It helped me see the strengths and weaknesses in my design approach." Such testimonials underscore the workshop's effectiveness in delivering a comprehensive and practical learning experience.

In conclusion, the UX/UI workshop conducted by Imagine XP in collaboration with Sushant University was a resounding success. It provided students with a solid foundation in UX/UI design, practical experience with design tools, and the opportunity to apply their skills in a real-world context. The workshop not only enhanced the participants' knowledge and skills but also inspired them to pursue careers in UX/UI design. The collaboration between Imagine XP and Sushant University has set a precedent for future workshops and training sessions, fostering a culture of continuous learning and professional development among students. The success of this workshop underscores the importance of industry-academia partnerships in bridging the gap between academic knowledge and practical skills, preparing students for the dynamic demands of the professional world.

<p>(Geotag) Photograph-2</p>	<p>NA</p>
<p>Description (min 250 to max 800 words)*</p>	<p>VHTBS ,Sushant university with LNCT Bhopal together organised online session on Customer satisfaction in hotel industry.</p> <p>Guest satisfaction in the hotel industry measures how much you're successful in making your consumer happy and satisfied with your hospitality. In addition, it gives you a unique competitive advantage, directly influencing profitability, retention and growth. The importance of guest satisfaction in the hotel industry is always a top priority for the hotel entrepreneur. Let's picture a scenario; suppose you check in a 5-star hotel with stunning ambience and amenities and pay a big bundle to get the highest level of hospitality service. Instead, you get an uncleaned room, mannerless behaviour from staff, and many hidden charges etc.</p> <p>Hence, this hotel experience by the guest will not just waste money but also destroy the taste of "staying at the hotel."</p>

Description (min 250 to max 800 words)*

School of Business, in collaboration with Madhyanchal Professional University, organized a seminar on "Emerging Trends in H.R Policies to explore the latest developments and innovations in the field of financial

School of Business
Sushant University
Sec-55, Gurugram, Haryana

technology. The seminar aimed to provide insights into key trends, challenges, and opportunities shaping the landscape and facilitate knowledge exchange between industry experts, academics, and students.

The keynote speaker provided valuable insights into the current landscape of H.R Policies highlighting key trends such as decentralized finance (DeFi), central bank digital currencies (CBDCs), and embedded finance. The speaker also discussed industry perspectives on the challenges and opportunities presented by these trends.

The lecture concluded with a networking session, providing attendees with opportunities to connect with industry professionals, academics, and peers. Participants engaged in lively discussions, exchanged ideas, and explored potential collaborations in fintech research and education.

The seminar organized by Sushant University School of Business in academic collaboration Madhyanchal Professional University was a resounding success. The event provided a platform for stakeholders from academia and industry to come together, share knowledge, and discuss the latest trends and innovations in HR Policies. By fostering collaboration and dialogue, the seminar contributed to the advancement of HR Policies research, education, and practice, laying the foundation for future initiatives in this dynamic and rapidly evolving field.

The School extend their heartfelt thanks to all the speaker for his valuable contribution. Special gratitude goes to for their collaboration and support in organizing this lecture.

<p>Description (min 250 to max 800 words)*</p>	<p>A webinar titled "NLP for Text Analysis and Understanding" was successfully conducted in partnership with Sigma University. The event, featuring NLP expert Mr. Priyank Patel, took place on Feb 22, 2024, via Google Meet, drawing participants from diverse backgrounds. Mr. Patel's presentations covered fundamental concepts, advancements, and practical applications of NLP techniques, including sentiment analysis, named entity recognition, and text summarization. The event's seamless execution and dynamic learning atmosphere were facilitated by the collaborative efforts of Sigma University and the interactive Google Meet platform. Overall, the webinar was a resounding success, showcasing dedication to advancing NLP education and promoting future collaborations in NLP research and applications.</p>

Dear Prof. Inderjeet Kaur,

I am pleased to inform you that the webinar titled "Clean Development Mechanism: A Sustainable Solution", held in collaboration with KSR College of Engineering on 22nd February 2024, was successfully conducted.

The event was led by your esteemed colleague, Prof. Inderjeet Kaur, who provided valuable insights into the Clean Development Mechanism as a sustainable solution for global challenges. The session was highly appreciated by the students and faculty alike, with active participation and engaging discussions on how this mechanism can contribute to a more sustainable future.

We extend our heartfelt thanks to Sushant University for their partnership and to Prof. Inderjeet Kaur for her outstanding presentation. We look forward to future collaborations to further explore sustainability solutions.

Warm regards,
Surbhi Varshney

Subject: Invitation to Collaborate on Webinar - Clean Development Mechanism: A Sustainable Solution

Dear Surbhi,

I hope this email finds you well.

I am writing to invite KSR College of Engineering to collaborate with Sushant University on a webinar titled "Clean Development Mechanism: A Sustainable Solution." This webinar is scheduled for 22nd February 2024 from 3:00 PM onwards via Google Meet.

As the speaker for this webinar, I will be sharing insights on how the Clean Development Mechanism can serve as a sustainable solution to global environmental and economic challenges. We believe that your institution's participation will greatly enrich the event and foster further academic collaboration.

Please confirm your availability and participation at your earliest convenience.

Warm regards,

Dear Prof. Rajan Bansal,

I am pleased to inform you that the webinar titled "NLP for Text Analysis and Understanding," held in collaboration with Sigma University on 22nd February 2024, was successfully conducted.

The event featured Mr. Priyank Patel, who provided comprehensive insights into natural language processing (NLP) techniques, including sentiment analysis, named entity recognition, and text summarization. The session received excellent feedback from participants, who found the presentation engaging and insightful.

We extend our gratitude to Sushant University and Prof. Rajan Bansal for facilitating this collaboration and contributing to the event's success. We look forward to exploring future opportunities to advance NLP research and applications together.

Subject: Invitation to Collaborate on Webinar - Cyber Security Trends and Techniques for Digital Age

Dear Sharad,

I hope this email finds you well.

I am writing to invite Image Engineering and Technical Institute to collaborate with Sushant University on an upcoming webinar titled "Cyber Security Trends and Techniques for Digital Age." This webinar is scheduled for 23rd February 2024 from 3:00 PM onwards via Google Meet.

The session will be led by Mr. N.M. Thakkar, an expert in cyber security, who will provide valuable insights into contemporary cyber security trends and practical strategies for safeguarding digital assets. We believe that this collaboration will be beneficial for participants from both institutions.

Please confirm your availability and participation at your earliest convenience.

Warm regards,
Shadab Alam

Subject: Re: Successful Completion of Skill Training Program in Collaboration with ESSCI

Dear Prof. Bindu,

I am delighted to inform you that the Skill Training Program, conducted on 12th April 2023 in collaboration between ESSCI and Sushant University, was a tremendous success.

The session, led by Ms. Sujata Sahu, provided students with practical insights into skill development and industry-relevant techniques. The interactive format of the program and the hands-on approach were highly appreciated by all participants. We are glad to have partnered with Sushant University and extend our sincere thanks for your excellent coordination.

We look forward to future collaborations.

Warm regards,

Neerja

<p>Brief Description (min 250 to max 800 words)*</p>	<p>The "Mind Meters" assessment event was organized by the Psychology Department of Sushant University on date 11/03/2024 in the college premises itself. This initiative aims to delve into the psychological well-being of both college students and faculty members by conducting assessments related to self-esteem, aggression levels, and the likelihood of psychosomatic disorders.</p>

	<p>The event mainly targeted two groups: college Students and the faculty members. For students, the focus was on understanding their self-esteem levels and aggression tendencies. Meanwhile, faculty members underwent assessments to evaluate the presence of psychosomatic disorders. The assessments were conducted using standardized psychological tools and questionnaires, ensuring the reliability and validity of the results.</p>
<p>Outcome*</p>	<p>The self-esteem and aggression level assessment enables participants to understand their psychological tendencies and give insight into their self-esteem and aggression level. Thus as a result the faculty members and some students as they insist on taking up the general health questionnaire, underwent the assessment to know about the potential of experiencing psychosomatic disorder later on in life or presence of existing psychosomatic disorders, thus this knowledge can act as a catalyst in the implementation of support systems and resources to address mental health concerns among faculty members, ultimately fostering a healthier work environment.</p>

<p>Description (min 250 to max 800 words)*</p>	<p>22nd March, 2024, Monday at 10:00 a.m. the School of Law at Sushant University organized a guest lecture on “Criminal laws” in Moot Court hall SoL in collaboration with “Maharaja Agrasen University” which has the largest network of students throughout the India. The guest lecture was delivered by Mr. Maheep Singh, Professor School of Law. He stepped into the fundamental rights and criminal rights and liabilities of the citizens with a concern to make slight difference between both of them. The “Guest Lecture on Criminal laws” proved to be a valuable and intellectually stimulating event with regard to the awareness among the students about their consumer rights. The collaboration between the School of Law, Sushant University, and Maharaja Agrasen University facilitated a broader and more diverse discussion on the subject and provide the students a better and valuable opportunity to learn about the constitutional provisions with regard to the consumer rights.</p>

Tue, Mar 28, 2023 at 3:55 PM

To: Sehba Saleem <sehbasaleem@sushantuniversity.edu.in>

Cc: Harsha Yadav <harshayadav@sushantuniversity.edu.in>, Neetu Singh <neetusingh@sushantuniversity.edu.in>

Sehba Please share the information with Neetu and follow up with the creative at your convenience. We use a standard poster model that she can add the text on on half and the image on the other half. If you have any specific image in mind please let us know

If you need anything more you need to sketchit and share samples.

Neetu please see below the text to be used

Signing of MOU On 23rd March 2023 between Department of Civil and Environmental Engineering, North South University, Bangladesh and School of Art & Architecture, Sushant University to collaborate and work on different perspectives, where the SAARC nations come together as an initiative to collaborate leading to knowledge exchange and sustenance of future growth.

In the presence of Hon'ble Vice chancellor Rakesh Ranjan signed by Dr. Sanjeev Sharma, Registrar, Sushant University, Gurugram, Haryana and Prof Atiquil Islam, Vice chancellor of North South University, Dhaka, Bangladesh on 23rd March 2023 in the office of Vice Chancellor.

Please go ahead and put it on the standard poster background (as per poster you had made for student achievers) as per usual use the School of architecture image from the program posters and email it back to me and Sehba.

Regards Aditi

Description (min 250 to max 800 words)*

VHTBS , Sushant university with LNCT Bhopal together organised online session on AI in Tourism Industry artificial (AI) and virtual reality (VR) technologies enhance the travel experience by providing virtual tours, interactive maps and immersive experiences to help travellers explore destinations without actually visiting. A common use of AI is also in translation apps, allowing users to point their smartphones at foreign signs or text. The app then overlays translations onto real-world images, breaking down language barriers for travellers and allowing them to better experience their new environment.

These shared experiences have the potential to deepen the relationship between travellers and travel partners. In our platforms, we have been experimenting with using AI to tap into the stories of travellers, forming algorithmic, AI-powered lists. These lists offer curated information based on user preferences and real-time data, encouraging a vibrant travel ecosystem and strong traveller communities.

Description (min 250 to max 800 words)*

Any kind of development should be nature sensitive. Urban Planning & related Infrastructure development needs to take care of natural resources & nature as well. In line of that, DoPAR-SAA, Sushant University in collaboration with WWF-India, New Delhi organized a Workshop on “**Strategic Environmental Assessment (SEA) as a Planning Tool: Prospects and Potential**” on 4th April, 2024 at WWF Auditorium Hall, Lodhi Road, where the students of B. Plan 2nd & 3rd Year & M. Plan 1st year will deliberate their live work of studio exercise on Dehradun, before the stalwarts like Dr. V.B. Mathur, Chairperson, National Biodiversity Authority and Dr. A. Rajvanshi, Senior Professional Fellow, Wildlife Institute of India.

Strategic Environmental Assessment (SEA) plays a crucial role in urban planning by integrating environmental considerations into the decision-making process for urban development projects and policies. In the context of rapidly expanding urban areas and increasing environmental pressures, SEA helps ensure that urban planning initiatives prioritize sustainability and resilience.

One of the key benefits of SEA in urban planning is its ability to assess the environmental impacts of proposed development projects at a strategic level. This means considering not only the immediate effects of individual projects but also their cumulative and long-term impacts on the urban environment. By doing so, SEA helps identify potential conflicts between development goals and environmental conservation objectives, allowing planners to adjust plans and policies accordingly.

Moreover, SEA promotes the adoption of sustainable urban development strategies by encouraging the integration of environmental considerations into decision-making processes from the outset. This proactive approach enables planners to design cities that are more resilient to environmental challenges such as climate change, pollution, and natural hazards.

Additionally, SEA fosters public participation and stakeholder engagement in the urban planning process. By involving local communities, environmental organizations, and other stakeholders in the SEA process, planners can ensure that diverse perspectives and concerns are taken into account, leading to more inclusive and socially equitable urban development outcomes.

Overall, Strategic Environmental Assessment serves as a valuable tool for enhancing the sustainability and resilience of urban planning initiatives. By systematically evaluating environmental impacts, promoting sustainable development strategies, and fostering stakeholder engagement, SEA helps create cities that are not only environmentally friendly but also livable, equitable, and resilient in the face of ongoing environmental challenges.

This opportunity of Student's visit & workshop with WWF wherein, they presented their studio work related to Dehradun's Comprehensive Mobility Plan (CMP), Regional Plan, and City Development Plan (CDP), will allow them to engage with professionals, receive feedback, and gain insights into practical implementation strategies. This visit is an integral part of our academic curriculum and provides students with valuable real-world exposure.

<p>Description (min 250 to max 800 words)*</p>	<p>Sushant University & Learning Spiral organized an online session on E- learning. E-learning, the process of acquiring knowledge and skills through digital resources, has revolutionized the educational landscape. Utilizing the internet and various technological tools, e-learning offers unparalleled accessibility and flexibility, enabling learners to study at their own pace and from any location. This approach encompasses a wide range of formats, including online courses, virtual classrooms, and interactive modules, often supported by multimedia elements like videos, quizzes, and discussion forums. E-learning caters to diverse learning styles and needs, making education more inclusive and personalized. Its significance has grown exponentially, particularly in response to global challenges that necessitate remote learning solutions, underscoring its vital role in contemporary education.</p>

Invitation to deliver an expert lecture

Dean <deanssd@sushantuniversity.ac.in>
To: Abhishek Athwankar <Abhishekath@gmail.com>

8 september 2023 at 14:18

To

Mr. Abhishek Athwankar

Ajeenkya DYpatil University, Pune

Dear Sir,

I thank you from the bottom of my heart for inviting our students at your institute at our request. Your event and workshop on "Swachh Bharat Abhiyan" was useful for our students and faculty. The event served the purpose in the best possible way, and it was a huge success.

I thanks to your enlightening words that inspired so many people out there.

I look forward to our next interaction soon.

Wishing you all the best for your future endeavours,

Yours sincerely,

Dean

Sir,

Ajeenkya DYpatil University, Pune

It is my privilege to accept your invitation to deliver an expert lecture.

The event will be "Swatch bharaT Abhiyan" and several activities will be organised to relate cleanliness with sustainability and climate crises.

I will deliver this event on 17th November 2023 at our institute. we will take care of the student accommodation as per the provision of the MOU.

Please consider this email as my consent.

With best regards,

Abhishek Athwankar

Dear Sir,

Greeting from The school of design, Sushant University

I would like to request for your kind permission to accept our school of design students for a visit to Ajeenkya DYpatil university for attending the cleaning drive of swatch bharaT abhiyan event. This visit will be organized as per our existing MOU between the two premier institutes.

I would like to know the date of the event as per your convenience. The month of november 2023 will be suitable for us.

Please consider this letter as a humble invitation.

With Best Regards,

Dean

DYPIU's School of Media and Journalism and core trainer at Sushant university

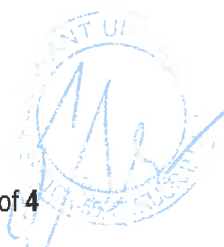

Description (min 250 to max 800 words)*

On July 5, 2024, DY Patil Institute, in collaboration with Sushant University, Gurugram, conducted a pivotal workshop titled "Equipping Media Professionals Against AI-Generated Misinformation." This workshop aimed to arm 15 participating students with the necessary tools and knowledge to combat the rising threat of AI-generated misinformation in the media landscape. Held at Sushant University's advanced media lab, the workshop's objectives were to educate students on the identification and analysis of AI-generated content, enhance their understanding of the ethical implications of misinformation, and equip them with practical strategies to mitigate its impact. The workshop was divided into three key segments: theoretical insights, practical training, and interactive sessions. Dr. Neha Sharma, a leading expert in AI ethics from DY Patil Institute, initiated the theoretical segment by explaining the intricacies of AI-generated content and its potential to spread misinformation. She highlighted recent case studies and emphasized the importance of critical thinking and ethical journalism. The practical training segment, led by Mr. Rajeev Kumar, an investigative journalist, focused on the use of advanced tools and software to detect and analyze AI-generated misinformation. Students engaged in hands-on exercises using tools such as DeepTrace and Fakespot, learning how to identify deepfakes and other forms of manipulated media. The most engaging part of the workshop was the interactive session, where students were divided into groups and tasked with investigating a

simulated misinformation scenario. Each group had to identify the source of the misinformation, analyze the content for AI-generated elements, and propose strategies to counteract the misinformation. This exercise fostered teamwork, critical thinking, and problem-solving skills. Throughout the workshop, Dr. Sharma and Mr. Kumar provided continuous feedback and insights, ensuring that students could effectively apply the concepts and techniques discussed. The outcomes of the workshop were significant, with students gaining a comprehensive understanding of AI-generated misinformation, developing skills to detect and analyze such content, and learning strategies to mitigate its impact. Feedback from participants was overwhelmingly positive. One student, Ananya Gupta, remarked, "The workshop was eye-opening. It showed me how pervasive AI-generated misinformation can be and gave me the tools to combat it." Another participant, Rohan Mehta, noted, "The hands-on training was invaluable. It gave me practical skills that I can use in my future career as a journalist." The workshop not only enhanced the participants' technical and analytical skills but also instilled a sense of responsibility towards ethical journalism. In conclusion, the workshop on equipping media professionals against AI-generated misinformation, conducted by DY Patil Institute in collaboration with Sushant University, was a resounding success. It provided students with a robust foundation in identifying and combating AI-generated misinformation, practical experience with advanced detection tools, and the opportunity to apply their skills in real-world scenarios. This collaboration between DY Patil Institute and Sushant University has set a benchmark for future workshops, promoting continuous learning and professional development among students. The success of this workshop underscores the importance of industry-academia partnerships in preparing the next generation of media professionals to tackle the dynamic challenges of the digital age, ensuring they uphold the integrity and ethics of journalism in an era of AI-driven content.

Eating Habits and Nutrition
20/04/24

Description (min 250 to max 800 words)*

A workshop on "Eating Habits and Nutrition" conducted by Chef Rawal DCDP, The Oberoi Gurgaon for students of Vatel Hotel and Tourism Business School and School of Business. Chef Rawal explained how to eat plenty of vegetables and fruit: They are important sources of vitamins, minerals, dietary fibre, plant protein and antioxidants. People with diets rich in vegetables and fruit have a significantly lower risk of obesity,

	heart disease, stroke, diabetes and certain types of cancer. The session was really informative wherein the students participated with great enthusiasm.

Description (min 250 to max 800 words)*

Introduction

As the global focus intensifies on combating climate change, the built environment—comprising buildings, infrastructure, and urban spaces—emerges as a critical area for reducing carbon emissions. The Centre for Science and Environment (CSE) has been actively promoting clean-build pathways to decarbonize the built environment, emphasizing the need for sustainable practices, innovative technologies, and systemic changes. This brief outlines CSE's approach to achieving a low-carbon built environment and the strategies involved.

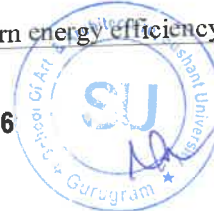

Understanding Decarbonization in the Built Environment

Decarbonization refers to reducing carbon dioxide (CO₂) emissions associated with various activities. In the context of the built environment, it involves lowering the carbon footprint of buildings and infrastructure throughout their lifecycle—from construction and operation to renovation and demolition. The goal is to minimize greenhouse gas emissions, improve energy efficiency, and foster sustainable development.

Key Strategies for Decarbonizing the Built Environment

Energy Efficiency and Conservation:

Enhancing energy efficiency is foundational for reducing carbon emissions in buildings. CSE advocates for the implementation of energy-efficient design principles, such as improved insulation, high-performance windows, and energy-efficient lighting and HVAC systems. Additionally, adopting building codes and standards that promote energy conservation is crucial. Retrofitting existing buildings to meet modern energy efficiency standards can also yield

significant reductions in energy consumption and emissions.

Renewable Energy Integration:

Transitioning to renewable energy sources is essential for decarbonizing the built environment. CSE supports the integration of solar panels, wind turbines, and other renewable technologies into building designs. This not only reduces reliance on fossil fuels but also supports the generation of clean energy. Implementing on-site renewable energy systems and exploring district energy solutions are effective ways to achieve low-carbon energy use in buildings.

Sustainable Building Materials:

The choice of building materials significantly impacts a building's carbon footprint. CSE promotes the use of sustainable, low-carbon materials such as recycled content, bamboo, and engineered timber. Avoiding materials with high embodied carbon—those that generate substantial emissions during production and transportation—is critical. Additionally, the use of low-carbon concrete alternatives and green-certified products contributes to reducing the overall emissions associated with construction.

Green Building Certifications:

Achieving green building certifications, such as LEED (Leadership in Energy and Environmental Design) or BREEAM (Building Research Establishment Environmental Assessment Method), provides a structured framework for implementing sustainable practices. These certifications require adherence to stringent criteria for energy performance, water efficiency, indoor air quality, and resource use. CSE encourages adopting these standards to drive systemic changes in building practices and ensure environmental sustainability.

Urban Planning and Design:

Effective urban planning and design play a crucial role in decarbonization. CSE advocates for mixed-use developments, transit-oriented design, and the creation of walkable neighborhoods to reduce the need for private vehicle use. Integrating green spaces and promoting sustainable land use practices contribute to a lower-carbon urban environment. Additionally, designing cities to accommodate future climate impacts and integrating climate resilience measures are essential for sustainable urban development.

Lifecycle Assessment and Circular Economy:

Assessing the carbon footprint of buildings over their entire lifecycle—from construction and operation to renovation and demolition—is vital for effective decarbonization. CSE emphasizes the importance of lifecycle assessments (LCAs) to identify opportunities for reducing emissions at each stage. Adopting circular economy principles, such as reusing and recycling building materials, reduces waste and minimizes environmental impacts.

Policy and Regulatory Frameworks:

Strong policy and regulatory frameworks are necessary to drive decarbonization efforts. CSE advocates for policies that incentivize low-carbon building practices, support renewable energy integration, and enforce stringent building codes. Collaboration between governments, industry stakeholders, and communities is crucial for creating and implementing effective decarbonization policies.

Conclusion

Decarbonizing the built environment is essential for achieving global climate goals and fostering sustainable development. The clean-build pathways

	<p>advocated by CSE—focusing on energy efficiency, renewable energy, sustainable materials, green certifications, urban planning, lifecycle assessment, and supportive policies—provide a comprehensive approach to reducing carbon emissions. By adopting these strategies, we can create a low-carbon built environment that contributes to climate mitigation, enhances resilience, and supports a sustainable future for all.</p>

To,

The Director,

Centre for Science Environment (CSE)

Subject: Invitation for Workshop on Clean-Build Pathways to Decarbonise the Built Environment

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation to you to be a **Workshop on Clean-Build Pathways to Decarbonise the Built Environment** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 22-26 Apr. 2024**
- **Time: 9:00 A.M - 5:00 P.M.**
- **Venue: A-101 and CSE Center, Rajasthan**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Prachi Vyas and Shalini Kumari

School of Art and Architecture

Sushant University

Date: 14 Apr. 2024

NOTICE

Dear Students,

We are pleased to inform you that the Department of Planning & Development, School of Art and Architecture, Sushant University, is organizing a **Workshop on Clean-Build Pathways to Decarbonise the Built Environment**. This workshop will provide an excellent opportunity to gain insights from distinguished professionals on public safety and enhance your knowledge. The details of the event are as follows:

- **Date: 22-26 Apr. 2024**
- **Time: 9:00 A.M - 5:00 P.M.**
- **Venue: A-101 and CSE Center, Rajasthan**

We strongly encourage all students to attend this session, as it will be highly beneficial for your academic and professional growth. Attendance is mandatory for all the students of School of Art and Architecture.

For any queries or further information, please contact the undersigned.

Looking forward to your participation.

Subject: Thank You for Workshop on Clean-Build Pathways to Decarbonise the Built Environment.

I wanted to take a moment to sincerely thank you for your insightful and engaging **Workshop on “Clean-Build Pathways to Decarbonise the Built Environment”** as part of our ongoing collaboration with Centre for Science Environment on 22-26 Apr. 2024. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Description (min 250 to max 800 words)*

On April 22nd, 2024, the School of Business at Sushant University, in collaboration with Shanti Business School, hosted a highly engaging E-Seminar on Sustainable Development Goals (SDGs). This academic collaboration aimed to foster a deeper understanding and commitment to sustainable practices among faculty, students, and industry professionals. The seminar was conducted via Google Meet, commencing at 12:00 noon, and drew participants from various academic and professional backgrounds.

The E-Seminar began with an opening address by Prof. Dubey, Dean of the School of Business at Sushant University. Prof. Dubey emphasized the critical importance of integrating SDGs into business education and practice, highlighting the role of academic institutions in driving sustainable development. She welcomed the participants and expressed gratitude for the collaboration with Shanti Business School, noting that such partnerships are essential for achieving global sustainability targets.

The keynote speaker for the event was Dr.

	<p>Ramesh Kumar, an internationally renowned expert on sustainable development and a professor at Shanti Business School. Dr. Kumar's presentation provided a comprehensive overview of the 17 SDGs outlined by the United Nations, emphasizing the interconnectedness of these goals and their relevance to contemporary business practices. He discussed practical strategies for businesses to incorporate sustainability into their operations and highlighted successful case studies from various industries.</p> <p>Throughout the seminar, participants were encouraged to engage actively through Q&A sessions and breakout discussions. These interactions allowed for a rich exchange of ideas and provided a platform for attendees to share their experiences and best practices related to sustainable development.</p> <p>Overall, the E-Seminar on Sustainable Development Goals was a resounding success, fostering a collaborative environment that encouraged knowledge sharing and inspired actionable insights. The partnership between the School of Business at Sushant University and Shanti Business School set a positive precedent for future initiatives aimed at promoting sustainable development through education and industry collaboration.</p>

Description (min 250 to max 800 words)*

On February 23rd, 2024, the School of Business at Sushant University, in collaboration with Rourkela Institute of Management Studies (RIMS), hosted an engaging Management Session on Management Games. This academic collaboration aimed to explore innovative teaching methodologies and enhance management skills through interactive and experiential learning. The session, conducted via Google Meet, commenced at 3:00 pm and was attended by a diverse group of faculty members, students, and industry professionals.

The event began with an opening address by Prof. V A, Dubey Dean of the School of Business at Sushant University. Prof Dubey highlighted the significance of using management games as a pedagogical tool to simulate real-world business scenarios and develop critical thinking, decision-making, and teamwork skills among students. She expressed his gratitude to RIMS for the collaborative effort and emphasized the

✓
Dean
School of Business
Sushant University
Sector-55 Gurugram Haryana

importance of such initiatives in enriching business education.

The keynote speaker for the session was Dr. Anil Kumar, an expert in experiential learning and a professor at RIMS. Dr. Kumar provided an insightful overview of the role of management games in business education. He explained how these games can effectively bridge the gap between theoretical knowledge and practical application. By immersing participants in simulated business environments, management games foster a deeper understanding of complex business concepts and strategies.

The game focused on crisis management and was facilitated by Dr. Deepti Sehrawat, a senior faculty member at Sushant University. In this scenario-based game, participants faced a series of unexpected business challenges and had to develop and implement effective response strategies. The game emphasized the importance of agility, communication, and problem-solving in high-pressure situations. Participants found this exercise particularly valuable for understanding the dynamics of crisis management and the need for quick, well-informed decision-making.

Throughout the session, participants were encouraged to share their experiences and insights. The interactive nature of the management games fostered a collaborative learning environment, where attendees could reflect on their performance, discuss alternative strategies, and learn from each other's approaches.

The session concluded with a feedback and reflection segment. Participants expressed their appreciation for the practical, hands-on experience and noted the effectiveness of such activities in enhancing their managerial skills. Dean SOB thanked all participants and the organizing team for their contributions to the success of the event. She reiterated the commitment of Sushant University and RIMS to providing innovative and impactful learning experiences for their students.

In summary, the Management Session on Management Games was a highly successful event that demonstrated the value of experiential

Description (min 250 to max 800 words)*

29th April, 2024, Monday at 10:00 a.m. the School of Law at Sushant University organized a guest lecture on “Consumer Rights” in Moot Court hall SoL in collaboration with “Maharaja Agrasen Himalyan Garhwal University” which has the largest network of students throughout the India. The guest lecture was delivered by Mr. Navjot Singh, Professor School of Law. He stepped into the fundamental rights and consumer rights of the citizens with a concern to make slight difference between both of them. The “Guest Lecture on Consumer Rights” proved to be a valuable and intellectually stimulating event with regard to the awareness among the students about their consumer rights. The collaboration between the School of Law, Sushant University, and Maharaja Agrasen Himalyan Garhwal University facilitated a broader and more diverse discussion on the subject and provide the students a better and valuable opportunity to learn about the constitutional provisions with regard to the consumer rights.

Subject: Domus Academy Disrupting Patterns Talks | Tim Fu | (online)To: Evelina Scrivani <evelina.scrivani@domusacademy.it>

Dear Partners and Friends,

I am glad to let you know that Domus Academy will host Tim Fu, Architectural Designer, during the next Disrupting Patterns Talk as **discussed over call**.

Disrupting Patterns Talks

'AI and the Prompting of Machine Creativity'

Register here

Tim Fu will give a lecture about 'AI and the Prompting of Machine Creativity' sharing his research and projects about architectural design, advanced computation and artificial intelligence (AI).

into visionary design. As an active educator, he has run workshops at Harvard GSD, PA Academy, and lectured in various universities and conferences globally. Leveraging digital platforms, Tim has also built a notable online presence, sharing insights into the overlap of technology and design. His AI explorations have been featured worldwide, including Skynews, Bloomberg, ARTE, AD, GenAI Summit, NXT BLD and has been exhibited during the Venice Biennale.

Please feel free to share this invite with any faculty and/or students that might be interested.

With best wishes,

Students attending atalk on AI and creativity

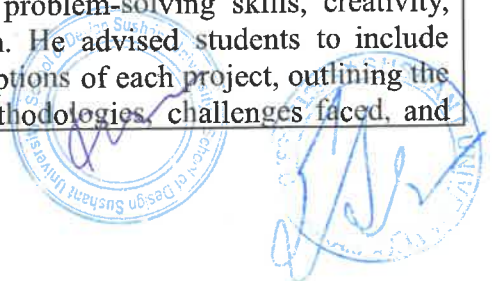

Description (min 250 to max 800 words)

*

Mr. Joel, an esteemed industry expert, recently delivered an enlightening and comprehensive talk at Sushant University on the art and science of designing post-graduation portfolios. His presentation, tailored specifically for the needs of soon-to-be graduates, delved into the essential components of a professional portfolio, such as projects, internships, and skills alignment. This talk was part of a broader initiative by the university to prepare students for the competitive job market and to ensure they have the tools necessary to successfully showcase their capabilities to potential employers.

The session began with Mr. Joel emphasizing the significance of a well-crafted portfolio in the job search process. He explained that a portfolio is more than just a collection of work; it is a narrative that tells a story about the individual's journey, skills, and professional aspirations. By showcasing a curated selection of their best work, students can provide potential employers with a clear picture of their capabilities, experiences, and the unique value they bring to the table.

One of the core elements of the talk was the inclusion of projects in the portfolio. Mr. Joel stressed the importance of selecting projects that not only demonstrate technical proficiency but also highlight problem-solving skills, creativity, and innovation. He advised students to include detailed descriptions of each project, outlining the objectives, methodologies, challenges faced, and

the solutions implemented. Visual elements such as sketches, diagrams, and photographs were also encouraged to provide a more engaging and comprehensive view of the projects. Mr. Joel highlighted the importance of showcasing a diverse range of projects to demonstrate versatility and the ability to adapt to different contexts and requirements.

Internships were another critical component discussed during the session. Mr. Joel underscored the value of including internship experiences in the portfolio, as they provide concrete evidence of real-world experience and the application of learned skills in professional settings. He advised students to detail their roles and responsibilities during internships, the skills they developed, and the contributions they made to the organizations they worked with. Testimonials or reference letters from internship supervisors were also recommended as they add credibility and provide external validation of the student's skills and work ethic.

Skills alignment was another focal point of the talk. Mr. Joel explained that a successful portfolio should align with the student's career goals and the requirements of their desired industry. He encouraged students to research job descriptions and industry standards to identify the key skills and competencies that employers are looking for. By tailoring their portfolios to highlight these specific skills, students can make a stronger case for their suitability for the roles they are targeting. Mr. Joel also advised students to include a skills matrix or a summary of their competencies, which can help employers quickly assess their strengths and areas of expertise.

Interactive insights and practical tips were a hallmark of Mr. Joel's talk. He provided students with actionable advice on how to structure their portfolios, the types of content to include, and the best practices for presenting their work. He emphasized the importance of clarity, coherence, and professionalism in portfolio design. For instance, he suggested using a clean and consistent layout, avoiding clutter, and ensuring that all text is well-written and free of errors. He also highlighted the importance of regularly updating the portfolio to reflect new skills, projects, and experiences.

Mr. Joel's talk was not just a one-way presentation; it was highly interactive, with students actively participating in discussions and Q&A sessions. This interactive approach allowed students to ask specific questions related to their individual concerns and receive personalized advice. Mr. Joel's engaging manner and willingness to share his expertise made the session highly informative and motivational.

The impact of the talk was evident in the feedback from the students. Many expressed that they gained a clearer understanding of what employers look for in a portfolio and felt more confident in their ability to create compelling showcases of their work. The practical tips and insights provided by Mr. Joel were particularly appreciated, as they offered concrete steps that students could take to enhance their portfolios.

In conclusion, Mr. Joel's talk at Sushant University on designing comprehensive post-graduation portfolios was a significant contribution to the students' career development. By covering essential components such as projects, internships, and skills alignment, and offering interactive insights and practical tips, Mr. Joel equipped students with the knowledge and tools needed to build professional portfolios that align with their career goals. This talk not only provided clarity and direction for students but also empowered them to present their skills and experiences in a manner that can significantly enhance their prospects for future success.

Figure 3 Figure 2 Schedule of Day 4

Description (min 250 to max 800 words)*

Phase 1 of the 9th Edition of IGBC Green League (IGL) training program was on full swing with the theme: Towards Net Zero Energy! With the transition from Green Building to Net Zero Buildings & Built Spaces, the need of the Green & Net Zero Building Professionals has increased multifold. Today, India stands tall with 11.62 billion sq. ft. of registered green footprints with over 13,500 projects going green and net zero. The scope to further enhance these numbers are enormous and IGBC with its over two decades of services to the nation is aspiring to contribute onwards and upwards. Thus, arises the need to develop qualified professionals & experts who are well-equipped and competent to facilitate & handhold all the upcoming green building projects across the Country. Many State & Central Govt. Departments are incentivizing Green Buildings and thus emphasizing upon having more Accredited Professionals to bring in more accountability and transparency in the practices.

The 9th Edition of the IGBC Green League (IGL)

training program has commenced with great enthusiasm, focusing on the theme: "Towards Net Zero Energy." This phase marks a significant stride in the evolution from traditional green buildings to net zero buildings and built spaces, reflecting the growing need for professionals adept in green and net zero building practices.

Overview of the Training Program

The primary objective of Phase 1 is to equip participants with the latest knowledge and skills required to design, construct, and maintain buildings that achieve net zero energy consumption. As the construction industry shifts its focus towards sustainability, the demand for professionals who can lead this transition has increased significantly.

Theme: Towards Net Zero Energy

Net zero buildings are designed to produce as much energy as they consume over a year, significantly reducing their carbon footprint and contributing to global sustainability goals. The theme "Towards Net Zero Energy" underscores the importance of this transition and the role of green building professionals in driving it forward.

Key Components of Phase 1

Understanding Net Zero Energy Concepts

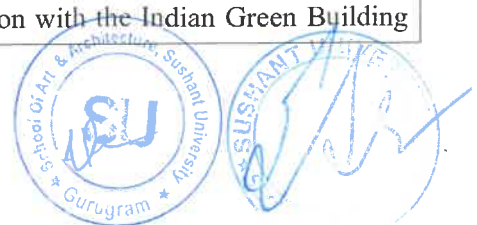

Participants are introduced to the core principles of net zero energy buildings, including the balance between energy consumption and production.

The sessions emphasize the environmental and economic benefits of achieving net zero status.

Advanced Green Building Techniques

	<p>The training covers state-of-the-art green building techniques that contribute to energy efficiency and sustainability.</p> <p>Topics include passive design strategies, energy-efficient building materials, and innovative construction practices.</p> <p>Renewable Energy Integration</p> <p>A significant focus is placed on the integration of renewable energy sources such as solar, wind, and geothermal into building designs.</p> <p>Participants learn about the technologies and systems required to harness these renewable sources effectively.</p> <p>Energy Management and Efficiency</p> <p>The program delves into advanced energy management systems and practices that help monitor and reduce energy consumption.</p> <p>Practical sessions on optimizing heating, cooling, lighting, and ventilation systems are included.</p> <p>Real-world Case Studies</p> <p>Detailed case studies of successful net zero buildings are presented, providing participants with practical examples and inspiration.</p> <p>These case studies highlight the challenges and solutions encountered in achieving net zero energy.</p> <p>Industry Expertise and Collaboration</p> <p>The training program features insights from industry experts who share their extensive knowledge and real-world experiences. These experts bring valuable perspectives on the latest trends, technologies, and best practices in green and net zero building.</p> <p>The collaboration with the Indian Green Building</p>
--	---

Council (IGBC) is pivotal in the program's success. IGBC's leadership and expertise in promoting sustainable building practices ensure that the content is aligned with global standards and best practices.

Impact and Significance

Phase 1 of the 9th Edition of the IGBC Green League training program has already made a significant impact by empowering participants with the skills necessary to lead the transition towards net zero energy buildings. The comprehensive curriculum and hands-on activities have prepared them to tackle the challenges of sustainability in the built environment.

The training not only enhances the participants' technical competencies but also fosters a deeper commitment to sustainability and environmental stewardship. As these professionals apply their knowledge to real-world projects, they will play a crucial role in advancing the global movement towards net zero energy buildings.

Conclusion

The 9th Edition of the IGBC Green League training program represents a vital step forward in the journey towards a sustainable future. With the theme "Towards Net Zero Energy," Phase 1 has successfully set the stage for building a cadre of skilled professionals ready to drive the transition from green buildings to net zero buildings and built spaces. The increased demand for these professionals underscores the importance of such training programs in shaping a sustainable world. We look forward to the continued success of this initiative and the positive impact it will have on our environment and society.

To,

The Director,

IGBC Green League Certification Course

Subject: Invitation for online event on “Sustainability and Green Attributes” (Net Zero Energy).

Dear Sir/Ma'am,

I hope this message finds you well. As per our conversation, we are delighted to extend an invitation to you to be a **online event on “Sustainability and Green Attributes” (Net Zero Energy)** for our students at Sushant University, Gurgaon. The details of the event are as follows:

- **Date: 11-15 June 2024**
- **Time: 14:00 P.M - 17:30 P.M.**
- **Venue: Online**

We believe that your expertise and insights in this field will greatly benefit our students as they prepare for their future endeavours. Your presence and guidance will be invaluable to their academic and career growth.

We kindly request you to accept this invitation, and we look forward to your positive response. Your contribution will undoubtedly make a significant impact on our students' educational journey.

Thank you for considering our invitation.

Best regards,

Ms Shalini Kumari

To,

The Director,

IGBC Green League Certification Course

Subject: Thank You for online event on “Sustainability and Green Attributes” (Net Zero Energy).

I wanted to take a moment to sincerely thank you for your insightful and engaging **online event on “Sustainability and Green Attributes” (Net Zero Energy)** as part of our ongoing collaboration with **IGBC Green League Certification Course on 11-15 June 2024**. Your expertise and thoughtful perspectives truly enriched the experience for our students, and we appreciate the time and effort you put into preparing such a compelling presentation.

Your contribution not only enhanced the students' understanding of the subject but also sparked important discussions and inspired many to think more deeply about the topic. We are grateful for your generosity in sharing your knowledge with us.

Thank you again for your support and for making such a positive impact on our learning community. We hope to have the pleasure of welcoming you back in the future!

Best regards,

Ms Shalini Kumari
