### What we do?

Provides you an insight into your business, helping you to take informed decisions by analysing recorded data. It is specifically created to generate user-defined reports or Pre-Configured reports as per your requirement. It provides autonomy in designing a new report format or changing the existing format based on your analytical requirements by s desired filters and display fields.

- Design your own unique reports and report templates.
- Access library of reports that are added to increase coverage of analysis.
- Enables you to communicate and disseminate information to various groups within the organisation and outside through Short Message Service (SMS) or Email.
- Use digital signatures or password protection features to create authenticated and tamper-proof reports and files.
- Leverage integration with other iON solutions to save and share documents using iON Cloud Drive.
