What we do?

Provides you an insight into your business, helping you to take informed decisions by analysing recorded data.

It is specifically created to generate user-defined reports or Pre-Configured reports as per your requirement. It provides autonomy in designing a new report format or changing the existing format based on your analytical requirements by se desired filters and display fields.

Design your own unique reports and report templates.

Access library of reports that are added to increase coverage of analysis.

Enables you to communicate and disseminate information to various groups within the organisation and outside through Short Message Service (SMS) or Email.

Use digital signatures or password protection features to create authenticated and tamper-proof reports and files.

Leverage integration with other iON solutions to save and share documents using iON Cloud Drive.
