### 1. Course Introduction and Objective

The course "Planning & Scheduling using Microsoft Project" is designed to equip participants with practical skills and a structured training approach to leverage Microsoft Project effectively. Through a blend of theoretical insights and hands-on exercises, participants will explore practical scenarios in project management, adopting management methodologies rooted in industrial practices. They will learn to identify, organize, and control tasks and resources within the constraints of time and cost, enhancing their proficiency in project planning and execution.

#### Course Objectives:

1. To enhance practical skills and structured training approach to use the Microsoft Project with its techniques and features in project planning, scheduling & monitoring.
2. To examine practical scenarios in Project Management.
3. To adopt management methodology based on industrial's practices.
4. To identify, organize, and control tasks and resources required to complete a project under the constraints of time and cost.

### 2. Learning Outcomes

- Participants will gain practical skills in utilizing Microsoft Project for project planning, scheduling, and monitoring, enabling them to apply its features effectively.

- Participants will adopt management methodologies rooted in industrial practices, enhancing their ability to address real-world project management challenges and improve project outcomes.
- Participants will learn to identify, organize, and control tasks and resources within time and cost constraints, facilitating efficient project execution and successful completion.
