NOTICE

CONVERSION OF CGPA INTO PERCENTAGE

Ansal University follows a relative 4 Point Grading System for the students enrolled in the academic year 2012-2013, 2013-2014 and 2014-2015. There is no rule in the University to convert Cumulative Grade Point Average (CGPA) into percentage. However, for those students who need the percentage conversion in order to apply elsewhere for studies or employment the University advises that the following formula may be used to convert the CGPA to arrive at the nearest approximate percentage -

$$\text{Percentage (\%)} = \text{CGPA} / 4 * 100$$

For the students enrolled in the academic year 2015-2016 onwards the University follows absolute 10 Point scale. The following formula may be used to convert the CGPA to arrive at the nearest approximate percentage -

$$\text{Percentage (\%)} = \text{CGPA} / 10 * 100$$
