For Bsc Psychology

Sushant University Sector 55, Golf Course Road, Gurugram-122003 B.Sc. (PSYCHOLOGY)	
Program Educational Objectives (PEOs) The program is designed to develop graduates who will be able to:	
PEO-1	To be able to apply the knowledge of psychology in the field of research, teaching and counseling.
PEO-2	To be able to apply the knowledge of psychology in the field of research, teaching and counseling.
PEO-3	To be able to apply the knowledge of psychology in the field of research, teaching and counseling.
Program Outcomes (POs) The program is designed to develop graduates who will be able to:	
PO-1	Understand the basic concepts and theories of psychology.
PO-2	Apply the knowledge of psychology in the field of research, teaching and counseling.
PO-3	Understand the basic concepts and theories of psychology.
PO-4	Apply the knowledge of psychology in the field of research, teaching and counseling.
PO-5	Understand the basic concepts and theories of psychology.
PO-6	Apply the knowledge of psychology in the field of research, teaching and counseling.
PO-7	Understand the basic concepts and theories of psychology.
PO-8	Apply the knowledge of psychology in the field of research, teaching and counseling.
PO-9	Understand the basic concepts and theories of psychology.
PO-10	Apply the knowledge of psychology in the field of research, teaching and counseling.
PO-11	Understand the basic concepts and theories of psychology.
PO-12	Apply the knowledge of psychology in the field of research, teaching and counseling.
Program Specific Outcomes (PSOs) The program is designed to develop graduates who will be able to:	
PSO-1	Understand the basic concepts and theories of psychology.
PSO-2	Apply the knowledge of psychology in the field of research, teaching and counseling.
PSO-3	Understand the basic concepts and theories of psychology.
PSO-4	Apply the knowledge of psychology in the field of research, teaching and counseling.
PSO-5	Understand the basic concepts and theories of psychology.
PSO-6	Apply the knowledge of psychology in the field of research, teaching and counseling.
PSO-7	Understand the basic concepts and theories of psychology.
PSO-8	Apply the knowledge of psychology in the field of research, teaching and counseling.
PSO-9	Understand the basic concepts and theories of psychology.
PSO-10	Apply the knowledge of psychology in the field of research, teaching and counseling.
PSO-11	Understand the basic concepts and theories of psychology.
PSO-12	Apply the knowledge of psychology in the field of research, teaching and counseling.

**Program specific outcome (PSOs), Programme outcomes (Pos)
and Program Educational Objectives (PEOs)**

For M. CVT

Sushant University
Sector 55, Golf Course Road, Gurugram-122002

M.Sc. (Cardiovascular Technology)

Program Educational Objectives (PEOs)

PEO1: M.Sc. CVT program enables students to become a highly qualified cardiovascular technician.

PEO2: After the completion of program, candidates become well versed in techniques used in Electrocardiography, Echocardiography, Treadmill testing, Patient assessment and, Patient interpretation and related tests.

PEO3: Graduates will bring knowledge and skills of cardiovascular technology to provide healthcare services for the benefit of the society in general.

PEO4: After the completion of program, graduates become well prepared for work associated with teaching, patient subjects, basic research subjects and knowledge in primary care, hospitals and others.

PEO5: Graduates will be effective, self-motivated professionals in increasing information regarding good health, health care delivery and community and continuously learning for new knowledge and skills.

PEO6: Graduates will have a good knowledge, quality and entrepreneur skills for working and contributing effectively in interdisciplinary environment, either independently or in a team.

Program Specific Outcomes (PSOs)

PSO1: M.Sc. CVT program enables students to understand the basic aspects of the cardiovascular system and its management of various cardiac diseases.

PSO2: The CVT program is to equip students with the skills, knowledge and ability to identify a qualified physician and technician in the diagnosis and treatment of cardiovascular injury and disease.

PSO3: After completion of the program students will be able to apply theoretical knowledge, theory skills and concepts in work environment, in clinical cardiovascular technology and become an independent professional in health care technology field.

Program Outcomes (POs)

PO1: Define and describe human cardiovascular system & its related system in relation to clinical diseases.

PO2: Classify and describe various cardiovascular and pulmonary disorders.

PO3: Apply knowledge of human cardiovascular and its related system in the diagnosis, cardiovascular disease, medical diagnosis, management & apply the knowledge and skills in clinical and laboratory setting and/or in the field of cardiovascular technology for patient care.

PO4: Utilize various tools & techniques in the field of cardiovascular technology for patient care.

PO5: Apply knowledge and skills in the field of cardiovascular technology for patient care.

PO6: Be able to work as a technician in a hospital or in a private laboratory or in a research laboratory.

PO7: Be able to work as a technician in a hospital or in a private laboratory or in a research laboratory.

PO8: Be able to work as a technician in a hospital or in a private laboratory or in a research laboratory.

and Program Educational Objectives (PEOs)**

For B. MRIT

Sushant University
Sector 55, Golf Course Road, Gurugram-122002

B.Sc. (Medical Radiology & Imaging Technology)

Program Educational Objectives (PEOs)

PEO-1: To develop a professional competence in the use of medical radiology and imaging technology, to perform a professional role in the field of medical radiology and imaging technology.

PEO-2: To develop a professional competence in the use of medical radiology and imaging technology, to perform a professional role in the field of medical radiology and imaging technology.

PEO-3: To develop a professional competence in the use of medical radiology and imaging technology, to perform a professional role in the field of medical radiology and imaging technology.

Program Outcomes (POs)

PO-1: Develop critical thinking by integrating knowledge of general anatomy and physiology of the human body, CT, MRI, USG, mammography, etc. to provide accurate diagnosis and treatment of patients.

PO-2: Plan and implement clinical and research activities related to the problems of medical radiology and imaging technology.

PO-3: Use effectively as a leader in various interdisciplinary and multidisciplinary health care organizations and use complex problem-solving skills, assessment of the situation, and decision-making.

PO-4: Apply the knowledge and skills in the areas of social and legal issues related to the profession of medical radiology and imaging technology.

PO-5: Write, develop, and communicate effectively and scientifically (Communication & presentation skills).

PO-6: Use modern tools and techniques for the efficient diagnosis of diseases (Computerized & professional knowledge).

PO-7: Promote advancement of medical radiology & imaging technology through practice, education, and research (Research).

PO-8: Acquire the practical skills needed to work in a competent Medical Radiology and Imaging Technology laboratory (Emergency Medical Services & Imaging Technology).

PO-9: Apply the skills that have been learned during the program to the practice of general, safe, effective, and compassionate patient care (Professionalism & Quality Improvement).

PO-10: Demonstrate appropriate skills of interpersonal communication with patients and other members of the health care team (Organizational Behavior).

PO-11: Practice according to the ethical principles and legal requirements of the profession of medical radiology and imaging technology, clinical, social, and professional conduct (Ethics & Professionalism).

Program Specific Outcomes (PSOs)

PSO-1: Demonstrate competency in the use of medical radiology and imaging technology, CT, MRI, USG, etc.

PSO-2: Comply with safety regulations and universal precautions and also to ensure quality service within professional and working standards and technology department in the laboratory.

PSO-3: Apply continuing education requirements as a function of growth & maintenance of professional competence for the growth and support to national and international organizations as a professional.

PSO-4: Demonstrate professional conduct & interpersonal communication skills with patients, parents, other health care professionals and the public.

Program specific outcome (PSOs), Programme outcomes (Pos) and Program Educational Objectives (PEOs)

For B. Pharm

Sushant University
Sector 55, Golf Course Road, Gurugram-122003

BACHELOR OF PHARMACY

Program Educational Objectives (PEOs)

PEO1: To provide students with competence of technical skills of various disciplines of pharmaceuticals, Pharmaceutics, Chemistry, Pharmacology and Pharmacognosy to meet the requirements of industries, Community and hospital.

PEO2: To prepare students to utilize their abilities in postgraduate programs and technical professions.

PEO3: To develop the ability in pharmacy graduates to assess benefits and deficiencies of the subject, methods they studied and practices they observed in the field of Pharmaceutical sciences.

Program Outcomes (POs)

PO1: To develop graduates with high practical capabilities indicated with strong hold on fundamental concepts of Pharmaceutical sciences.

PO2: Able to apply technical skills learned during the course to combine interdisciplinary approaches for solving complex problems of research in Pharmaceutical sciences.

PO3: Indicate professional & ethical values as a Pharmacist as well as knowledge and skills to successfully practice the profession of Pharmacy.

PO4: Able to communicate effectively, provide adequate technical information for patient counselling and effective participation in health care programs.

PO5: To impart knowledge of formulation, synthesis & evaluation of drugs of synthetic/ natural origin along with their identification, purification and isolation.

PO6: To train students as per industrial expectations & entrepreneurial establishment.

PO7: Understand the ongoing recent advancements in the field of medicine for patient benefit and encouraged for novel innovations.

PO8: To develop students with critical thinking skills by integrated technical knowledge obtained during course of study.

PO9: Students understand different dosage forms, Pharmaceutical preparations, & their route of administration, mechanism of action and bioavailability concept in conjunction with human anatomy and physiology.

PO10: Understand various regulatory guidelines for import and export of drugs, clinical trials, cultivation and collection of drugs, IP, QA & QC and various laws governing pharmacy profession.

Programme Specific Outcomes (PSOs)

PSO1: To implement the Pharmaceutical knowledge in formulating the best suitable dosage form by research oriented activities.

PSO2: To service the public by providing patient centric effective treatments for improving their health and well being of society.

PSO3: To build and shape fitting career of personal and practicing professional growth with ethical codes and self-esteem.
