Description (min 250 to max 800 words)*

On 09th Aug 2023, SHS, SU hosted an interactive activity designed to educate employees of Biomed Healthcare about industrial safety and risk management. The event aimed to foster a culture of safety within the organization, enhance awareness of potential hazards, and equip employees with practical strategies to mitigate risks.

Over twenty employees participated, reflecting strong engagement in safety initiatives. Interactive workshops encouraged teamwork and critical thinking about safety practices. Demonstrations of safety equipment provided hands-on experience, enhancing understanding of proper usage.

Participants expressed appreciation for the interactive nature of the event, highlighting that it made learning about safety engaging and practical. Many employees suggested that similar activities should be conducted regularly to

reinforce safety culture.

The interactive activity on industrial safety and risk management at Biomed Health Care was a significant step toward enhancing workplace safety. By fostering an environment of open communication and active participation, we are better equipped to identify and mitigate risks, ensuring the well-being of all employees.

Students at Cloud Nine Hospital

Description (min 250 to max 800 words)*

An awareness program focused on health and hygiene related to maternity and child health was conducted at Cloud Nine Hospital. The event aimed to educate participants on best practices for maternal and child health, emphasizing the importance of hygiene during pregnancy, childbirth, and early childhood. With the objectives as follows:

1. To raise awareness about maternal and child health issues.
2. To provide information on hygiene practices for expectant and new mothers.
3. To promote healthy lifestyles and preventive measures for mothers and children

Participants expressed high satisfaction with the program, noting that the information was relevant and actionable. Many appreciated the opportunity

	<p>to connect with other parents and healthcare providers, fostering a sense of community. The awareness program on health and hygiene related to maternity and child health successfully informed and engaged participants, promoting a better understanding of essential practices for maternal and child well-being. Continued education and community support will be vital in ensuring healthier futures for mothers and their children.</p>

(Geotag) Photograph-2

Students at Sanar Hospital

Description (min 250 to max 800 words)*

On 22nd August, School of Health Sciences organized an awareness drive aimed at educating staff of Sanar Hospital about the importance of implementing personal safety protocols. This initiative sought to promote a culture of safety within the hospital, ensuring that all employees are well-informed about best practices for

personal safety.

Personal safety protocols, such as proper hand hygiene and the use of personal protective equipment (PPE), help reduce the risk of infections for both healthcare workers and patients. Protocols ensure that employees are aware of potential hazards and know how to protect themselves, reducing the likelihood of accidents and injuries.

When staff follows safety protocols, the quality of care improves. Patients receive safer treatments, and the risk of hospital-acquired infections decreases. Patients are more likely to trust healthcare providers who demonstrate a commitment to safety, improving patient satisfaction and engagement.

The session was attended by over twenty non-technical staff members, reflecting a strong commitment to improving workplace safety and compliance.

Participants provided positive feedback, highlighting the importance of understanding clinical policies in their daily tasks. Many expressed a desire for ongoing training sessions to further develop their knowledge and skills.

<p>(Geotag) Photograph-2</p>	<p>Fig 2 Media coverage in local daily of Chittorgarh city</p>
<p>Description (min 250 to max 800 words)*</p>	<p>As part of the Master of Planning curriculum, students from the Department of Planning visited Chittorgarh city to conduct fieldwork essential for preparing a Local Area Plan (LAP). The visit, held over a week, aimed to engage students in comprehensive data collection through a range of surveys and community engagement initiatives. This hands-on approach allowed them to gain practical insights into the socio-economic, infrastructural, and environmental aspects of the city, enriching their academic experience. During the visit, students conducted various surveys, including reconnaissance, household, transport, and tourism surveys, to gather critical data necessary for planning.</p> <p>This preliminary survey involved an overview of the city's existing conditions, focusing on land use, infrastructure, and environmental factors. The students examined key landmarks, transportation routes, and areas experiencing rapid urbanization or needing infrastructure improvements. This provided an understanding of the city's layout, potential challenges, and opportunities for sustainable growth.</p> <p>A crucial aspect of the study was community engagement. The students conducted a series of consultations with local residents, government officials, and other stakeholders. This interaction aimed to understand the specific needs and concerns of the community, providing a grassroots perspective on the city's challenges. Students held meetings with officials from various departments, including urban planning, public works, and tourism. These discussions were pivotal in understanding the ongoing projects, policy frameworks, and future plans for the city. The interaction also allowed students to gather data on land use regulations, transportation policies, and infrastructure development initiatives that could be integrated into the LAP.</p> <p>Engaging with local residents was another key component of the visit. Through interviews and focus group discussions, students gathered first-hand accounts of the daily challenges faced by the people. Issues like inadequate infrastructure, traffic congestion, and the need for better tourist management systems were highlighted. This helped the students incorporate community-driven solutions into their plan.</p>

Description (min 250 to max 800 words)*

A legal awareness programme was organized on 4th September, 2023 at the School of Law, Sushant University in collaboration with the District Legal Services Authority, Gurugram. The honorable Speakers of the session were the eminent guest speakers from 'Parivartan- ek Prayas', an NGO based in Gurugram including Advocate Dharmvir Hindustani, who is the founder of the above NGO and has also been awarded as the Brand Ambassador of the District Legal Services Authority, Gurugram by DC, Gurugram Administration. He has been committed to the society since 2008 and has run multiple road safety and legal awareness programmes. Mrs.Sapna Hindustani, the trustee of the above NGO also created awareness by showing different slogans and videos to the students. The Guest Speakers talked at length about the road safety rules and enlightened the students about the same. They also enriched the student's knowledge about law and made them aware about contemporary legal issues per road safety. It was a resourceful session where the students actively participated, raised their queries and learnt about the nuances of road safety and law. The entire event was coordinated and planned by Dr Sulakshana Banerjee Assistant Professor of Law with the assistance of her student coordinators, Ridhi Sharma, Vrinda Gupta, Dakshita Sharma Katare and Himanshi Raghav. The programme ended by a wonderful vote of thanks by Dr Sulakshana.

	<p>IHK 2023 HK workforce RWA sector 54,55 06/9/23</p>
<p>Description (min 250 to max 800 words)*</p>	<p>To celebrate and empower the importance of housekeeping, the students of VHTBS took an insightful training session for the HK workforce of the near community and RWA. The students helped them understand the importance of hygiene and housekeeping. The hygiene and sanitation awareness session, conducted for housemaids, emphasized the crucial role they play in maintaining hygiene and sanitation in households. Expert trainers facilitated an interactive and informative program, covering essential topics:</p> <p>Personal Hygiene:</p> <ol style="list-style-type: none"> 1. Handwashing techniques and frequency 2. Importance of gloves and protective gear 3. Cleanliness habits and personal grooming <p>Household Sanitation:</p> <ol style="list-style-type: none"> 1. Effective cleaning methods and product usage 2. Disinfection and sterilization techniques 3. Waste management and disposal practices <p>Infection Control:</p> <ol style="list-style-type: none"> 1. Identifying high-risk areas (kitchens, bathrooms) 2. Preventing cross-contamination 3. Managing hygiene during illness outbreaks <p>Best Practices:</p> <ol style="list-style-type: none"> 1. Cleaning schedules and routines 2. Organization and decluttering 3. Safe storage of cleaning supplies <p>Demonstrations and hands-on training: Participants engaged in practical exercises, including:</p> <ol style="list-style-type: none"> 1. Handwashing demonstrations 2. Cleaning solution preparation

	<p>3. Disinfecting high-touch surfaces</p> <p>An open forum addressed queries and concerns, ensuring maids felt empowered to implement new practices.</p> <p>Key Takeaways:</p> <p>Participants learned:</p> <ol style="list-style-type: none"> 1. Hygiene and sanitation's significance in preventing illnesses 2. Effective cleaning techniques and product usage 3. Importance of personal protective equipment 4. Strategies for maintaining clean and organized homes <p>Impact:</p> <p>The session yielded immediate results:</p> <ol style="list-style-type: none"> 1. Improved cleaning practices 2. Enhanced understanding of hygiene principles 3. Increased confidence in maintaining healthy environments 4. Better protection against infectious diseases <p>By educating housemaids on hygiene and sanitation, households can ensure a cleaner, healthier, and safer living space for families, reinforcing the critical role these individuals play in maintaining domestic well-being."</p>

Brief Description (min 250 to max 800 words)*

The experiential learning trip proved to be an invaluable educational experience for our psychology students, offering them a unique opportunity to observe and interact with children facing various developmental challenges, including Autism Spectrum Disorder, Down's syndrome, and Intellectual Disabilities. Through carefully coordinated activities and engaging interactions, students not only witnessed the diverse behavioral and emotional responses of these children but also applied their theoretical knowledge of psychology in a real-world context. They observed the recreational room used for physical therapy and another room for hobbies. The students then helped serve food at lunchtime to all the people. It was an enlightening response which helped them to observe the individual differences and similarities in these people.

This hands-on experience enhanced their

	<p>observational skills, deepened their understanding of child psychology, and fostered a profound sense of empathy and cultural sensitivity. The visit exemplified our commitment to holistic education and community engagement while contributing to the personal growth and professional development of our students. Moreover, our students generously gave donations to support the children's needs, demonstrating their commitment to social responsibility. In conclusion, the visit exemplified our dedication to holistic education and community engagement while contributing to the personal growth and professional development of our students. It also underscored the importance of empathy and compassion in the field of psychology and left a lasting impact on all those involved in this meaningful endeavor.</p> <p>Key Points</p> <ul style="list-style-type: none"> ● Educational Experience ● Hands-On Learning ● Observations ● Skill Enhancement ● Community Engagement ● Importance of Empathy
<p>Outcome*</p>	<p>The experiential learning trip proved highly educational for psychology students, enabling them to interact with children facing developmental challenges such as Autism Spectrum Disorder, Down's syndrome, and Intellectual Disabilities. Engaging in real-world activities, they observed diverse behaviors, emotional responses, and individual differences, thereby deepening their understanding of child psychology. This hands-on experience also enhanced their observational skills and fostered empathy and cultural sensitivity. In addition to their personal growth, students demonstrated their commitment to social responsibility by generously donating to support the children's needs. The trip exemplified the institution's dedication to holistic education, community engagement, and the importance of empathy in the field of psychology.</p>

Students of school of design making infographics

Description (min 250 to max 800 words)*

On September 19, 2023, the School of Design at Sushant University collaborated with Navjoti India Foundation on a live classroom project aimed at spreading awareness about the importance of rainwater harvesting. This initiative involved the creative participation of UX/UI design students, who were tasked with developing informative and visually compelling materials that effectively communicated the significance of rainwater harvesting to the broader community. The project was structured around a real-world challenge—promoting sustainable water management practices—and provided students with an opportunity to apply their design skills to a socially relevant cause. The collaboration highlighted the

role of design in driving positive social change by focusing on a critical issue facing India today: water conservation. Through the course of the project, students created a range of digital and print materials, including educational brochures, interactive web designs, infographics, and social media campaigns, all of which were designed to educate and inspire diverse audiences about the methods and benefits of rainwater harvesting. The materials were created with a strong emphasis on clarity, accessibility, and visual appeal, ensuring that the information could be easily understood by people from all walks of life, including rural communities where water scarcity is a growing concern. Working closely with experts from Navjoti India Foundation, the students researched the science behind rainwater harvesting, the different techniques used in rural and urban areas, and the long-term environmental benefits of these practices. This collaboration enabled students to ground their designs in factual, real-world insights while also gaining valuable experience in designing for public awareness campaigns. One of the project's key focuses was on demystifying the process of rainwater harvesting and making it accessible to households and small communities. The UX/UI students developed interactive digital tools that guided users through the step-by-step process of setting up a rainwater harvesting system at home, making it easier for individuals to take action. The designs were user-centered, with special consideration given to the needs and preferences of the target audience, including the use of simple language and culturally relevant visuals. In addition to the digital tools, the students also produced posters and banners that could be displayed in public spaces, schools, and community centers to raise awareness about the issue. The project's success lay in its ability to integrate design and technology with social responsibility, demonstrating how visual communication can be a powerful tool for driving behavioral change and encouraging sustainable practices. Throughout the project, students received mentorship and guidance from both their faculty at Sushant University and professionals from Navjoti India Foundation, allowing them to refine their designs and tailor them to the specific needs of the community. The project not only enhanced the students' technical skills in UX/UI design but also deepened their understanding of the social impact of their work. As part of the

awareness campaign, a public exhibition was held where the students showcased their designs, and members of the local community, along with representatives from Navjoti India Foundation, were invited to view the materials and engage in discussions about rainwater harvesting. The exhibition also included live demonstrations of the digital tools, where participants could interact with the designs and learn more about how to implement rainwater harvesting systems in their own homes. The feedback from the exhibition was overwhelmingly positive, with community members expressing appreciation for the clear and practical information provided by the students. Many attendees left with a newfound understanding of the importance of rainwater harvesting and were inspired to take steps toward adopting the practice in their own communities. The project concluded with a reflection on the collaborative process, where students shared their experiences working on a live project that directly impacted society, and the ways in which their designs contributed to promoting sustainable water conservation. The collaboration between Sushant University's School of Design and Navjoti India Foundation showcased the potential of design education to tackle real-world challenges, empowering students to use their creative skills for the greater good. By focusing on rainwater harvesting—a critical environmental issue—this project not only spread awareness about sustainable water management but also demonstrated how design can play a pivotal role in educating and inspiring communities to take positive action for the environment.

Description (min 250 to max 800 words)*

This event was a significant initiative aimed at fostering understanding and promoting best practices related to solid waste management and worker safety. Organized in collaboration with Motherson Group and Swarn Lata Motherson Trust (SLMTT), the event was a continuation of their long-standing commitment to sustainability and environmental consciousness, particularly through their Project “Segregation of Organic Waste for Recycling and Treatment” (S.O.R.T), launched in 2018. The project, which has been

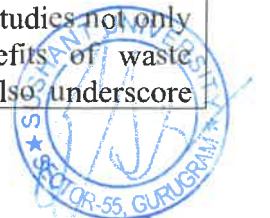

successfully implemented across Delhi NCR, has made significant strides in turning more than 56 locations into zero-waste societies, with over 250 Aerobin Composters installed.

The collaboration between Indian Pollution Control Association (IPCA) and SLMTT under its CSR initiatives focuses on a sustainable approach to solid waste management by encouraging source segregation, recycling, and minimizing waste. The event was designed to address the crucial link between safe waste management practices and the well-being of workers engaged in waste collection, segregation, and recycling, an often-overlooked aspect of environmental projects. This initiative aligns with the larger goals of S.O.R.T., which include maximizing resource utilization, reducing environmental pollution, and decreasing reliance on landfill sites.

One of the key components of the event was training programs targeted toward various stakeholders involved in the waste management process, such as waste collectors, housekeeping staff, kitchen staff, and cleaning personnel. These individuals are often at the forefront of waste handling and are therefore exposed to occupational hazards that require proper safety measures and training. The event provided specialized training to these workers, focusing on safe handling of waste, the correct use of protective gear, and the importance of hygiene in reducing exposure to harmful substances.

In addition to worker safety, the event also emphasized recycling and waste minimization. Waste management committee members, maids, and students were provided with hands-on training in operating Aerobin composters, a key tool in the S.O.R.T project. These composters allow for the efficient composting of organic kitchen and garden waste, transforming it into nutrient-rich organic compost. The event further promoted the development of vegetable gardens, demonstrating how organic waste could be repurposed to create sustainable green spaces in urban areas.

Post-intervention studies, which track the success of waste management initiatives, were also discussed during the event. These studies not only highlight the environmental benefits of waste segregation and composting but also underscore

	<p>the long-term social and economic advantages for communities that adopt these practices.</p> <p>Through its comprehensive training sessions and awareness campaigns, the event encouraged a strong sense of local responsibility for maintaining a clean and healthy environment. It called upon waste generators, including residents, corporate entities, and educational institutions, to actively engage in source segregation and sustainable waste management practices. By empowering workers and citizens alike with the knowledge and tools needed to manage waste responsibly, the event served as a vital step towards building a cleaner, safer, and more sustainable future for all.</p>

Awareness for Blood Donation at Oncoplus Hospital

Brief Description (min 250 to max 800 words)*

School of Health Sciences organized a successful Blood Donation Drive at Oncoplus Hospital to encourage community participation in lifesaving blood donation. The event aimed to raise awareness about the importance of blood donation and to collect blood for patients in need.

The Blood Donation Drive at Oncoplus Hospital was a resounding success, highlighting the community's willingness to contribute to a vital cause. By fostering awareness and encouraging participation, the hospital is making a significant impact on patient care and community health.

Participants registered at the reception desk and received informational brochures about the blood donation process.

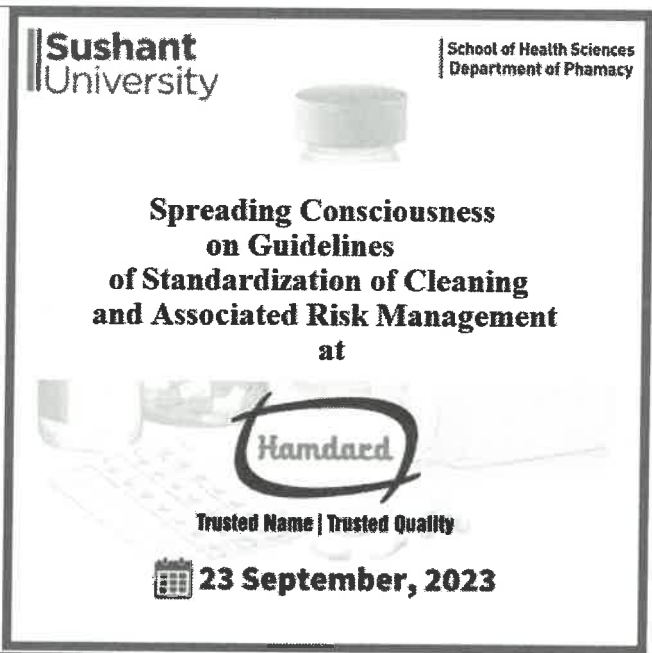

Brief presentation on the importance of blood donation, types of blood needed, and the impact of donations on patients' lives.

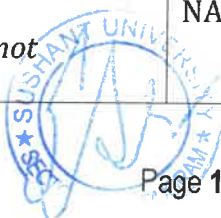

Testimonials from previous recipients of blood donations shared their experiences. Explanation

	of the blood donation procedure, safety measures, and eligibility criteria by trained medical staff. Q&A session where participants could ask questions and clarify doubts about the donation process.																																																																								
Outcome*	Encouragement of community participation in lifesaving blood donation

(Geotag) Photograph-2

Students at Hamdard Laboratories

Brief Description (min 250 to max 800 words)*

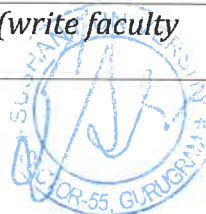

On 23/09/2023, an awareness session was held to educate staff of Hamdard Laboratories on the guidelines for the standardization of cleaning processes and associated risk management. The event aimed to improve understanding of cleaning protocols, enhance safety measures, and reduce risks related to cleaning activities within the organization.

Opening remarks were given by management highlighting the significance of cleanliness and safety. Discussion was done on the importance of consistency in cleaning to ensure safety and hygiene. Participants provided positive feedback, emphasizing the need for regular training sessions on cleaning and safety practices. Many expressed a desire for ongoing support and resources to ensure compliance with the guidelines.

The awareness session on the standardization of cleaning guidelines and associated risk management was a significant step toward enhancing safety and cleanliness within the organization. By educating staff and promoting a

	culture of safety, we can effectively minimize risks and ensure a healthy environment for everyone.

<p>Description (min 250 to max 800 words)*</p>	<p>On September 25, 2023, the School of Design at Sushant University spearheaded a significant collaborative initiative focused on empowering women and promoting gender equality in the local areas of Gurugram. This initiative aimed to address the pressing issues faced by women in these communities, including limited access to education, employment opportunities, and social participation. Through a series of workshops, awareness programs, and interactive sessions, the event sought to provide women with the knowledge, skills, and resources needed to assert their rights, pursue economic independence, and become active participants in societal change. A diverse group of stakeholders, including local NGOs, community leaders, social workers, and professionals from the design and education sectors, came together to support this endeavor. The collaboration emphasized both the creative and educational aspects of gender equality, recognizing the powerful role design can play in advocating for social justice and fostering a more inclusive society. The workshops covered a wide range of topics,</p>

such as financial literacy, entrepreneurship, legal rights, and vocational training, providing practical tools for women to gain self-sufficiency and confidence. Additionally, the program featured a series of design thinking sessions aimed at encouraging women to explore creative problem-solving and innovation in areas such as craft-based entrepreneurship, small business development, and digital literacy. These sessions allowed participants to brainstorm new ideas, design prototypes, and work on projects that could potentially lead to small-scale enterprises or social ventures. One of the standout features of the initiative was the introduction of design-based solutions for challenges faced by women in their daily lives, from household economics to access to essential services. The School of Design faculty and students worked alongside women in the community to co-create practical, sustainable solutions that could be applied at the grassroots level. The program also prioritized gender sensitization, fostering discussions around the importance of gender equality, challenging societal norms, and breaking down the barriers that perpetuate discrimination and inequality. Experts in gender studies and human rights delivered talks that focused on the global and local perspectives of gender disparity, emphasizing the critical need for collective action to ensure that women in these communities have equal opportunities to thrive. This aspect of the initiative was particularly impactful, as it encouraged both women and men to rethink traditional gender roles and engage in conversations about creating a more balanced, equitable society. In addition to educational and vocational training, the initiative celebrated the contributions of women by highlighting stories of local female leaders and entrepreneurs who have overcome obstacles to achieve success. These role models provided inspiration and motivation for the participants, reinforcing the message that empowerment is not just about skills or education, but also about

mindset and resilience. The event also created a platform for networking and building supportive communities, where women could connect with one another, share their experiences, and form mentorship relationships that would continue beyond the event. By focusing on both the immediate and long-term needs of women in Gurugram, the collaboration underscored the importance of sustainable, community-driven approaches to empowerment. The initiative concluded with a showcase of the projects and ideas generated during the workshops, demonstrating the creativity and innovation that emerged from the participants. Many women expressed their gratitude for the opportunity to learn new skills, connect with others, and develop a deeper understanding of their rights and potential. The feedback from the participants highlighted the transformative impact of the program, with many women stating that they felt more empowered to take control of their futures and make positive changes in their lives. The initiative was a testament to the School of Design's commitment to leveraging design as a tool for social change, providing women with the resources and confidence needed to overcome challenges and contribute meaningfully to society. It also reinforced the university's ongoing efforts to support gender equality and create inclusive platforms where every individual, regardless of gender, can thrive. By collaborating with local communities and fostering a holistic approach to empowerment, this initiative successfully promoted gender equality and paved the way for more women in Gurugram to achieve personal and professional growth, ultimately contributing to a more equitable and inclusive society.

Description (min 250 to max 800 words)*

Vatel Hotel & Tourism Business School, Sushant University, on the occasion of World Tourism Day, carried out plantation drive in Wazirabad village, ,In a bid to restore ecological balance and promote sustainable development, our organization launched a plantation drive in a rural village. This initiative aimed to mobilize community members, schools, and local authorities to join forces and create a greener, healthier environment. The objective of conducting this plantation drive was:

1. Combat climate change through carbon sequestration
2. Enhance biodiversity and wildlife habitats
3. Improve air and water quality

Description (min 250 to max 800 words) *

On 18th October 2023, Sushant University organized a Blood Donation Awareness Camp from 11:00 AM to 2:00 PM. The event aimed to raise awareness about the importance of blood donation, educate participants about the process and benefits, and encourage voluntary blood donations. This initiative was part of the university's ongoing efforts to contribute to community health and wellbeing.

The Blood Donation Awareness Camp was organized by the university's health and wellness committee in collaboration with a local blood bank. Extensive planning and coordination were involved to ensure the event's success. The university auditorium was selected as the venue, equipped with informational booths, seating arrangements, and medical equipment.

DEAN
School Of Health Science
Sushant University

	<p>Promotion for the camp was conducted through various channels including emails, social media, posters, and announcements in classes to ensure maximum participation from students, faculty, and staff. Informative pamphlets and brochures about blood donation were distributed in advance to generate interest and educate the university community.</p> <p>The camp began at 11:00 AM with an introductory speech by the university's Vice-Chancellor, who emphasized the critical need for blood donations and the lifesaving impact they have. Following this, a representative from the partnering blood bank provided an overview of the day's activities and outlined the donation process, addressing common myths and concerns.</p> <p>A donor registration desk was set up where interested participants could register their details. This was followed by a preliminary health check-up, which included measuring blood pressure, hemoglobin levels, and overall health assessment to ensure donor eligibility. The medical staff provided personalized advice to potential donors and ensured they met all the required criteria.</p> <p>While the primary focus of the camp was awareness, a parallel blood donation drive was also conducted for eligible and willing participants. The blood bank had set up mobile donation units equipped with all necessary facilities. Trained phlebotomists supervised the donation process, ensuring a safe and comfortable experience for all donors. Refreshments and rest areas were provided post-donation to help donors recuperate.</p> <p>Participants were invited to share their feedback about the camp. Many expressed a greater understanding and appreciation of the importance of blood donation. The camp successfully registered numerous first-time donors, who were motivated by the information and support provided. Follow-up emails were sent to thank participants and remind them of future donation opportunities.</p>

<p>(Geotag) Photograph-1*</p>	 <p>Fig 1: Natural reserve</p>
<p>(Geotag) Photograph-2</p>	 <p>Fig 2: Site walk</p>
<p>Description (min 250 to max 800 words)*</p>	<p>Urban Ecology is the study of ecosystems that include humans living in cities and urbanized landscapes. It is an emerging, interdisciplinary field that aims to understand how human and ecological processes can coexist in human-dominated systems and help societies with their efforts to become more sustainable. It has deep roots in many disciplines including sociology, geography, urban planning, landscape architecture, engineering, economics, anthropology, climatology, public health, and ecology.</p> <p>Urban Ecology is crucial in today's rapidly urbanizing world. As cities expand and populations grow, the interaction between human activities and natural ecosystems becomes increasingly complex. Urban ecologists study these interactions to develop strategies that promote sustainable living while preserving biodiversity. They examine how urbanization affects natural processes such as water cycles, energy flows, and species interactions, and seek ways to mitigate negative impacts.</p> <p>Key Points:</p> <p>Unlikely Urban Oasis: Gurugram's rapid urbanization has led to a shrinking of natural habitats for wildlife. Amidst the concrete jungle,</p>

the Leopard Trail stands as a testament to the city's commitment to preserving its biodiversity. This trail is a rare green space that provides a refuge for various species, offering a glimpse of nature amidst the urban sprawl.

Leopard Habitat: The Leopard Trail serves as a critical corridor for leopards moving between the Aravalli hills and other nearby wilderness areas. These big cats have adapted to the changing landscape, navigating through a patchwork of urban and natural environments. The presence of leopards in such close proximity to urban areas highlights the resilience of wildlife and the importance of maintaining natural corridors.

Conservation Efforts: Local authorities, environmentalists, and wildlife enthusiasts have collaborated to protect this corridor. Conservation measures include setting up camera traps, monitoring leopard movements, and educating the public about coexisting with wildlife in urban areas. These efforts are essential in ensuring the survival of leopards and other wildlife, and in promoting a harmonious coexistence between humans and nature.

Environmental Awareness: The Leopard Trail also plays a significant role in raising awareness about the importance of conserving natural habitats in urban settings. It serves as an educational tool, helping residents understand the delicate balance between urban development and wildlife conservation. Through guided tours, workshops, and community events, the trail educates people about the ecological significance of preserving green spaces and the role they play in maintaining biodiversity.

Urban Ecology not only focuses on wildlife but also on improving the quality of life for urban residents. Green spaces like the Leopard Trail provide numerous benefits, including recreational opportunities, mental health benefits, and improved air quality. They act as natural buffers against pollution and heat, contributing to the overall well-being of the community.

Moreover, **Urban Ecology** emphasizes the importance of sustainable urban planning. By integrating ecological principles into urban design,

	<p>cities can become more resilient to environmental challenges such as climate change, flooding, and heatwaves. Sustainable practices, such as green roofs, rain gardens, and urban forests, can enhance the ecological health of cities and create more livable environments for their inhabitants.</p> <p>In conclusion, Urban Ecology is a vital field that bridges the gap between human development and environmental conservation. It promotes a holistic approach to urban planning, where the needs of both humans and nature are considered. The Leopard Trail in Gurugram is a prime example of how urban areas can incorporate natural habitats, fostering biodiversity and environmental awareness. As cities continue to grow, the principles of Urban Ecology will play an increasingly important role in shaping sustainable and resilient urban landscapes.</p>

<p>(Geotag) Photograph-2</p>	 <p><u>Feeding the poor</u></p>
<p>Description (min 250 to max 800 words)*</p>	<p>On 24th October 2023, students from the School of Engineering & Technology (SET) at Sushant University organized a food distribution program for underprivileged children in Ghatta Village, Gurgaon. This initiative was aimed at providing essential nourishment to those in need, ensuring that the children from economically disadvantaged backgrounds had access to nutritious meals. The feeding program not only addressed the immediate needs of the community but also reinforced SET's commitment to supporting the well-being of vulnerable individuals.</p>

through compassion and community service. During the visit, the SET students worked together to distribute freshly prepared, nutritious meals to the children, many of whom face significant financial challenges that limit their access to basic necessities, including food. The students engaged with the children, making the experience more personal and uplifting. The children expressed their gratitude, and the joy on their faces was a testament to the impact of the initiative. For many of the participants, this meal provided a much-needed source of nourishment, helping to alleviate hunger and improve their overall health.

This **food distribution program** was not just about providing food; it was about creating a sense of **solidarity** and showing these children that their well-being matters. The SET students were deeply moved by the resilience of the children and their appreciation for the small acts of kindness. The initiative emphasized the importance of **compassion**, illustrating how collective efforts from volunteers and donors can make a meaningful difference in the lives of those who are less fortunate.

Through this program, the students gained valuable insights into the challenges faced by impoverished communities and learned how vital community support can be in addressing issues like hunger. The act of providing food also sparked conversations around the broader issues of food security and poverty, encouraging the students to think about sustainable ways to contribute to long-term solutions. Overall, the visit to **Ghatta Village** was a powerful reminder of the impact that empathy and action can have on those in need. The SET students left with a deeper understanding of the **importance of service** and the role they can play in helping to uplift marginalized communities. This initiative reflects the **School of Engineering & Technology's** ongoing dedication to promoting **social responsibility** and fostering a culture of **giving back to society**.

	<p>rural and underserved communities face barriers to education due to a lack of resources, and the donation of books played a vital role in bridging this gap. By providing these children with access to reading materials, the initiative aimed to ignite their curiosity, enhance their literacy skills, and encourage a lifelong pursuit of knowledge. During the visit, SET students personally handed out books to the children and took the time to interact with them, discussing their favorite subjects, dreams, and ambitions. This personal engagement made the experience even more impactful, as the children not only received much-needed educational resources but also felt supported and encouraged by the university students. The students were moved by the enthusiasm the children showed for learning, despite the challenges they face in their daily lives.</p> <p>The drive emphasized the importance of education as a tool for empowerment. By donating books, the SET students hoped to inspire the children to dream big and pursue academic success, regardless of their socio-economic background. The children's excitement and gratitude were palpable, making the experience deeply fulfilling for everyone involved. This visit was a testament to the positive impact that simple acts of kindness and support can have on underprivileged communities. The SET students left Ghatta Village with a sense of purpose, knowing they had contributed to creating opportunities for education and personal growth for these children. The initiative also reinforced SET's commitment to social responsibility and community outreach, showing that education is not just about academic achievement, but also about making a difference in the lives of others.</p>

Visit to Dreams Girl Foundation

Description (min 250 to max 800 words)*

On 15th November 2023, students from the School of Engineering & Technology (SET) at Sushant University visited the Dreams Girls Foundation, an NGO committed to empowering young women through education and skill development programs. This visit was part of SET's continuous efforts to promote community involvement and advance gender equality by supporting and interacting with marginalized communities. The experience gave students a deeper understanding of the obstacles young girls face and highlighted the pivotal role education plays in shaping their futures.

During their visit, the SET students engaged with the NGO's staff and girls, gaining valuable insights into their educational and social challenges. The students witnessed firsthand the importance of access to education, mentorship, and skills training for these young women, many of whom come from disadvantaged backgrounds. The visit emphasized the urgent need for ongoing initiatives that equip young women with the resources and opportunities to break the cycle of poverty and create better futures for themselves and their communities. What left a lasting impression on the students was the dedication of the NGO's staff, who work tirelessly to ensure the girls receive the education and support they require. The students were also inspired by the

	<p>enthusiasm of the girls during various educational activities, including skill-building workshops and interactive learning sessions. These activities aim not only to improve the girls' academic skills but also to boost their confidence and prepare them for future challenges in both their personal lives and prospective careers.</p> <p>The visit deeply moved the SET students, who were touched by the resilience and determination of the girls. It reinforced the life-changing impact of education, mentorship, and skills training on young women's lives. By connecting with the girls and learning about their dreams, the students left with a renewed commitment to supporting initiatives that empower women.</p> <p>This visit to the Dreams Girls Foundation was not only an enlightening experience but also a strong reminder of the vital role education and community support play in transforming lives. It underscored the importance of programs aimed at uplifting young women and reinforced SET's dedication to fostering social change through education, mentorship, and community engagement.</p>

<p>Description (min 250 to max 800 words)*</p> 	<p>On 17th November 2023, students from the School of Engineering & Technology (SET) at Sushant University visited the Earth Saviours Foundation, Bandhwari, Faridabad, with the noble purpose of providing support and companionship to the elderly. This visit was a significant part of SET's ongoing community outreach initiatives, where students are encouraged to engage with different societal groups and contribute to their well-being. The focus of this visit was to extend care, compassion, and practical assistance to the elderly residents of the foundation, many of whom are in need of emotional support and companionship. During the visit, the students actively participated in a range of activities designed to bring joy, comfort, and companionship to the elderly individuals. Engaging in meaningful conversations, sharing</p>

	<p>stories, and offering practical help, the students aimed to create an atmosphere of warmth and connection. For many of the elderly, these interactions were a source of great comfort, as they not only provided company but also demonstrated that they were valued and appreciated by the younger generation. Through these interactions, students were able to forge meaningful connections and gain valuable insights into the experiences and wisdom of the elderly, which enriched their own understanding of life and the challenges faced by the senior population. The visit allowed the students to recognize the importance of compassion, empathy, and respect in their approach to community service. By offering assistance with daily tasks and spending quality time with the residents, the students sought to improve the emotional well-being of the elderly, many of whom live in isolation. The act of simply being present, listening, and offering companionship had a profound impact, making the elderly feel more connected and valued.</p> <p>This experience was both humbling and enriching for the students, reaffirming their commitment to serving and uplifting the elderly population. It also underscored the importance of intergenerational relationships, where the younger generation can learn from the wisdom and life experiences of the elderly. The visit to the Earth Saviour Foundation not only brought a sense of belonging and happiness to the elderly but also reminded the students of their responsibility to give back to society with compassion and empathy</p>

<p>Description (min 250 to max 800 words)*</p>	<p>In today's digitally driven world, cybersecurity is a critical concern for businesses of all sizes. As technology advances, so do the tactics of cybercriminals. To combat these threats, ethical hacking, or "white hat" hacking, has emerged as a powerful tool for protecting sensitive data and</p>

systems. The **Workshop on Ethical Hacking**, hosted by the **School of Business** on **20th November 2023**, aims to introduce participants to the fundamentals of ethical hacking, equipping them with the necessary skills to safeguard their organizations from cyber threats. The workshop will cover a range of topics including an introduction to ethical hacking, the role of ethical hackers, and how they contribute to cybersecurity. Participants will explore the differences between black hat, white hat, and grey hat hackers, along with key techniques used in ethical hacking such as penetration testing, network security assessments, and vulnerability scanning. Additionally, the workshop will delve into the legal and ethical aspects of hacking, discussing the legal framework and ethical considerations in the field. Hands-on exercises simulating common hacking scenarios will teach participants how to detect and prevent cyberattacks. Led by industry experts, this interactive workshop is designed for students, professionals, and entrepreneurs eager to understand how ethical hacking can be applied in business environments. Attendees will gain practical skills that are in high demand across industries such as finance, healthcare, and e-commerce, where data security is paramount. Join us for this informative and engaging workshop and gain the knowledge to become part of the solution in the fight against cybercrime.

<p>Description (min 250 to max 800 words)*</p>	<p>Students from the School of Engineering & Technology (SET) at Sushant University volunteered for a blood donation drive at Sheetla Multispeciality Hospital in Gurgaon, as</p>

School Of Engg. & Technology
Sushant University
Sector: 55, Gurugram

part of their Service Learning course. This initiative was designed to instill a sense of social responsibility and community engagement among the students, providing them with the opportunity to contribute meaningfully to a critical cause—saving lives through blood donation.

The blood donation drive was not only a way for students to give back to the community but also an integral part of their education, emphasizing the importance of service learning in real-world contexts. By volunteering to donate blood, the students demonstrated their commitment to addressing the urgent need for blood in hospitals, particularly for emergencies, surgeries, and patients with chronic conditions. The participation in such an activity helped the students understand the lifesaving impact that blood donation can have on individuals in need, and how a small act of kindness can make a significant difference in someone's life. Beyond the immediate act of donation, the experience also provided students with a deeper understanding of public health and the challenges faced by healthcare systems in maintaining a stable blood supply. Through their interaction with hospital staff and fellow volunteers, they learned about the process of blood donation, the rigorous screening procedures, and the importance of maintaining a sufficient blood reserve to meet the demands of critical care units.

The event also helped raise awareness among the students about voluntary blood donation and the ongoing need for healthy individuals to donate regularly to ensure that hospitals are adequately equipped to respond to medical emergencies. It was a practical lesson in empathy, social responsibility, and civic duty, as the students experienced firsthand how their actions can contribute to the well-being of the larger community.

This blood donation drive at Sheetla Multispeciality Hospital was a powerful reminder of the impact that young volunteers can have in **supporting healthcare services** and promoting a culture of generosity and compassion. The students left the event with a greater appreciation for the importance of **service learning**, and many expressed their desire to continue volunteering in similar initiatives in the future. This experience

	reinforced the commitment of SET to nurturing not just academically proficient engineers, but also socially conscious and community-focused individuals.

Description (min 250 to max 800 words)
*

The World AIDS Day was commemorated with enthusiasm and purpose on 1 December 2023 by organizing a poster making competition and a seminar on raising awareness about HIV/AIDS at Sushant University, Gurugram by Statutory Event Management Committee (SEMC). The aim of the event was to educate and engage the public in the global fight against the HIV. The event was organised and coordinated by Prof. Ashish and Dr Pooja Bidhlan .

	<p>The day started with evaluating entries where the participants unleashed their creativity to visually convey messages of awareness, prevention and support for those affected by HIV/AIDS. The colorful and impactful posters adorned public spaces, serving as a powerful visual reminder of the ongoing battle against the disease. Vedit Bhambhani, first year student of BCA from School of Engineering and Technology (SET), Sushant University won the first prize in Poster-making Competition.</p> <p>Simultaneously the Seminar unfolded, featuring expert speakers who shared valuable insights on HIV/AIDS prevention, treatment and destigmatization. The Seminar fostered an open dialogue, addressing misconceptions and promoting a compassionate understanding of individuals living with HIV. The students were encouraged to actively participate, ask questions, and engage in discussions to deepen their understanding of the disease.</p> <p>This dual approach, combining artistic artistic expression with informative sessions, proved effective in capturing the community's attention and fostering a sense of solidarity in the fight against HIV/AIDS. World AIDS Days 2023 left a lasting impact, emphasizing the importance of education, compassion, and collective action in the global effort to eradicate HIV/AIDS.</p>

<p>Description (min 250 to max 800 words)*</p>	<p>Designing a poster for World AIDS Day is a great way to raise awareness and convey important messages about HIV/AIDS prevention, treatment, and support. World AIDS Day, observed on December 1st each year, serves as a critical platform for raising awareness about HIV/AIDS, promoting prevention, and fighting the stigma associated with the disease. Spreading awareness on this day involves organizing various activities, such as educational campaigns, community outreach programs, and media engagements, to inform the public about the importance of early testing, treatment options, and the realities of living with HIV. By engaging healthcare professionals, government agencies, non-profit organizations, and individuals affected by HIV/AIDS, World AIDS Day brings global attention to the ongoing fight against the epidemic. It also emphasizes the need for solidarity, compassion, and support for people living with HIV, while advocating for stronger healthcare policies and investment in research for a cure. Through events, social media campaigns, and partnerships, the message of equality, prevention, and support can reach diverse audiences, helping to reduce new infections and improve the quality of life for those affected. SOL organized a poster competition on 1st December 2023. This was an opportunity to express solidarity and promote understanding about HIV/AIDS.</p>

Description (min 250 to max 800 words)*

The community cleanliness drive organized by VHTBS in Jharsa village on January 19, 2024, was a resounding success, transforming littered streets into spotless thoroughfares. The 'lets keep it clean'" initiative transformed the local park into a spotless oasis, thanks to a collaborative effort between community volunteers, municipal authorities, and environmental organizations. Around 27 participants gathered to tackle the park's long-standing litter and debris issues. Armed with gloves, trash bags, and a shared determination, the team systematically combed the grounds, collecting:

- *Over 100 kilograms of waste, including plastic bottles, food wrappers, and discarded paper
- *Broken playground equipment and hazardous materials
- *Invasive plant species and weeds

The drive's impact extended beyond aesthetics:

- *Enhanced park usability and safety for visitors
- Improved local wildlife habitats and biodiversity
- *Raised community awareness about environmental responsibility
- *Fostered community engagement and social cohesion

As the cleanliness drive concluded, the revitalized park beckoned visitors to enjoy its renewed beauty. This collective effort demonstrated the power of community-led initiatives in preserving public spaces and promoting environmental stewardship. The 'lets keep it clean' initiative served as a model for future collaborations, inspiring a culture of responsibility and civic pride in the heart of the city.

The success of this drive sparked plans for quarterly clean-up events, ensuring the park remains a vibrant, trash-free haven for recreation, relaxation, and community connection."

<p>(Geotag) Photograph-1*</p>	
<p>Description (min 250 to max 800 words)*</p>	<p>On February 1, 2024, the School of Design at Sushant University organized a community awareness program in Gurugram focused on promoting the importance of following traffic rules. This initiative aimed to address the increasing concerns about road safety, traffic congestion, and the high number of accidents in the city, especially due to violations of traffic regulations. The event brought together students, faculty members, local authorities, traffic police, and members of the community to raise awareness about the critical role that traffic discipline plays in ensuring the safety of all road users. The campaign emphasized the need for behavioral change among drivers, pedestrians, and cyclists, highlighting how adhering to traffic rules could significantly reduce accidents and create a smoother, more organized flow of traffic in Gurugram's often chaotic road conditions.</p> <p>During the awareness program, a series of interactive workshops, presentations, and street activities were conducted to engage the public. UX-UI students from the School of Design played a pivotal role in creating visually compelling and</p>

informative materials, such as posters, brochures, and social media campaigns, all of which underscored key traffic safety messages. These included the importance of wearing seatbelts and helmets, avoiding the use of mobile phones while driving, adhering to speed limits, and respecting pedestrian rights. The students designed these materials with a clear, user-friendly approach, using impactful visuals and slogans to grab attention and effectively communicate the messages to people from all walks of life. The campaign also utilized digital platforms to reach a wider audience, with the creation of a mobile-friendly app that allowed users to learn about traffic rules through interactive quizzes and simulations.

In addition to the design-based materials, the event included practical demonstrations by traffic police officers, who provided insights into how minor infractions could lead to serious accidents. These demonstrations were paired with statistical presentations on the alarming number of road accidents in Gurugram and the significant impact of traffic rule violations on public safety. The local traffic authorities shared real-life case studies to show the consequences of reckless driving and the long-term benefits of road safety awareness. One of the key elements of the event was a hands-on workshop where students and community members collaborated to design solutions for specific traffic problems in Gurugram, such as overcrowded intersections and lack of pedestrian safety infrastructure. Through design thinking sessions, participants brainstormed ideas and created mock-ups of potential solutions, such as better signage, improved crosswalk designs, and traffic-calming measures that could be implemented to enhance road safety in the city.

Furthermore, the awareness program aimed at fostering a sense of civic responsibility among the public, encouraging people to not only follow traffic rules but also actively promote road safety within their communities. The School of Design faculty and students also worked closely with local schools, engaging young children in creative activities like drawing competitions and role-playing exercises where they learned about traffic lights, road signs,

and safe pedestrian behaviors. This outreach effort was especially significant, as it instilled an early awareness of road safety among the younger generation, ensuring that they grow up understanding the importance of traffic discipline. The event also included a pledge ceremony where participants committed to following traffic rules and promoting road safety in their daily lives.

The program highlighted how even small changes in individual behavior—such as stopping at red lights, yielding to pedestrians, and maintaining safe distances between vehicles—could collectively lead to safer roads and a reduction in accidents. It also addressed common misconceptions about traffic rules, such as the belief that shortcuts or minor violations are harmless, educating the public on how even seemingly insignificant infractions could escalate into dangerous situations. The program emphasized that following traffic rules is not merely a legal obligation but a moral responsibility to protect oneself and others on the road.

Feedback from the event was overwhelmingly positive, with participants praising the initiative for its creative approach to raising awareness. Many community members, especially parents and schoolchildren, expressed their appreciation for the practical demonstrations and engaging activities, stating that they left the event with a stronger understanding of traffic safety and a commitment to following the rules. The collaboration with the traffic police also proved to be an effective component, as their real-life examples and authoritative guidance reinforced the messages delivered by the design students. Additionally, the digital tools created by the students, such as the mobile app, gained significant traction, with many users engaging with the content long after the event had concluded.

The community awareness program on following traffic rules successfully underscored the need for ongoing efforts to promote road safety in Gurugram, a city grappling with rapid urbanization and increasing traffic. By leveraging the power of design and community engagement, the School of Design at Sushant University played a crucial role in

spreading the message that road safety is a shared responsibility and that following traffic rules can save lives. The program not only educated the public but also inspired a cultural shift towards greater respect for traffic regulations, setting the stage for long-term improvements in the way people approach road safety in Gurugram.

Description (min 250 to max 800 words)*

On February 3, 2024, an awareness drive focused on the safe disposal of drugs and other chemicals was conducted at IpcA Laboratories. The event aimed to educate healthcare professionals about the importance of proper disposal methods to mitigate risks to health and the environment.

Opening remarks were given from Ipca management, emphasizing the importance of safe disposal practices.

Detailed overview of safe disposal methods for different types of drugs and chemicals and explanation of local regulations and guidelines for hazardous waste disposal was explained by SHS students.

The event successfully attracted over forty participants, reflecting a strong commitment to improving waste management practices. Participants appreciated the practical demonstrations, which reinforced the importance of safe disposal methods.

Participants expressed positive feedback about the informative content and practical approach of the session. Many suggested that regular training sessions be conducted to keep staff updated on disposal protocols and regulations.

The awareness drive on the management of safe disposal of drugs and other chemicals was a vital step toward promoting environmental health and safety within the organization. By equipping staff with the knowledge and tools necessary for proper disposal, we are contributing to the well-being of the community and the environment.

Description (min 250 to max 800 words)*

Sushant University has always strived to create a holistic learning environment on campus, fostering an atmosphere where students feel welcome and supported. As part of its commitment to extending this vision beyond the university and into the surrounding communities, On 9th February 2024, 15 students from the School of Engineering & Technology (SET) at Sushant University participated in the "Nourishing Communities: Food Distribution Drive for a Better Tomorrow," organized in collaboration with Samidha Welfare Foundation, a local NGO dedicated to supporting underprivileged communities. This initiative aimed at addressing food insecurity by providing nutritious meals to individuals and families in need.

During the drive, the SET students actively contributed by distributing pre-packed meal kits to the beneficiaries at Samidha NGO. These kits contained essential food items, including rice, pulses, vegetables, and fruits, designed to offer balanced nutrition to the recipients. The students also engaged with the community members, listening to their stories, and gaining insights into the daily struggles many underprivileged families face regarding access to basic necessities like food. The interaction fostered a sense of empathy and responsibility among the students, who were deeply moved by the gratitude and resilience of the community members. The drive not only provided immediate relief to those in need but also raised awareness among the students about the importance of

	<p>addressing hunger and malnutrition in their broader social responsibilities.</p> <p>The event was a success, thanks to the collaborative efforts of SET students and the Samidha Welfare Foundation. It reinforced the need for continued community support and highlighted the powerful role that student involvement can play in creating a positive impact. This experience left the students with a strong desire to participate in future initiatives that contribute to the betterment of society.</p>

Community Awareness on Cardiovascular Diseases by Charts and Models

(Geotag) Photograph-2

Community Awareness on Cardiovascular Diseases

Description (min 250 to max 800 words)*	<p>Department of Cardiovascular technology from School of Health Sciences of Sushant University successfully organised an event as a part of Cardiovascular Disease Awareness Week. We conducted a working model demonstration and competition of the same by all students of CVT. It was a vibrant event that was extremely knowledgeable and also a great opportunity for students to display their understanding of complex subjects and explain the same. The event was conducted from 11:00 am to 1:00 pm. It was attended by students and faculty of various departments. Students also were seen displaying their models to Dean of SHS Dr Sanjeev Kumar Sharma, Associate Dean Professor Jyoti Sinha and HOD Dr Elina Dewanji Sen. It was a successful event with models ranging from topics of Angioplasty to Atrial and Ventricular Septal Defects. It was an extremely wonderful event conducted by CVT with lots of memorable moments.</p> <p>The winners of the working model competitions were selected and awarded by Dr Ravi R Kasliwal after his session on Mission Save Heart on Thursday with our students. The prize winners were Model for Balloon Angioplasty (6th Semester) at First Place, Foetal Circulation (2nd Semester) at Second Place and Ventricular Septal Defect Model (4th Semester) at Third Place respectively.</p>

Report on Digital Literacy Drive by School of Business, Sushant University to Jeshtha on 13th February 2024.

Date: February 13, 2024

Venue: Jeshtha Community Center

Introduction: In alignment with the ever-growing importance of digital literacy in the contemporary world, the School of Business at Sushant University organized a Digital Literacy Drive on 13th February 2024. The event aimed to empower individuals in the Jeshtha community by enhancing their digital skills, thereby opening up new opportunities and promoting inclusivity in the digital era.

Objective: The primary objective of the Digital Literacy Drive was to bridge the digital divide and equip members of the Jeshtha community with essential digital skills, ensuring they can navigate the online world, access information, and contribute to their personal and professional development.

Activities:

Basic Computer Training: Faculty members and students from the School of Business conducted hands-on sessions covering basic computer skills, including operating systems, word processing, and internet usage. Participants were guided through practical exercises to enhance their confidence in using digital tools.

Cybersecurity Awareness: Recognizing the importance of online safety, the event included sessions on cybersecurity awareness. Participants were educated about the potential risks associated with online activities and provided with practical tips to protect their personal information and privacy.

Digital Communication Skills: Workshops were conducted to improve participants' digital communication skills, focusing on email etiquette, online collaboration tools, and effective use of social media platforms for personal and professional growth.

Access to Online Resources: The initiative aimed to facilitate access to online educational resources. Information on online courses, e-learning platforms, and digital libraries was shared, empowering participants to continue their learning journey

Dean
School Of Business
Sushant University
Sec-55, Gurugram Haryana

independently.

Participation and Collaboration: The Digital Literacy Drive witnessed active participation from the Jeshtha community members, including both youth and adults. The collaborative effort between the School of Business, Sushant University, and local community leaders ensured the success of the initiative.

Impact: The Digital Literacy Drive had a significant impact on the participants, providing them with practical skills and knowledge to navigate the digital landscape. The initiative aimed to empower individuals with the tools necessary to adapt to the changing technological environment and contribute meaningfully to the digital society.

Challenges and Future Initiatives: While the event was successful, challenges such as limited access to devices and internet connectivity were identified. Future initiatives will focus on addressing these challenges through partnerships, providing access to community resources, and advocating for improved digital infrastructure.

Conclusion: The Digital Literacy Drive by the School of Business, Sushant University, to Jeshtha on 13th February 2024, marked a crucial step towards fostering digital inclusion and empowerment. The initiative reflected the commitment of the institution to contribute to the broader goal of building a digitally literate and empowered society

Report on Education Drive by School of Business, Sushant University to Jagannath NGO on 14th February 2020 on the Occasion of Basant Panchami

Date: February 14, 2020

Venue: Jagannath NGO

Introduction: On the auspicious occasion of Basant Panchami, the School of Business at Sushant University organized a comprehensive education drive aimed at spreading awareness and providing

educational support to the underprivileged. The event took place at the premises of Jagannath NGO, a renowned organization committed to the welfare and education of marginalized communities.

Objective: The primary objective of the education drive was to contribute towards the holistic development of the underprivileged by imparting knowledge, fostering a passion for learning, and promoting the significance of education in personal and societal growth.

Activities:

Interactive Learning Sessions: Various faculty members and students from the School of Business conducted interactive learning sessions on essential subjects such as mathematics, science, and language arts. The sessions were tailored to suit the age groups and educational levels of the beneficiaries.

Skill Development Workshops: The school organized skill development workshops to empower the attendees with practical skills. These workshops included sessions on basic computer literacy, communication skills, and entrepreneurship to enhance their employability and self-sustainability.

Distribution of Educational Materials: To support the educational endeavors of the attendees, the School of Business distributed educational materials such as notebooks, stationery, and textbooks. This initiative aimed to bridge the resource gap and enable the students to pursue their studies with better access to learning materials.

Counseling Sessions: Trained counselors were present

Dean
School Of Business
Sushant University
Sec-55, Gurugram Hary

to provide guidance and counseling sessions to students and parents. These sessions focused on career counseling, motivational talks, and creating awareness about the importance of education in breaking the cycle of poverty.

Participation and Collaboration: The education drive witnessed active participation from both students and faculty members of the School of Business, Sushant University. The collaboration with Jagannath NGO was instrumental in reaching out to the targeted beneficiaries and ensuring the success of the event.

Impact: The education drive made a positive impact on the participants by providing them with valuable knowledge, skills, and resources. It not only contributed to their academic growth but also instilled a sense of hope and aspiration for a brighter future.

Conclusion: The education drive organized by the School of Business, Sushant University, on Basant Panchami at Jagannath NGO was a commendable initiative that reflected the commitment of the institution towards community development. The event not only served as a platform for knowledge dissemination but also fostered a spirit of social responsibility among the participants. Such initiatives play a crucial role in building a more inclusive and educated society

Report on " Teach to Spread Happiness : Education drive: Spread Education Initiative" *Dates: February 15th Feb 2024*
Location: Gurunanak NGO

Introduction: On February 15th Feb 2024, the School of Business at Sushant University organized a commendable education-centric initiative titled " Teach to Spread Happiness: Education drive: Spread Education Initiative" at Gurunanak NGO. The event aimed to promote education, literacy, and holistic development in the community,

Dean
School Of Business
Sushant University
Sec-55, Gurugram Haryana

reflecting the commitment of the university towards social upliftment.

Objectives:

To provide educational resources and support to underprivileged students.

To conduct interactive sessions and workshops to enhance learning.

To foster a love for education and encourage a positive attitude towards learning.

Planning and Coordination: The initiative was meticulously planned and coordinated by a dedicated team comprising faculty members, students, and administrative staff from the School of Business. The team collaborated with Neo City Foundation, local educators, and volunteers to ensure the seamless execution of the educational program.

Program Highlights:

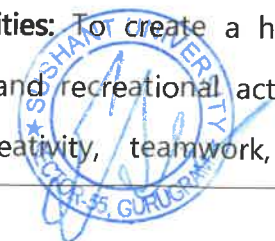

Educational Workshops: Engaging and interactive workshops were conducted to enhance learning outcomes. Subjects covered included mathematics, science, language skills, and general knowledge.

Distribution of Educational Materials: The School of Business facilitated the distribution of educational materials, including textbooks, notebooks, stationery, and other learning aids, to the participating students.

Interactive Sessions: Renowned educators and professionals were invited to conduct interactive sessions on career guidance, skill development, and the importance of education in personal growth and societal progress.

Cultural and Recreational Activities: To create a holistic learning environment, cultural and recreational activities were organized, fostering creativity, teamwork, and

Dean
School Of Business
Sushant University
Sec-12, Gurugram, Haryana

personal expression.

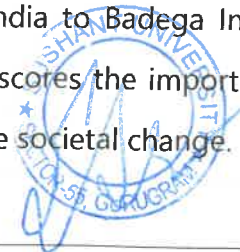

Collaboration with Dream Girl Foundation: The School of Business collaborated closely with Dream Girl Foundation to identify students and families in need of educational support. This partnership ensured that the initiative reached its intended beneficiaries effectively, addressing specific educational challenges within the community.

Student and Faculty Participation: Students and faculty members actively participated in organizing and facilitating various aspects of the initiative. Their enthusiasm, dedication, and commitment played a pivotal role in the success of the program.

Outcome and Impact: The "Padega India to Badega India: Spread Education Initiative" witnessed enthusiastic participation from both students and educators. The initiative not only addressed immediate educational needs but also inspired a positive change in the mindset towards learning. The impact of the program is expected to extend beyond the event, contributing to the long-term educational development of the community.

Conclusion: The education initiative conducted by the School of Business at Sushant University at Dream girl Foundation on February 8th and 9th, 2023, exemplifies the transformative power of education in shaping lives. Through collaborative efforts and a commitment to social responsibility, the initiative aimed to create a lasting impact on the educational landscape of the community, embodying the spirit of "Padega India to Badega India." The success of this endeavor underscores the importance of education as a catalyst for positive societal change.

Description (min 250 to max 800 words)*

On 16.2.2024, the School of Business in collaboration with Rosewood City, organized a community initiative titled *“Empowering Villages: Spreading Happiness through Nourishment, A Food Distribution Drive.”* This event was focused on addressing food insecurity in rural areas by providing essential food supplies to underprivileged families. The drive aimed to bring immediate relief and spread happiness among those who have been severely affected by economic challenges.

The initiative took place in a nearby village that has been struggling with access to basic necessities due to the ongoing economic difficulties post-pandemic. The event kicked off at 10:00 AM with the enthusiastic participation of both students and faculty from the School of Business, along with representatives from Rosewood City. Together, they united to distribute food packages containing staples such as rice, flour, pulses, cooking oil, and other daily essentials. Each package was designed to support a family of five for at least two weeks.

Dean of the School of Business, delivered a heartfelt speech at the opening ceremony, highlighting the importance of community-driven initiatives to combat hunger and poverty. He emphasized that such efforts not only meet the immediate needs of people but also empower them by fostering hope and solidarity. Representatives from Rosewood City also spoke about the company’s ongoing commitment to social welfare and the importance of private-public partnerships in addressing societal challenges.

The distribution process was carried out in an organized manner, ensuring that each family received their share of food without any overcrowding. The team of volunteers, including students and local community members, worked together to create a smooth, safe, and respectful distribution experience. Many families expressed deep gratitude, acknowledging how these food supplies would provide temporary relief from their daily struggles.

In addition to food distribution, the drive also included a small session on nutritional awareness, where the recipients were informed about the importance of balanced diets and how to maximize the nutritional value of the food they received. This added educational aspect was designed to ensure that the beneficiaries could make the best use of their resources for their overall well-being.

The “Empowering Villages” food distribution drive left a profound impact on the community, not just by alleviating hunger but by fostering a sense of togetherness. It reflected the School of Business and Rosewood City’s commitment to giving back to society and supporting those in need. The event was a true testament to the power of collaboration in spreading happiness and hope, one meal at a time.

Report on Swachh Bharat Drive by School of Business, Sushant University to Jalvayu Tower on 16th February 2024

Date: February 16, 2024

Venue: Jalvayu Vihar, [Location]

Introduction: In adherence to the Swachh Bharat Abhiyan, the School of Business at Sushant University organized a cleanliness drive on 16th February 2024. The initiative aimed not only to promote cleanliness but also to foster community engagement by involving underprivileged students from the Jalvayu Tower locality. The event was

Dean
School Of Business
Sushant University
Sec-55, Gurugram Hary

designed to instill a sense of responsibility for one's surroundings and encourage collaboration for a cleaner and healthier environment.

Objective: The primary objective of the Swachh Bharat Drive was to create awareness about the importance of cleanliness, hygiene, and waste management. Additionally, the initiative sought to engage students in hands-on activities to clean their surroundings and educate them on sustainable practices for maintaining a clean environment.

Activities:

Interactive Awareness Sessions: Faculty members and students from the School of Business conducted interactive sessions to educate the participants, especially underprivileged students, about the significance of cleanliness in promoting overall well-being.

Hands-on Cleaning Activities: Under the guidance of the School of Business students, both from Sushant University and the underprivileged community, actively participated in cleaning their surroundings. This included picking up litter, segregating waste, and cleaning public spaces within the Jalvayu Tower vicinity.

Waste Segregation Workshops: Workshops were conducted to educate participants on proper waste segregation practices. The focus was on promoting the segregation of recyclables and non-recyclables to contribute to sustainable waste management.

Community Collaboration: The event fostered collaboration between the students of Sushant

University and the underprivileged students from Jalvayu Tower. This collaborative effort aimed to break down social barriers and promote a sense of unity in working towards a common goal.

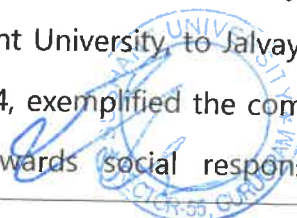

Participation and Collaboration: The Swachh Bharat Drive witnessed enthusiastic participation from students of the School of Business, Sushant University, as well as active involvement from the underprivileged students of Jalvayu Tower. The collaborative effort between the two groups showcased the potential for community-driven initiatives.

Impact: The Swachh Bharat Drive had a tangible impact on the cleanliness of the Jalvayu Tower locality. The event not only improved the physical environment but also fostered a sense of community responsibility among the participants. The underprivileged students were empowered through active participation, contributing to a cleaner and healthier living space.

Challenges and Future Initiatives: While the event achieved its objectives, challenges such as waste disposal infrastructure were identified. Future initiatives will focus on advocating for improved waste management systems and continued community engagement to sustain the momentum of cleanliness efforts.

Conclusion: The Swachh Bharat Drive by the School of Business, Sushant University, to Jalvayu Tower on 16th February 2024, exemplified the commitment of the institution towards social responsibility and

Dean
School Of Business
Sushant University
Sec-57, Gurugram Haryana

community development. The initiative not only contributed to a cleaner environment but also served as a platform for fostering unity and collaboration among diverse segments of society

<p>Description (min 250 to max 800 words)*</p>	<p>On February 20, 2024, the School of Design at Sushant University organized a crucial awareness initiative aimed at educating students in Gurugram about their voting rights. This program sought to empower young adults by highlighting the significance of their role in democratic processes and ensuring they understood the power of their vote. As college students often represent a large, influential demographic with the potential to shape societal and governmental policies, the initiative emphasized the need for them to be well-informed about their constitutional rights and the electoral system in India. This awareness campaign was designed to foster greater political engagement and instill a sense of responsibility towards nation-building through active participation in elections.</p> <p>The event began with a comprehensive session on the importance of voting in a democracy. Experts from the Election Commission of India and legal professionals explained the rights enshrined in the Constitution, particularly focusing on how every vote contributes to the election of leaders who influence</p>

laws and policies. They addressed common misconceptions among first-time voters, such as the belief that one vote doesn't make a difference, by providing real-life examples of elections where a few votes determined the outcome. This session aimed to boost confidence among students, reinforcing the idea that each individual's vote holds the power to shape governance and societal change.

Additionally, students were educated about the practical aspects of voting, including the registration process, how to check their name on the voter list, and the importance of keeping their electoral identity card up to date. Volunteers from the National Service Scheme (NSS) and campus clubs collaborated with Election Commission officials to guide students on how to register online and ensure they met the requirements for voter eligibility. A live demonstration of the voter registration process was conducted, where students learned how to fill out forms, upload necessary documents, and troubleshoot common issues related to registration. Many students who had not previously registered as voters took advantage of this opportunity to complete the process on-site, ensuring their readiness for upcoming elections.

To encourage greater voter turnout, the program also included discussions on the significance of student participation in local and national elections. Experts highlighted the critical issues that directly affect the youth, such as education policy, job creation, environmental sustainability, and digital infrastructure, stressing that student voices are crucial in advocating for policies that address their needs. The speakers drew attention to the fact that while students often express their concerns through protests and social media, voting remains the most effective way to translate these concerns into concrete political action. By casting their ballots, students can elect leaders who align with their vision for a better future, making their participation in elections not just a right but a civic duty.

A panel discussion with notable activists and student leaders followed the expert sessions. The panelists

shared their personal experiences with political engagement and the role young voters can play in pushing for social change. They discussed the power dynamics within elections, emphasizing how marginalized communities and youth often face challenges in accessing their voting rights. The panelists called upon students to be vigilant about these issues, encouraging them to support campaigns that promote electoral inclusivity and ensure that every eligible voter, regardless of background, has equal access to voting. They also discussed the importance of verifying the political candidates' track records and policies, urging students to be informed and not swayed by populist rhetoric or misleading information.

The role of technology in modern elections was another focal point of the awareness program. With the increasing use of social media in political campaigns, students were educated about how political parties use digital platforms to influence public opinion. A session on media literacy provided insights into identifying reliable sources of information, avoiding misinformation, and critically evaluating the content they consume online. Students were advised to fact-check claims made by political parties and ensure that their voting decisions are based on credible, unbiased information rather than sensationalist content. This session was particularly important in the digital age, where fake news and propaganda can easily sway public opinion, especially among young voters who are more active on social media.

The initiative also addressed the history and evolution of voting rights in India, giving students a deeper understanding of the struggles faced by earlier generations to secure universal suffrage. This historical context helped students appreciate the privilege and responsibility of voting in a democratic society. The speakers paid tribute to the movements that expanded voting rights to women, marginalized communities, and the youth, underscoring the importance of protecting and exercising these hard-earned rights. Students were reminded that their ability to vote was the result of decades of struggle and reform, making it imperative

for them to actively participate in the democratic process.

In order to make the event more interactive, the School of Design organized creative workshops where students were encouraged to express their thoughts on voting rights through art and design. These workshops allowed students to channel their creativity into designing posters, digital media content, and campaigns that promoted voter participation. Some students created informative posters that were displayed across the campus, while others produced short videos aimed at encouraging their peers to vote. This creative engagement ensured that the message of voter awareness extended beyond the event and resonated with a larger audience within the student community.

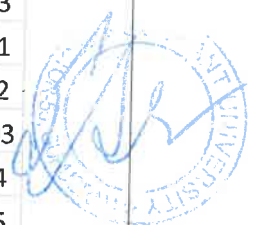

Towards the end of the program, a "Pledge to Vote" campaign was initiated, where students took a collective pledge to participate in upcoming elections and encourage their peers to do the same. This symbolic gesture was aimed at reinforcing the importance of voter turnout among college students and ensuring that they actively contribute to the democratic process. The pledge campaign gained significant momentum on social media, with students sharing their commitment to voting and inspiring others to follow suit.

In conclusion, the School of Design at Sushant University's awareness program on voting rights successfully created a comprehensive platform for educating and empowering students about the significance of their electoral participation. By combining expert sessions, practical demonstrations, historical insights, and creative engagement, the initiative left a lasting impact on the students, fostering a culture of political responsibility and civic engagement. This event not only prepared students for the upcoming elections but also emphasized the long-term importance of their role as informed and active participants in India's democracy. Through this program, the School of Design reinforced its commitment to not only

nurturing future designers but also responsible citizens who contribute to the nation's democratic fabric.

<p>Description (min 250 to max 800 words)*</p>	<p>Sushant University has always strived to create a holistic learning environment on campus, fostering an atmosphere where students feel welcome and supported. As part of its commitment to extending this vision beyond the university and into the surrounding communities, the School of Engineering and Technology (SET) partnered with NGO Samidha Welfare Foundation on February 23, 2024, to organize a painting and donation drive aimed at making a difference at the grassroots level. This collaborative effort sought to brighten the lives of underprivileged children,</p>

especially girls, while promoting creativity, community engagement, and social responsibility among SET students. The initiative focused on transforming the environment of a school in DLF Phase 5, Gurgaon. During the event, the student volunteers from SET showcased their artistic talents by painting vibrant, colorful murals on the school's walls and in its classrooms. The wall paintings featured educational themes, playful imagery, and motivational messages designed to create a positive and inspiring learning environment for the children. The students worked diligently to bring color and life to the once plain walls, believing that a stimulating and cheerful atmosphere can have a positive impact on a child's educational experience.

In addition to the painting activities, the volunteers engaged directly with the girls orphaned at the school, as the Samidha Welfare Foundation focuses on supporting and empowering girl children. The SET students played with the girls, organizing fun games and activities that brought joy and laughter to their day. These interactions fostered a sense of connection and care between the volunteers and the children, demonstrating the importance of empathy and human connection in community outreach. The donation aspect of the drive involved distributing essential items such as school supplies, books, and educational materials to the children, ensuring that they had the resources needed to support their academic journeys. The combination of painting, playing, and donating created a well-rounded experience for both the volunteers and the children, leaving a lasting impact on the lives of those involved. This event highlighted the School of Engineering and Technology's ongoing commitment to community service, particularly in uplifting marginalized groups such as orphaned girls. It reinforced the belief that education, creativity, and kindness can create transformative changes in communities. By partnering with the Samidha Welfare Foundation, SET continues to promote a holistic approach to education, emphasizing not only academic growth but also social responsibility and the importance of giving back to society

<p>(Geotag) Photograph-1*</p>	 <p style="text-align: center;"><i>Expert talk on POST covid Preparedness</i></p>
<p>Description (min 250 to max 800 words)*</p>	<p>On February 21, 2024, the School of Design at Sushant University organized a comprehensive awareness and prevention program focused on post-COVID-19 measures for college students in Gurugram. Recognizing that the pandemic's aftermath continues to affect students' physical and mental health, the initiative aimed to equip them with essential knowledge and strategies to stay safe, healthy, and resilient as they navigate a post-pandemic world. The program brought together medical professionals, mental health experts, and design students to provide a holistic approach to addressing the lingering impacts of COVID-19. The initiative's core objective was to increase awareness about the importance of hygiene, vaccinations, and mental well-being while emphasizing preventive measures to avoid future outbreaks and strengthen overall health consciousness among young adults.</p> <p>A key aspect of the program was educating students about the importance of maintaining basic hygiene practices that became crucial during the pandemic, such as frequent handwashing, sanitizing, and wearing masks in crowded or enclosed spaces. The</p>

workshops highlighted how these habits should remain part of their daily lives, especially in educational environments where close contact is inevitable. Medical professionals led detailed sessions on post-COVID-19 symptoms, particularly Long COVID, which continues to affect many individuals even months after recovering from the virus. These sessions aimed to raise awareness among students about potential lingering symptoms, such as fatigue, respiratory issues, and cognitive difficulties, encouraging them to seek medical attention if they experience any such signs. The workshops also covered the importance of staying up-to-date with vaccinations and booster shots, ensuring that students understand the ongoing need for immunity in the face of new variants of the virus.

The event also focused on mental health, acknowledging the psychological toll that the pandemic had on students. A dedicated segment of the program addressed the challenges of pandemic-induced anxiety, depression, and stress, which have become widespread issues among young adults who faced prolonged isolation, uncertainty about their future, and the pressure of adapting to online education. Mental health experts provided practical coping mechanisms to manage these post-pandemic stressors, including mindfulness exercises, time management tips, and the importance of maintaining social connections. Group discussions were encouraged, providing students with an opportunity to share their experiences during the pandemic, fostering a supportive environment where they could relate to one another and seek peer support.

Design students from the School of Design played a vital role in developing engaging and visually appealing materials to spread the message of post-COVID-19 awareness. They created posters, infographics, and digital content that illustrated the importance of ongoing safety measures, mental health care, and self-care practices. These materials were distributed throughout the university campus and shared on social media platforms to reach a wider audience. The creative approach taken by the students ensured that the content was not only informative but also easily accessible and

memorable for their peers. Additionally, a design-thinking workshop was held where students brainstormed ideas for improving campus infrastructure to promote better hygiene and social distancing measures. Some of the proposed ideas included redesigning communal areas to allow for more space between individuals, installing more hand-sanitizing stations, and creating signage that encourages students to maintain hygiene and follow safety protocols.

The event also included a panel discussion featuring public health officials, university administrators, and student representatives. This discussion focused on the broader implications of the pandemic for higher education, particularly how institutions can better prepare for future health crises. The panel explored the importance of creating health-conscious campuses, where safety and well-being are integrated into the daily routines of students and staff. One of the key takeaways was the need for universities to prioritize student health not only in response to emergencies but as a long-term commitment. Participants stressed the importance of building a culture of health awareness on campus, where students feel empowered to take care of their physical and mental well-being.

Another crucial component of the program was a vaccination drive that was held in collaboration with local health authorities. Students and staff were encouraged to receive their COVID-19 booster shots if they had not already done so, and medical professionals were available to answer any questions or concerns about the safety and efficacy of vaccines. The drive was successful in ensuring that a significant portion of the student body was protected against the virus, reinforcing the message that vaccination remains a critical tool in preventing the spread of COVID-19.

The program also addressed the importance of building resilience among students in the face of potential future health crises. The discussions focused on how students can maintain a strong immune system through proper nutrition, regular

exercise, and sufficient rest. Health experts emphasized that a healthy lifestyle not only reduces the risk of infection but also plays a key role in recovery for those who contract the virus. Nutritionists were on hand to provide advice on building a balanced diet that supports immunity, while fitness experts led short sessions on easy exercises that students can incorporate into their daily routines, even in small living spaces.

By the end of the day, the Post-COVID Awareness and Prevention initiative succeeded in raising awareness about the ongoing challenges posed by the pandemic while empowering students with the knowledge and tools they need to protect themselves and their communities. The feedback from participants was overwhelmingly positive, with many students expressing their appreciation for the practical advice and emotional support provided during the program. Several students noted that the mental health segment, in particular, was beneficial as it helped them address the emotional toll that the pandemic had taken on their lives. The initiative also reinforced the importance of collective responsibility, reminding students that their individual actions, such as following hygiene protocols and getting vaccinated, have a direct impact on the well-being of the larger community.

In conclusion, the School of Design at Sushant University's Post-COVID Awareness and Prevention initiative successfully combined medical expertise, mental health support, and creative design to equip students with the tools they need to navigate the post-pandemic world. The program fostered a culture of health consciousness and resilience, ensuring that students remain vigilant in protecting their health and contributing to the safety of their peers as they continue their academic journey in a post-COVID environment.

<p>(Geotag) Photograph-1*</p>	 <p><i>Expert talk on clean and green environment</i></p>
<p>Description (min 250 to max 800 words)*</p>	<p>On March 14, 2024, the School of Design at Sushant University launched a major initiative focused on promoting a clean and green environment in the congested areas of Gurugram. This initiative aimed to tackle the growing environmental issues in the city's densely populated regions, where rapid urbanization has led to increasing levels of pollution, waste accumulation, and a lack of green spaces. Recognizing the critical need for sustainable urban living, the project brought together design students, faculty, local community members, and environmental experts to address these challenges through a combination of awareness campaigns, community engagement, and hands-on projects. The initiative focused on creating practical solutions for waste management, promoting the planting of greenery in small urban spaces, and advocating for environmentally friendly practices that could be adopted by the residents of these areas.</p> <p>One of the key elements of the initiative was the "Green Corners" project, where students and volunteers worked together to identify small, unused spaces in congested neighborhoods and transform them into green zones by planting trees, shrubs, and vertical gardens. These green corners not only improved the aesthetics of the areas but also contributed to reducing air pollution and providing a</p>

much-needed breath of fresh air for local residents. The planting of indigenous trees and plants was emphasized, as they are better suited to the local climate and require less maintenance. Students from the School of Design used their creative skills to design these spaces in a way that maximized the use of limited space, incorporating eco-friendly materials for planters and seating arrangements that could be made from upcycled waste. The green spaces also served as educational hubs where residents could learn about the importance of urban greenery and its impact on health and well-being.

In addition to the creation of green spaces, the initiative also addressed the issue of waste management, which is a significant problem in Gurugram's congested areas. The program included workshops that educated residents on how to segregate waste at the source, recycle, and compost organic waste. Students designed informative posters and flyers that were distributed across neighborhoods, explaining the benefits of reducing plastic use, reusing materials, and adopting more sustainable waste disposal practices. This part of the initiative sought to change the mindset of the residents, encouraging them to take responsibility for their surroundings and actively participate in keeping their neighborhoods clean. The workshops also demonstrated how waste segregation could be integrated into daily household routines, making it easier for families to contribute to a cleaner environment.

An essential aspect of the initiative was its focus on involving the local community in the process. Residents, local businesses, and even children from nearby schools participated in the various activities, fostering a sense of ownership and pride in the changes taking place. The initiative was not merely about making physical improvements to the environment but also about encouraging a cultural shift towards sustainability and environmental stewardship. One of the ways this was achieved was through a "Clean and Green Pledge," where community members committed to adopting eco-friendly practices, such as reducing water wastage, planting trees, and minimizing their carbon footprint. The pledge campaign helped instill a sense of

accountability among the residents, making the initiative a long-term effort rather than a one-time event.

The School of Design also utilized its expertise in design thinking to come up with innovative solutions to urban environmental problems. For example, the students developed a series of designs for compact rainwater harvesting systems that could be installed on rooftops or in small courtyards, helping residents collect and store rainwater for reuse. This was particularly important in Gurugram, where water shortages are a common issue in many parts of the city. The students also designed urban farming systems, such as container gardens and vertical farming setups, which could be implemented in small spaces to grow vegetables and herbs, contributing to food security and reducing the carbon footprint associated with transporting produce from farms to markets.

Throughout the initiative, there was a strong emphasis on sustainability and reducing environmental impact. The materials used in the green corners and waste management projects were sourced from sustainable or recycled materials, and energy-efficient methods were promoted for lighting and irrigation in the green spaces. The initiative also explored the use of solar-powered streetlights in the green corners, further contributing to energy conservation in these areas.

The event culminated in a community-wide celebration, where the transformed green spaces were officially unveiled, and residents were recognized for their contributions to the project. The impact of the initiative was evident not only in the physical improvements made to the congested areas but also in the increased awareness and engagement of the local population regarding environmental issues. Feedback from participants highlighted the positive changes the initiative brought, with many residents expressing a desire to continue working towards a cleaner and greener Gurugram.

This initiative by the School of Design at Sushant University demonstrated how design, when combined with community participation and environmental awareness, can create lasting change in urban spaces. By addressing both the environmental and social dimensions of sustainability, the initiative successfully empowered the local community to take charge of their surroundings and work towards a healthier, greener future for Gurugram.

<p>(Geotag) Photograph-2</p>	<p>Fig 2 Media coverage in local daily of Ramnagar city, Uttarakhand</p>
<p>Description (min 250 to max 800 words)*</p>	<p>As part of an academic collaboration with WWF India, the students of Master of Planning from the Department of Planning, School of Art and Architecture, visited Ramnagar city in Uttarakhand for a detailed area appreciation study. The visit, which took place in the month of April, focused on understanding the city's ecological, environmental, and infrastructural framework to support the preparation of area, infrastructure, and master plans. The study also emphasized the impact of linear infrastructure, especially the Kashipur-Ramnagar Highway 121 (new 309), on wildlife and the environment.</p> <p>The primary goal of the Ramnagar study was to appreciate and assess the city's area in terms of its geography, socio-economic dynamics, infrastructure, and ecological balance. The students conducted surveys, engaged in stakeholder consultations, and interacted with the local community to gather in-depth information that could help in creating proposals for sustainable development.</p> <p>Given Ramnagar's proximity to the Jim Corbett National Park, the ecological survey was a vital component of the study. The students focused on understanding the balance between urban development and wildlife conservation. Data on green cover, wildlife corridors, water bodies, and the impact of human activities on natural habitats were collected. Special attention was given to the implications of linear infrastructure projects like highways and rail lines that often disrupt wildlife movement, causing harm to biodiversity.</p> <p>A critical aspect of the area appreciation study was engaging with the local community. Students conducted interviews and focus group discussions with residents, business owners, and members of civil society to understand their concerns regarding development, tourism, and environmental sustainability. Common issues raised included the need for better infrastructure, waste management systems, and responsible tourism practices that would not harm the local ecology. The community also expressed concerns about the increasing encroachment of urban development into forested areas, threatening</p>

	<p>wildlife habitats. The Ramnagar area appreciation study provided valuable insights into the complex interplay between urban development and ecological conservation. By conducting detailed surveys and engaging with the local community, the students were able to propose strategies for sustainable development that prioritize environmental preservation. The study reinforced the importance of considering ecological factors in urban planning, particularly in cities like Ramnagar, where wildlife and human settlements coexist in close proximity.</p>

रामनगर में सर्वे करने पहुंचा छात्रों का दल। • अमृत विचार

सर्वे करने को रामनगर पहुंचा गुरुग्राम से छात्रों का दल

रामनगर : गुरुग्राम के बीस विद्यार्थियों का दल छह दिनों के लिए शहरी विकास की योजना के तहत शैक्षिक भ्रमण पर है। छात्रों का यह दल डब्ल्यूडब्ल्यूएफ इंडिया (विश्व प्राकृतिक निधि) के सहयोग के तहत क्षेत्र में लोगों से सम्पर्क कर सर्वे रिपोर्ट तैयार करेगा। सुशांत यूनिवर्सिटी गुरुग्राम का यह दल डॉ. हिमाद्री शेखर डे और शानू अग्रवाल की अगुवाई में नगर में पहुंचा है। इस दल का सर्वे करने का मकसद रामनगर क्षेत्र का टाउन प्लान तैयार करना है। रामनगर प्रवास के दौरान छात्रों का यह दल घरेलू समेत जनसंख्या, यातायात, परिवहन, लोगो के सामाजिक और आर्थिक स्थितियों का सर्वे करना है। विद्यार्थियों का प्रतिनिधित्व कर रहे डॉ. हिमाद्री शेखर डे कहते हैं कि रामनगर शहर की गतिशीलता को समझकर भावी योजनाओं का डेटा इस तरह तैयार करना है कि रामनगर का बेहतर स्वरूप भविष्य में उभरकर सामने आए।

Description
(min 250 to max 800 words) *

Department of Pharmacy, School of health sciences organized Plantation Drive titled "Nurturing Nature's Remedies: The emergence of Herbal Medicinal Gardens" on 19th April 2024 on the occasion of World Earth Day. This event is aimed to enhance the educational value of plants and raise awareness about the role of herbal plants in maintaining ecological equilibrium within the campus populace. This event was initiated in the presence of Honorable VC sir, Dr. Rakesh Ranjan, Pro VC sir, Dr. Sanjeev Sharma, and Associate Dean ma'am Dr. Prof. Jyoti Sinha. All faculties and students enthusiastically

	<p>participated in the plantation drive. We planted 22 new herbal plants in campus, along with a commitment to upkeep the plants and a maintenance strategy was implemented to guarantee the enduring viability of the herbal garden and invest in our planet's calling for businesses to shift towards sustainable practices”.</p> <p><u>OBJECTIVES OF THE EVENT:</u></p> <ul style="list-style-type: none"> • To create awareness and spread the message of celebration of Earth Day 2024 • To make students sensitize towards mother earth and its full bounty and bliss. • To motivate the students to act, innovate and implement sustainable solutions against exploitation of earth and protection of climate. • To make students understand their role and responsibility in the movement

Description (min 250 to max 800 words)*

The term 'Local Area Plan' (LAP) is introduced in the MPD 2021 as the plan of a Ward/Subzone to be prepared and approved by the concerned local body. The function of a Local Area Plan is to take a detailed look at a specific area, identifying and analyzing the various issues of relevance, before establishing and setting out principles for the future development of the area. It involves community members in the form of participatory and capacity strengthening workshops, to identify specific issues affecting their community and produce a plan that provides solutions to meet the specific needs of their local area that supports its unique character.

The Local Area Plan is a crucial tool in urban planning and development, as it ensures that the unique characteristics and needs of each community are taken into account. By involving community members in the planning process, the LAP fosters a sense of ownership and responsibility among residents, encouraging them to actively participate in the development and improvement of their local area. This participatory approach not only helps in identifying the specific issues and challenges faced by the community but also in finding

sustainable and effective solutions that are tailored to their unique context.

The project aims to undertake the case of Karol Bagh, which is one of the three sub-divisions of the West Delhi District in India. Karol Bagh is a large and diverse area, divided into the West, East, and South zones. Each of these zones has its own distinct characteristics and challenges, making it essential to develop a comprehensive and detailed Local Area Plan that addresses the specific needs of each zone.

In the West zone, the focus might be on improving infrastructure and public services, such as roads, sanitation, and waste management. The East zone could prioritize enhancing green spaces and recreational facilities, while the South zone might concentrate on addressing issues related to housing and urban density. By taking a detailed and localized approach, the LAP can ensure that the development and improvement efforts are well-targeted and effective.

The process of developing a Local Area Plan for Karol Bagh involves several key steps. Initially, a thorough analysis of the area is conducted, identifying the various issues and challenges faced by the community. This analysis includes collecting data on demographics, land use, infrastructure, and public services, as well as conducting surveys and interviews with community members to gather their input and perspectives.

Following the analysis, a series of participatory workshops and capacity strengthening sessions are held with community members. These workshops provide a platform for residents to voice their concerns, share their ideas, and collaborate on finding solutions to the issues identified. The participatory approach ensures that the plan is community-driven and reflects the needs and aspirations of the residents.

Once the workshops are completed, the information and insights gathered are used to develop a draft Local Area Plan. This draft plan outlines the proposed interventions and strategies for addressing the identified issues and improving the overall quality of life in the area. The draft plan is then reviewed and refined through further consultations with community members and stakeholders, ensuring that it is comprehensive and well-aligned with the community's needs.

Finally, the Local Area Plan is submitted to the concerned local body for approval. Once

	<p>approved, the plan serves as a guiding document for the future development and improvement of the area. It provides a clear roadmap for implementing the proposed interventions and strategies, ensuring that the development efforts are well-coordinated and effective.</p> <p>Overall, the Local Area Plan for Karol Bagh represents a significant step towards sustainable and inclusive urban development. By involving community members in the planning process and addressing the specific needs of each zone, the LAP ensures that the development efforts are well-targeted and effective, ultimately leading to a better quality of life for the residents of Karol Bagh.</p>

Figure-2 Workshop on Cyber awareness

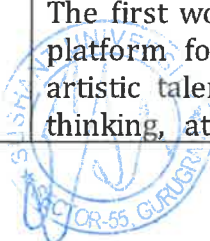

Figure-3 Interactive session with the rural community

Description (min 250 to max 800 words)*

As part of its ongoing commitment to social responsibility and community empowerment, Sushant University is launching a Rural Development Initiative aimed at fostering growth and development in rural areas. The upcoming event, scheduled for **17th May 2024**, will take place in **Rankhanda Village, Jhajjar**, where two interactive workshops will be conducted, alongside a **book donation drive** for local government school students. This initiative seeks to bridge the rural-urban divide through education, creativity, and awareness, focusing on the holistic development of the village community.

The first workshop, focusing on **Sketching and Origami**, will offer a platform for students and villagers to explore their creativity and artistic talents. Sketching is a fundamental skill that enhances visual thinking, attention to detail, and creative expression. Origami, the

ancient Japanese art of paper folding, is not only a fun activity but also improves fine motor skills, concentration, and spatial awareness. This workshop will be a hands-on experience, encouraging participants to engage in artistic activities that promote critical thinking and problem-solving while celebrating rural creativity. The aim is to introduce creative learning methods that can complement the existing education system in the village.

The second workshop will be dedicated to **Cyber Crime Awareness**, addressing an urgent and often overlooked issue in rural communities. With the increasing penetration of smartphones and internet access in rural areas, the risks of cyber fraud, online scams, and digital exploitation have also risen. This session will educate villagers, including school students, on the dangers of cybercrime, how to protect themselves online, and where to seek help if they encounter suspicious activity. This workshop aims to empower the rural population with knowledge and tools to navigate the digital world safely.

In conjunction with these workshops, a **Book Donation Drive** will be organized for the students of the local government school. Education is the foundation of rural development, and this initiative seeks to provide children with essential learning materials that will enhance their academic journey. The donation drive aims to supply a range of books to support their educational growth and foster a reading culture in the village.

Through these workshops and the book donation drive, Sushant University aims to contribute meaningfully to the development of Rankhanda Village, Jhajjar, creating a lasting impact on the community's educational and social well-being.

Cleanliness Drive
New Delhi National Park, Lajpat Nagar
20/05/24

Description (min 250 to max 800 words)*

The community cleanliness drive organized by VHTBS in National Park Lajpat Nagar, Delhi, on May 20, 2024, was a resounding success, transforming littered streets into spotless thoroughfares. The 'lets keep it clean'" initiative transformed the local park into a spotless oasis, thanks to a collaborative effort between community volunteers, municipal authorities, and environmental organizations. Around 27 participants gathered to tackle the park's long-standing litter and debris issues. Armed with gloves, trash bags, and a shared determination, the team systematically combed the grounds, collecting:

*Over 100 kilograms of waste, including plastic bottles, food wrappers, and discarded paper

Sam
Sushant University
Sector-55, Gurugram

	<p>*Broken playground equipment and hazardous materials *Invasive plant species and weeds</p> <p>The drive's impact extended beyond aesthetics:</p> <p>*Enhanced park usability and safety for visitors Improved local wildlife habitats and biodiversity *Raised community awareness about environmental responsibility *Fostered community engagement and social cohesion</p> <p>As the cleanliness drive concluded, the revitalized park beckoned visitors to enjoy its renewed beauty. This collective effort demonstrated the power of community-led initiatives in preserving public spaces and promoting environmental stewardship. The 'lets keep it clean' initiative served as a model for future collaborations, inspiring a culture of responsibility and civic pride in the heart of the city.</p> <p>The success of this drive sparked plans for quarterly clean-up events, ensuring the park remains a vibrant, trash-free haven for recreation, relaxation, and community connection."</p>

<p>(Geotag) Photograph-2</p>	<p>Fig 2: Design intervention based on feedback</p> 
<p>Description (min 250 to max 800 words)*</p>	<p>The Social Development through Design Intervention workshop, organized by students of Sushant School of Art and Architecture at Sushant University, Gurgaon, was a dynamic platform aimed at addressing pressing social issues through innovative design solutions.</p>

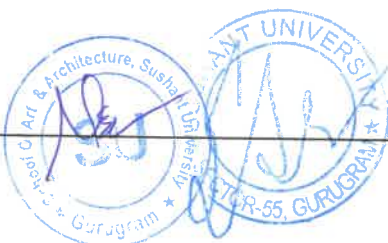

With a focus on social awareness and community engagement, students collaborated across disciplines to explore how design interventions could positively impact societal development. Through hands-on activities, design charrettes, and interactive projects, participants delved into issues such as poverty alleviation, environmental sustainability, and access to education and healthcare. By leveraging their creative skills and empathetic understanding of community needs, the workshop fostered a spirit of social responsibility and empowerment among students, paving the way for impactful change in local and global communities.

The workshop was meticulously structured to maximize student engagement and learning. It began with a series of lectures and presentations from experts in the fields of social development and design. These sessions provided participants with a theoretical foundation and a broad understanding of the challenges and opportunities in using design for social good. Following these introductory sessions, students were divided into smaller groups to work on specific projects. Each group was tasked with identifying a particular social issue and developing a design intervention to address it.

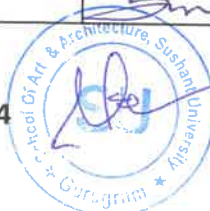

Throughout the workshop, students had access to a variety of resources, including design studios, prototyping tools, and mentorship from faculty members and industry professionals. This support system enabled them to experiment with different ideas and approaches, ultimately leading to more innovative and effective solutions. The hands-on nature of the workshop allowed students to apply their theoretical knowledge in practical settings, enhancing their problem-solving skills and creativity.

In addition to the design charrette, the workshop included several field visits to local communities and organizations. These visits provided students with firsthand insights into the real-world challenges faced by different populations. By interacting with community members and observing their daily lives, students gained a deeper understanding of the social issues they were addressing. This experiential learning component was crucial in helping students

	<p>develop more empathetic and contextually relevant design interventions.</p> <p>The workshop also emphasized the importance of sustainability in design. Students were encouraged to consider the long-term impact of their solutions and to incorporate sustainable practices into their projects. This focus on sustainability not only addressed environmental concerns but also ensured that the proposed interventions would be viable and beneficial in the long run.</p> <p>By the end of the workshop, students had developed a range of innovative design solutions aimed at addressing various social issues. These projects were presented in a final exhibition, which was attended by faculty members, industry professionals, and community representatives. The exhibition provided a platform for students to share their work with a broader audience and to receive valuable feedback and recognition.</p> <p>Overall, the Social Development through Design Intervention workshop was a transformative experience for the participants. It not only enhanced their design skills but also instilled a sense of social responsibility and a commitment to using their talents for the greater good. The workshop demonstrated the power of design as a tool for social change and inspired students to continue exploring ways to make a positive impact on society.</p>

Description

On July 7th, the District Thanksgiving Ceremony was a momentous occasion for the Rotaract Club of Sushant University, as the club was recognized with 10 prestigious awards for its outstanding contributions and initiatives. This recognition is a testament to the club's unwavering dedication to community service, mental health awareness, and impactful projects. The success of these initiatives underscores the strong collaboration and teamwork among club members, each contributing uniquely to achieving the club's goals. These awards are a reflection of the dedication, passion, and hard work of every member of the Rotaract Club of Sushant University. Awards and certificates of appreciation were presented to outstanding members and volunteers in recognition of their selfless service and leadership. Testimonials from beneficiaries of the club's initiatives were shared, emphasizing the positive impact that the club has made in the community. The event also featured speeches from senior Rotarians, who commended the Rotaractors for their dedication to "Service Above Self" and encouraged them to continue their good work in the future. The Thanksgiving Ceremony concluded with a vote of thanks by the Secretary, followed by a social gathering where members and guests shared experiences, celebrated their achievements, and discussed plans for upcoming projects. The event was a heartwarming success, fostering a sense of gratitude, camaraderie, and renewed commitment among the members to continue serving the community with passion and purpose. We extend our heartfelt thanks to our university administration, faculty, and fellow students for their continuous support and encouragement. Their belief in our vision and initiatives has been crucial to our success.
