<p>Description (min 250 to max 800 words)*</p>	<p>International Housekeeping and Environmental Services Week (IHW) is a week-long celebration that takes place during the second full week of September each year. The week is dedicated to recognizing the hard work and efforts of custodial staff members, and the impact they have on our lives. Domestic housekeeping or residential housekeeping refers to the cleaning and maintaining of a private residence, home or apartment. This can include tasks such as dusting, vacuuming, laundry, and disinfecting surfaces. It may also involve organizing and decluttering living spaces, as well as making beds and changing linens. This type of housekeeping is sometimes performed by a professional cleaning service or by the homeowners themselves. To celebrate and empower the importance of housekeeping, the students of VHTBS visited the Bhondsi village and spread awareness about the importance of cleanliness, hygiene, and sanitation by performing and conveying the message through Nukkad Natak. The students conveyed a very strong message regarding the importance of hygiene in our day to day life and how inculcating this habit can create a better atmosphere in the village. The students not only performed the natak but also cleaned the village along with the villagers.</p>

The Literary Club "Kaatib", School of Business is organizing a Poster Making Competition to celebrate Thanksgiving Day. The ceremony is to thank the University support staff, student coordinators, counselors and many others. Let us acknowledge their generous efforts. The Participants have to present their poster and speak for a minute about the person to whom they would like to pay their gratitude. The poster will be finally given to that person. Participants will have to bring a fully designed poster from home. The ceremony will be concluded with a "Gratitude Rally" in which 'Thank You' Cards will be handed over to the non-academic staff of the college as a mark of their industrious contribution to the University.</p>

<p>Report Submitted by (write faculty coordinator name)</p>	<p>Objective: To give a small tribute to the Unsung heroes (Non-Academic Staff) of Sushant University for their enormous efforts.</p> <p>A poster making titled "Let's Give Thanks" was hosted by the Kaatib Club on the occasion of Thanksgiving. The anchors took on the stage and dedicated a song to our Universe to provide every resource we have. They showed us how many unsung heroes like the IT Staff, security guard, mess in-charge, the canteen chefs, and other non-academic staff members don't get the appreciation they deserve. Our Hon'ble Dean reminded us how they might not look that significant, but they are a cog in a big wheel. Students presented the posters they had made for the staff and gave them a note of thanks. After that, a friendly balloon-blowing competition was conducted. A final note was given by the Dean which was followed by a <i>gratitude rally</i> via which the thank you cards, and posters were distributed among the staff members.</p> <p>Special Thanks to Dr. Priyanka Pradhan, Assistant Professor, School of Business, for organizing this event.</p>

Brief Description (min 250 to max 800 words)*

Today in the developed world, most blood donors are unpaid volunteers who donate blood for a community supply. In some countries, established supplies are limited and donors usually give blood when family or friends need a transfusion (directed donation). Many donors donate for several reasons, such as a form of charity, general awareness regarding the demand for blood, increased confidence in oneself, helping a personal friend or relative, and social pressure. Despite the many reasons that people donate, not enough potential donors actively donate. However, this is reversed during disasters when blood donations increase, often creating an excess supply that will have to be later discarded. In countries that allow paid donation some people are paid, and in some cases there are incentives other than money such as paid time off from work. People can also have blood drawn for their own future use (autologous donation). Donating is relatively safe, but some donors have bruising where the needle is inserted or may feel faint. School of Health Sciences, SHS (Department of MLT) of Sushant University organized an event on **“Blood Donation Camp” in association with Rotary blood bank** on 30.11.2022. Around 200 volunteers participated in this event. This camp was sponsored by HDFC

	bank. The camp was well equipped with all the necessary gear and it turned out to be very successful.

The workshop aimed to equip students with foundational knowledge, enabling them to effectively communicate design concepts, analyze visual elements, and understand the principles of design across different media.

Participants engaged in interactive sessions covering topics like design theory, typography, colour psychology, visual hierarchy, and user-centered design. The sessions were facilitated by experienced professionals who provided hands-on exercises, real-world examples, and collaborative activities to encourage peer learning and idea exchange.

Students were encouraged to participate in critiques, discussions, and presentations, promoting an inclusive environment that nurtures diverse perspectives. This approach not only enhanced their design literacy but also built confidence in articulating design decisions.

The workshop concluded with a showcase of student work, where participants presented their projects and received constructive feedback from facilitators and peers. To recognize their efforts and commitment, certificates of completion were awarded to all participants, adding value to their professional portfolios. Overall, the workshop successfully fostered a deeper understanding of design principles and their practical application, preparing students for future challenges in the design industry.
