

prospect

us

Is there a place where
education can help you find
your hidden strengths,
your individuality, your confidence?

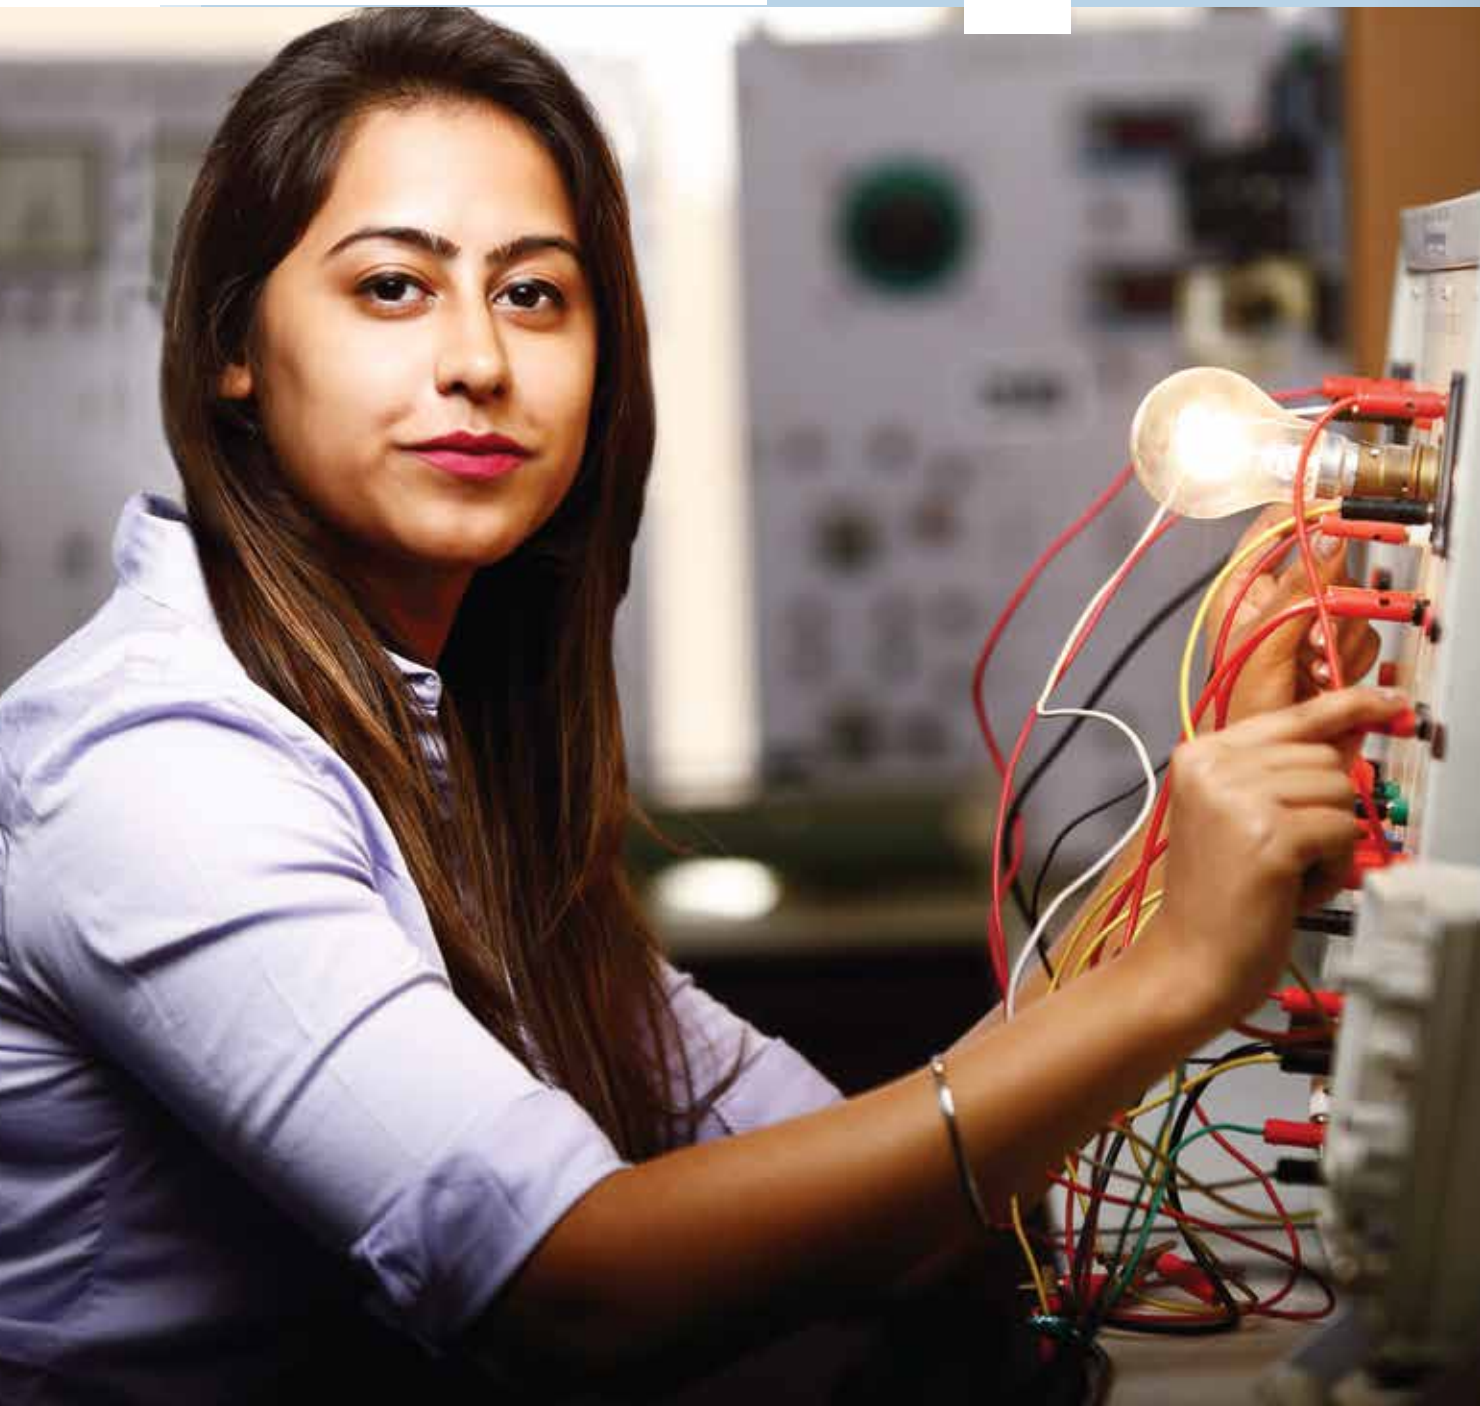

Is there a place where the
joy of education is not
lost to the pressures
of building a career?

Is there a place which is
adapting and changing
with the times
while still resolutely remaining
a centre for Higher Education?

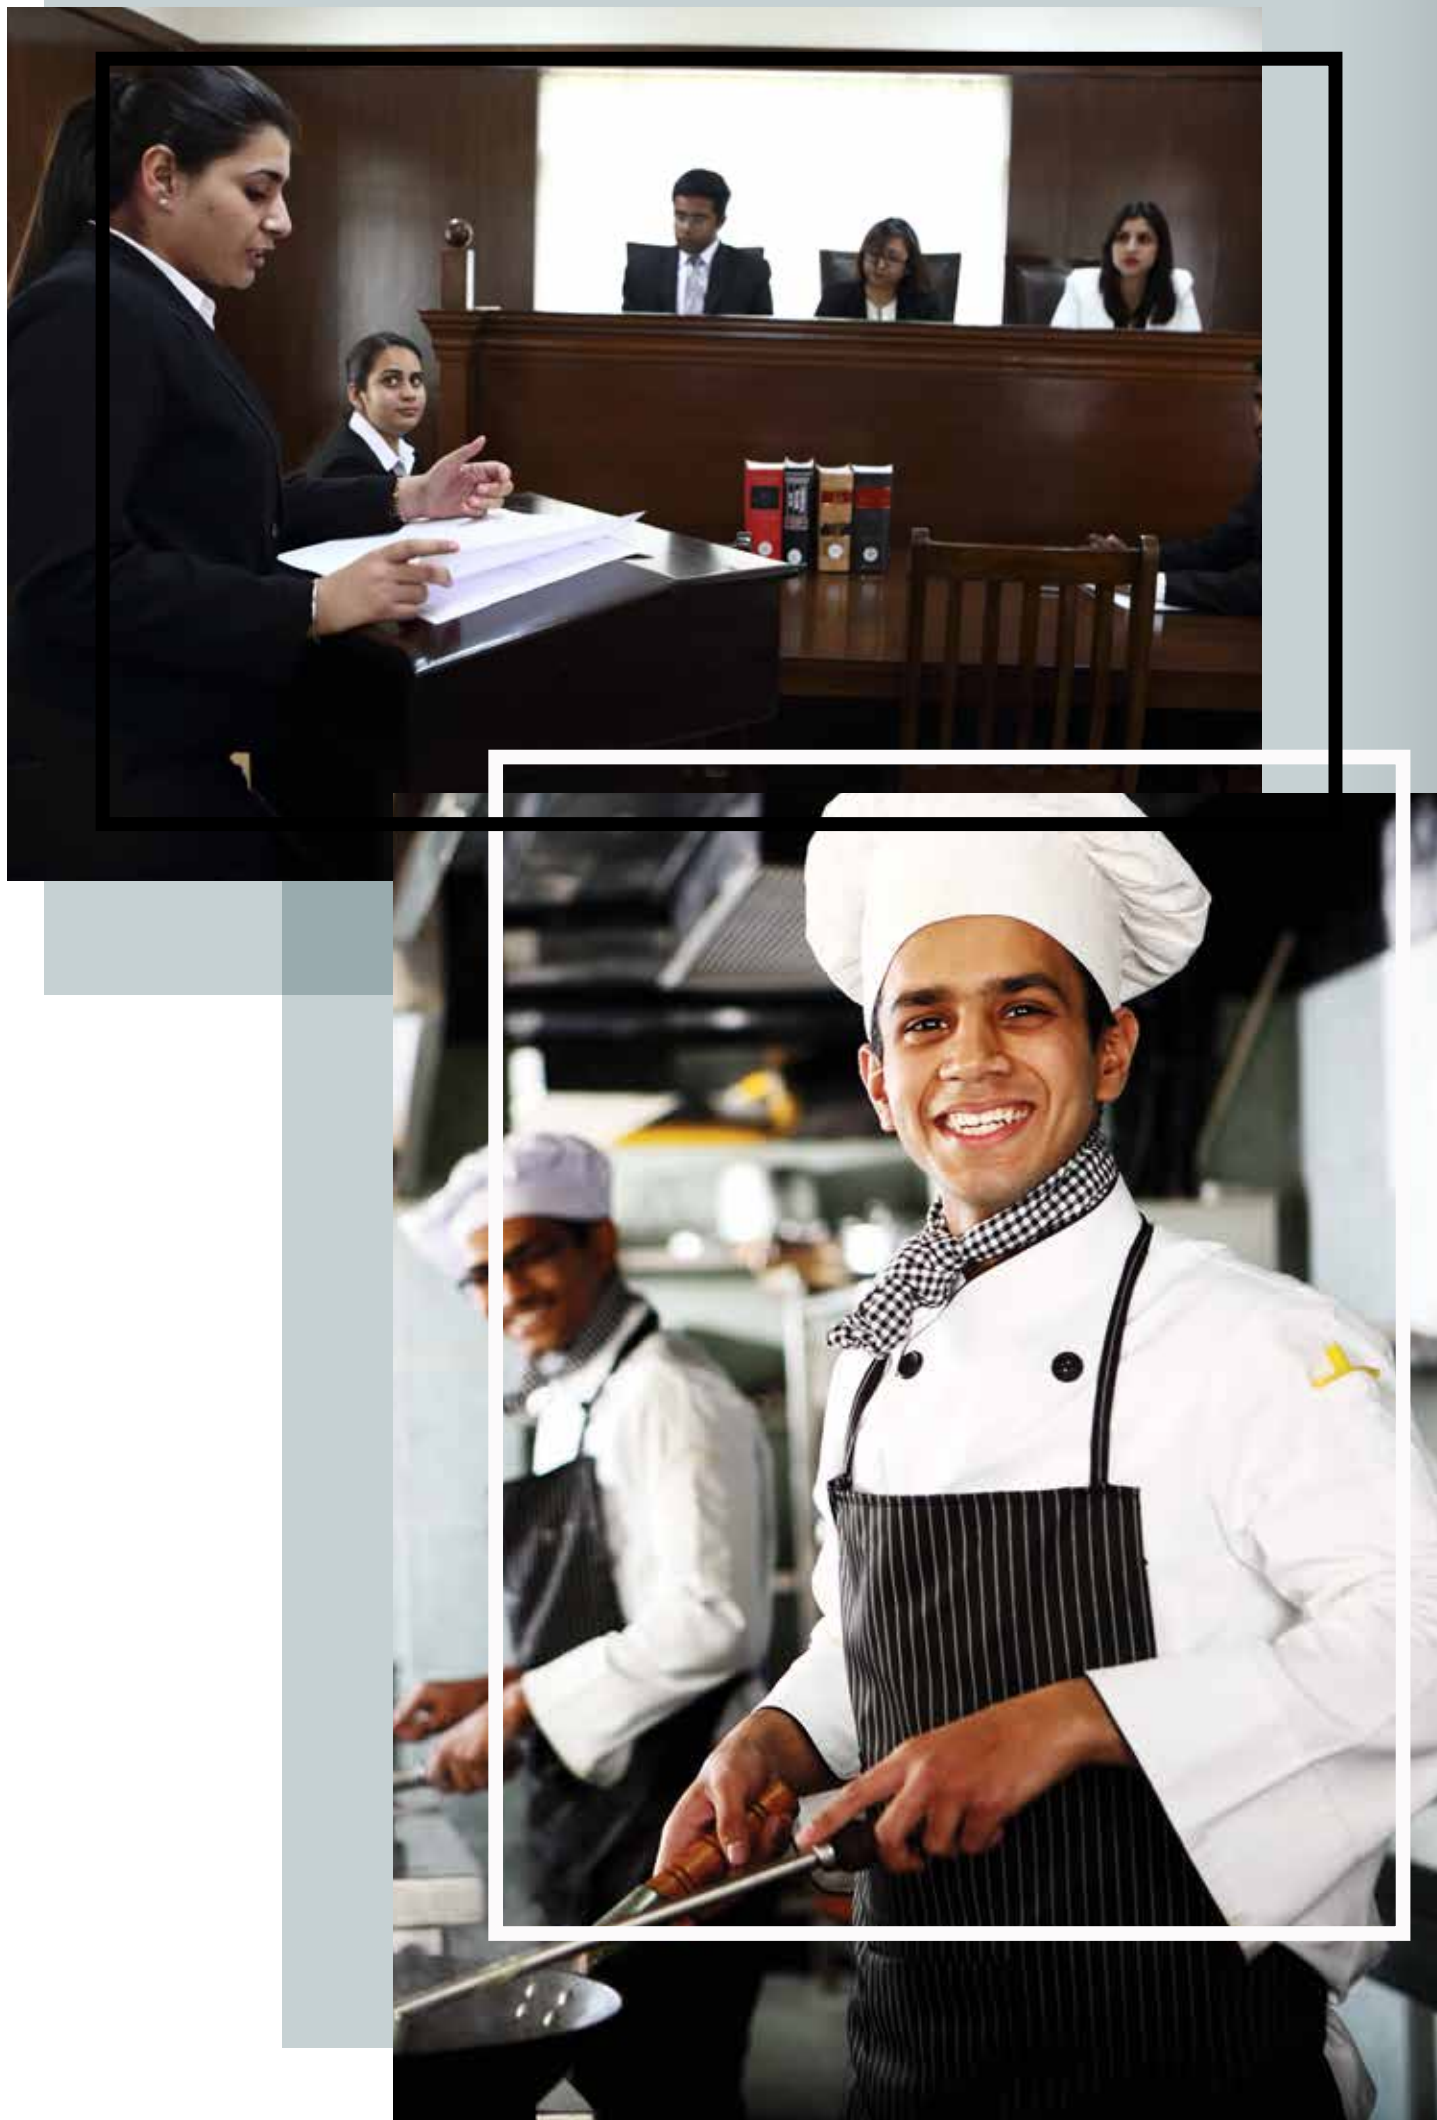

a place where dreams take shape

Whether you're a student or a parent, you're exploring the Ansal University prospectus because you've heard great things about us. About how we are a thriving campus with a bouquet of degree courses that students truly appreciate. About how we have a range of disciplines as diverse as Management Studies and Engineering as well as Hospitality & Catering, Art/ Architecture and Design. It has always been a push at AU to have tailor-made courses that give the students a career, and not merely a certificate.

a place where knowledge is experiential

At AU we have known for years that spending time in a classroom is never the same as later spending time in the world of jobs, bosses and cut-throat competition. We've therefore always kept an emphasis on career-centric education, giving our students experiential learning with the help of the latest tools and techniques using case studies, role plays, field visits, projects, classroom exercises and the joy of picking the brains of some of the finest faculty from academia and the corporate world.

a place where careers are built on campus

The School of Law is proud to hold a Moot Court for the benefit of the students. In the School for Tourism and Hotel Management, students get in-depth beyond-theory training in the kitchen and serving experience in a fine-dining restaurant in the school building. By the time they are looking for placements, they feel like they already have job experience. That's of course besides having a great time on campus.

Infrastructure means the world to the student and we provide exactly that. From vast well-stocked libraries with quiet corners to state-of-the-art computer and engineering laboratories, from fully-equipped lecture theatres and classrooms to round-the-clock high-speed Internet access, the AU campus has it all. Add to that updated equipment in every discipline, a versatile sports complex, a beautiful amphitheatre for cultural events, on-campus lockers and on-campus hostels for boys and girls, cafeteria, snack bars, kiosks, a Café Coffee Day, you'll never want to leave the campus. Oh wait, did we mention a fleet of buses to take you to Delhi, Gurgaon and Faridabad? To top it all, we are within walking distance from the nearest rapid metro station.

a place
where
**curiosity
is rewarded**

a place where friendships are formed for life

The AU campus is sprawling enough for you to find a cosy corner and spend years as a bookworm. Or you will do what thousands of students have done – find the greatest friends to hang out with you in the library or the canteen or on the lush green lawns. There's no greater treasure on campus than friends that you can share your life and laughs with.

a place where sport is a way of life

From tennis and basketball courts to football fields, AU is a magnet to athletic and competitive souls. For some students, sport is an evening ritual, for some it's a stress-buster outside the serious endeavours of the classroom.

At AU we celebrate sport, and it makes us feel duly rewarded.

a place where students can even develop the campus

All the Schools at AU encourage a culture of freedom and guided self-learning, experimentation and innovation in a highly energetic and immersive atmosphere where students sometimes pick up bricks and build their own café or an even add an amphitheatre to the landscape. Development is even greater when the students themselves drive it.

a place
where
students

find the
teachers
they truly
deserve

AU students have great respect and love for the faculty at AU. The freedom the professors allow, in independent thinking, ideation and research reflects in the work that the students display throughout the year in their workshops and on campus walls, annual events and competitive platforms.

because AU
is a place where
the student is at
**the centre of
absolutely
everything**

vice- chancellor's message

Today we live in a complex world that has experienced an explosion in knowledge, but not a matching growth in understanding; a world in which people have lost trust in their leaders and faith in their institutions. It's a world that has developed amazing technologies, but has isolated people, leaving them with a feeling of life without purpose and even the value of human endeavour.

Ansal University is uniquely positioned to answer these questions and train students to live in such a world and to find better solutions to everyday problems. We are committed to the discovery and transmission of knowledge in a setting of our cultural and social heritage.

As you begin to explore joining us as a student, I am confident you will discover that faculty and staff here are enthusiastic about their work, proud of our quality, excited about our potential, and dedicated to preparing our students for rewarding careers. Our tradition is to help students gain real-life knowledge that employers demand. Serving students with quality is one of our highest values.

We understand that in order to succeed, students need access to the necessary support services and skill-development opportunities that will help them put their best foot forward. First and foremost, faculty members at Ansal University work directly with students to help them succeed in their studies, through teaching, mentorship and supervision.

There is a lot for you to explore here as you become part of our educational endeavours. You will discover that your faculty members will push you to achieve the best you can by helping you discover your true potential and interest. We also take pride in giving our students a truly global experience on campus.

I welcome you at Ansal University and I hope that I will get an opportunity to meet you during the beginning of the academic session this August. Congratulations and all the best for taking the first step to mastering the art of living a wonderful life through quality education and self-actualisation.

Dr. Kamlesh Misra
Vice-Chancellor, Ansal University

history

The legacy of the Chiranjiv Charitable Trust in the realm of higher education goes back to 1989, when the foundation of the Sushant School of Art and Architecture was laid by Mr. Sushil Ansal, to address the gap in Indian architectural education. The School was conceived with the objective of combining traditional Indian aesthetics and modes of urban planning with the needs of a modern cityscape. As the School made a mark in the field of architectural education under the guiding force of late Fellow of the Frank Lloyd Wright Foundation, Padma Shri MM Rana, the Trust further expanded to establish the Ansal Institute of Technology in the year 2000 that received international recognition in the field of research, extension and global collaborations. The Sushant School of Design was instituted a decade later and in 2012 the 'Sushant Group of Institutions' came under the Ansal University, established through the legislation of the State of Haryana under Haryana Private Universities Act 2006.

The various schools under the University, located in a sprawling campus in the heart of Gurgaon, have carved a niche by offering the required educational programs and providing the best faculty and facilities to promote academic excellence. The strengths of the University include firm international collaborations with some of the top Universities of USA, Canada and Australia like Clemson University, Valparaiso University, Eastern Michigan University, Tarleton State University, NJIT and Deakin University. The organization has a rich intellectual capital comprising more than 150 highly qualified and experienced faculty from diverse fields. Ansal University has hosted industry stalwarts like the late MF Hussain, Sonal Mansingh, Joseph Allen Stein, Mario Botta, Sir James Bevan, Sunil Kant Munjal, Hafeez Contractor, Rajan Anandan, Amitabh Kant, Chetan Bhagat, Raj Jain, Raj Biyani, Raseel Gujral, Ritu Beri and many more.

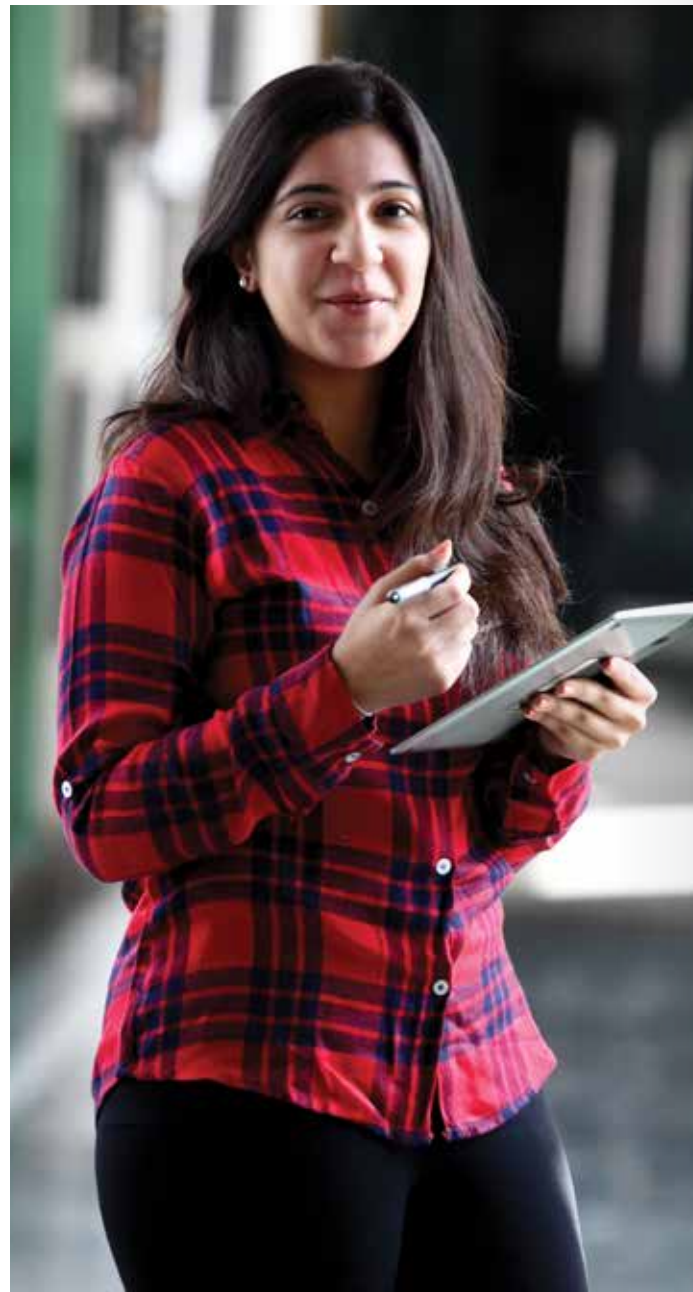

Emphasis on learning by doing through live projects

Well established Centre for Corporate Relations for training and placement support.

Strong integration with industry

International collaborations with premium global universities for academic and research activities.

History of global quality education spanning decades

Trans-disciplinary Learning through subjects over and above the core area of study.

Soft skills training spread over all semesters by industry trainers.

Additional Certifications during the course of study.

why AU

Industry focused contemporary curricula with multiple specializations

Limited venture funding for selected projects

Liberal merit based scholarships at the time of admission

Special projects for incubating entrepreneurship

Located in the heart of the city of Gurgaon with very convenient connectivity to the nearest Rapid Metro Station.

PROGRAMME

B.A. (Hons) - Liberal Arts

Sushant School of Liberal Arts

A degree with breadth and flexibility and that students can actually use in the workplace. We believe that a strong general education is critical in today's society, that it can play a vital role, enriching design, art & architecture, economics and business practice. The undergraduate programme will be delivered by outstanding faculty, and is backed with excellent resources, international relationships and deep industry networks. The Sushant School of Liberal Arts is an excellently located, progressive, career-ready undergraduate opportunity for school students in India.

PROGRAMMES

B.Arch (approved by the Council of Architecture)

M.Arch* (Built Heritage)

M.Arch* (Landscape Architecture)

M.Arch* (Interior Architecture)

Masters in Planning# (Urban)

M.Arch (Urban Design) approved by the Council of Architecture

* Under CoA approval

Under ITPI approval

SSAA has a reputed tradition of excellence, which is demonstrated in the excellent work being done by the alumni in many countries across the globe. The faculty at Sushant School is geared towards developing, in each student, a strong sense of design, technical sensibility and all-round awareness early in their career and endeavours to form many more research and practice alliances in the future.

Sushant School of Art and Architecture

The Sushant School of Art and Architecture (SSAA) was established in 1989 by the Chiranjiv Charitable Trust, a premier voluntary organization devoted to the cause of education. It has been offering a five-years undergraduate degree in Architecture and two-years Masters of Urban Design. Affiliated to Ansal University, the School is recognized by the Council of Architecture (CoA).

In the last 27 years, SSAA has established itself as one of the top architectural institutes in the Indian Subcontinent. It continues to be the Number 1 private architectural college and 8th best college amongst 458 architectural colleges in India (as per Outlook ranking 2016). Through its alumni and faculty linkages, SSAA has cultivated associations with several international universities. International relationships ensure that SSAA renews its respected status within the world design community.

PROGRAMMES

B.Design

- Interior Architecture
- Interior Design
- Product Design
- Fashion & Textiles
- Visual Communication

M.Design

- Interior Design
- Luxury Design & Innovation

Sushant School of Design

Design solutions are essentially centered around the end user. Thus design education and training at Sushant School of Design (SSD) is centered on the trainee learning all the skills needed to cater to the end user, regarding various aspects of the Design Industry.

At SSD, the curriculum is planned and embarked upon, keeping in mind the students' individual potential and the abilities picked up along the way to benefit to the maximum from the facilities provided.

Design thinking is at the core of our mentoring approach which equips our soon-to-be practitioners with the skills to both create new designs and manage the process. That's why we have a whopping near 100% placement rate industry-wise.

PROGRAMME

B.Sc. - Hotel Management & Catering Technology
(With the renowned French Hospitality School Vatel)

Vatel Best Hospitality Management School

Vatel Group has recently won the “**Best Hospitality Management School**” award in the 17th edition of the Worldwide Hospitality Awards held at Paris in November 2016.

This win reinforces our belief that to be the best, you must be with the best!

School of Tourism and Hotel Management

Ranked as the No. 1 private Hotel Management Institute in Haryana, we offer a Bachelor's degree in Hotel Management and Catering Technology and a Diploma in Culinary Arts / Food and Beverage Service. The school offers a combination of quality teaching, international exposure along with skill based training which is our recipe for success. Students benefit immensely from paid international catering assignments. We have a strong individual approach towards industry placements and dream jobs.

PROGRAMMES

BA.LLB (Hons) / BBA.LLB (Hons)
(Approved by Bar Council of India)

LLM

- Real Estate law
- Intellectual Property Rights
- Human Rights

School of Law, to cater the emerging new legal landscape provides a clear framework for our students to be the leaders of the legal profession and beyond. It strives to create a new model in the field of legal education with its emphasis on corporate culture so that its graduates can enter the emerging legal career options. School of Law is recognized by the Bar Council of India and University Grants Commission

School of Law

School of Law, Ansal University provides a learning experience to its students that is difficult to emulate.

Endowed with faculty members from some of the most prestigious institutions, School of Law has established a legacy of excellence in the few years since its inception. The Law School over the years has achieved a stellar reputation in all fields including but not limited to curriculum design, pedagogical creativity, mootings, internships, and knowledge sharing through international conferences and seminars among others. Taking up challenges and innovating legal education to the next level keeping in mind student centricity has been an unwavering focus of the faculty and staff of the School. These achievements were recognised

when School of Law was conferred the “Best Emerging Law School of the Year” in 2016 by the Indian National Bar Association (INBA) and the No.1 Rank in the category of Promising Law School by GHRDC (Global Human Resource Development Centre). An activity-driven learning environment keen to bring out the best in students is the hallmark of the School. Blending theory with practice, rigour with creativity, global with national, passion with professionalism sets apart School of Law as an institution wedded to the idea of nurturing legal brilliance in the leaders of tomorrow.

PROGRAMMES

MBA

- Marketing

- Computer Science Engineering
- Electronics & Communication Engineering
- Mechanical Engineering

School of Engineering and Technology

The changing landscape of India in engineering and technology needs more innovation and innovation starts with design. At the School of Engineering and Technology (SET), we educate the engineers who will be facilitating the passage from design to product and from product to start- up to create a socially and environmentally sustainable ecosystem.

PROGRAMME

B.Sc. in Cardiovascular Technology
(In collaboration with Max Institute of
Health Education and Research)

School of Allied Health Sciences

In recent times, India has made a drastic improvement in the public health sectors producing affordable medicines and diagnostic tools. In a developing country like India there is a boom in the public health care sector.

There is a rapid increase in the number of heart patients due to life style disorders, stress and other factors leading to the need to expand our current health care facilities. Thus a huge demand for expertise is generated in the field of cardiology. Ansal University, located in the Delhi/NCR region, has taken a step forward in providing an excellent cardiovascular technology programme in association with Max Institute of Health Education and Research (MIHER).

corporate resource center

The Corporate Resource Center (CRC) endeavors to enhance the placement prospects of each student of the University. The University has six different Schools and CRC has been instrumental in providing internship and placement assistance to the students from all these different Schools. CRC works as an interface between the companies and the University for industrial visits, guest sessions, interactions with experts, apart from trainings and placements.

The landscape of the placement industry has been changing quite rapidly day by day. Nowadays, companies look forward to hiring a person who can be productive from day one. Keeping into account these requirements, CRC keeps on evolving regularly to adapt the latest practices of corporate houses and industries. There are two student placement clubs which are proactive in organizing numerous activities and they give a

platform for grooming and developing the students. Mock interviews, aptitude tests, group discussion activities, personality enhancement sessions are among the many calendar activities which eventually make the students industry-ready.

Ansal University has a strategic location and enjoys the advantage of being in the corporate hub of the Millennium City, which facilitates arranging student internships and placements. It further helps to invite senior industry stalwarts to share insights about corporate life, the latest practices and contemporary industry trends.

MORE THAN 250+ RECRUITERS

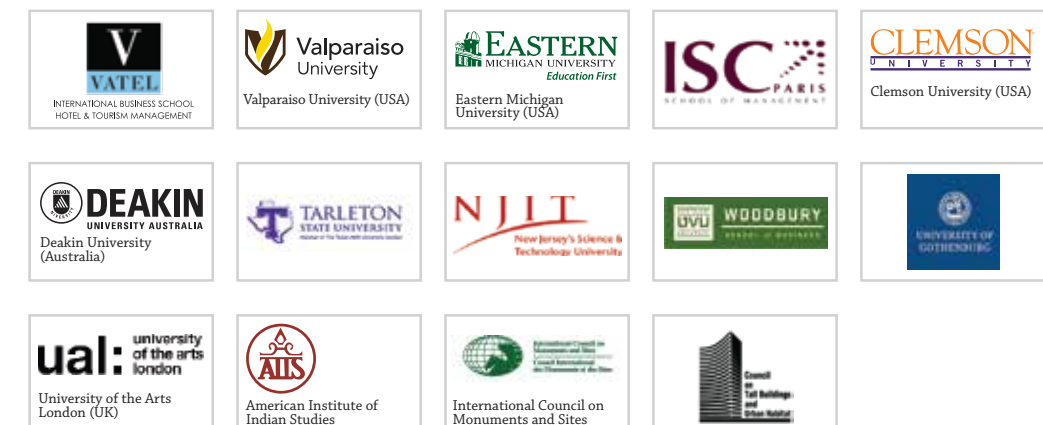

global education

Global Education is seen as a response to the challenges of the globalized world. The world is now an interlinked hub where the events and processes of one country affect other countries, all over the world. In fact, globalization has posed many new challenges and students want to widen their horizons to access knowledge and find opportunities, to learn to live with multi-culturalism and inter-cultural views.

The university has academic collaborations with several international institutions across the globe for student exchange, joint research and training, faculty exchange and educational tours.

Some of the Universities with whom the University has a collaboration are:

INTERNATIONAL COLLABORATIONS

Come and be a part of life at AU.
It will leave an inspiring and
positive impression on you,
preparing you for a future that's
bright and successful.

Every student finds their
dream stream, or a subject they
can do justice to.

In return, we will offer you
the best of faculty and
joyful experiences that
keep you ahead.

For Life.

AHEAD. FOR LIFE.

AHEAD. FOR LIFE.
