<p>Description</p>	<p>The UBA Cell of Sushant University, under the government initiative, Unnat Bharat Abhiyan organized an interactive webinar on Organic Farming. Sustainability, going back to the basics and organic methods hold the key to a greener future. We joined hands to learn, unlearn and relearn the amazing benefits of organic farming. Dr. Dinesh Kumar, principal scientist from IAIS, Delhi enlightened us with some interesting facts about organic farming. The session ended with a vote of thanks to the speaker and all the attendees.</p>

Photograph-2*

Description (min 250 to max 800 words)*	The students of Sushant University celebrated the occasion of “National Mathematics Day” commemorating Sri. Srinivasa Ramanujan’s 133rd Birthday”. 5 teams of highly enthusiastic students each guided by a leader gave presentations on various topics related to mathematics day. The following are the topics which the teams displayed:	
	TEAM 1	PARTITION FUNCTION <ul style="list-style-type: none"> In number theory, the partition function represents the number of possible partitions of a non-negative integer n.
	TEAM 2	DISCOVERY OF ZERO (0) <ul style="list-style-type: none"> The number zero is a whole number (counting number). The number zero is not a positive number. The number zero is not a negative number, either. The number zero is a neutral number.
	TEAM 3	GOLDEN RATIO <ul style="list-style-type: none"> The golden ratio is a mathematical term given when ratio of two lengths, is equal to the number phi (ϕ). 'Golden ratio' is called 'sectio aurea' in Latin.
	TEAM 4	1729 <ul style="list-style-type: none"> 1729 is known as the Hardy-Ramanujan number. It is sometimes expressed using the term "positive cubes".
	TEAM 5	INFINITE SERIES <ul style="list-style-type: none"> For an infinite series $a_1 + a_2 + a_3 + \dots$, a quantity $s_n = a_1 + a_2 + \dots + a_n$, which involves adding only the first n terms, is called a partial sum of the series.
After the presentations, there was a quiz which included puzzles. 3 rounds of short answer questions, True-False and MCQ type questions were done. The judges had to decide which teams were qualified according to their presentations and quiz round. After a nail-biting finale, the following were the results: 1 st position – Team 3 2 nd position – Team 2 3 rd position – Team 4 The event successfully curtailed with a wonderful speech by Dr. Manimala on the importance of Mathematics in Real Life.

<p>Description (min 250 to max 800 words)*</p>	<p>School of Business, Sushant University has successfully organized a guest lecture on "Digital Transformation of Business" by an Industry expert Mamta Singh, Senior Manager, dotConverse on 22 Feb 2022.</p> <p>She enlightened us by sharing the concept of LoB (Line of business) and how digital marketers can integrate the objectives of LOB with digital channels. She emphasized various components of digital marketing with real-time campaign planning projects with the audience to give them a better understanding to classify the market in terms of consumers.</p> <p>She discussed Digital Transformation in Business is a crucial paradigm shift that leverages advanced technologies to reshape organizational strategies, processes, and customer experiences. In this transformative journey, businesses embrace digital tools and technologies to enhance efficiency, agility, and competitiveness in today's dynamic market. The lecture underscored the significance of adopting cloud computing, data analytics, artificial intelligence, and Internet of Things (IoT) to optimize operations and decision-making.</p> <p>One key focus was the role of data as a strategic asset, emphasizing the importance of data-driven insights for informed decision-making. The integration of digital technologies not only streamlines internal operations but also enables businesses to personalize customer interactions and create innovative products and services. The lecture highlighted the need for a cultural shift, encouraging organizations to foster a digital mindset and cultivate a workforce capable of adapting to technological changes.</p> <p>Additionally, the discussion delved into the challenges associated with digital transformation, such as cybersecurity concerns and the need for upskilling employees. Overall, the lecture conveyed that embracing digital transformation is not just about technology adoption but a holistic approach that reshapes business models and fosters a culture of continuous innovation to thrive in the digital era.</p>

Description (min 250 to max 800 words)*

As per the instructions given by the Ministry of Education, Smart India Hackathon 2022, Mr. Antim Dev Mishra Assistant Professor and University SPOC for SIH 2022, and SIH student coordinator Mr. Aditya Milind Mate CSE VI Sem, School of Engineering Technology Sushant University has successfully organized Internal Hackathon on 11 March 2022. In total

	<p>7 teams having 42 students from the School of Engineering and Technology, School of Design, School of Health Science Sushant University participated in the event. The Internal Hackathon projects were evaluated by the following jury members.</p> <ol style="list-style-type: none"> 1. Dr. Sachin Datt Associate Professor School of Design, Sushant University. 2. Dr. Latika Singh Associate Dean School of Engineering and Technology, Sushant University. 3. Dr. Usman Khan Associate Professor School of Health Science, Sushant University. 4. Dr. Isha Saini Associate Dean School of Engineering and Technology, Sushant University. <p>Dean School of Engineering Technology Sushant University Dr Sudipto Sarkar and faculty members encouraged the students to participate in SIH2022 for developing innovative projects. Students from SET took problem statement from the following organizations and presented an idea.</p>
